Preface

Since the G20 leaders met at their first summit in 2008 in Washington, the G20 Research Group at the University of Toronto and the Center for International Institutions Research of the Russian Presidential Academy of National Economy and Public Administration (RANEPA), and formerly with the International Organizations Research Institute at the National Research University Higher School of Economics (HSE), in Moscow have produced reports on their progress in implementing the priority commitments made at each summit. These reports monitor each G20 member's efforts to implement a carefully chosen selection of the many commitments produced at each summit. The reports are offered to the general public and to policy makers, academics, civil society, the media and interested citizens around the world in an effort to make the work of the G20 more transparent, accessible and effective, and to provide scientific data to enable the meaningful analysis of the causes of compliance, including those that leaders can change to improve compliance and the impact of this important informal international institution. Previous reports are available at the G20 Information Centre at <http://www.g20.utoronto.ca/analysis>.

The G20 Research Group has been working with Marina Larionova's team at RANEPA and previously at HSE since initiating this G20 compliance research in 2009, after the Washington Summit in November 2008. The initial report, covering only one commitment made at that summit, tested the compliance methodology developed by the G8 Research Group and adapted it to the G20.

To make its assessments, the G20 Research Group relies on publicly available information, documentation and media reports. To ensure accuracy, comprehensiveness and integrity, we encourage comments from stakeholders. Indeed, scores can be recalibrated if new material becomes available, as has happened with this edition, which is updated from the one released on 28 October 2021. All feedback remains anonymous. Responsibility for the contents of this report lies exclusively with the authors and analysts of the G20 Research Group.

Introduction and Summary

The G20 2020 Riyadh Final Compliance Report is prepared by the G20 Research Group based at the University of Toronto and its Russian partner at the Center for International Institutional Research of the Russian Presidential Academy of National Economy and Public Administration (RANEPA). The report analyzes compliance by G20 members with 20 priority commitments carefully selected from the total of 107 commitments made at the Riyadh Summit hosted by Saudi Arabia on 21–22 November 2020. This final report covers relevant actions taken by the G20 members between 23 November 2020 to 27 September 2021, which builds on the interim report that covered actions taken up to 22 May.

This version of the report, dated 10 November 2021, reflects updated information received after the version of 28 October 2021 was received. Scores have been recalibrated accordingly.

Methodology and Scoring System

This report draws on the methodology developed by the G7 Research Group, which has been monitoring G7/8 compliance since 1996. The International Organisations Research Institute at the Higher School of Economics joined this multi-year project in 2005, followed by RANEPA. The use of this methodology builds cross-institutional and cross-member consistency and also allows compatibility with compliance assessments of other institutions.

The methodology uses a scale from –1 to +1, where +1 indicates full compliance with the stated commitment, –1 indicates a failure to comply or action taken that is directly opposite to the stated instruments or goal of the commitment, and 0 indicates partial compliance or work in progress, such as initiatives that have been launched but are not yet near completion and whose full results can therefore not be assessed. Each member assessed receives a score of –1, 0 or +1 for each commitment. For convenience, the scores in the tables have been converted to percentages, where –1 equals 0 per cent and +1 equals 100 per cent.¹

A compliance score of –1 does not necessarily imply an unwillingness to comply on the part of G20 members. In some cases, policy actions can take multiple compliance cycles to implement and measure. As the G20 Research Group and RANEPA continue to monitor developments, progress made by members can be recorded in future compliance reports.

The Compliance Coding Manual that describes the methodology in detail is available on the G20 Information Centre website at <http://www.g20.utoronto.ca/analysis/index.html#method>.

Commitment Breakdown

The G20 made a total of 107 commitments at the Riyadh Summit.² These commitments, as identified by the G20 Research Group and RANEPA, are drawn from the official Riyadh Leaders' Declaration.

Selection of Commitments

For each compliance cycle (that is, the period between summits), the research team selects commitments that reflect the breadth of the G20 agenda and also reflect the priorities of the summit's host, while balancing the selection to allow for comparison with past and future summits, following the methodology developed by the G7 Research Group. The selection also replicates the breakdown of issue areas and the proportion of commitments in each one. Primary criteria for priority commitment selection are the comprehensiveness and relevance to the summit, the G20 and

¹ The formula to convert a score into a percentage is $P = 50 \times (S + 1)$, where P is the percentage and S is the score

² A commitment is defined as a discrete, specific, publicly expressed, collectively agreed statement of intent; a promise by summit members that they will undertake future action to move toward, meet or adjust to an identified target.

More details are contained in the Reference Manual for Summit Commitment and Compliance Coding).

the world, as well as individual and collective pledges. Selected commitments must also meet secondary criteria of performance measurability and ability to comply to some degree within a year, as well as the tertiary criterion of significance as identified by scientific teams and relevant stakeholders in the host country.

For the 2020 G20 Riyadh Summit Final Compliance Report, 20 priority commitments were selected for assessment by the University of Toronto and the RANEPa teams (see Table 1).

Final Compliance Scores

This assessment is based on relevant, publicly available information relating to actions taken from 23 November 2020 to 27 September 2021. The final compliance scores by commitment are contained in Table 2. Country rankings are listed in Table 3 and commitment rankings are listed in Table 4.

For the full compliance period, including all 20 commitments, G20 members achieved average compliance of +0.72 (86%).

Final Compliance by Member

For final compliance with the Riyadh Summit's priority commitments, Germany had the highest compliance at +1.00 (100%), followed Korea, the United Kingdom and the European Union at +0.95 (98%), Australia and France at +0.90 (95%). Host Saudi Arabia tied for 12th with Brazil at +0.65 (83%). India had the lowest compliance score at +0.35 (68%). The difference between the highest and lowest G20 member compliance scores is 0.65. All the scores by G20 members are listed in Table 3.

Final Compliance by Commitment

The tax commitment on base erosion and profit shifting achieved full compliance at +1.00 (100%). It was followed by the climate change commitment on the Paris Agreement at +0.95 (98%) and three commitments – on international taxation systems, capital markets and inclusive growth – at +0.90 (95%). The trade commitment on open markets had the lowest compliance at +0.12 (56%). All the scores by commitment are listed in Table 4.

Table 1: 2020 G20 Riyadh Summit Commitments Selected for Compliance Monitoring

| | | |
|----|-----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Macroeconomics: Inclusive Growth | “We will continue our efforts to reduce inequalities reaffirming our previous commitments to promote inclusive growth.” (G20 Riyadh Leaders’ Declaration) |
| 2 | Macroeconomics: Capital Markets | “We will strengthen long-term financial resilience and support growth, including through promoting sustainable capital flows and developing domestic capital markets.” (G20 Riyadh Leaders’ Declaration) |
| 3 | Trade: Investment | “We strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable, and stable trade and investment environment.” (G20 Riyadh Leaders’ Declaration) |
| 4 | Trade: Open Markets | “[We strive to]...keep our markets open.” (G20 Riyadh Leaders’ Declaration) |
| 5 | Digital Economy: Consumer Rights | “We support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.” (G20 Riyadh Leaders’ Declaration) |
| 6 | International Taxation: Tax Systems | “We will continue our cooperation for a globally fair, sustainable, and modern international tax system.” (G20 Riyadh Leaders’ Declaration) |
| 7 | International Taxation: BEPS | “We remain committed to further progress on both pillars and urge the G20/OECD Inclusive Framework on BEPS to address the remaining issues with a view to reaching a global and consensus-based solution by mid-2021.” (G20 Riyadh Leaders’ Declaration) |
| 8 | Crime and Corruption: Threats | “We reiterate our strong commitment to tackle all sources, techniques and channels of these threats.” (G20 Riyadh Leaders’ Declaration) |
| 9 | Labour and Employment: Job Protection | “We will continue to support workers through training and reskilling policies.” (G20 Riyadh Leaders’ Declaration) |
| 10 | Gender: Inequalities | “As many women have been disproportionately affected by the crisis, we will work to ensure that the pandemic does not widen gender inequalities and undermine the progress made in recent decades.” (G20 Riyadh Leaders’ Declaration) |
| 11 | Gender: Economic Participation and Entrepreneurship | “We will take steps to remove the barriers to women’s economic participation and entrepreneurship.” (G20 Riyadh Leaders’ Declaration) |
| 12 | Development: Debt Relief | “We are committed to implementing the Debt Service Suspension Initiative (DSSI) including its extension through June 2021, allowing DSSI-eligible countries to suspend official bilateral debt service payments.” (G20 Riyadh Leaders’ Declaration) |
| 13 | Development: COVID-19 | “We remain determined to support all developing and least developed countries as they face the intertwined health, economic, and social effects of COVID-19, recognizing the specific challenges in Africa and small island developing states.” (G20 Riyadh Leaders’ Declaration) |
| 14 | Health: Preparedness and Response | “We commit to advancing global pandemic preparedness, prevention, detection, and response.” (G20 Riyadh Leaders’ Declaration) |

| | | |
|----|-----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 15 | Health: Information Sharing | “[We reaffirm our commitment to] the continued sharing of timely, transparent, and standardized data and information [IHR].” (G20 Riyadh Leaders’ Declaration) |
| 16 | Health: Vaccine Distribution | “We will spare no effort to ensure their [vaccines] affordable and equitable access for all people, consistent with members’ commitments to incentivize innovation. In this regard, we fully support all collaborative efforts, especially the Access to COVID-19 Tools Accelerator (ACT-A) initiative and its COVAX facility, and the voluntary licensing of intellectual property.” (G20 Riyadh Leaders’ Declaration) |
| 17 | Energy: Fossil Fuels | “We reaffirm our joint commitment on medium term rationalization and phasing-out of inefficient fossil fuel subsidies that encourage wasteful consumption, while providing targeted support for the poorest.” (G20 Riyadh Leaders’ Declaration) |
| 18 | Environment: Marine Plastic Litter | “We reaffirm our commitment to reduce additional pollution by marine plastic litter, as articulated by the Osaka Blue Ocean Vision.” (G20 Riyadh Leaders’ Declaration) |
| 19 | Climate Change: Circular Carbon Economy | “We endorse the Circular Carbon Economy (CCE) Platform, with its 4Rs framework (Reduce, Reuse, Recycle and Remove), recognizing the key importance and ambition of reducing emissions, taking into account system efficiency and national circumstances.” (G20 Riyadh Leaders’ Declaration) |
| 20 | Climate Change: Paris Agreement | “Signatories to the Paris Agreement who confirmed at Osaka their determination to implement it, once again, reaffirm their commitment to its full implementation, reflecting common but differentiated responsibilities and respective capabilities, in the light of different national circumstances.” (G20 Environment Ministers Meeting) |

Conclusions

Many of the commitments assessed in this report have timelines that extend beyond the next summit or reflect medium- and long-term priorities. A unique feature of this report is the incorporation of deadlines for commitments monitored over multiple compliance cycles. The convergence of medium- and long-term commitments and those with deadlines in the near future reflects the nature of G20 decisions as a crisis management forum and a global governance steering institution. It also illustrates the multifaceted nature of compliance assessment. As the relationship among short, medium, and long-term commitments becomes clearer, the compliance landscape for many of these priority commitments may change over the course of future compliance periods.

Future Research and Reports

The information contained in this report provides G20 members and other stakeholders with an indication of their compliance in period immediately following the Riyadh Summit. This report has been produced as an invitation for others to provide additional or more complete information on compliance during the period under study. Feedback should be sent to g20@utoronto.ca.

Considerations and Limitations

Several elements affect the findings contained in this report. While the purpose of the report is to monitor compliance with G20 commitments, it is necessary to ensure that the monitoring mechanism is realistic and considers the context within which the commitments are made. With new commitments, more attention must be paid to the initial implementation constraints faced by members. One way to accommodate these constraints is to regard the intent to implement policy measures as an illustration of compliance or being “on track” towards compliance. This initial leeway should only be granted for new commitments; intent is not a suitable indicator of compliance for medium-term or longstanding commitments. Over time as commitments become integrated in the G20 compliance mechanism, compliance guidelines should become more stringent (as members become more accustomed to the nature of the issue and the requirements for compliance).

See also Appendix: General Considerations.

Appendix: General Considerations

In evaluating the results of this report, the following considerations should be kept in mind.

Assessments contained in this report apply to commitment-related actions taken by G20 members only since the commitments were declared publicly at the last summit.

Compliance has been assessed against a selected set of priority commitments, rather than all commitments contained in the summit documents. The selection is intended to produce a representative subset of the total body of commitments. An ideal set of priority commitments represents proportionally the amount of attention paid to each policy area in summit documents, reflects the relative ambition of summit commitments, and holds as many G20 members to account for compliance as possible.

In addition to producing commitments, summits provide value by establishing new principles and norms, creating and highlighting issues and issue areas and altering the traditional discourse used to discuss priorities. Some of the most important decisions reached at summits may be done in private and not encoded in the public record of the summit documents.

Some commitments cover several years and thus compliance takes longer than the summit-to-summit timeframe applied in this report. For this reason, full compliance (denoted by a +1 score) might not require that G20 members carry out a given commitment completely, but might instead demand clear, visible progress commensurate with the overall timetable as well as public statements of support of commitment objectives.

In some cases, a G20 member might choose not to comply with a particular summit commitment for good reason, for example if global conditions have changed dramatically since the commitment was made or if new knowledge has become available about how a particular problem can best be solved.

As each G20 member has its own constitutional, legal and institutional processes for undertaking action at the national level (and in the case of the European Union at the supranational level), each member is free to act according to its own legislative schedule. Of particular importance here is the annual schedule for creating budgets, seeking legislative approval and appropriating funds.

Commitments in G20 summit documents might also be included, in whole or in part, in documents released by other international forums, as the decisions of other international organizations or even national statements such as the State of the Union Address in the US, the Queen's Speech in the UK and the Speech from the Throne in Canada. Merely repeating a G20 commitment in another forum does not count fully as compliant behaviour.

This report assesses G20 members' action in accordance with the text of actual, specific commitments made in G20 summit documents. Because commitments demand that policymakers and regulators act specifically to meet the identified objectives, this report holds policymakers accountable for pushing and passing recommended policies. Furthermore, compliance is assessed against the precise, particular commitment, rather than what might be regarded as a necessary or appropriate action to solve the problem being addressed.

As individual members can often take different actions to comply with the same commitment, no standardized cross-national evaluative criterion produced by external parties can be universally applied. The interpretive guidelines attempt to provide a clear, consistent, equitable method for assessing compliance.

Because the evaluative scale used in this compliance report runs from -1 to +1, any score in the positive range represents at least some degree of compliance.

1. Macroeconomic Policy: Inclusive Growth

“We will continue our efforts to reduce inequalities reaffirming our previous commitments to promote inclusive growth.”

Background

Inclusive economic growth has been a major area of interest at G20 summits in recent years. In 2020, the COVID-19 pandemic brought into greater light the deep inequalities in economic growth and prospects among countries around the world. According to the World Bank, in 2020, the COVID-19 Pandemic is estimated to push 88 to 115 million people into extreme poverty (defined as living on less than USD1.90 daily), with that number potentially rising to 150 million by 2021.³ Even prior to the pandemic, the World Bank noted that “the rate of [poverty] reduction slowed to less than half a percentage point per year between 2015 and 2017.”⁴ Consequently, this commitment aims to highlight that promoting inclusive economic growth requires addressing systemic inequalities in the global economy that hinder the participation of all.

At the 2015 Antalya Summit, G20 leaders recognized that fostering inclusive growth requires the use of “all policy tools and strong engagement with stakeholders.”⁵ Additionally, they strived to ensure that growth is “robust,” “inclusive,” and “delivers more quality jobs.”⁶ According to the communiqué, rising inequalities negatively affect economies and “hinder our objective of lifting growth.”⁷ They affirmed that global trade and investment continue to be important for fuelling economic growth and development, generating employment and contributing to welfare and inclusive growth. They further affirmed their support for “policies that allow firms of all sizes, particularly SMEs [small and medium-sized enterprises], in countries at all levels of economic development to participate in and take full advantage of Global Value Chains and encourage greater participation and value addition by developing countries.”⁸

At the 2016 Hangzhou Summit, G20 leaders reiterated their commitment to advance “strong, balanced, sustainable, and inclusive growth” under the Hangzhou Consensus.⁹ This action plan focused on four key themes: vision, integration, openness and inclusiveness.¹⁰ Furthermore, leaders agreed that fiscal, monetary and structural policies were essential in achieving these goals and should be tailored to an individual country’s circumstances. Monetary policy was necessary to continue to support economic activity and ensure price stability, consistent with central banks’ mandates, whereas fiscal policy offers flexibility in making tax policy and public expenditure more growth-friendly.¹¹

At the 2017 Hamburg Summit, G20 leaders reaffirmed their responsibility of maintaining and fostering strong, sustainable, balanced and inclusive growth. Building on commitments made at the Hangzhou Summit, the G20 leaders promised to make significant progress in building resilience, improving sustainability and assuming responsibility.¹² Furthermore, they agreed that globalization’s benefits have not been shared with all countries equally and committed to enabling people to better “seize its opportunities.”¹³ Talks also focused on combating global issues of terrorism, poverty, climate change, energy security, stability, gender inequality and job creation.¹⁴

At the 2018 Buenos Aires Summit, G20 leaders committed to their previous year’s pledge of using all three policy tools to “achieve strong, sustainable, balanced and inclusive growth.”¹⁵ An additional focus on infrastructure growth as a criterion for inclusive growth was included; G20 leaders called

for more private investment in infrastructure to address the continuing financing gap.¹⁶ The Buenos Aires Action Plan highlights key areas where member's implemented policy measures have had success in promoting inclusive growth, including taxation, social security reform, financial regulation, labour market changes and health insurance.¹⁷

At the 2019 Osaka Summit, G20 leaders reaffirmed their commitment to using all policy tools to achieve “strong, sustainable, balanced and inclusive growth” and also mentioned the need to guard against negative consequences of policy measures by engaging in dialogue and building confidence.¹⁸ The G20 leaders also made a note of the importance of healthy current account statements, highlighting the increasing imbalances found in developed countries and stressed the need to calibrate economies and increase monitoring to prevent worsening.

Commitment Features

At the 2020 Riyadh Summit, leaders affirmed the need to promote greater Access to Opportunities as part of their focus on Ensuring an Inclusive Recovery that Tackles Inequalities.¹⁹ Thus, G20 leaders released the following commitment: “We will continue our efforts to reduce inequalities reaffirming our previous commitments to promote inclusive growth.”²⁰

“Continue our efforts” is understood to mean carrying on “commitments that are established and implemented. It should be interpreted to mean new actions will be added to the already existing ones.”²¹ “Reaffirm” is understood to mean “affirm again whereby affirm is to assert strongly, state as fact, confirm or ratify.”²²

“Reduce inequalities” in this context refers to the Sustainable Development Goals (SDGs), specifically SDG 10 first outlined in the United Nations’ 2030 Agenda for Sustainable Development in 2015, to which G20 leaders remained “resolved to play a leading role in contributing to [its] timely implementation.”²³ Specifically, SDG 10 consists of several related macroeconomic targets that read as follows:

- By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average;
- By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status;

- Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard;
- Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality;
- Improve the regulation and monitoring of global financial markets and institutions and strengthen the implementation of such regulations;
- Ensure enhanced representation and voice for developing countries in decision-making in global international economic and financial institutions in order to deliver more effective, credible, accountable and legitimate institutions;
- Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World Trade Organization agreements;
- Encourage official development assistance and financial flows, including foreign direct investment, to States where the need is greatest, in particular, least developed countries, African countries, small island developing States and landlocked developing countries, in accordance with their national plans and programs;
- By 2030, reduce to less than 3 per cent the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5 per cent.²⁴

“Previous commitments,” in this context, refers to declarations and initiatives put forward by G20 leaders at past summit meetings, which have been outlined above. Particular commitments to note include the G20 leaders at the 2018 Buenos Aires Summit commitment to using the “policy tools” produced by the Organisation of Economic Co-operation and Development (OECD), namely Investing in People and Places, Supporting Businesses and Inclusive Labour Markets and Building Resilient and Responsive Institutions to achieve growth.²⁵ Another key commitment was in the G20 Osaka Leaders’ Declaration which further reaffirmed that safeguarding against downside risks through enhancing confidence and promoting supportive fiscal and monetary policy.²⁶

“Inclusive growth” is defined by the OECD as “economic growth that is distributed fairly across society and creates opportunities for all.”²⁷ This interpretation of the term is further bolstered by the United Nations Development Programme, which views inclusive growth as “consisting of both participation and benefit-sharing, where everyone can participate in the growth process and can equally share [its] benefits.”²⁸

This commitment is divided into four key areas of action: increased access to opportunities for youth, increased access to opportunities for women, increased access to opportunities for SMEs and

entrepreneurs, and the upskilling and reskilling of workers. These areas of reform have been published in an OECD report entitled *Enhancing Equal Access to Opportunities for All in G20 Countries*, calling for G20 members' to better enhance equal access to opportunities for all. Incorporating phenomena including globalization, digitalization, demographics, climate change, as well as the impact of COVID-19, this report was endorsed by the G20 Riyadh Leaders' Declaration, highlighting the importance of greater access to opportunities and affirming their commitment to "ensuring an inclusive recovery that tackles inequalities."²⁹

Increased Access to Opportunities for Youth

The first area of reform arises from the acknowledgement that "effective employment and social support can help young people to successfully transition from the educational system to the labour market."³⁰ Youth from disadvantaged backgrounds perform worse than advantaged students due to their comparatively adverse environments according to the OECD's Programme for International Student Assessment.³¹ Furthermore, the OECD estimates that approximately 19 per cent of 15- to 29-year-olds are classified as not in employment, education or training (NEET) across G20 economies, the number potentially greater following the onset of COVID-19.³²

There are a number of actions that G20 members can take in order to address this area of reform, which include but are not limited to: improving access to early childhood education and care, the reduction of child poverty through social policy, promoting high-quality vocational education and training, and providing adequate employment and social support for NEET youth.³³ These actions are predominantly domestic in scope, however, any international or overseas development assistance provided by G20 members specifically towards increasing access to opportunities for youth can be included in compliance.

Increased Opportunities for Women

The OECD recognized that "across G20 economies, women still do not have the same labour market opportunities as men," noting that COVID-19 "risks having a greater impact on women."³⁴ While G20 economies have been recognized for "significant progress towards...reducing the gender

gap in labour force participation by 25 per cent by 2025,³⁵ gaps in job quality and earnings still remain,³⁶ which are expected to widen throughout the pandemic.

There are a number of actions that G20 members can take in order to address this area of reform, which include but are not limited to: supporting the unpaid care burden of children through incentivizing paternity care leave, ensuring access to maternity care leave and greater access to formal childcare, addressing systemic gender occupational inequalities particularly in science, technology, engineering and math, the implementation of budgeting that sufficiently consider and provide an effective framework to ensure gender equality, and conducting greater research on existing gaps in the labour market.³⁷ While these actions are predominantly domestic in scope, any international or overseas development assistance provided by G20 members specifically towards increasing access to opportunities for women can be included in compliance.

Increased Opportunities for SMEs and Entrepreneurs

Enterprises are defined by the OECD as “legal entities possessing the right to conduct business on their own.”³⁸ While the size varies from country to country, the OECD states that any enterprise consisting of fewer than 250 employees is considered a small and medium enterprise.³⁹ While barriers for SMEs and entrepreneurs have declined over the years, it has been recognized that “informal workers have fewer opportunities to invest in their skills and build a career,”⁴⁰ particularly women and youth. Furthermore, the OECD notes that SMEs and entrepreneurs in G20 member states have experienced added burdens of declining revenue, liquidity shortages and limited access to social protection measures through the COVID-19 pandemic.⁴¹

There are a number of actions that G20 members can take in order to address this area of reform, which include but are not limited to: promoting a business environment that encourages a level playing field for SMEs, supporting greater access to financing for SMEs as well as entrepreneurship particularly for women and youth, encouraging effective labour market regulation, and promoting greater research on the “extent of informal-sector activities.”⁴²

Upskilling and Reskilling of Workers

The OECD has recognized that “new technologies have been replacing workers in many middle-skill routine occupations while resting new jobs at both the high and low ends of the skills spectrum.”⁴³ The automation of several sectors in the economy and “mismatch in skills” leading to under-qualification in certain occupations and over-qualification in others in G20 economies have changed the nature of labour markets worldwide.⁴⁴ In particular, COVID-19 has accelerated digitalization processes and rapidly shifted labour demand across sectors, in turn inducing redundancies in workers’ skills.⁴⁵

There are a number of actions that G20 members can take in order to address this area of reform, which include but are not limited to the reduction of financial barriers for adult learning, more individualized, worker-centric training, creating training programmes that address the demand for job-specific skills, improving the certification of these programs, and offering sufficient support for unemployed workers.⁴⁶

The G20 member will be found in full compliance if it takes strong action in all four areas of the commitment with an eye to promoting inclusive growth, or it takes strong action in two or three areas and some action in the other two areas. Partial compliance includes taking strong action in one or two areas and some action in three areas, or some action in all four areas. Anything less than this, or less than 50 per cent of the commitment, counts as a –1 for non-compliance.

Examples of partial action include verbal reaffirmations, assigned follow-up, attendance at meetings or inclusion in institutions but no evidence of active participation in such meetings. Strong action for full compliance can include allocation of money or personnel, promotion of a program, changes in regulation and legislation, cabinet reconfigurations or enforcement through policy or judicial action that addresses the relevant areas of reform above, information sharing or the sponsoring, signing or ratification of a commitment-related international treaty, joining and financing an international organization, provision of financial support directly or through international institutions, or international policy actions that address relevant areas of reform, etc.

Scoring Guidelines

| | |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| -1 | The G20 member takes action in zero OR one area of increasing access to opportunities for youth, women, small and medium-sized enterprises (SMEs) and entrepreneurs, and upskilling and reskilling of workers. |
| 0 | The G20 member takes strong action in two OR three areas of increasing access to opportunities for youth, women, SMEs and entrepreneurs, and upskilling and reskilling of workers, or some action in all areas. |
| +1 | The G20 member takes strong action in all four areas of increasing access to opportunities for youth, women, SMEs and entrepreneurs, and upskilling and reskilling of workers, or strong action in three areas and some action in one. |

*Compliance Director: Malbaar Mobarir
Lead Analyst: Srijan Sabu*

Argentina: +1

Argentina has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 1 December 2020, the Ministry of Productive Development announced a ARS300 million initiative to create and strengthen small and medium-sized enterprises (SMEs) university centres, to “provide technical assistance to small and medium-sized enterprises in the country.”⁴⁷ Part of the Program for Competitiveness of Regional Economies, the initiative hopes to “enhance competitiveness and promote the export capacity of [micro, small and medium-sized enterprises (MSMEs)] and value chains” through financing “training, equipment and technical assistance.”⁴⁸

On 2 December 2020, the Ministry of Social Development announced 370 award winners of the Empower Youth Competition.⁴⁹ With over 8,000 registered participants, the project was “aimed at unemployed people between 18 and 29 years old, with experience in the areas of carpentry, gastronomy, rubber, gardening, hairdressing, textiles or design in audiovisual communication so that they can obtain machinery and tools for launch or strengthen their ventures.”⁵⁰

On 3 December 2020, Chief of Staff of the Ministry of Economy Melina Mallamace and the National Director of Economy, Equality and Gender Mercedes D’Alessandro participated in a meeting of the Federal Bureau of Economic Policies with a Gender Perspective.⁵¹ The discussion pertained to the impact of COVID-19 on female employment in Argentina, noting that the crisis has

disproportionately impacted women in the tourism, healthcare and textile sectors.⁵² The participants outlined several plans including “developing a map of productive development with a gender perspective,” encouraging more women to participate in the digitalized industries and technology sectors, increasing the number of female employees in the civil service and continuing gender-sensitive budgets, all to be implemented in 2021.^{53,54}

On 10 December 2020, the Ministry of Productive Development opened lines of credits amounting to ARS3.5 billion for MSMEs to “develop national productive investment projects,” with a maximum of ARS15 million per project.⁵⁵ The Direct Loans for Productive Reactivation program aims to promote the “financial inclusion of micro and small companies and cooperatives that have difficulties accessing bank financing.”⁵⁶

On 11 December 2020, Secretary of Economic Policy Haroldo Montagu met with representatives the Association of National Entrepreneurs for National Development to discuss the challenges SMEs are facing during the pandemic.⁵⁷ The representatives highlighted the support SMEs had received throughout the pandemic including the Solidarity Law for Social and Productive Reactivation and the Work and Production Assistance Programs, but recommended that SMEs and entrepreneurs earn greater participation in political affairs.⁵⁸

On 13 January 2021, Minister of Social Development Daniel Arroyo and President of the Argentine Foundation for the Promotion of Investments and International Trade Juan Unsandivaras signed an agreement to work on “linking entrepreneurs of the social economy with the [external] market” by developing regional agendas for exports, establishing training and advisory bodies and facilitating contact with foreign investors “to generate opportunities for entrepreneurs in the social economy.”⁵⁹

On 23 January 2021, Executive Decree No. 39/2021 was made public which states that there would be an extension for 90 calendar days on the ban against dismissals without just cause and dismissals

Steering Committee to discuss the impact of COVID-19 on the economic autonomy of women.⁸¹ The meeting focused on two key aspects: increasing labour market participation through equal distribution of unpaid care and improving financial education for women.⁸²

On 23 April 2021, Minister Trotta signed an agreement with the General Confederation of Labor of the Argentine Republic to develop education and work programs within the framework for the National Program of Education for Work and Sustainable Development.⁸³ In particular, the programs seek to emphasize Vocational Training in conjunction with the national university system and using technological equipment and development to adapt to the modern economy.⁸⁴

On 10 May 2021, Chief of Staff Santiago Cafiero and Minister of Productive Development Matías Kulfas hosted the First Meeting for Productive Reactivation.⁸⁵ During this meeting, the government announced additional funding for SMEs. The Bank of the Argentine Nation will be offering a line of credit specifically to support the digital transformation of SMEs.⁸⁶ These businesses can request loans of ARS3 million to ARS30 million at a subsidized, fixed interest rate.⁸⁷ This move will help Argentinian SMEs be more active and competitive in the online space.

On 16 May 2021, the Programa PyMEs en Gondolas was launched to promote the commercialization of family farming and MSMEs in supermarket chains.⁸⁸ The program involves connecting businesses with professionals in the food industry, providing ARS1.5 billion for bolstering production capacity as well as ARS1.7 billion to be provide direct financing.⁸⁹ Under the Gondolas Law established by the Ministry of Internal Trade, the program aims provide businesses

Argentina has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and entrepreneurs, and upskilling and reskilling of workers. Through numerous budgetary and regulatory initiatives aimed at increasing access to these groups to the labour market, facilitating training programs and subsidizing local businesses, Argentina has fully complied with its commitments towards reducing inequalities and promoting inclusive growth.

Thus, Argentina receives a score of +1.

Analysts: Simran Arulraj, Tammy Cheng and Malhaar Moharir

Australia: +1

Australia has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 25 November 2020, Australia announced three new skills project hubs for the mining sector in order to facilitate better delivery of training and quicker assessment.¹⁰⁰ These three hubs include an apprenticeships hub, digital transformation hub, and attraction and retention hub, all designed to modernize training and promote rewarding careers for workers.¹⁰¹ Minister for Employment, Skills, Small and Family Business Michaelia Cash said the pilot would help new and existing workers to upskill and reskill.¹⁰²

On 1 December 2020, Australia announced the Career Revive pilot initiative aimed at increasing women's workforce participation by encouraging businesses to attract and retain women workers, particularly in light of COVID-19.¹⁰³ The project is intended to provide businesses guidance on how to improve practices and policies and develop an action plan to address barriers to women's employment.¹⁰⁴

On 7 December 2020, Australia launched the Women in Science, Technology, Engineering, and Mathematics (STEM) Program.¹⁰⁵ The AUD24.8 million program offers women the opportunity to study a diploma in STEM subjects while providing paid employment.¹⁰⁶

On 8 December 2020, Australia launched the JobMaker Hiring Credit.¹⁰⁷ The scheme provides eligible employers with payments of up to AUD200 a week for each eligible employee aged 16 to 29 years and up to AUD100 a week for each eligible employee aged 30 to 35 years old.¹⁰⁸

On 16 December 2020, Australia announced AUD11.6 million of assistance to extend the Skills and Training Incentive for eligible mature aged workers until June 2022.¹⁰⁹ The Skills and Training Incentive provides workers aged 45 to 70 years with up to AUD2,200 for job training and is designed to increase the labour force participation of mature workers, particularly those adversely affected by COVID-19.¹¹⁰

On 18 December 2020, Australia provided AUD10 million to establish a panel involving a “wide range of industries” dedicated to improving youth employment as well as assist hundreds of thousands of businesses in supplying jobs.¹¹¹

On 23 December 2020, Australia announced the hiring of 9 new Employment Facilitators in various Employment Regions across Australia tasked with helping job seekers find employment while supporting local employers.¹¹² As part of the Government’s AUD62.8 million Local Jobs Program, Employment Facilitators will “ensure better leverage of existing strategies, as well as [serve as] a valuable source of information on labour market developments.”¹¹³

On 3 March 2021, Australia held an Indigenous Youth Employment roundtable to discuss local solutions to improve employment participation and outcomes for Indigenous youth. Assistant Minister for Youth and Employment Services Luke Howarth said the government would invest in “programs to improve the employability of both young people and Indigenous Australians” in order to reduce the 13.9 per cent national youth unemployment rate.¹¹⁴

On 8 March 2021, Australia expanded the Women in STEM program from 500 to 600 places due to its popularity.¹¹⁵

Australia has taken strong action in all four areas of increasing access to opportunities for women, increasing access to opportunities for youth, increasing access to opportunities for SMEs and entrepreneurs, and upskilling and reskilling of workers. Through its establishment of numerous training programs designed for workplace inclusion, particularly among youth, strong financial aid for women and businesses negatively affected by the COVID-19 pandemic and greater encouragement of women's participation in the labour market, Australia has fully complied with its commitments to reducing inequalities and promoting inclusive growth.

Thus, Australia receives a score of +1.

Analyst: Para Babuwaran

Brazil: +1

Brazil has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 11 December 2020, the Ministry of Women, Family and Human Rights (MMFDH) invested more than BRL18 million to advance the Qualifica Mulher project.¹²⁷ Noting that over 7 million women left the job market due to COVID-19, the initiative plans to promote “economic autonomy, in addition to stimulating professional qualification, work and entrepreneurship ...[and] the generation of jobs and income.”¹²⁸ The project aims to provide professional guidance, financial education and entrepreneurship workshops to boost the role of women in the Brazilian economy.¹²⁹

On 19 January 2021, the MMFDH allocated BRL1 million “for the qualification 100 young people [with Autistic Spectrum Disorder] between the ages of 18 and 29.”¹³⁰ Representative of the National Youth Secretariat Emilly Coelho noted that “We need to ensure that youth can also occupy their space professionally, with training and opportunities focused on autonomy.”¹³¹

On 2 March 2021, the World Economic Forum and the Secretariat of Productivity, Employment and Competitiveness of the Government of Brazil and the Economy Ministry held the first Brazil Skills Accelerator Initiative co-chair meeting. The Accelerator aims to close the skills gaps between the current and future workforce and promote the reskilling and upskilling of the Brazilian labour force by matching the more demanded capabilities. It targets to reach about 8 million workers.¹³²

On 8 March 2021, the Minister of Women Family and Human Rights Damares Alves and the Minister of Citizenship João Roma signed a technical cooperation agreement “to promote social and productive inclusion actions for the socioeconomic autonomy of women in vulnerable situations.”¹³³ Particular attention is given to women-led businesses and microentrepreneurs and the agreement reaffirmed support for the Qualifica Mulher pilot project, which over 25,000 women have joined.

On 30 March 2021, the MMFDH allocated approximately BRL11 million towards programs for encouraging “professional education, entrepreneurship and innovation, among young people between 18 and 29 years old, especially among those who are in a situation of social vulnerability.” The Programa Horizontes will provide training to youth for better job market integration as well as spurring nano and micro entrepreneurship among them.¹³⁴ The Espaço 4.0 program is aimed at training youth in new technologies and infrastructure, offering courses in programming, robotics, and application development.¹³⁵

On 19 April 2021, the Ministry of Economy reported that it is in the process of finalizing the reopening of two programs that could mitigate the effects of the pandemic on employment and preservation of small and medium-sized enterprises (SMEs).¹³⁶ Also, it announced that BRL15 billion would be distributed among the BEm and Pronampe programs to support employment and SME survival.¹³⁷

On 19 April 2021, the MMFDH transferred BRL500,000 to Humana Brasil, a non-profit organization.¹³⁸ The funds are to be used towards dispelling entrepreneurship training courses to the young people from Marajó.¹³⁹ It is estimated that around 500 young people between the ages of 15 and 29 from 11 municipalities will benefit from this endeavor.¹⁴⁰ The secretary for the National Youth Secretariat which will carry out the initiative said, “In addition to fostering entrepreneurship and innovation, the program aims to increase the qualification of young people to create and

maintain their own businesses, create job opportunities and generate income, in addition to improving existing initiatives through guidance specialized.¹⁴¹

On 30 June 2021, the Chamber of Deputies launched the National Observatory of Women in Politics (ONMP).¹⁴² The goal of the ONMP is to develop, elaborate and present research related to the participation of women in positions of power. The agency is also responsible for monitoring political violence and expanding the participation of women in politics.¹⁴³

On 1 July 2021, the MMFDH announced a notice to select a civil society organization to lead the Opportunity for All Project.¹⁴⁴ The project aims to increase entrepreneurship among traditional peoples and communities. The National Secretariat for Policies for the Promotion of Racial Equality will develop training courses in entrepreneurship and cooperativism to educate a target of 200 people per municipality in Atalaia no Norte, Itamarati, Ipixuna and Santa Isabel do Rio Negro, as well as 200 people in Jordan, Acre.¹⁴⁵

On 7 July 2021, the MMFDH invested BRL19 million in the Qualifica Mulher project for training and entrepreneurship activities.¹⁴⁶ The goal of the project is to create an environment to help women achieve economic independence. The project assists women with professional qualifications, maternity initiatives, protecting against violence and new legislation.¹⁴⁷

On 13 July 2021, the MMFDH commemorated the 31st anniversary of the Statute of Children and Adolescents.¹⁴⁸ The Federal Government introduced 11 new actions to strengthen the legislation. These actions included the launch of the National Registration System for Rights Funds and new National School for the Rights of Children and Adolescents courses, the signing of the Protocol of

On 2 September 2021, the MCTI launched the “MCTI Futuro: Future of Work, Work of the Future” program. The goal of the program is to support training in Digital Transformation across various education levels. The program will utilize BRL190 million to achieve its objective.¹⁶⁸

Brazil has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, upskilling and reskilling of workers and increasing opportunities for SMEs. Through its investments in increasing women’s participation in the labour market, subsidization and inclusion of SMEs and entrepreneurs in the Brazilian economy, facilitating training programs involving new technologies and digitalization for youth and labourers, Brazil has fully complied with its commitments to reducing inequalities and promoting inclusive growth.

Thus, Brazil receives a score of +1.

Analysts: Simran Arulraj, Rebecca Jones and Malhaar Moharir

Canada: +1

Canada has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 25 November 2020, Canada participated in a roundtable for the launch of the Organisation for Economic Co-operation and Development (OECD) Centre on Well-being, Inclusion, Sustainability and Equal Opportunity (WISE).¹⁶⁹ WISE’s mission includes strengthening the measurement of inequalities and inclusion.¹⁷⁰

On 2 December 2020, Canada introduced Bill C-14 to provide support to Canadians and businesses during the pandemic.¹⁷¹ The legislation will allow an expense, such as rent, to qualify under the Canada Emergency Rent Subsidy before the expense is actually paid.¹⁷² Bill C-14 also included measures to eliminate the interest on repayment of the federal portion of the Canada Student Loans and Canada Apprentice Loans for one year.¹⁷³

¹⁸³ Providing women with the skills and opportunities needed to build a stronger Canada, Employment and Social Development Canada (Gatineau) 8 March 2021. Access Date: 1 May 2021. <https://www.canada.ca/en/employment-social-development/news/2021/03/providing-women-with-the-skills-and-opportunities-needed-to-build-a-stronger-canada.html>

On 19 April 2021, Deputy Prime Minister and Minister of Finance Chrystia Freeland released the 2021 budget of CAD101.4 billion in spending over three years.¹⁸⁵ The budget will support almost 500,000 new training and work opportunities including 215,000 opportunities for youth.¹⁸⁶ The budget will extend the Canada Emergency Wage Subsidy, the Canada Emergency Rent Subsidy and Lockdown Support to 25 September 2021 amid the COVID-19 pandemic.¹⁸⁷ The budget will assist over 160,000 businesses with the cost of new technology and allow them to fully expense up to CAD1.5 million in capital investments.¹⁸⁸ The budget will invest CAD300 million in initiatives including the Women Entrepreneurship Strategy, supporting women entrepreneurs who face barriers to launching and owning businesses.¹⁸⁹ The budget will invest CAD8.9 billion in the Canada Workers Benefit to support about one million additional low-wage workers over six years.¹⁹⁰

On 18 May 2021, the Government of Canada launched Skills for Success, a skills training program that aims to provide training to nearly 90,000 Canadians to learn job-finding and career growth skills.¹⁹¹

On 2 June 2021, the Government of Canada launched the Women's Employment Readiness Pilot Program.¹⁹² Under the program, CAD50 million will be provided to organizations over two years to provide pre-employment and training supports to marginalized women.¹⁹³

On 2 June 2021, the Government of Canada announced that the Canada Recovery Hiring Program would be available retroactively 6 June 2021.¹⁹⁴ The program will provide eligible employers with a subsidy of up to 50 per cent of eligible salary or wages.¹⁹⁵

On 7 July 2021, the Government of Canada announced that it will begin enforcing the Pay Equity Act on 31 August 2021.¹⁹⁶ Under the Pay Equity Act, employers with 10 or more employees will have three years to develop and implement plans that establish guidelines and regulations for regulating pay equity.¹⁹⁷

On 29 July 2021, the Government of Canada announced a CAD2.4 million investment in a project funded under the Union Training and Innovation Program.¹⁹⁸ The project will help almost 2,300 apprentices become certified in the skilled trades.¹⁹⁹

Canada has taken strong action in the areas of increasing access to opportunities for youth, increasing access to opportunities for women and upskilling and reskilling of workers, and partial action in the area of increasing access to opportunities for small and medium-sized enterprises (SMEs) and entrepreneurs. Through new budgetary measures that incorporate greater financial opportunities for women and youth, increasing access to the labour market for women and youth, improving vocational skills for new and discouraged workers through new training programs, and somewhat greater facilitation of SMEs and entrepreneurs through innovation funding, Canada has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, Canada receives a score of +1.

Analyst: Para Babubaran

China: +1

China has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 3 December 2020, Vice Minister of Education and Chief Inspector of Schools Zheng Fuzhi and Vice Governor of Sichuan Province Luo Qiang attended a conference to launch a national supervision and assessment of early childhood education across China.²⁰⁰ Vice Minister Fuzhi

²⁰⁰ Conference to launch national supervision and assessment of universal county-level preschool education held in Chengdu, Ministry of Education (Beijing) 7 December 2020. Access Date: 27 March 2021. http://en.moe.gov.cn/news/press_releases/202012/t20201222_506980.html

presented key goals and its corresponding evaluation criteria, including universal preschool attendance, standardizing school conditions and establishing a sound governance system.²⁰¹

On 18 December 2020, Vice Minister of Human Resources and Social Security Tang Tao reaffirmed the government's commitment to nurturing skilled labour.²⁰² In addition to the existing three-year plan released in May 2019, the department plans to introduce new policies in the 14th Five-Year Plan to foster more skilled talent through enhancing vocational education, enhancing the social status of skilled labourers, and improving their income.²⁰³

On 22 December 2020, the State Council announced plans to unify China's registration system for movable property and rights pledges, effective 1 January 2021.²⁰⁴ This move by the People's Bank of China allows financial institutions to provide loans for small and medium-sized enterprises (SMEs) using their credit information.²⁰⁵ As a result, SMEs now have better access to financing to help offset the effect of the COVID-19 pandemic.

On 3 February 2021, the Ministry of Finance announced that the central government will spend over CNY19 billion from 2021 to 2025 to support the growth of 1000 innovative SMEs.²⁰⁶ The additional spending aims to strengthen the industrial supply chain and foster innovative growth in micro, small and medium-sized technology companies.

On 11 March 2021, Premier Li Keqiang stated at a press conference that government expenditures for the coming year will focus on compulsory education and basic medical care.²⁰⁷ The "no child left behind" policy will involve improving the pay packages for rural teachers as well as improving access to education for children of migrant workers to achieve educational fairness and equal access to opportunities.

On 17 March 2021, People's Daily released a summary of the Chinese Ministry of Education's progress in promoting access to education among poor children. The government has rolled out student-origin-based loans, state scholarships, work-study programs, tuition exemptions and other types of relief funds to increase access to higher education in poor areas.²⁰⁸ The government is also offering preferential policies for vocational college enrollment in poor areas such that enrollment numbers have grown from 1.16 million in 2019 to 1.57 million in 2020.²⁰⁹

On 24 March 2021, the State Council announced an additional tax deduction on firms who conduct research and development from 75 per cent to 100 per cent.²¹⁰ Additional preferential tax policies are also in place for innovation firms and business start-ups.²¹¹ These policies will benefit entrepreneurs with innovative ideas and encourage research and development in the private sector.

On 25 April 2021, China's banking and insurance regulator issued a circular encouraging development of financial services offered to SMEs.²¹² According to the circular, efforts will be made to enhance the effective growth of financial support and improve its quality, efficiency and effectiveness.²¹³ In essence the circular promised to increase the number of loans to SMEs and borrowers and urged the major banks to increase inclusive loans by 30 per cent.²¹⁴

On 26 April 2021, the Ministry of Human Resources and Social Security announced the launch of four measures to stabilize jobs and ensure employment.²¹⁵ These measures are in response to the concentration of the job market for young college graduates who are about to enter the workforce.²¹⁶ The first of these measures involves stabilizing jobs, reducing unemployment and work-related injury insurance rates.²¹⁷ The second includes attempts to broaden employment channels, improve support policies such as entrepreneurial secured loans, support and standardize the development of new employment forms.²¹⁸ The third and fourth measures are to focus on employment of key groups such as college graduates and optimizing employment services.²¹⁹

On 27 April 2021, Premier Keqiang announced at the State Council executive meeting that China will take steps to further protect intellectual property to promote entrepreneurial activity and boost innovation in the private sector.²²⁰ China will reduce the review period for electronically submitted

On 21 July 2021, the State Council and the Communist Party of China Central Committee released a set of guidelines to regulate the primary and middle school tutoring industry.²³¹ Some policies introduced include limiting the hours of operation of tutoring centres, the content taught and the number of tutoring advertisements.²³² These rules aim to reduce stress experienced by schoolchildren and the intense competition they face in preparing for high school entrance exams.

On 24 July 2021, the National Health Commission announced the decision to allow couples to have three children.²³³ Accompanying this decision were measures to improve child nursery services, reduce childbearing costs and advance prenatal and postnatal services.²³⁴ These policies not only support children's growth but enable parents—particularly mothers—in retaining and accessing economic opportunities through the childrearing process.

On 30 August 2021, Deputy Secretary-General of the National Development and Reform Commission Gao Gao held a press conference following up on the 14th Five Year Plan's goal of increasing employment and the quality of the job market.²³⁵ Notably, the commission aims to upskill and increase employment of young workers in urban areas by encouraging regional institutions to offer trainings and workshops.²³⁶

On 1 September 2021, the State Council announced a series of policy moves designed to support small and micro businesses.²³⁷ Some of the policy tools include tax exemption and inclusive loans for these businesses. The latter will be achieved by increasing the relending quota for small firms by another RMB300 billion and giving regional banks more incentive to issue loans to SMEs.²³⁸

On 1 September 2021, State Council executives also met to discuss support for poor students.²³⁹ The outcome was an increase in bail out for students in financial distress by increasing the maximum loan that college students are eligible to receive.²⁴⁰ This move is important for facilitating greater access to education for all youth.

China has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and entrepreneurs, and upskilling and reskilling of workers. Through establishing working groups for juvenile protection and via education reforms, anti-women's discrimination laws, preferential tax and loan policies for SMEs and training and development programs for workers in rural regions, China has fully complied with its commitments to reduce inequalities and promote inclusive growth.

France: +1

France has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 14 January 2021, Minister of the Economy Bruno Le Maire announced the implementation of increased measures to support small and medium enterprises (SMEs) through a new budgetary initiative valued at EUR4 billion.²⁴¹ Moreover, companies will be able to delay the repayment of loans from this initiative if they do not have sufficient means a year after the loan was given.²⁴²

On 15 January 2021, the members of the French Banking Federation BpiFrance created the State Guaranteed Loan system to relieve the cashflow of enterprises in difficulty because of the COVID19 pandemic.²⁴³

On 25 January 2021, France put into place accessible meals for students for the price of EUR1 as part of the plan to aid with the poverty of youths caused by the COVID-19 pandemic.²⁴⁴ Due to the lack of jobs, the government has provided this meal plan to support students who are in difficult situations and seeking employment.²⁴⁵ This measure is a new addition to the larger plan one youth one solution from the previous year, a EUR9 billion initiative, and which is designed to financially support young people in a time of economic instability caused by the global pandemic, thus preventing the growth of financial disparity with youths.²⁴⁶

On 1 March 2021, the Ministry of the Economy required that all companies with more than 50 employees submit a professional equality index report to evaluate and reinforce the equality of men and women in the workplace.²⁴⁷ The report allows companies to assess the level of equality between men and women on a scale of 100 points.²⁴⁸ The points system includes recording the pay gap, the difference between men and women's pay raises, the number of pay raises awarded after maternity leave, parity among the 10 highest paid and the promotion rate difference between men and

On 2 June 2021, the Ministry of the Economy announced the continuation of support for SMEs by extending how long small companies will be able to receive financial aid.²⁵⁸ The extension will last until the end of 2021. Moreover, small and medium enterprises will also be able to apply for loans until the end of the year as well on account of having been significantly weakened by the pandemic.²⁵⁹

On 19 July 2021, the Ministry of Labour announced that the Public Service of Insertion and of Employment announced a plan to fight against poverty by calling for people to seek out support to look for employment.²⁶⁰ The first initiative in December 2020 was a success, so another initiative will take place to fight against poverty and unemployment.²⁶¹

On 2 September 2021, the Ministry of Labour, Employment and Economic Inclusion announced that the High Commission for Skills would launch another wave of applications for “pre-apprenticeship” programs, aimed at enabling “young people who are insufficiently prepared today to successfully enter apprenticeship thanks to personalized support.”²⁶² Additionally, the program serves to specifically target youth in “priority” neighbourhoods, those in rural revitalization zones and disabled workers.²⁶³

On 9 September 2021, the Ministry of National Education, Youth and Sports announced new investments to open a public market providing “digital educational solutions” for teachers.²⁶⁴ The 4th Future Investments Program is designed to “revitalize and structure the digital-educational sector”, working with parents and teachers to provide digital equipment and pedagogical training through and on digital fora. The program is to be conducted in conjunction with the Ministry of the Economy, Finance and Recovery and the Ministry of Agriculture and Food.”²⁶⁵

On 9 September 2021, the Ministry of Labour announced that over 15,000 job offers had been posted online for the beginning of the school year as part of the “1 jeune, 1 solution” program

launched in July 2020.²⁶⁶ Noting that over 2.6 million youth had already signed up for the program, the platform seeks to match youth with labour demand in industries such as childcare, domestic help, entertainment, hotels and restaurants, retail and more.

On 22 September 2021, Secretary of State to the Minister of National Education, Youth and Sports Sarah El Haïry attended the Think Forward Festival to raise awareness of entrepreneurship activities for youth, bringing together around 600 policymakers.²⁶⁷ The festival consisted of presentations and discussions with youth about their entrepreneurship potential as well as discussions concerning shifts in global economic prospects and their impacts on adolescents.²⁶⁸

France has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for small and medium-sized enterprises (SMEs) and entrepreneurs and upskilling and reskilling of workers. Through creating budgets for internships and apprenticeships, a particular focus having been placed on economic inclusivity through the one youth solution plan, budgetary changes to support SMEs and entrepreneurs, and holding companies accountable for gender wage gaps and other disparities along with greater financial support for women and youth, France has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, France receives a score of +1.

Analyst: Dalia Michaud

Germany: +1

Germany has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 21 December 2020, the German development bank KfW signed an agreement with the Royal Government of Cambodia, Agence Française de Développement and the European Union, providing EUR37.1 million for the Rural Infrastructure Development for Cambodia project, which aims to develop rural infrastructure in the central plain of Cambodia.²⁶⁹ Central to this development plan is the improving infrastructure in the education sector.²⁷⁰

On 6 January 2021, Germany proposed the Second Management Positions Act (FüPoG II) “to force larger listed companies to have at least one woman on their management boards, building on a 30 per cent quota for supervisory boards introduced in 2015 and will apply to listed companies with more than three management board members.”²⁷¹

On 26 January 2021, State Secretary at the Federal Ministry of Labour and Social Affairs Björn Böhning held a workshop with Vice Minister at the Chinese Ministry of Human Resources and Social Security Tang Tao to discuss vocational education, highlighting that “it must become more individualized, more inclusive and make more use of digital technologies.”²⁷²

On 2 February 2021, Minister for Family Affairs, Senior Citizens, Women and Youth Franziska Giffey announced the “Youth Budgets Project” which aims to increase youth’s participation in policy making and tasks them to develop innovative projects in fields ranging from Diversity and Participation to Education, Work and Freedom. The best projects would receive up to EUR100,000 for their implementation.²⁷³

On 29 March 2021, Germany announced its ratification of the Revised European Social Charter, with amendments made to include “protection against sexual harassment in the workplace and other forms of harassment ... [and] rights of workers with family responsibilities to equal opportunities and equal treatment.”²⁷⁴

On 30 March 2021, the Federal Ministry of Family Affairs, Senior Citizens, Women and Youth (BMFSFJ) announced the implementation of a “German Equal Pay Award,” to be given to companies that actively seek to reduce the wage gap.²⁷⁵ Minister Giffey noted “Fair pay and equal pay are part of a modern and sustainable personnel policy and are a decisive competitive advantage when it comes to securing skilled workers.”²⁷⁶

On 16 April 2021, Minister Giffey launched the Academy for Children’s and Youth Parliaments to encourage young people to get involved in politics.²⁷⁷ The program includes a diverse curriculum

which offers seminars, workshops and events.²⁷⁸ The academy is funded by a total of EUR4 million from the federal child and youth plan and is part of the Strong Child and Youth Parliaments initiative.²⁷⁹

On 23 April 2021, the Federal Minister of Education Anja Karliczek voiced support for improvements in vocational training infrastructure in the country based on the recommendations of the Organisation for Economic Co-operation and Development (OECD) report.²⁸⁰ The country report on continuing vocational education and training by the OECD was commissioned by the Federal Ministry of Labour and Social Affairs and the Federal Ministry of Education and Research to provide expert support for the implementation process of Germany's National Skills Strategy. Minister Karliczek said, "Professional training is a key to maintaining our competitiveness and the innovative strength of our country. Professional training is an absolute necessity for companies and employees. It is part of lifelong learning. Setting the right framework conditions remains a central task of politics, which we gladly accept. External suggestions are certainly helpful for this. We will examine the recommendations of the OECD and take them up where appropriate and sensible."²⁸¹

On 30 April 2021, the Federal Ministry of Education and Research published the Second Funding Guideline of the Secure Apprenticeships program.²⁸² The program enables companies facing economic difficulties with training.²⁸³ It supports trainees to continue and complete their training in midst of the pandemic.²⁸⁴ Minister Karliczek said, "With the revised Second Funding Guideline of the federal program, we have introduced a subsidy for the costs of external exam preparation courses for trainees. In addition, we have also further improved the promotion of contract and joint training so that trainees can continue their training if this is temporarily not possible in their own training company."²⁸⁵

On 4 May 2021, Minister Giffey presented the “Agenda for Smart Social Policy,” which outlined five fields of action to address in response to the growing trend of digitization in Germany.²⁸⁶ These fields’ key general goals were to introduce digital innovations that would “make people’s everyday lives easier, safer and more social,” noting that “all people should be able to use digital technologies informally” to ensure no citizen is left behind.²⁸⁷

On 28 July 2021, the Federal Equality Foundation entered into force. The Foundation will work towards equality between women and men in Germany by pursuing three goals: firstly, to show where more equality is needed and to find solutions; secondly, network and support those committed to equality, and thirdly, increase knowledge about gender equality issues and discuss them with citizens.²⁸⁸

On 26 August 2021, State Secretary of the Federal Ministry for Family, Senior Citizens, Women and Youth Juliane Seifert represented Germany at the first meeting of the G20 equality ministers, called: “The Conference on Women’s Empowerment.”²⁸⁹ It aims to reduce the gender pay gap and increase the participation of women in the labor force. The Minister stated Germany’s commitment to creating “real equality between men and women” and mentioned its goal being “fair division of paid employment and unpaid care work and more qualified women in management positions”.²⁹⁰ Moreover, the Minister also expressed, “gender equality is a task that we can only achieve together and with international cooperation.”²⁹¹

Germany has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for small and medium-sized enterprises (SMEs) and entrepreneurs, and upskilling and reskilling of workers. Through institutions such as the BMFSFJ and Ministry of Labor and Social Policy, Germany has provided substantial funding towards projects aimed at engaging youth and women in the workforce, promoted several vocational training programs, developed innovation strategies for SMEs and entrepreneurs and ensured adequate representation and protection of women’s economic autonomy in the workplace.

Thus, Germany receives a score of +1.

India: +1

India has fully complied with its commitments to reducing inequalities and promote inclusive growth.

On 14 December 2020, the Ministry of Skill Development and Entrepreneurship announced the approval of allocation of training, specifically targeting states and districts on the basis of population, industry and labour supply.²⁹² The Pradhan Mantri Kaushal Vikas Yojana 3.0 (2020-21) (PMKVY 3.0) aims to train youth and provide skill avenues, resulting in greater participation in the private sector.²⁹³ It also aims to reskill those in remote villages and towns in India. It is also the first phase in the PMKVY 3.0 initiative, creating a setting for phase two to occur from 2021-2026.²⁹⁴

On 1 January 2021, the Ministry of Micro, Small and Medium Enterprises (MSMEs) announced the launch of an e-commerce website which catalogues over 50,000 products and aims to serve as a digital marketplace for farmers, artisans, craftsmen and other MSMEs.²⁹⁵ The website was jointly launched by the Khadi and Village Industries Commission and is recognized as “a step towards building an ecosystem that enables MSMEs to help achieve the Prime Minister’s goal of [a self-reliant India].”²⁹⁶

On 5 January 2021, Union Minister for Women and Child Development and Textile Smriti Zubin Irani and Union Education Minister Ramesh Pokhriyal launched a joint initiative, Toycathon 2021.²⁹⁷ This initiative is aimed at creating toys and games based on the Indian value and takes a step towards achieving the goal of a self-reliant India in toy manufacturing.²⁹⁸ This initiative is also supported by the Ministry of Education, Ministry of Women and Child Development, Ministry of Textile, Ministry of Commerce and Industries, Ministry of MSMEs, Ministry of Information and Banking and All India Council for Technical Education.²⁹⁹

On 14 January 2021, the Ministry of Skill Development and Entrepreneurship announced the implementation of the third phase of Pradhan Mantri Kaushal Vikas Yojana project, which would focus on improving new-age technologies and COVID-19-related skills.³⁰⁰ The program, funded

On 15 August 2021, the Ministry of Ports, Shipping and Waterways announced vocational training programs for women at the Jawaharlal Nehru Port Trust with a grant of INR5 million for skill development training in the Raigad District, Maharashtra.³²¹

On 26 August 2021, NITI Aayog announced their partnership with Cisco to create a platform for entrepreneurship by women through “technology-led experiences.”³²²

India has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for MSMEs and entrepreneurs, and upskilling and reskilling of workers. Through initiatives designed with international partners to promote youth and women’s welfare, new training programs for discouraged workers that incorporate technological and digitalization literacy, entrepreneurship training and robust funding to implement these measures, India has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, India receives a score of +1

Analyst: Diya Kumar Katra

Indonesia: 0

Indonesia has partially complied with its commitment towards reducing inequalities and promoting inclusive growth.

On 9 February 2021, Secretary of the Ministry of Cooperatives and Small and Medium Enterprises Arif Rahman Hakim held a meeting to collaborate on policies for micro, small and medium-sized enterprises (MSMEs) at the national and local levels.³²³ Secretary Hakim noted that IDR4.85 trillion has been allocated in the national budget for the development of MSMEs and noted that next steps involved increasing income and market access for these groups, with a target export contribution of over 15 per cent for MSMEs and cooperatives.³²⁴

On 26 February 2021, Minister of Finance Sri Mulyani Indrawati and Bank Indonesia Governor Perry Warjiyo attended the G20 finance ministers and central bank governors meeting.³²⁵ The meeting discussed two main agendas, the Global Economy and Policy Actions for a Transformative and Equitable Recovery, and Financial Sector Issues, which primarily highlights the G20 goals from the Riyadh presidency.³²⁶

and teaching staff. In addition, it does not only focus on degree programs, but also non-degree programs.”³³⁵

On 30 June 2021, the Coordinating Ministry of Economic Affairs published a press release regarding Indonesia’s vision of “Advanced Indonesia 2045.” The Ministry highlighted the Government’s efforts to improve the quality of human resources, including the Job Loss Guarantee which has been regulated in the Job Creation Law, to provide guarantees for workers affected by layoffs through cash, job training, and access to labor market information, so that they can immediately get back to work after their abilities have increased by participating in training. The Pre-Employment Card Program is intended for job seekers, laid off workers, and workers who need higher competencies than before, so this program focuses on skilling, upskilling, and reskilling. In 2021, the Pre-Employment Card Program passed approximately 2.8 million recipients.³³⁶

On 7 July 2021, the Coordinating Minister for Economic Affairs Airlangga Hartarto, represented by the Deputy for Macroeconomic and Financial Coordination at the Coordinating Ministry for the Economy, Iskandar Simorangkir, launched the Virtual Strengthening Women Micro-entrepreneurs to Digital Security and Financial Inclusion (SERUNI) Program in Jakarta.³³⁷ The SERUNI program aims to empower the economy to encourage increased welfare, as well as financial and digital literacy for women micro-enterprise owners (including groups with disabilities) in Indonesia. This program reaches 500 women micro-enterprises spread across Sukabumi, Garut, Cirebon, Central Lampung, and Central Lombok, and is a collaboration between the DNKI Secretariat, the British Embassy, and Mercy Corps Indonesia.³³⁸

On 30 July 2021, the Ministry of Finance (MoF) announced the development of a women’s leadership initiative: the Woman Leadership Initiative as an effort to improve access and leadership quality of women in the Ministry of Finance.³³⁹ This program is expected to “increase the leadership capacity of women in carrying out careers as managers of state finances and assets and aims at reducing the gap in the roles of men and women in the context of development.”³⁴⁰

³⁴⁰ Improving Women’s Capacity, Ministry of Finance Launches Women’s Leadership Initiative, Ministry of Finance, Republic of Indonesia, Press Release (Jakarta) 30 July 2021. Access Date: 12 September 2021.

<https://www.kemenkeu.go.id/publikasi/berita/tingkatkan-kapasitas-perempuan-kemenkeu-luncurkan-woman-leadership-initiative/>

On 30 August 2021, the MoF expressed its commitment to support MSMEs during the pandemic, through the Public Service Agency for the Government Investment Center (BLU PIP), which helps them with fast and easy financing.³⁴¹ The Ministry's press release also stated, "during this pandemic period, BLU PIP has distributed assistance of IDR5.32 trillion for working capital financing. With details, IDR4.23 trillion for relaxation of principal installment payments, and IDR552 billion for interest subsidies, as well as the Banpres for Productive Micro Business which is currently running."³⁴²

Indonesia has taken strong domestic action in the areas of increasing access to opportunities for women and increasing access to opportunities for SMEs and entrepreneurs through ministry investments in policies aimed at promoting increased participation in a pandemic-driven economy and using the 2020 G20 summit as a strong guiding framework for these initiatives. However, Indonesia has not taken any action in the areas of increasing access to opportunities for youth and upskilling and reskilling of workers.

Thus, Indonesia receives a score of 0.

Analyst: Muhammad Hamza Khan

Italy: +1

Italy has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 8 December 2020, Italy released a draft recovery plan with a total budget of EUR196 billion. The recovery plan allocated EUR74.3 billion to be invested in the green revolution and ecological transition.³⁴³ Aside from heading towards a more sustainable future, the objective of this initiative is also to free up job opportunities for people, which is particularly necessary due to the rising levels of unemployment because of the COVID-19 pandemic.³⁴⁴ This will increase inclusive growth by providing new jobs for people who have struggled with job losses and unemployment.³⁴⁵ Moreover, the plan allocated EUR17.1 billion to implement measures to foster gender equality.³⁴⁶

On 31 December 2020, the Ministry of Labour and of Social Politics released the employment forecasts of the 2021 Budget.³⁴⁷ In this plan, the Ministry announced that they would provide financial support for young people under the age of 36 in need of steady employment.³⁴⁸ In addition, in this budget the Ministry also promoted the support of women's businesses.³⁴⁹ The Ministry announced that "resources of EUR3 million are assigned to the Venture Capital Support Fund for the year 2021 aimed at supporting investments in risk capital for highly innovative female entrepreneurship projects" to promote inclusivity and increase work opportunities for women.³⁵⁰ Further, an additional EUR50 million was pledged to support the return to work of mothers after childbirth.³⁵¹

On 9 February 2021, the Ministry of the Economy and Finance launched the Recovery and Resilience Plan which mobilizes over EUR300 billion.³⁵² One of the components of the "Inclusion and Cohesion" mission is to create Employment Policies to improve the employment situation of women, youth and vulnerable people.³⁵³ Additionally, it aims to rework existing employment policies with a focus on promoting new skills through reform of the training system.³⁵⁴

On 24 February 2021, Italy's initiative to support private employers in small or medium sized enterprises by exempting them from compulsory social security contributions was approved by the European Commission. The total budget allocated for this initiative is EUR61.4 million.³⁵⁵ The aim of this initiative is to reduce the financial burden on small and medium enterprises, particularly due to the economic problems caused by the COVID-19 pandemic, allowing employers to keep their workers employed.³⁵⁶

On 15 March 2021, Minister of Labor and Social Policies Andrea Orlando participated in a meeting of the EU Ministers of Labor and Social Affairs focused on employment and wage concerns.³⁵⁷

³⁵⁷ Work: Orlando participates in an informal meeting of the European Labor and Social Policy ministers, Ministry of Labor and Social Policies (Rome) 15 March 2021. Access Date: 29 April 2021. <https://www.lavoro.gov.it/stampa-e-media/Comunicati/Pagine/Lavoro-Orlando-partecipa-a-riunione-informale-dei-ministri-europei-del-Lavoro-e-delle-Politiche-sociali.aspx>

Under the guiding force of the EU Pillar Action Plan on social rights, the minister noted that “in Italy we are working on the reform of social safety nets, on active labour policies, on hiring incentives, on the strengthening of redeployment allowance, on the reduction of the tax wedge,” as well as committing to support the Community Initiative to establish minimum wage standards across Europe.³⁵⁸

On 16 March 2021, Italy allocated EUR63 million through the Italian aid scheme “to support the uncovered fixed costs of companies in the trade fairs sector affected by the coronavirus outbreak.”³⁵⁹ The support will be delivered in the form of direct grants which will be made available to the affected companies, aiming to reverse the financial damage from COVID-19 restrictions such as “the suspension or reduction of their business activity.”³⁶⁰

On 19 March 2021, the Italian Cabinet approved a decree to provide further financial support as part of its COVID-19 recovery plan.³⁶¹ The allocated budget of this decree is approximately EUR32 billion.³⁶² The initiative covers several areas including supporting businesses of the third sector and preventing poverty.³⁶³ The budget covers an allowance of EUR2,400 for seasonal and fixed-term workers and an expansion of the emergency income for citizens for another few months. In addition, the initiative announced the allocation of EUR400 million in social funds for employment and training of workers.³⁶⁴

On 1 April 2021, the Ministry of Economic Development announced that more than EUR50 million worth of loans had been provided for small and medium-sized enterprises (SMEs) over the past year to “support the competitiveness and innovative investments of SMEs” as part of Italy’s revised National Business Plan.³⁶⁵ Over 380 applications had been processed as of this date and the ministry noted that up to EUR100 million would be provided as well.³⁶⁶

On 9 April 2021, the Ministry of Economic Development announced the provision of subsidized interest-free loans for youth and women-led startups.³⁶⁷ In particular, the investment is focused on businesses concerning “the production of goods in the sectors of industry, crafts and processing of agricultural products, supply of services to businesses, trade and tourism.”³⁶⁸

On 14 April 2021, Italy chaired a meeting of the Employment Working Group. The discussions primarily focused around “structural changes in the organization of work, the economy of platforms and the growing use of remote working.”³⁶⁹ Noting that artificial intelligence would have a transformative effect on labour relationships, the meeting’s participants stressed the need for “adequate social protection tools” that would adequately respond to green and digital economy changes accelerated by the pandemic.³⁷⁰

On 22 April 2021, Prime Minister Mario Draghi presented a draft of Italy’s National Recovery and Resilience Plan to the Parliament in preparation for presentation to the European Commission.^{371,372} A total of EUR221.5 billion obtained from the EU’s Recovery and Resilience Facility and national borrowing is to be provided for six target areas including education and research, and social inclusion.³⁷³ Within the education and research mission, a total of EUR31.9 billion is to be allocated to “strengthen the educational system [and] digital and technical-scientific skills.”³⁷⁴ Within the social inclusion mission, EUR22.4 billion are to be provided for facilitating “participation in the labour market” through training and strengthening labour policies, including the development of employment centres and promoting female entrepreneurship, including a new Women’s Enterprise Fund.³⁷⁵ The plan is predicted to increase gross domestic product by three percentage points higher than initially predicted.³⁷⁶

From 23-24 June 2021, Italy hosted the G20 Forum on digital transition of industry, organized by the Ministry for Economic Development.³⁷⁷ The event included plenary working sessions with G20

³⁷⁷ G20: 23rd and 24th June Forum on digital transition of industry, Ministry of Economic Development (Rome) 22 June 2021. Access Date: 25 September 2021. <https://www.mise.gov.it/index.php/en/202-news-english/2042409-g20-23rd-and-24th-june-forum-on-digital-transition-of-industry>

members' representatives to discuss both the challenges and opportunities associated with an increasingly digitalized world.³⁷⁸

On 6 August 2021, Minister Orlando discussed proposed changes in labour policy specifically pertaining to the upskilling and reskilling of workers with regional councillors.³⁷⁹ As part of the National Recovery and Resilience Plan, the plans would create a framework that would “allow for the first time to define active policies that constitute real rights payable for workers...ensuring services aimed at improving their employability,” as well as targeting skills deficits in certain industries.³⁸⁰

Italy has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and entrepreneurs and upskilling and reskilling of workers. Through the allocation of funds to support small and medium enterprises, and private employers, its declaration in the 2021 budget that funds would be allocated to supporting gender equality and women in the workplace, efforts to combat youth poverty, and environmentally friendly job creation initiatives, Italy has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, Italy receives a score of +1.

Analysts: Dalia Michaud and Malhaar Mobarir

Japan: +1

Japan has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 30 November 2020, the Ministry of Economy, Trade and Industry (METI) requested for smoother financing to small and medium-sized enterprises (SMEs).³⁸¹ It asked several organizations to “improve the facilitation of financing for SMEs and small enterprises at the end of 2020, taking into consideration that some businesses are still facing serious difficulties in funding due to the impacts of COVID-19, and that demand for working capital and other funds is expected to grow during the period from the end of 2020 to the end of fiscal year 2020.”³⁸²

On 21 December 2020, the Ministry of Finance released highlights of the Draft Fiscal Year 2021 Budget, which highlighted the need for “measures for medium- and long-term issues” such as digital and green societies, as well as robust social security systems.³⁸³ In particular, JPY2.2 billion would be allocated for the “digitalization of education,” JPY2.3 billion towards scholarships for youth through the University Fellowship Program, and tax reductions and subsidies for SMEs.³⁸⁴

virtually before they depart for work in Japan; after they arrive, they will receive another six months of language training.³⁹⁴

On 9 March 2021, Prime Minister Yoshihide Suga held the 10th meeting of the Headquarters for Creating a Society in which All Women Shine and the 20th meeting of the Headquarters for the Promotion of Gender Equality.³⁹⁵ At the meeting, discussions were held on strengthening efforts for gender equality.³⁹⁶

On 23 March 2021, Ambassador of Japan to Sierra Leone Himeno Tsutomu and United Nations Industrial Development Organization Country Representative to Sierra Leone Mariatu Abionor Swaray, signed an exchange of notes enacting USD3.88 million of aid from Japan to Sierra Leone.³⁹⁷ The financial aid is to “help Sierra Leone bridge the skills gap in the country’s automotive repair and maintenance sector and to promote decent employment opportunities for youth.”³⁹⁸

On 29 March 2021, the Ministry of Foreign Affairs of Japan held a webinar on women’s empowerment. The webinar consisted of three panels: “Panel Discussion 1: Empowered Women as a Driving Force for the Betterment of Society; Panel Discussion 2: Women’s Empowerment in Sports; Panel Discussion 3: What is Women, Peace and Security?”³⁹⁹ The goal of the webinar was to commemorate “the memorial year of gender equality and women’s empowerment.”⁴⁰⁰

On 23 April 2021, METI released the 2021 White Paper on SMEs in Japan, which outlined the key challenges these businesses have faced through COVID-19.⁴⁰¹ The ministry outlined three areas of reform that would need to be addressed in order to overcome their financial difficulties faced: “developing management strategies that are aligned with the changes in the business environment,” “cultivating a proactive organizational culture toward digitalization,” and taking on “new opportunities under new management after business succession.”⁴⁰²

On 28 April 2021, METI announced a subsidy project in conjunction with PwC to support Femtech companies, defined as those that provide support services to “solve working women’s health-related and other issues.” The goal of this project is to prevent high turnover rates among women

Japan's attractive investment environment.”⁴¹² The summit also has the program: Global Startup Connection: J-Startups for NET ZERO, which aims to promote start-ups in Japan to the world.⁴¹³

On 23 August 2021, the Ministry of Foreign Affairs announced it will continue to cooperate with the U.S. Department of Defense Education Activity – Pacific to host the US-Japan Educational Exchange.⁴¹⁴ The program allows youths to broaden their views of the world and develop problem-solving skills.⁴¹⁵ The program also consists of several two-day events on US military installations in mainland Japan, designed to engage youth in international exchange opportunities abroad.⁴¹⁶

Japan has taken strong action in the areas of increasing access to opportunities for youth through policies on subsidizing education, increasing access to opportunities for women by promoting greater financial support in the workplace, and increasing access to opportunities for SMEs and entrepreneurs through grants and subsidies designed to keep them competitive in the COVID-19 economy. Japan has taken partial action in the area of upskilling and reskilling of workers by generally promoting revamped training programs that take into account greater digitalization of the economy both domestically and internationally and upskilling and reskilling of workers.

Thus, Japan receives a score of +1.

Analyst: Jenny Liu

Korea: +1

Korea has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On 3 March 2021, the Ministry of Employment and Labor (MOEL) published the 2021 Work Report. In the report, the MOEL promises to help youth employment by offering more opportunities and vocational training.⁴²⁸ This policy is to “minimize the number of young people ending up in the category of economically inactive population.” In the Work Report, the MOEL also promises to create a training system for non-majors to find jobs in the new technology sector. Furthermore, the MOEL will create a program to build future oriented talent. The program will be training 17,000 persons and will be cooperating with businesses and educational institutions.

On 4 March 2021, Korea announced to concentrate on recovery from the COVID-19 shock on women’s employment.⁴²⁹ The specific policies include “creation of 780,000-plus women’s jobs to cope with the employment crisis through supplementary budget; strengthening support for the maintenance of employment such as extension of emergency support for family care expense and support for those affected by transfer; strengthening support for female students majoring in science/engineering; enhancement of their digital capability through vocational training; strengthening the expertise of those engaging in childcare and housework; improving working conditions; promotion of status survey for women platform workers; putting an end to the gender stereotyping of jobs through the adoption of absolute evaluation factors in Affirmative Action.”⁴³⁰

On 25 March 2021, Vice Chair Doh Kyu-sang “discussed the progress in the implementation of the COVID-19 financial support for small merchants and SMEs” at the 37th financial risk assessment meeting.⁴³¹ He recognized the progress of the emergency financial support package to small merchants and SMEs and promised to keep close monitoring of the situation and be available to provide aid to the vulnerable.⁴³²

On 6 April 2021, the Ministry of Gender Equality and Family of Korea passed amendments to the support for single parents raising children.⁴³³ The Ministry of Gender Equality and Family made amendments to the Enforcement Ordinance of the Single-Parent Family Support Act, whereby the amendment provides “expansion of support for single parents in multicultural households and the procedure for the establishment of an annual execution plan for supporting single-parent families

the connections and collaborations with related organizations for specialized support for the recipient of these services.”⁴⁵³

On 23 June 2021, the Ministry of Gender Equality and Family signed the memorandum of understanding with UN Women and the UN Women Centre of Excellence for Gender Equality is to be established in Korea.⁴⁵⁴ The centre will promote gender equality by providing protection for women’s human rights and education for experts.⁴⁵⁵

On 1 July 2021, the Worker’s Compensation and Welfare Service implemented employment insurance for the dependent self-employed.⁴⁵⁶ “The dependent self-employed who are covered by employment insurance from July 1 are workers in 12 occupations, including insurance agents, parcel delivery workers, and credit card solicitors.”⁴⁵⁷ This is a part of the “National Employment Insurance Roadmap” to ensure all working citizens receive employment insurance. ⁴⁵⁸

On 22 July 2021, Korea announced new measures to support just labor transition in response to industrial structure changes.⁴⁵⁹ These measures will address the recent changes due to digitalization and development towards a carbon-neutral economy. The measures include “[developing and promoting] projects supporting internal combustion engine vehicle, coal-fired power generation, [providing] support for company’s business reorganization/transition and worker’s job transition, job change/reemployment, [and establishing] a structured support base such as consulting centers and labor transition analysis centers.”⁴⁶⁰ The government will provide training to ensure workers’ reemployment and adapting to the changes from digitalization.⁴⁶¹ The government will also closely monitor structural changes in employment for some industries. ⁴⁶²

On 23 July 2021, the Ministry of Gender Equality and Family announced measures to promote women's economic activities to cope with population decline. These measures were suggested by the Pan-government 3rd round Population Policy TF - Women Employment/Family Policy Team.⁴⁶³ First, to promote women's participation in economic activities, the Ministry will provide more opportunities for vocational training, increase tax reduction businesses hiring women experiencing career interruptions, and provide support for young women wishing to work in the engineering and natural sciences industries.⁴⁶⁴ Second, to create equal labor conditions, the Ministry will provide customized counseling for women who wish to stay in the workforce but have concerns about childcare, human rights support for houseworkers and nurses, promotion to come up with "an integrated analysis framework concerning the gender equality status of businesses and government institutions."⁴⁶⁵ Third, to mitigate parents' childcare burden, the Ministry will extend community childcare centres' operating hours and operate youths after-school academies on the weekends, expand childcare services during busy seasons in rural areas.⁴⁶⁶ Finally, the Ministry will strengthen policy support to help all families live more stably.⁴⁶⁷

From 30 to 31 August 2021, the 20th Korean Women's International Network was held online.⁴⁶⁸ The event has been a platform to connect Korean women both at home and abroad. "The session [included] keynote lectures, Global Women Leaders' Forum, and small-group discussions on activities carried out in each sector."⁴⁶⁹

Korea has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and entrepreneurs, and upskilling and reskilling of workers. Through promoting inclusive and gender-based hiring practices, providing increased scholarship and funding for higher level education, providing grants and subsidies to improve competitiveness in the COVID economy, and establishing renovated and targeted vocational education programs, Korea has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, Korea receives a score of +1.

Analyst: Jenny Liu

Mexico: +1

Mexico has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 25 November 2020, the Ministry of Welfare announced new social policies aimed at supporting youth and fostering greater inclusivity of women in the workforce.⁴⁷⁰ In particular, the Support Programs for Girls and Boys, Children of Working Mothers programs is targeted towards women in rural areas, with the expectation that they “form a community, exchange knowledge, in addition to promoting their autonomy and access to a well-paid job.”⁴⁷¹

On 27 January 2021, Secretary of Labor and Social Welfare Luisa Alcade and Secretary of Tourism Miguel Torruco announced funding of MXN2.5 billion to support scholarships for youth seeking employment in the tourism sector.⁴⁷² Approximately 50,000 youth would be eligible for this program, which would be overseen by the Youth Building the Future Program, working in conjunction with companies to hire and train those between the ages of 18 and 29.⁴⁷³ As of 2020, tourism accounted for nearly 17 per cent of Mexico’s gross domestic product, and has taken a strong hit due to the COVID-19 pandemic.⁴⁷⁴

On 30 December 2020, the Ministry of Welfare allocated more than MXN143 billion worth of investment towards vulnerable groups, including working mothers.⁴⁷⁵ Over 190,000 women were beneficiaries of social investment totaling MXN2 billion, with approximately MXN3,600 provided on a bimonthly basis for working mothers with children, with a focus on those with disabled children.⁴⁷⁶

On 28 January 2021, the Ministry of Economy announced a grant of MXN1.5 billion to support 60,000 microenterprises.⁴⁷⁷ The support is divided among family micro-businesses, “completed”

microbusinesses and those facilitating women's solidarity, whereby each business would receive a loan of MXN25,000.⁴⁷⁸

On 21 February 2021, the Superior Audit of the Federation concluded that the Ministry of Welfare had fully complied with its social program goals, with its total budget of MXN150 billion having been distributed to all target demographics, including working mothers.⁴⁷⁹

On 2 March 2021, the Executive Secretariat of the National System for the Comprehensive Protection of Girls, Boys and Adolescents and the General Directorate of Open Institutions of the Decentralized Administrative Body for Prevention and Social Readaptation rolled out a pilot "Needs Identification Card."⁴⁸⁰ This card is an instrument that will allow the government to better monitor and assist children with parents deprived of liberty to "live in a favorable family context, grow and develop free of all discrimination, violence, access education, health and receive timely support for their basic needs from federal and state authorities."⁴⁸¹

On 2 March 2021, Undersecretary of Foreign Affairs Carmen Moreno Toscano launched the first meeting of the Gender Links Network.⁴⁸² This three-day symposium aimed to encourage discussion about gender violence to promote "international cooperation on substantive equality, girls' empowerment, and inclusion of a gender perspective" in society.⁴⁸³

On 8 March 2021, the National Migration Institute signed the Labour Equality and Non-Discrimination Policy.⁴⁸⁴ This policy aims to eliminate workplace violence and institutionalize equal opportunities for all public servants, with particular focus on approaching the problem from a gender perspective.⁴⁸⁵

On 9 March 2021, Secretary of Finance and Public Credit Arturo Herrera, Secretary of Economy Tatiana Clouthier and President of the National Institute of Women Nadine Gasman co-signed an agreement titled "Women in digital transformation" as part of its program to promote economic

⁵¹⁴ Conclusion of the 47th session of the UN Human Rights Council, Secretariat of Foreign Affairs (Mexico City) 14 July 2021. Access Date: 25 August 2021. <https://www.gob.mx/sre/prensa/conclusion-of-the-47th-session-of-the-un-human-rights-council?idiom=en>

further affirms Mexico's support for increasing women's access to opportunities. Additionally, Mexico participated in debates about business rights.⁵¹⁵

On 5 August 2021, the Foreign Ministry's Undersecretary for Multilateral Affairs and Human Rights Martha Delgado and the Representative of the United Nations Development Programme in Mexico Lorenzo Jiménez de Luis presented the Global Economic Promotion Project.⁵¹⁶ The new initiative aims to encourage economic development in strategic sectors by attracting foreign investment to Mexico while promoting the Sustainable Development Goals, inclusion and human rights.⁵¹⁷

On 9 September 2021, Mexico and the United States relaunched their bilateral High-Level Economic Dialogue.⁵¹⁸ This initiative has the goal of promoting regional economic growth through labour upskilling and reducing inequalities. Four pillars support this vision for economic development. For the pillar "Promoting Sustainable Economic and Social Development in Southern Mexico and Central America," the United States will support the Mexican government's Sowing Life and Youths Building the Future programs to better invest in youths.⁵¹⁹ On reducing inequalities, there will also be a focus on training women, youths, Indigenous people and the LGBTQ+ community through collaboration with local small and medium sized enterprises.⁵²⁰

Mexico has taken strong action in the areas of increasing access to opportunities for youth, increasing access to opportunities for women, and increasing access to opportunities for small and medium sized enterprises and entrepreneurs by taking concrete action to prevent violence against youth, rehabilitate youth in detention centres, and increasing assistance for migrant minors, multiple symposiums and conferences on the status of women and youth in the Mexican economy, more inclusive regulations and collaboration on labour policy with international partners such as Spain. Mexico has taken partial action in the area of upskilling and reskilling workers through some regulations designed to enhance vocational training.

Thus, Mexico receives a score of +1.

On 29 March 2021, during a meeting with deputy prime ministers, Prime Minister Mishustin remarked that loans to small and medium-sized enterprises (SMEs) will be fast tracked.⁵⁴¹ This initiative comes off the back of last year's reduction in preferential rates for SMEs and the self-employed.⁵⁴² Prime Minister Mishustin concluded, "small businesses will be able to simply apply for preferential leasing support which will make it possible for them to expand or upgrade their production at no extra cost."⁵⁴³

On 20 July 2021, Prime Minister Dmitry Chernyshenko launched an educational course for heads of digital transformation to further digital development in Russia.⁵⁴⁴

On 13 September, First Deputy Minister of Education of the Russian Federation Alexander Bugaev announced the development of the WorldSkills projects to transform Russia's vocational education.⁵⁴⁵

Russia has taken strong action in the areas of increasing access to opportunities for youth, increasing access to opportunities for SMEs and entrepreneurs, and upskilling and reskilling of workers through working with regional partners to improve education opportunities, renovating and expanding training programs for discouraged workers, and providing extensive financial support for SMEs and entrepreneurs to promote innovation. Russia has taken no action in the area of increasing access to opportunities for women.

Thus, Russia receives a score of 0.

On 9 July 2021, the Federation for Cybersecurity, Programming and Drones called on women aged over 18 to apply to the Apple Developer Academy.⁵⁷² This program was open to all females regardless of their prior coding background and allowed Tuwaiq to become Apple's first educational training center on the Middle East.⁵⁷³ Selected candidates receive skills and training to find and create jobs.⁵⁷⁴

On 12 July 2021, the SME Bank and the French Public Investment Bank signed an agreement to transfer expertise and best practices for the SME sector.⁵⁷⁵ This agreement aligns with Saudi Vision 2030 because it aims to increase the contribution of SMEs to the GDP by 35 per cent by 2030.⁵⁷⁶

On 13 July 2021, the Social Development Bank (SDB) announced a plan to increase lending to small businesses.⁵⁷⁷ The SDB has already provided SR1.6 billion in the first half of 2021.⁵⁷⁸ The aim of this plan is to support projects without the need for financial guarantees.⁵⁷⁹

On 12 August 2021, the Saudi General Authority for Competition imposed USD9.3 million in fines on companies that violated competition rules. Those nine fined companies were abusing a dominant position without informing the authorities, which negatively impacts SMEs. Therefore, fining companies that breach competition laws provides protection for the operation of SMEs.⁵⁸⁰

On 22 August 2021, Saudi Arabia had achieved unparalleled achievement in entrepreneurship indicators this year, according to the Global Entrepreneurship Monitor Report. This achievement was made across different variables including availability of good opportunities to start a business, ease of starting a business, entrepreneurs' response to the pandemic, and the Kingdom's government response to the pandemic. This is in line with Saudi Arabia's Vision 2030 to empower entrepreneurship. Despite the obstacles imposed by COVID-19, the Ministry of Commerce was able to contribute greatly to place Saudi Arabia among the top countries in the world.⁵⁸¹

On 22 August 2021, the Ministry of Commerce announced that SMEs will be exempt from commerce fees register for three years to help increase the number of startups in the country. Following this exemption, the Ministry also plans to resume fees in the fourth and fifth year, but at a

⁵⁸¹ Saudi Arabia ranks first globally in four entrepreneurship indicators, Zawya (Riyadh) 22 August 2021. Access Date: 12 September 2021. https://www.zawya.com/mena/en/economy/story/Saudi_Arabia_ranks_first_globally_in_four_entrepreneurship_indicators-ZAWYA20210822081100/

reduced rate of SAR500 for entrepreneurs and SAR200 for entrepreneurs with a capital of less than SAR375,000 and whose employees do not exceed five.⁵⁸²

On 25 August 2021, the Ministry of Communication and Information Technology launched a series of initiatives that aim to improve Saudi Arabia's global ranking in digital areas. One of such programs is called Hima, which encourages innovation in enterprises with a value of USD670 million. Therefore, this initiative will be beneficial for the growth of SMEs.⁵⁸³

Saudi Arabia has taken strong action in the areas of increasing access to opportunities for women and increasing access to opportunities for SMEs and entrepreneurs, as well as in the areas of increasing access to opportunities for youth and upskilling and reskilling of workers.

Thus, Saudi Arabia receives a score of +1.

Analyst: Sara Mostafa

South Africa: +1

South Africa has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 29 November 2020, Minister of Women, Youth and Persons with Disabilities Maite Nkoana-Mashabane led the South African youth delegates to the 6th BRICS Summit.⁵⁸⁴ The BRICS Youth Summit aims to increase youth participation in programmes and address policies to empower young people.⁵⁸⁵ The specific goal of South Africa at the summit was to provide youth with skills in science, technology, engineering and mathematics related fields.⁵⁸⁶ South Africa's priorities included "creating employment in areas with high absorption capacity such as the fourth industrial revolution, ocean economy, green economy, mineral resources and energy, tourism, manufacturing; supporting young entrepreneurs; promoting market access as well as free and fair trade amongst the BRICS nations; and youth volunteer exchange promotion."⁵⁸⁷

On 18 December 2020, the Free State Department of Small Business Development, Tourism and Environmental Affairs partnered with Standard Bank to announce the launch of the Yes4Youth Programme.⁵⁸⁸ This programme provides unemployed youth with work experience and introduces

Innovation.⁶⁷⁸ Placements for graduates are being planned for an easy transition into the workforce and assist with the work experience required for permanent employment.⁶⁷⁹

South Africa has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and upskilling of workers. Through the 16 Days Campaign of No-Violence Against Women and Children, the domestic and international partnerships to upskill youth and workers as well as the development of the tourism industry for SMEs, South Africa has fully complied with its commitments to reducing inequalities and promoting inclusive growth.

Thus, South Africa receives a score of +1.

Analyst: Rebecca Jones

Turkey: +1

Turkey has fully complied with its commitments to reduce inequalities and promote inclusive growth.

On October 8, 2020, Turkey introduced the “My Digital Job Project,” to be run from January 2020 to June 2021 by the Turkish Vodafone Foundation and Turkish Occupation Institution.⁶⁸⁰ The aim of the project is to increase the literacy and digital vocational competencies of women to increase their employability through training in digital and technology education as well as boosting social media and marketing literacy skills.⁶⁸¹

On 28 January 2021, Youth and Sports Minister Mehmet Muharrem Kasapoglu met with Sivas Mayor Hilmi Bilgin, Sivas Governor Salih Ayhan and others to discuss protocols regarding youth and sports investment.⁶⁸² Kasapoglu said, “Our youth investments show a serious development all over our country. We have to move higher within the framework of the cooperation I have just mentioned. We strengthen this with investments. so far, there is a youth and sports investment of over TRY1 billion.”⁶⁸³

On 25 June 2021, the Ministry of Family and Social Services issued a press release to show continued support for young people and women to participate in business life.⁷⁰¹ The ministry stressed that it would continue to aid women who receive services in shelters so that they can gain knowledge and skills to take on more qualified jobs.⁷⁰² The ministry reiterated that with the help of ISKUR, online job club trainings have been provisioned. As of May 2021, 860 women attended these training sessions.⁷⁰³

Turkey has taken strong action in the areas of increasing access to opportunities for women, increasing access to opportunities for small and medium sized enterprises (SMEs) and entrepreneurs and upskilling and reskilling of workers through highly interconnected initiatives that involve training and facilitating women's entrepreneurship, ensuring effective representation of women in SMEs and improving their competitiveness in the international economy and strong investments in reinforcing the knowledge economy. Turkey has taken partial action in the area of increasing access to opportunities for youth through increased funding of scholarships and offering specialized camps for youth. Through these initiatives, Turkey has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, Turkey receives a score of +1.

Analysts: Simran Arulraj, Malhaar Moharir and Srijan Sabu

United Kingdom: +1

The United Kingdom has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 8 February 2021, the Department for Work and Pensions increased the number of “retraining places on the Sector-based Work Academy Programme (SWAP) to 80,000 for the next financial year – building on the 40,000 already successfully delivered over the last eight months.”⁷⁰⁴ The program is a six-week program which enables participants to “learn new skills, gain hands-on work experience and build their contacts in a new line of work.”⁷⁰⁵ At the end of the program, “every SWAP participant is guaranteed an interview at the end of their course for a live job vacancy.”⁷⁰⁶

On 10 February 2021, the Foreign, Commonwealth and Development Office announced the Assistive Technology Impact Fund funded through UK Aid and led by the Global Disability

pandemic, building on the progress made so far to level up the country and ensure equal opportunities for all.⁷³⁶ The Prime Minister’s Lifetime Skills Guarantee will create a post-16 and adult education and training system that will provide the skills that people need for well-paid jobs and opportunities to train throughout their lifetime.⁷³⁷ The legislative measures include the creation of a new student finance system that will give every adult access to a flexible loan for higher-level education and training, useable at any point in their lives.⁷³⁸ They also include the creation of a statutory role for employers in planning publicly-funded training programmes with education providers, through a “Skills Accelerator” programme.⁷³⁹ Furthermore, the Secretary of State for Education will be given more powers to intervene in colleges that fail to meet local needs, and to direct structural change where needed to ensure the provider improves.⁷⁴⁰

On 18 June 2021, Apprenticeships and Skills Minister Gillian Keegan announced more support for further professional development for further education teaching staff. This support is worth GBP9.5 million in total and will allow further education teachers to continue to deliver top class education and training to young people and adults. Minister Keegan stated that the United Kingdom is “transforming further and technical education so everyone has the opportunity to gain the skills they need to succeed.”⁷⁴¹

On 15 July 2021, the Defence and Security Accelerator, Ministry of Defense, and Defence Science and Technology Laboratory awarded contracts worth GBP2 million to three small and medium-sized businesses.⁷⁴²

On 15 July 2021, Education Secretary Gavin Williamson announced further measures to boost the nation’s skills, level up opportunities, and get more people into better paid jobs.⁷⁴³ The United Kingdom’s Skills Bootcamp training programs will be expanded across the country, offering an extra

16,000 fully funded places for adults to upskill or retrain.⁷⁴⁴ The expansion covers a range of digital and technical training including in green skills along with coding and software development.⁷⁴⁵

On 1 September 2021, the Prime Minister's Office announced that "Operation Warm Welcome" is well underway to ensure that the Afghan refugees have the resources to rebuild their lives.⁷⁴⁶ As part of the initiative, approximately GBP12 million has been made available to ensure school places for the refugee children.⁷⁴⁷ Additionally, funding is promised for about 300 post-secondary scholarships for Afghan youths at UK universities.⁷⁴⁸

On 6 September 2021, the Department of Education announced the introduction of a new program that would train up to 2000 early years practitioners and teachers in improving their abilities to transfer language, numeracy, social, emotional and personal skills to pre-school children.⁷⁴⁹ The department has pledged a further GBP10 million to the previously assigned GBP20 million program.⁷⁵⁰ Children and Families Minister Vicky Ford said, "This programme will play a central role in equipping our important early years staff with the high-quality training they deserve, so that they can support children at the very beginning of their education."⁷⁵¹

The United Kingdom has taken strong action in the areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and entrepreneurs, and upskilling and reskilling of workers. Through new domestic job and upskilling opportunities for youth, extensive financial support and initiatives to increase the competitiveness of UK SMEs in the global economy, and its promotion of gender equality policies in the workforce domestically and internationally, the UK has fully complied with its commitments to reduce inequalities and promote inclusive growth.

Thus, the United Kingdom receives a score of +1.

United States: +1

The United States has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 20 January 2021, President Joseph Biden announced the American Rescue Plan.⁷⁵² Part of this plan allocates USD10 billion to state and tribal governments which will be used to fund small business credit expansion initiatives.⁷⁵³ The plan also includes support for businesses owned by socially and economically disadvantaged people, as well as support for businesses with fewer than 10 employees.⁷⁵⁴ In addition, the American Rescue Plan outlines an expansion of the Child Tax Credit aimed at reducing child poverty.⁷⁵⁵

On 9 February 2021, the Federal Reserve Board announced the second extension of a rule to allow certain bank directors and shareholders to apply to their banks for Paycheck Protection Program (PPP) loans for their small businesses.⁷⁵⁶ This extension aims to strengthen the effectiveness of the Small Business Administration's Paycheck Protection Program.⁷⁵⁷

On 17 February 2021, President Biden and Vice President Kamala Harris met with a group of labor leaders to discuss the American Rescue Plan and President Biden's plan for infrastructure. At this meeting, President Biden endorsed Congressman Bobby Scott's bipartisan National Apprenticeship Act of 2021 to expand registered apprenticeships which is estimated to create nearly one million apprenticeship opportunities.⁷⁵⁸ President Biden also planned to reinstate the National Advisory Committee on Apprenticeships which appoints diverse stakeholders to develop registered apprenticeships in all communities.⁷⁵⁹ Finally, President Biden rescinded Executive Order 13801 to

President Joe Biden urged for the passing of the Equality Act and that Federal civil rights protections be provided on the basis of sexual orientation and gender identity.⁷⁷⁸

On 31 March 2021, President Biden released the American Jobs Plan.⁷⁷⁹ The American Jobs Plan aims to create jobs and improve the country's infrastructure by investing in transportation infrastructure, rebuilding drinking water infrastructure, modernizing schools, residential, commercial and federal buildings, raising wages and benefits for homecare workers, investing in innovation to stimulate American manufacturing, creating union jobs and upskilling workers.⁷⁸⁰ The plan also aims to help small businesses by improving access to federal contracts and investing over USD110 billion in financing and technical assistance programs.⁷⁸¹ Part of the plan also includes an investment of USD5 billion in evidence-based community violence intervention programs over eight years to train at-risk individuals for jobs.⁷⁸²

On 15 April 2021, the House of Representatives passed the Paycheck Fairness Act.⁷⁸³ The goals of the Paycheck Fairness Act are to “[address] wage gaps by closing loopholes that have allowed employers to justify gender pay disparities, [strengthen] provisions for holding employers accountable for systemic pay discrimination [and help] level the playing field for women and people of color by making it easier for workers to challenge pay disparities as a group.”⁷⁸⁴ President Biden urged the Senate to pass the Paycheck Fairness Act in order to meet these goals.⁷⁸⁵

On 26 April 2021, the Department of Labor announced USD3.5 million in funding to increase the number of women in its apprenticeships programs and better facilitate their inclusion in “nontraditional” occupations including “manufacturing, infrastructure, cybersecurity and healthcare industries.”⁷⁸⁶

On 28 April 2021, President Biden announced the American Families Plan.⁷⁸⁷ The American Families Plan aims to make education more affordable, provide economic security for families and expand tax

economic development in the Northern Triangle.⁷⁹⁷ Part of Pro Mujer's efforts include providing capital, technical support and capacity building support to micro, small and medium Enterprises in the Northern Triangle.⁷⁹⁸

On 10 June 2021, the Department of Labor awarded USD89 million through the YouthBuild program to provide pre-apprenticeship opportunities for youth where they will receive in-class education as well as on the job training in in-demand industries.⁷⁹⁹ The program offers support to youth including mentoring, trauma-informed care, and personal counseling services.⁸⁰⁰

On 10 June 2021, the Department of Labor awarded USD20 million to four grantee organizations through its Workforce Pathways for Youth program.⁸⁰¹ The funding will expand youth workforce development activities during non-school hours in various cities across the country.⁸⁰² The grantee organizations will provide support to youth including career exploration services, career counseling and work experience.⁸⁰³

On 15 June 2021, the US-EU Summit statement outlined the renewed transatlantic partnership between the US and EU.⁸⁰⁴ One of the goals of the partnership is to strengthen trade, investment, and technological cooperation. To facilitate this goal, a high-level US-EU Trade and Technology Council (TTC) was established.⁸⁰⁵ The TTC will initially include working groups committed to promoting the access and use of digital technologies to SMEs.⁸⁰⁶

highlighted the potential impacts the law could have on racial equity, gender-based violence, and public health.⁸¹⁶

On 10 September 2021, President Biden proclaimed the week of 12 to 18 September 2021 as National Small Business Week.⁸¹⁷ The week celebrates the importance of small business to the American economy and encourages continued support for them.⁸¹⁸ President Biden acknowledged the contributions that the American Rescue Plan, Paycheck Protection Program, and the Paycheck Protection Program have had on the success of small businesses during the pandemic.⁸¹⁹

The United States has taken strong action in all four areas of increasing access to opportunities for youth, increasing access to opportunities for women, increasing access to opportunities for SMEs and upskilling of workers. Through the Memorandum on Protecting Women's Health at Home and Abroad, proposal of the American Rescue Plan, the American Jobs Plan and the American Families Plan, the proclamation of numerous days of awareness and acknowledgement for women and youth and adjustments to the PPP, the United States has fully complied with its commitment to reducing inequalities and promoting inclusive growth.

Thus, the United States receives a score of +1.

Analysts: Rebecca Jones and Malhaar Mobarir

European Union: +1

The European Union has fully complied with its commitment to reduce inequalities and promote inclusive growth.

On 16 December 2020, the European Parliament announced its blueprint for small and medium sized enterprises (SMEs) in the post-pandemic recovery.⁸²⁰ The blueprint advocates for measures to help SMEs deal with the “twin challenges of digitalization and decarbonization.”⁸²¹ Furthermore, the report “highlights the need to update the European Commission's SME strategy in the light of the COVID crisis while keeping the focus on advancing the transition toward a socially, economically, and environmentally resilient society and a competitive economy.”⁸²² Among the recommendations

included ensuring liquidity and funding for SMEs and developing initiatives to support SMEs in adopting new digital and e-commerce solutions.⁸²³

On 30 December 2020, the European Union's Delegation to Cambodia announced a joint investment with Germany and France to finance the development of rural infrastructure in Cambodia.⁸²⁴ Rural Infrastructure Development for Cambodia project received USD115 million to improve the road network in the country's central plains and construct complementary infrastructure in the drinking water and sanitation, agriculture, health and education sectors.⁸²⁵ The EU Ambassador to Cambodia Carmen Moreno stated that a "better connectivity to access markets and services is key to reduce poverty and economic disparities as well as to create new job opportunities," particularly in the pandemic recovery process.⁸²⁶

On 18 February 2021, High Representative and Vice-President Josep Borrell convened the Global Tech Panel for the first time, bringing together diplomatic, technology, and civil society leaders together to "reflect on how to join forces to deal with the opportunities and risks that the world faces as it emerges from the pandemic."⁸²⁷ The Panel will work together to "explore potential areas of engagement ranging from pandemic recovery to education and security to working with partners in Africa on digital transformation, among others."⁸²⁸

On 4 March 2021, the European Commission presented a Recommendation on Effective Active Support to Employment following the COVID-19 crisis.⁸²⁹ The recommendation outlined a strategic action plan to transition from emergency economic measures to new measures to support a "job-rich recovery."⁸³⁰ The Commission provided guidance to Member States on labour market policies, which includes three components: hiring incentives and entrepreneurial support, upskilling and reskilling opportunities and enhanced support by employment services, especially for youth and sectors most

impacted.⁸³¹ The Commission calls on Member States “to make full use of support available at EU level.”⁸³²

On 5 March 2021, the European Commission affirmed their commitment to ensuring gender equality will “be at the heart of the post-pandemic recovery.”⁸³³ The Commission announced that later in 2021, they will “present a new proposal to combat gender-based violence in the EU.”⁸³⁴ Furthermore, the Commission published its 2021 Report on Gender Equality in the EU, which reaffirmed the European Union’s commitment to its Gender Equality Strategy 2020-2025 and its new Gender Action Plan for 2021-2025.⁸³⁵

On 8 March 2021, the European Commission called on companies in all sectors to commit to upskill their workforce through the Digital Skills and Jobs Coalition.⁸³⁶ Commissioner for the Digital Economy and Society Mariya Gabriel stated “digitisation is transforming the way we work and leave. It leads to the creation of new jobs, requiring new digital skills. Most of the time, however, it makes traditional jobs more digital, requiring all workers to develop or improve their digital skills. We have to be active and to prepare ourselves for the requirements of the work of the future.”⁸³⁷ The Digital Skills and Jobs Coalition has opened a call for pledges specifically addressing re-skilling and upskilling workers.⁸³⁸

On 8 March 2021, the European Commission published the Interim Report of the Pilot Project on digital skills: New Professions, New Educational Methods, New Jobs which will design training solution in digital skills to upskill SMEs’ labour force.⁸³⁹ The project will develop a structured programme for training of SME employees and the unemployed in digital skills required in the modern workplace.⁸⁴⁰

On 18 March 2021, the European Commission announced the launch of the European Innovation Council. The Council will have a budget of EUR10 billion for 2021-2027 to “develop and expand

training systems in the face of the pandemic.”⁸⁴⁹ The new program “provides opportunities for study periods abroad, traineeships, apprenticeships, and staff exchanges in all fields of education, training, youth and sport.”⁸⁵⁰

On 9 April 2021, the European Commission opened its first European Innovation Council (EIC) calls worth over EUR1 billion in funding.⁸⁵¹ The program includes EIC Accelerator funding which “aims to help scale up start-ups and small and medium-sized businesses that have the potential to achieve high impact,” with EUR495 million “earmarked for innovations that support the European Green Deal as well as digital and health technologies.”⁸⁵² Through the EIC Pathfinder, researchers can apply for “research and innovation grants” which range from EUR3 to 4 million.⁸⁵³

On 15 April 2021, the European Commission launched its first call for proposals under its new European Solidarity Corps 2021-2027, which “supports young people wishing to engage in volunteering activities in a variety of areas.”⁸⁵⁴ The program has a dedicated budget of over EUR1 billion for 2021-2027 and will offer “opportunities to some 275,000 young people to help address societal and humanitarian challenges through volunteering or by setting up their own solidarity projects.”⁸⁵⁵ One of the main political priorities the European Solidarity Corps supports is supporting “the digital transition through projects and activities that boost digital skills, foster digital literacy and develop understanding of the risks and opportunities of digital technology.”⁸⁵⁶

On 28 April 2021, the European Union announced that the European Investment Fund and European Institute of Innovation of Technology (EIT) Digital will be teaming up to support the European Union’s digital transformation by offering “deferred payment schemes for students and learners participating in its courses, thus improving access to education.”⁸⁵⁷ The new scheme is expected to benefit around 500 future EIT Digital students.⁸⁵⁸ Vice-President for Promoting our European Way of Life Margaritis Schinas said “The digital transition profoundly changes the way we

live, study and work. We must equip people with the right skills to master this transition and make the most out of the opportunities the future brings.”⁸⁵⁹

On 7 July 2021, Commissioner Gabriel held a dialogue on European education technology (EdTech).⁸⁶⁰ The discussions were held to foster the growing the cooperation between the government and the EdTech sector.⁸⁶¹ An issue that was covered in these discussions as the need to boost teacher training in innovative methods.⁸⁶² It is understood that by working together, educational innovation will thrive.⁸⁶³

The European Union has taken strong action in all four areas of promoting increased access to opportunities for women, increased access to opportunities for youth, increased access to opportunities for SMEs, and upskilling and reskilling of workers. They have developed plans to support SMEs and create opportunities for youth and skills development, particularly in the areas of post-pandemic recovery, digital transformation, and tackling environmental challenges. They have developed plans to support gender equality and promote the role of women in the economy. They have given additional foreign aid to foster inclusive growth in other countries.

Thus, the European Union receives a score of +1.

Background

The G20 leaders first addressed the issue of inclusive economic growth at the 2014 Brisbane Summit, calling for two per cent of economic growth to be directed towards supporting “development and inclusive growth” and helping “to reduce inequality and poverty” by 2018.⁸⁶⁴

At the 2015 Antalya Summit, G20 leaders agreed that inclusive growth requires “the use of all policy tools and strong engagement with all stakeholders” and that inclusive growth should be “inclusive, job-rich” and benefit “all segments of our societies.”⁸⁶⁵ The theme of using “all policy tools” to work towards bolstering inclusive growth has remained a theme since the Antalya Summit.

At the 2016 Hangzhou Summit, G20 leaders further committed to advancing “sustainable, balanced, and inclusive growth,” outlining in the Hangzhou consensus policies and actions that members should be taking to promote inclusive growth.⁸⁶⁶ The actions and policies outlined followed four

main themes: vision, integration, openness and inclusiveness.⁸⁶⁷ These four themes lay the foundation of what inclusive growth would look like moving forward, including sustainability, cooperation, fairness and removing inequalities in the international economic system.⁸⁶⁸

At the 2017 Hamburg Summit, G20 leaders reiterated their commitment to inclusive growth, stating that “strong, sustainable, balanced and inclusive growth ...remains our highest priority.”⁸⁶⁹ Once again, leaders committed to using “all policy tools” in advancing inclusive growth.⁸⁷⁰ The leaders also focused on international investment, digitalization, empowering women and equal access to financial and economic systems as important components of promoting inclusive growth.⁸⁷¹ The G20 Africa Partnership was also discussed as a vehicle to advance and promote inclusive growth amongst African economies.⁸⁷²

At the 2018 Buenos Aires Summit, G20 leaders continued the theme of prior summits by committing to “use all policy tools to achieve strong, sustainable, balanced, and inclusive growth.”⁸⁷³ One of the summit’s priority areas, infrastructure, was also promoted as a significant factor in advancing inclusive growth.⁸⁷⁴ In the Buenos Aires Action Plan, G20 leaders outlined the primary areas to focus and improve on in promoting inclusive growth, and also offered previously implemented measures in areas such as tax, education, social security reform, financial regulation and labour that had a positive impact on advancing inclusive growth.⁸⁷⁵

The central theme of using “all policy tools” to achieve inclusive growth continued at the 2019 Osaka Summit, where G20 leaders reaffirmed their committed to “use all policy tools to achieve strong, sustainable, balanced and inclusive growth, and safeguard against downside risks, by stepping up our dialogue and actions to enhance confidence.”⁸⁷⁶ G20 members identified that “carefully calibrated macroeconomic and structural policies tailored to country-specific circumstances” are imperative in order to achieve this commitment.⁸⁷⁷ In addition, central banks were included as vital actors in promoting inclusive growth and safeguarding against “downside risks,” and leaders called upon central banks to promote “flexible and growth-friendly” fiscal policies to maintain stability and sustainability on the path to inclusive growth.⁸⁷⁸

In 2020, amid economic constraints put by the COVID-19 pandemic, the G20 leaders highlighted the necessity to provide sustainable capital flows and foster domestic capital markets development to ensure economic recovery and growth after the pandemic is over.⁸⁷⁹

Commitment Features

The commitment requires the G20 members to take actions to provide sustainable capital flows and foster domestic capital markets. To achieve full compliance, the G20 member shall take steps that match both aspects of the commitment.

Sustainable Capital Flows

According to the International Monetary Fund, the term “capital flow” refers to “cross-border financial transactions recorded in economies’ external financial accounts.”⁸⁸⁰ “Sustainable’ implies “able to continue at the same level for a period of time.”⁸⁸¹ Combined, “sustainable capital flows” is defined as the movement of money for investment in and out of countries that remains at the same level for a period of time.

The list of actions that might be possibly taken by the G20 members, includes but not limited to:

- Strengthen financial supervision and regulation;
- Maintaining sound monetary policy to avoid overheating;
- Counter-cyclical fiscal measures (increase in government spending, cutting taxes, etc.);
- Accumulation of foreign exchange reserves, etc.

Domestic Capital Market Development

The “capital market” generally refers to “an organized market that provides facilities for dealing in stocks and shares and through which (along with special financial institutions dealing therein) new capital could be raised by the offer of securities to the public.”⁸⁸² “Domestic” in this context refers to something that is limited to a particular jurisdiction. Finally, “development” refers to “process in which someone or something grows or changes and becomes more advanced.”⁸⁸³

The G20 members are required to take actions that makes their domestic capital markets stronger against the current economic constrains caused by the COVID-19 pandemic. As it is proposed by the Bank for International Settlements,⁸⁸⁴ possible actions may include, but are not limited to:

- Strengthening legal and judicial systems for investor protection. For example, easing access to legal recourse; lowering litigation costs; promoting well defined property and contracting rights; giving minority shareholders more information and access to information, etc.;

- Enhancing regulatory independence and effectiveness, that implies strengthening legal foundations to raise operational independence; ensuring adequate staffing and resources; raising disclosure and accounting standards, etc.;
- Deepening the domestic institutional investor base. This aspect refers to provision of tax benefits for institutional investors; increasing transparency and investors education to facilitate effective choices among investment options, etc.;
- Pursuing bi-directional opening to international participation while preparing for spillovers that implies lifting barriers to foreign participation; implementation of policies aimed at reduction of spillover risks, etc.

Scoring Guidelines

| | |
|----|--------------------------------------------------------------------------------------------------------------------------------|
| -1 | The G20 member does not take actions to provide sustainable capital flows and develop its domestic capital market |
| 0 | The G20 member takes actions either to provide the sustainable capital flows or facilitate domestic capital market development |
| +1 | The G20 member takes actions to provide sustainable capital flows AND facilitate domestic capital market development |

Argentina: +1

Argentina has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 3 December 2020, the Central Bank, the Ministry of Science, Technology and Innovation, and the National Council for Scientific and Technical Research entered into a cooperation agreement. “The agreement aims to promote research and interaction for the design of coordinated public policies that may boost economic development in line with both the constraints and potential aspects of the monetary and foreign exchange regime adopted by the Central Bank.”⁸⁸⁵

On 31 March 2021, “the Board of the Central Bank has approved a policy that seeks to encourage credit, financial inclusion, electronic payment, and a better functioning and geographical distribution of ATMs. The policy focuses on four major concerns: to grant loans to individuals and [small and medium sized enterprises] (SMEs) who have not been recorded in the Debtors’ Database of the Financial System; to foster the use of e-checks and electronic credit invoices; to encourage the use of electronic means of payment and automatic bill payments from savings accounts; to improve the efficiency of ATMs in order to reduce downtime and to extend the network to reach cities and towns where there is no such service today.”⁸⁸⁶

On 22 April 2021, the National Securities Commission “approved a special regime for the placement of funds for environmental and social projects or activities, in accordance with its sustainable investment guidelines and the standards of the United Nations Development Program. The new regime is also part of the regulatory body’s Sustainable Finance Program with the principles of raising

awareness among capital market players about integrating environmental, social and governance factors in investments, in addition to generating structures that advance sustainable financing.”⁸⁸⁷

On 3 May 2021, President of the National Securities Commission Adrián Cosentino said that “it is a priority” of the organization “to develop the capital market to promote productive and federal financing.” By highlighting the role of the capital market in the current situation, and despite the difficulties, Mr. Cosentino urged to continue working side by side between the public and the private sector to “delve into financing products and arrive in a timely manner to address this need across the country.”⁸⁸⁸

On 7 May 2021, the National Securities Commission “approved order RG888/21 that enables public consultation aimed at innovating the regulations for the negotiation of deferred payment checks and promissory notes, as part of the agency’s strategic agenda to promote products that enhance the growth of SMEs and generate a contribution from the capital market to the real economy.”⁸⁸⁹

On 27 May 2021, Board of the Central Bank adopted resolution in line with international practices, which seeks to create a liquid and deep market for sovereign bonds, thus ensuring the smooth functioning of the capital market. Central Bank created a mechanism whereby banks may sell to it, if required, the bonds they have already bought to satisfy their minimum reserve requirements. This measure is intended to make minimum reserve requirements liquid at all times.⁸⁹⁰

On 17 June 2021, Board of the Central Bank approved the Operating Regulation for implementing the Agreement for Local Currency Payment System (SML) with the Central Bank of Paraguay, effective from 22 June 2021. The SML will channel payments for transactions made among natural or legal persons residing or headquartered in Argentina or Paraguay.⁸⁹¹

On 9 August 2021, President of the Central Bank Miguel Pesce and the Minister of Foreign Affairs Felipe Sola signed a master agreement to encourage cooperation and exchange of information for improving foreign direct investment in Argentina and promoting exports of goods and services.⁸⁹²

On 12 August 2021, Board of the Central Bank authorized financial institutions to purchase open-end mutual funds units approved by the National Securities Commission subject to the “Special

Regime for the Creation of Open-End Mutual Funds for Financing Infrastructure and the Real Economy.”⁸⁹³

On 19 August 2021, Board of the Central Bank adopted a resolution instructing financial institutions and payment service providers to generate a quick response code within 60 days to identify their commercial clients’ accounts. This will ensure that money transfers and virtual payments among natural or legal persons are made instantaneously.⁸⁹⁴

Argentina has taken actions both to provide sustainable capital flows and facilitate domestic capital market development.

Thus, Argentina receives a score of +1.

Analyst: Irina Popova

Australia: +1

Australia has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 15 December 2020, the Prudential Regulation Authority announced that banks and insurers will no longer require to have a minimum level of earnings retention from 1 January 2021.⁸⁹⁵

On 2 February 2021, Australia purchased an additional AUD100 billion of bonds when the current bond purchase program is completed in April.⁸⁹⁶

On 21 February 2021, the Prudential Regulation Authority released its policy and supervision priorities for 2021. The priorities include “strengthening crisis preparedness,” “updating prudential standards on operational risk, governance and risk management,” “completing the ongoing review of the capital framework for authorised deposit-taking institutions” and “continuing work on strengthening the capital framework for private health insurers.”⁸⁹⁷

On 11 May 2021, the Australian government introduced the 2021-2022 Budget to the public. The Budget included AUD7.8 billion tax cuts for low- and middle-income households, AUD20.7 billion tax relief for businesses, as well as AUD15.2 billion government spending on infrastructure development over 10 years.⁸⁹⁸

Australia has taken actions to provide sustainable capital flows and facilitate domestic capital market development.

Thus, Australia receives a score of +1.

Brazil: +1

Brazil has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 25 February 2021, “President Jair Bolsonaro signed the complementary law that defines the objectives of the Central Bank of Brazil, it provides for its autonomy and the appointment and dismissal of its president and its directors. According to the text, the mandates of the president and directors of the Central Bank do not coincide with the mandate of president of the Republic.”⁸⁹⁹ “The Central Bank of Brazil, which before the change was linked to the Ministry of Economy, will become an autarchy of a special nature, characterized by the absence of ties to the Ministry, tutelage or hierarchical subordination, by technical, operational, administrative and financial autonomy.”⁹⁰⁰

On 8 April 2021, the Central Bank “proposed the improvement of the rules of risk management and social, environmental and climate responsibility applicable to the institutions of the system, in order to incorporate the most recent international debates on the subject and the national experience.”⁹⁰¹

On 7 May 2021, the Securities and Exchange Commission (CVM) published “guidelines for independent auditors in line with the best practices in the capital market. The new version of the document is a direct result of the regulators’ supervision and inspection action.”⁹⁰²

On 11 May 2021, the CVM “issued two resolutions: the CVM Resolution 29, on rules for establishment and operation of experimental regulatory environment (regulatory sandbox). The CVM Resolution 30, on the verification task of adapting products, services and operations to the customer profile (suitability). The measures are part of reviewing and consolidating normative acts below the decree, determined by Decree 10.139/19. The main focus of this initiative is to increase the efficiency of regulation, without disregarding the risks that such actions may represent for the protection of investors.”⁹⁰³

On 2 July 2021, the Central Bank of Brazil launched the new Liquidity Finance Lines in local currency, which are resources permanently available to financial institutions. The two lines created are instituted in the form of a loan against a basket of collateral. Initially, debentures and commercial notes will be eligible as collateral. This is an action from the BC# Agenda, Competitiveness dimension, which seeks to increase market efficiency.⁹⁰⁴

On 12 August 2021, CVM launched public consultation on new rules applicable to independent investment agents. Two draft resolutions introduce substantial updates to the regulatory framework for autonomous investment and intermediation agents in securities transactions. Main innovations

are: elimination of the obligation to act on an exclusive basis with intermediaries; elimination of the requirement to adopt the form of simple companies; need to adopt internal policies, rules and controls for autonomous agents who wish to take advantage of the new possibilities allowed by the regulations; qualitative information on remuneration and conflicts of interest of agents involved in the intermediation of operations; periodic statements with quantitative information on the remuneration paid by the investor in these operations.⁹⁰⁵

On 15 September 2021, CVM proposed to change the non-resident investor rule. The objective is to reduce bureaucracy and streamline the access of this type of investor (natural person) to the Brazilian market. CVM proposes that non-resident natural person investors operate in the Brazilian market without having to undergo a registration procedure with CVM. In return, its representative in Brazil must, before starting its operations, send standardized information about the investor, through an electronic system provided by the CVM or by an organized market management entity.⁹⁰⁶

Brazil has taken actions both to provide sustainable capital flows and facilitate domestic capital market development.

Thus, Brazil receives a score of +1.

Canada: +1

Canada has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 1 January 2021, Canada announced the amendments to the Investment Canada Act with new thresholds for foreign direct investment. The threshold for direct acquisitions of control by investors that are members of the World Trade Organization (WTO) has been reduced from CAD1.075 billion to CAD1.043 billion; for investors from countries with preferential trade agreements with Canada – from CAD1.613 billion to CAD1.565 billion, and for WTO members’ state-owned investors – from CAD428 million to CAD415 million.⁹⁰⁷

On 24 March 2021, the Ministry of Innovation, Science and Industry issued the Guidelines on the National Security Review of Investments. The updates focus on identifying certain sensitive technology areas, critical minerals, sensitive personal data, and investments by state-owned or state-influenced investors as factors considered in national security reviews.⁹⁰⁸

On 31 March 2021, the Bank of Canada released the results of open consultations on inflation and monetary policy. The outreach, according to the Bank of Canada, demonstrated steady public trust in the Bank and in the stability of Canada’s financial system during the COVID-19 pandemic, public confidence in the bank’s ability to keep inflation on target, as well as the support for “the current inflation-targeting framework over other options” and the Bank’s current quantitative easing

program. The consultations are to form the basis for an agreement between the Bank and the Federal government on the next framework to guide monetary policy until 2026.⁹⁰⁹

On 19 April 2020, Canada presented the Budget 2021. The budget allocated CAD560 million to support around 2900 small businesses.⁹¹⁰ The budget also introduced tax measures to help businesses and other organizations affected by the COVID-19 pandemic, including the Canada Emergency Wage Subsidy, the Canada Emergency Rent Subsidy and the Lockdown Support.⁹¹¹

On 21 April 2021, the Bank of Canada held its target for the overnight rate at the effective lower bound of 0.25 per cent, with the Bank Rate at 0.5 per cent and the deposit rate at 0.25 per cent. The Bank continues to provide extraordinary forward guidance on the path for the overnight rate, reinforced and supplemented by the Bank's quantitative easing program. Effective the week of April 26, weekly net purchases of Government of Canada bonds will be adjusted to a target of CAD3 billion. This adjustment to the amount of incremental stimulus being added each week reflects the progress made in the economic recovery.⁹¹²

In May 2021, official international reserves of the country have decreased from USD91.74 billion in December 2020,⁹¹³ to USD84.23 billion in May 2021.⁹¹⁴

On 10 August 2021, the Government of Canada launched consultations with stakeholders on the proposed Luxury Tax, which would apply to the sales of luxury cars and aircraft costing over CAD100 thousand and watercraft costing over CAD250,000. The participants were invited to provide their views on the design and properties of this arrangement by 30 September 2021.⁹¹⁵

On 20 April 2021, Germany published the first allocation report for its Green Federal securities issued in 2020. The Green Bond Allocation Report 2020 provides investors with transparent and binding information on expenditures from the federal government's environmental and climate protection programs. It listed expenditures recognized as "green" in the 2019 federal budget and allocated them to the EUR11.5 billion proceeds from Green German Federal securities issued in 2020. According to State Secretary Jörg Kukies, by issuing green bonds the federal government "made a significant contribution to the growth of the sustainable bond market and thus firmly established Germany as a sustainable finance centre."⁹²⁶

On 27 April 2021, Germany adopted the German Recovery and Resilience Plan. 90 per cent of the spending in the plan is targeted towards climate action and the digital transformation.⁹²⁷

Germany has taken actions to provide sustainable capital flows and facilitate domestic capital market development.

India: 0

India has partially complied with the commitment to strengthen long-term financial resilience and support growth.

On 2 March 2021, India published comprehensive amendments to the Insurance Ombudsman Rules 2017, with a view to improve the working of the Insurance Ombudsman mechanism to facilitate resolution of complaints regarding deficiencies in insurance services in a timely, cost-effective and impartial manner. The amended rules have enlarged the scope of complaints to Ombudsmen from only disputes earlier to deficiencies in service on the part of insurers, agents, brokers and other intermediaries. Further, insurance brokers have been brought within the ambit of the Ombudsman mechanism, by empowering the Ombudsmen to pass awards against insurance brokers as well.⁹²⁸

On 24 July 2021, the Central Board of Indirect Taxes and Customs abolished the requirement of periodic renewals of Licence/Registration issued to Customs Brokers and Authorised Carriers. This would greatly help reduce the compliance burden cast on the trade, which had to otherwise make application and submit numerous documents to renew their licenses/registrations.⁹²⁹

India has taken actions to facilitate domestic capital market development, but no actions to provide sustainable capital flows were registered during the compliance period.

Indonesia: +1

Indonesia has fully complied with the commitment to strengthen long-term financial resilience and support growth.

In February 2021, Bank Indonesia cut its policy rate and implemented quantitative easing as well as macro-prudential measures to increase liquidity. Furthermore, “Inflation is projected to remain low and accommodative monetary policy, accompanied by forward guidance, should continue.”⁹³⁰

On 2 February 2021, Indonesia enacted a new regulation on investment as one of the implementing regulations of “Omnibus Law,” which includes the removal of some restrictions on foreign investment in order to boost investments flow into pandemic-hit economy. The new regulation became effective on 4 March 2021.

On 4 March 2021, Indonesia’s Omnibus Law entered into force. The Omnibus Law transformed the negative investment list into a positive list, which covers businesses that are open or restricted to foreign investors. “The positive investment list marks a fundamental change in approach from a negative, restricted stance to a positive, permitted one,” which will open Indonesia’s economy up to foreign direct investment and “transform the country into one of the world’s top five economies.”⁹³¹

On 4 May 2021, Indonesia issued Regulation No. 40 of 2021 (GR-40) on the Organization of Special Economic Zones (SEZ). According to the Regulation, a business entity and/or business actor, which carries-out its business activities in a SEZ, is provided with facilities and relief in the form of taxation, customs and excise; fast-tracked flow of goods; employment; immigration; land affairs and spatial planning support; ease of business licensing; and other facilities and relief.⁹³²

On 10 June 2021, the World Bank’s Board of Executive Directors approved a loan of USD400 million to support reforms that will help Indonesia increase the depth, improve the efficiency, and strengthen the resilience of the financial sector. The new development policy loan will support Indonesia’s financial sector reforms through three key approaches. First, it aims to increase the depth of the financial sector by expanding the access to financial services - including by youth and women - broadening the range of financial products and incentivizing long-term savings. These efforts would reduce Indonesia’s vulnerability to foreign portfolio outflows. Second, it aims to improve the efficiency and lower the cost of the financial sector by strengthening the insolvency and creditor rights framework, protect consumers and personal data, and make payment systems more efficient and faster by utilizing digital technology. The latter will help large-scale social assistance payments to vulnerable people during the crisis. Third, it aims to boost the capacity of the financial sector to withstand shocks by strengthening the resolution framework to avoid financial activities disruptions

in the event of a bank failure, advancing the effectiveness of financial sector oversight and implementing sustainable finance practices.⁹³³

From 21 to 22 July 2021, Bank Indonesia decided to leave the seven-day reverse repo rate at the all-time low of 3.50 per cent, where it has been since February 2021. The Bank's decision was underpinned by its commitment to help the recovery amid spiking new COVID-19 infections, which led the government to impose new restrictions which could weigh on activity in the third quarter. Against this backdrop, Bank Indonesia revised down its 2021 GDP growth projections from 4.1 per cent – 5.1 per cent to 3.5 per cent – 4.3 per cent. Meanwhile, price pressures are fairly low, with inflation easing markedly in June, providing the space to maintain a dovish stance. That said, the Bank expects the headline reading to return to and remain within the 2.0 per cent – 4.0 per cent target range going forward.⁹³⁴

On 24 August 2021, Indonesia announced the drafting of more progressive emissions reduction scheme under a draft Presidential Regulation on Instruments of Carbon Economic Value for Nationally Determined Contributions (Carbon Economic Value Bill). The proposed scheme would regulate the carbon trade, provide payments based on performance in reducing greenhouse gas emissions, and impose a levy on carbon emissions. The Carbon Economic Value Bill is in the process of being finalized and is expected to be enacted by the end of 2021. The proposed carbon tax would be imposed on individuals or entities purchasing goods containing carbon and/or conducting activities that generate carbon emissions. The Tax Bill contains general carbon tax provisions, which include catch-all provisions to tax any goods or activities that cause environmental externalities, such as depletion of natural resources, environmental pollution, or environmental damage.⁹³⁵

Indonesia has taken a number of actions to provide sustainable capital flows and facilitate domestic capital market development answering commitments within the G20.

Thus, Indonesia receives a score of +1.

among other things, procedures for conducting on-site inspections on the premises of supervised entities physically located in the jurisdiction of the other authority.”⁹³⁷

On 25 April 2021, the Government of Italy presented the National Recovery and Resilience Plan to the Parliament. The Plan is a part of the European Next Generation EU EUR750 billion package, aimed at environmental transition and carbon-neutral recovery from the pandemic-induced crisis. The Plan, inter alia, provides for structural reforms in public administration, with the intention to streamline government services and improve quality of regulation.⁹³⁸ According to Prime Minister Mario Draghi, the Plan, totaling EUR222.1 billion in government investment, represents a new quality of fiscal policy, spurring government spending and structural reforms without the need to raise interest rates.⁹³⁹

Italy took actions to provide sustainable capital flows and facilitate domestic capital market development.

Thus, Italy receives a score of +1.

Japan has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 5 March 2021, Japan “submitted an omnibus bill with the National Diet (the Proposed Bill), which included amendments to the Financial Instruments and Exchange Act of Japan (FIEA) (Act No. 25 of 1948, as amended) to provide the licensing exemptions for the benefit of foreign asset managers that intend to open offices in Japan.”⁹⁴⁰

On 1 April 2021, a tax reform became effective. The tax reform includes “favorable changes...to corporate tax, income tax and inheritance tax for asset management firms and their employees.”⁹⁴¹

As of 22 April 2021, Japan was considering two licensing exemptions. “The Proposed Bill provides: An exemption from Type II broker-dealer and investment management registration for fund operators of certain partnership-type funds (which have “primarily” foreign investors) when offering certain eligible partnership-type funds and managing assets invested in those funds (the Foreign Investor Fund Exemption); and an up to five-year registration moratorium for foreign managers registered with a foreign authority who have foreign investors only and who satisfy certain eligibility requirements (the Registration Moratorium). The Proposed Bill is expected to pass during the current 204th Diet Session, currently scheduled to conclude on 16 June 2021. The Proposed Bill provides that, if adopted by the National Diet, the amendments to the FIEA be implemented at a date

Korea has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 7 December 2020, the Financial Services Commission unveiled its plans to introduce a routine inspection of personal data protection at financial institutions to ensure consistency in data protection and improve accountability. The plans include establishing specific inspection standards according to the data lifecycle, providing feedbacks on a regular basis through Financial Security Institute and setting up self-inspection guidelines for financial institutions.⁹⁴⁶

On 12 January 2021, Korea announced its decision to make in-kind contribution of KRW650 billion in the Korea Asset Management Corporation to facilitate its operation of the corporate asset purchase program. With this capital increase, the government expects that the Korean Asset Management corporation will be able to provide more steady support for companies in need of asset sell-offs.⁹⁴⁷

On 2 February 2021, Korea approved the revisions to the Enforcement Decree of the Financial Investment Services and Capital Markets Act. The approved revisions are intended to bolster investor protection by “(a) specifying the criteria for determining ‘highly complex’ investment products; (b) strengthening requirements on the recording and cooling-off period during the sales

process of ‘highly complex’ investment products; (c) newly establishing a legal ground to regulate sellers of OEM [Original Equipment Manufacturer] funds; (d) tightening regulations to close loopholes of publicly offered funds being sold in the form of a private fund; and (e) raising the retail investors’ minimum investment threshold in hedge funds from KRW100 million to KRW300 million.”⁹⁴⁸

On 24 March 2021, Korea “passed the amendments to the Financial Investment Services and Capital Markets Act during a plenary session...with aims to improve the rules on private equity funds. The amendments will go through an approval process at a cabinet meeting prior to the pronouncement and will take effect in six months. The amendments introduce stronger protection measures for retail investors in the [private equity funds] market.”⁹⁴⁹

On 13 April 2021, Korea “approved the revision to the Special Act on Support for Financial Innovation during a cabinet meeting held on April 13 to make improvements to the financial regulatory sandbox program and support “innovative financial service” providers. The revised Act allows “innovative financial service” providers to file requests for regulatory improvements while extending the period of regulatory exemption for an additional year and six months if the authorities decide to accept the request and make relevant changes to the regulation.”⁹⁵⁰

On 22 April 2021, the Financial Services Commission “announced that the authorities decided to extend the period of financial support made available through the key industry stabilization fund for eight months until 31 December 2021 from the initial expiration date of 30 April” 2021.”⁹⁵¹

On 6 May 2021, the Financial Services Commission “introduced the measures to improve rules on the suspension of licensing review process for financial institutions. The measures are intended to increase predictability and minimize legal uncertainties for businesses.”⁹⁵² “First, the authorities will newly establish a guideline that provides a specific and detailed list of grounds and reasons for suspending a licensing review process. Second, for business entities whose licensing review process has been suspended, the authorities will reconsider every six months the possibility of resuming the licensing review process and whether to extend the suspension period. Third, the suspension of licensing review process, which is currently not applicable to insurance businesses, specialized credit finance companies and financial holding companies, will be applied across all financial sectors to enhance consistency.”⁹⁵³

On 10 May 2021, the Financial Services Commission “announced that financial institutions will be required to record the sales process when selling “highly complex investment products” and making sales to elderly investors starting from 10 May. In addition, a cooling-off period of two business days or more will be guaranteed for investors on “highly complex investment products” to allow them to make more prudent investment decisions.”⁹⁵⁴

Investment defines “regional headquarters” as having all executive staff operations and supporting functions in Saudi Arabia. Headquarters must be located in Riyadh or Dammam and Jeddah with prior government authorization.”⁹⁸²

On 7 April 2021, Saudi Arabia announced details of the an investment program, which encompasses three main initiatives, with a SAR10 trillion target (excluding SAR2 trillion Foreign Direct Investment (FDI)) over the next ten years. “The three main initiatives include the “Shareek” program, the Public Investment Fund (PIF) investment program, and the to-be-announced National Investment Strategy (NIS). The Shareek program seeks to partner with the private sector. Saudi Crown Prince Mohammed bin Salman launched the program in late March 2021, as part of the broader investment program. Shareek is meant as a partnership of the government with the private sector to increase domestic investments and support economic growth. The goal of the Shareek program is to unleash domestic investments of SAR5 trillion (166 per cent of 2021 GDP) over the period to 2030. The PIF investment program contribute SAR3 trillion in investments over the same period. The PIF domestic investments averaged SAR62 billion over the period 2016-20 with targeted annual investments of SAR 150 billion over the period 2021-2025. Extending this pace of annual investments to 2030 would bring cumulative investments by the PIF to SAR1.5 trillion over the 2021-2030 period. The to-be-announced NIS will also generate SAR4 trillion in investments over the same period, which is estimated to include an ambitious target of SAR2 trillion in Foreign Direct Investments.”⁹⁸³

On 29 July 2021, the Capital Markets Authority announced it launched a consultation on proposed amendments to the Resolution of Securities Disputes Proceedings Regulation. The amendments will regulate the procedures for considering the lawsuit through the electronic system, including submitting and filing the claim with the Committee, holding remote hearings, exchanging memorandums, issuing decisions, and objecting to them. They aim to improve the proceedings of securities disputes before the Committees for Resolution of Securities Disputes and develop procedures that boost the speed and efficiency of hearings and decisions on lawsuits.⁹⁸⁴

On 17 September 2021, Saudi Arabia announced the formation of a committee tasked with regulating foreign investment levels. The initiative is designed to protect certain critical sectors in the face of increased investment from overseas. One of its first tasks is to draw up a criterion for foreign investors, outlining what sectors are excluded, according to a report from Saudi financial news service Agraam. In addition, the committee, which will be chaired by the government’s investment minister, will also set a limit for foreign ownership in local companies.⁹⁸⁵

Saudi Arabia has taken a number of important actions to strengthen long-term financial resilience and support growth.

Thus, Saudi Arabia receives a score of +1.

South Africa has partially complied with the commitment to strengthen long-term financial resilience and support growth.

On 11 December 2020, the National Development Agency has allocated ZAR32 million (approximately USD2.2 million) for 200 civil society organizations to stimulate local economic development.⁹⁸⁶

On 5 February 2021, the Government of South Africa announced its intention to allocate ZAR 400 million (approximately USD28.3 million) to assist the early childhood development sector that had been badly hit with COVID-19–related restrictions. “The department said the budget allocation, known as the Early Childhood Development Stimulus Relief Fund, is part of sustaining and creating employment opportunities in the sector, in light of the high unemployment rate and job losses occasioned by the pandemic.”⁹⁸⁷

On 24 February 2021, the National Treasury announced that “a total ZAR217 billion (approximately USD15 billion) would be spent over the next three-years on ambitious economic development programs aimed at promoting faster and sustained inclusive economic growth...According to the document, an allocation of ZAR81.6 billion (approximately USD5.7 billion) over the medium term will support the expansion of public employment programs while a further R1 billion is set aside to enhance accountability for waste management.”⁹⁸⁸

On 22 April 2021, the Cabinet approved the Tourism Sector Recovery Plan. The objective of the Plan is to preserve jobs and livelihoods along with creation of new job opportunities especially among women, youth and people with disabilities in the sector.⁹⁸⁹ Interventions and enablers outlined in the Tourism Sector Recovery Plan will facilitate the preservation of ZAR189 billion (approximately USD13.4 billion) of value and help the sector to recover.⁹⁹⁰

On 28 April 2021, “the South African Reserve Bank, as part of the modernization of the national payment system, embarked on the Authenticated Collections (AC)/DebiCheck project. This project is a first of its kind that seeks to address the increasing levels of abuse in the debit order payment system, known commercially as the early debit order (EDO) payment system. From 1 May 2021, all new and renegotiated EDO mandates will be originated in the AC/DebiCheck payment system and not in the current EDO payment system. Early debit orders will only be processed through the AC/DebiCheck payment system, while normal debit orders will still be processed later in the day as per current arrangements.”⁹⁹¹

On 25 May 2021, Minister for Small Business Development Khumbudzo Ntshavheni presented the budget proposal for the government-run Small Enterprise Development Agency (SEDA). In 2022-

Turkey: +1

Turkey has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 19 February 2021, Turkey reported “monetary policy has been significantly tightened, international reserves have stabilized and the Turkish lira has appreciated by 18 percent against the US dollar since early November” 2020. Under its new leadership, the central bank has simplified monetary policy by reverting to a single policy interest rate (one-week repo rate) to improve transparency and predictability, strengthened its communication strategy and stepped-up its tightening cycle by increasing policy rate rates by 675 basic points in November-December 2020. The real policy rate (adjusted for 12-month inflation expectations) increased to 6.8 per cent in February 2021 compared with -1.55 per cent in August 2020. Authorities have also reversed previous regulatory measures to rein in rapid credit growth. The central bank current policy settings are aimed at achieving sustained disinflation (reaching its inflation target of 5 per cent in 2023), a reversal in dollarization and rebuilding FX reserves. In line with its intention to strengthen inflation targeting credentials, the central bank has renewed its previous long-standing commitment to a floating exchange rate, after large scale interventions in 2020. The change in investor sentiment and domestic actors has led to significant lira appreciation, lower risk premium and some net capital inflows.”⁹⁹⁵

On 12 March 2021, “President Recep Tayyip Erdoğan unveiled Turkey’s latest Economic Reform Package. Macroeconomic policies of the Economic Reform Package encompass significant steps

⁹⁹⁵ Fitch Revises Turkey's Outlook to Stable; Affirms at 'BB-', Fitch Ratings (London) 19 February 2021. Access Date: 30 April 2021. <https://www.fitchratings.com/research/sovereigns/fitch-revises-turkey-outlook-to-stable-affirms-at-bb-19-02-2021>

such as ensuring price stability, increasing investments and employment, supporting financial sector and reducing the current deficit. Meanwhile, structural policies include strengthening institutional structure, encouraging investments, facilitating domestic trade, enhancing competition policies and performing market surveillance and inspection. Regarding investments, the package includes a series of regulations to further enhance the investment environment in Turkey, some of are being introducing special incentives, reducing the impact of bureaucracy and land allocation for investments. President Erdoğan added that instruments in interest-free finance will also be diversified to position Turkey as an alternative location for such investments and Tech-driven Industry Initiative and Project-based Incentives System will be bolstered up to reduce the current deficit. As part of the regulations to fight against inflation, the Turkish government has decided to establish the Price Stability Committee with representation of key sectors such as agriculture, industry and services. President Erdoğan, also heralded a new law to be introduced regarding the Istanbul Finance Center project. Once the center gets fully operational, the government will make efforts to make it a center of attraction for international finance organizations. Within the scope of a legal regulation, a new incentives mechanism will be launched specifically for the Istanbul Finance Center.”⁹⁹⁶

On 18 March 2021, “Turkey’s central bank raised its policy rate again in attempt to control rising inflation. The Central Bank of the Republic of Turkey’s seven-member monetary policy committee (MPC) raised its one-week repo rate by 200 basis points, from 17 per cent to 19 per cent. The MPC has raised the policy rate by 875 basis points in the four months.”⁹⁹⁷

On 15 July 2021, the World Bank announced extended financing worth USD1.5 billion for five critical development projects in Turkey. The financial support, together with technical and policy advice and analytical work, contribute to the implementation of Turkey’s 11th National Development Plan, as laid out in the World Bank Group’s Country Partnership Framework. With the new lending approvals in 2021, the active lending portfolio in Turkey has reached just over USD7 billion covering 23 projects.⁹⁹⁸

On 19 August 2021, the Draft Regulation on the Operating Principles of Digital Banks and Banking as a Service (“Draft Regulation”) has been introduced for public opinion. The Draft Regulation has been prepared by Turkey’s Banking Regulation and Supervision Agency for encouraging financial innovation, fostering financial inclusiveness, and promoting access to banking services in the banking sector, laying down the rules governing i) digital banks and ii) SaaS business model under separate sections. It is foreseen that the resulting regulation will enter into force on 1 January 2022.⁹⁹⁹

On 5 September 2021, Turkey’s Medium-Term Program for 2022-2024, co-developed by the Ministry of Treasury and Finance and the Presidency of Strategy and Budget was aired. The new economic program expects Turkey’s GDP to grow 9 per cent this year, 5 per cent by 2022, 5.5 per cent by 2023, and 5.5 per cent by 2024. Moreover, per capita income is predicted to surpass USD10,000 threshold in 2023, reaching USD9,489 in 2021, USD9,947 in 2022, USD10,703 in 2023,

United Kingdom: +1

The United Kingdom has fully complied with the commitment to strengthen long-term financial resilience and support growth.

In January 2021, the UK published a call for input “to identify options to make the UK a more attractive location to set up, manage and administer funds, and support more efficient investments better suited to investors’ needs.”¹⁰⁰¹

On 3 March 2021, the details of the new UK budget were published. According to the document, in 2021-22 the UK government will carry out sound monetary policies and apply countercyclical fiscal measure to address the consequences of the COVID-19 pandemic.¹⁰⁰²

On 19 March 2021, Chancellor of the Exchequer Rishi Sunak announced new plans to help fintechns scale up. In particular, “the UK will consult on changes to its prospectus regime – which governs the information a company must publish when raising finance...to ensure the rules are not overly burdensome but provide investors with the information they need, tailored to the type of transaction. The consultation will also explore how to make it easier for companies to provide the forward-looking financial information investors want to see, which would particularly benefit technology and life sciences companies with high-growth potential, and their investors. A group of experts will also be convened to look at how to improve the efficiency of rights issues – when a listed company invites its existing shareholders to purchase additional new shares – and the role technology could play in streamlining the process, as recommended by the Review. Separately, ambitious reforms to the UK’s wider capital markets regime will also be consulted on this summer, including proposals to delete the share trading obligation and double volume cap. The consultation process aims to deliver a

United States: +1

The United States has fully complied with the commitment to strengthen long-term financial resilience and support growth.

On 18 December 2021, the Federal Reserve Board announced that it had “voted to affirm the Countercyclical Capital Buffer (CCyB) at the current level of 0 per cent...follow[ing] the framework detailed in the Board’s policy statement for setting the CCyB for private-sector credit exposures located in the United States.”¹⁰⁰⁵ This move was, according to the message by the Board, intended to “increase the resilience of the financial system by raising capital requirements on large banking organizations” as well as to help moderate fluctuations in the supply of credit.¹⁰⁰⁶

On 18 February 2021, the Federal Reserve Board “announced a final rule that is intended to reduce risk and increase efficiency in the financial system by applying netting protections to a broader range of financial institutions. The final rule amends Regulation EE (Financial Institution Netting) to apply netting provisions of the Federal Deposit Insurance Corporation Improvement Act of 1991 to certain new entities including swap dealers. The rule also provided clarifications to the existing activities-based test in Regulation EE to clarify how the activities-based test applies following a consolidation of legal entities.”¹⁰⁰⁷

On 8 March 2021, the Federal Reserve Board announced the extension of its Paycheck Protection Program Liquidity Facility by three months to 30 June 2021. The extension was aimed at providing “continued support for the flow of credit to small businesses through the Paycheck Protection Program.”¹⁰⁰⁸

Background

The 2020 G20 Leaders’ Statement acknowledges the importance of “supporting the multilateral trading system” in response to the economic contraction brought about by the COVID-19 pandemic.¹⁰¹⁸ Additionally, the G20 leaders affirm the need to promote inclusive economic growth, fostering the integration of developing and least developed countries into the international trading system.¹⁰¹⁹

Discussions on realizing the goal of free, inclusive, non-discriminatory, transparent, predictable, and stable trade and investment can be traced back to the 2008 Washington Summit. In the face of the 2007-2008 financial crisis, G20 leaders agreed to “ensure transparency” and “restore stability” while remaining committed to free market principles.¹⁰²⁰ Accordingly, the G20 leaders committed to

undertaking a Financial Sector Assessment Program report, which consists of a financial stability assessment and a financial development assessment, bolstering transparency and stability.¹⁰²¹

At the 2010 Toronto Summit, G20 leaders drafted the Principles for Innovative Financial Inclusion, encouraging financial inclusion, stability, and market-based incentives conducive to a competitive economic landscape.¹⁰²² Leaders renewed their commitment to “refrain from raising barriers or imposing new barriers to investment or trade in goods and services,” promoting free trade and investment.¹⁰²³ At the 2010 Seoul Summit, leaders delivered the Seoul Action Plan to “enhance the stability of financial markets,” and a modernized International Monetary Fund with “greater representation of dynamic emerging markets and developing countries,” encouraging fair, inclusive, and non-discriminatory international trade.¹⁰²⁴

At the 2012 Los Cabos Summit, leaders “firmly committed to open trade and investment,” underlining the significance of “an open, predictable, rules-based, and transparent” trade environment.¹⁰²⁵ At the 2013 St Petersburg Summit, leaders agreed to achieving “the open, rules-based, transparent and non-discriminatory WTO-based trading system,” and reaffirmed their support of free trade principles, extending their commitment to “removing barriers and impediments to global trade and investment” until the end of 2016.¹⁰²⁶

At the 2017 Hamburg Summit, G20 leaders recognized the importance of “trade and investment frameworks and the principle of non-discrimination,” vowing to fight “all unfair trade practices.”¹⁰²⁷ The leaders reaffirmed the “importance of transparency for predictable and mutually beneficial trade,” and recognized the unequal benefits of international trade and investment, committing to enhancing “international cooperation towards inclusive and sustainable global growth.”¹⁰²⁸

At the 2019 Osaka Summit, G20 leaders first stated their commitment “to realize a free, fair, non-discriminatory, transparent, predictable and stable trade and investment environment.”¹⁰²⁹ Additionally, they reaffirmed support for reforms to the World Trade Organization (WTO), recognizing the importance of the WTO and WTO-consistent bilateral and regional trade agreements for realizing their ideal trade and investment environments.¹⁰³⁰

On 29 June 2020, the WTO published Reports on G20 Trade and Investment Measures, covering mid-October 2019 to mid-May 2020. The report found that of the 154 new trade-related measures

implemented by G20 members, 95 were trade-facilitating and 59 were trade-restrictive.¹⁰³¹ The COVID-19 pandemic was identified as exacerbating the trend of G20 investment policies aimed to “safeguard national security interests against threats associated with international investment.”¹⁰³²

Commitment Features

In the face of an economic contraction due to the COVID-19 pandemic, the G20 members “strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable, and stable trade and investment environment.” This commitment can be divided into two parts: the first to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable, and stable trade environment, and the second to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable, and stable investment environment.

“Strive” refers “to try very hard to do something or make something happen, especially for a long time or against difficulties.”¹⁰³³

The term “trade” is understood to mean the exchange of goods, services, and intellectual property.¹⁰³⁴ In the context of this commitment, a “trade environment” should be understood as the international conditions in which these exchanges take place. The term “investment” is understood to mean the act of allocating funds into something to achieve a result.¹⁰³⁵ In the context of this commitment, an “investment environment” refers to the international conditions in which investment takes place. To “realize” is to “bring into concrete existence; accomplish.”¹⁰³⁶

The WTO outlines four principles that form “the foundation of the multilateral trading system.”¹⁰³⁷ First, non-discriminatory trade mandates that countries “cannot discriminate between trading partners,” and must treat local and imported goods and services equally. Second, free trade dictates that countries will gradually work towards lowering trade barriers such as tariffs and import bans or quotas, progressively liberalizing their markets. Third, predictability encourages nations to make their trade rules clear and transparent. The WTO institutes “binding” commitments, placing a ceiling on customs tariff rates, and in certain agreements requires governments to publicly disclose their practice. The WTO includes “stability” and “transparency” under this principle. Fourth, promoting fair, rules-based trading encourages “undistorted competition.” Finally, “inclusive trade” is understood to mean “all segments of society can take advantage of the opportunities that flow from trade. This means providing equal opportunities for small and medium-sized enterprises (SMEs) that may already be at disadvantage, including women, Indigenous peoples, youth and other underrepresented groups.”¹⁰³⁸ Together, these five principles describe trading and investment

environments that are “free, fair, inclusive, non-discriminatory, transparent, predictable, and stable,” and will be used to determine the compliance of G20 members with this commitment.

A G20 member can achieve full compliance for the first part of the commitment by striving to realize a trade environment in accordance with four to five of the aforementioned principles. A G20 member will receive a score of non-compliance for the first part of the commitment if it strives to realize a trade environment in accordance with one or none of the aforementioned principles. A G20 member will receive partial compliance for the first part of the commitment if it realizes a trade environment in accordance with two to three of the aforementioned principles.

A G20 member can achieve full compliance for the second part of the commitment by striving to realize an investment environment in accordance with four to five of the aforementioned principles. A G20 member will receive a score of non-compliance for the second part of the commitment if it strives to realize an investment environment in accordance with one or none of the aforementioned principles. A G20 member will receive partial compliance for the second part of the commitment if it realizes an investment environment in accordance with two or three of the aforementioned principles.

As well, this commitment has a depth component of how strong the action taken by the G20 member is. A member can fully realize or partially realize the goal of a trade and/or investment environment in accordance with WTO principles. To achieve full compliance, a G20 member must take significant action in order to fully realize the goal of a trade and investment environment in accordance with WTO principles. Examples of significant actions that warrant full compliance include enforcing WTO principles through legislative action, initiating programs to encourage trade and investment in accordance with WTO principles, and engaging with international institutions that facilitate trade and investment. Examples of actions that warrant partial compliance include reaffirmation of the commitment in official government statements and attending meetings that discuss the international trade and investment environments.

To achieve full compliance for this commitment, G20 members must take strong action towards realizing both a trade environment and an investment environment that is free, fair, inclusive, non-discriminatory, transparent, predictable, and stable. Partial compliance will be awarded if a G20 member only takes action towards one of the commitment targets – either trade or investment. Non-compliance will be awarded if a G20 member has completed none of the aforementioned criteria.

Scoring Guidelines

| | |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| -1 | The G20 member has not taken action towards realizing a free, fair, inclusive, non-discriminatory, transparent, predictable or stable trade nor investment environment. |
| 0 | The G20 member has either taken action towards realizing a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade OR investment environment. |
| +1 | The G20 member has taken strong action towards realizing the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade AND investment environment. |

Argentina: +1

Argentina has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 30 November 2021, Argentina and the European Union met virtually to discuss trade and economics.¹⁰³⁹ During the meeting both parties discussed concerns with current trade policies, new

¹⁰³⁹ 11th EU-Argentina Joint Committee – Trade and Economic Joint Minutes, EU-Argentina Joint Committee (Brussels) 30 November 2020. Access Date: 16 March 2021. https://trade.ec.europa.eu/doclib/docs/2021/january/tradoc_159395.pdf

taxation laws and interest in varying policy areas.¹⁰⁴⁰ The discussions promoted transparency and stability in foreign investment by Argentina into the EU.¹⁰⁴¹

On 22 December 2020, Minister for Social Development Daniel Arroyo, Minister of Transport Mario Meoni and Foreign Minister Felipe Solá signed an inter-ministerial framework aimed at strengthening partnerships with Middle Eastern countries regarding the grassroots economy, the social economy and family agriculture exports.¹⁰⁴² Minister Solá stated that “we are fully committed to opening new markets for traditional or novel products and introducing novel products in traditional markets.”¹⁰⁴³

On 7 January 2021, Argentina met with Japan to “foster mutual trade and investments.”¹⁰⁴⁴ Both countries noted their shared values of multilateralism, democracy, and the rule of law, and agreed to “intensify trade relations.”¹⁰⁴⁵

On 4 February 2021, Argentina and Chile enacted their automotive agreement.¹⁰⁴⁶ The agreement allows Argentina to export 10,000 more vehicles to Chile.¹⁰⁴⁷

On 5 March 2021, Argentina published ministerial order 37/21 which created a promotional unit in energy and mining investment¹⁰⁴⁸ The order increases investment attraction in both mining and energy sectors, internationalizing Argentinian companies.¹⁰⁴⁹ The unit will also identify and support “trade and cooperation agreements to promote foreign investment.”¹⁰⁵⁰

On 9 September 2021, Argentina and Japan met for the sixth meeting of the dialogue for trade and investment.¹⁰⁹⁸ The meeting was held “with a view to facilitating and diversifying bilateral trade, adding value, incorporating new technologies and making new investments.”¹⁰⁹⁹ The meeting focused on increasing bilateral trade, opening the market and boosting bilateral investment.¹¹⁰⁰ They agreed to hold future meetings regularly.¹¹⁰¹

Argentina has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Argentina has taken action to strive to realize the goal of a fair, free, predictable and inclusive trade environment by engaging in discussions with global partners. Additionally, Argentina has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive investment environment by signing multilateral declarations affirming their support for WTO investment principles.

Thus, Argentina receives a score of +1.

Analyst: AnnaMaria Pavlopoulos

Australia: +1

Australia has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 15 November 2020, ministers from 15 countries, including Australia, signed the Regional Comprehensive Economic Partnership.¹¹⁰² The agreement is aimed at improving export access and supply chain opportunities for Australian businesses in fourteen Indo-Pacific countries and boosting trade in services, especially in education, health, engineering, finance and professional services.¹¹⁰³

On 13 December 2020, the Pacific Agreement on Closer Economic Relations Plus (PACER Plus) entered into force.¹¹⁰⁴ It sets minimum standards of transparency and obligation for Parties beyond

argue would make it easier for companies to become active on the market of the other country and further facilitate cooperation.¹¹⁴³

On 5 August 2021, the Prime Minister's Special Trade Envoy for India Tony Abbott met with Indian Prime Minister Narendra Modi to discuss ways to strengthen bilateral trade, investment and economic cooperation as part of the India-Australia Comprehensive Strategic Partnership.¹¹⁴⁴ They emphasized that enhanced economic cooperation would help both countries in addressing economic challenges related to the COVID-19 pandemic and that it would play a role in realising their shared vision of a stable, secure and prosperous Indo-Pacific region.¹¹⁴⁵

On 26 August 2021, Minister Tehan and Indian Minister for Commerce and Industry, Food and Consumer Affairs and Textiles Piyush Goyal held a video conference.¹¹⁴⁶ Both parties noted the importance of negotiations in the fields of business, industry and other stakeholders and discussed the way forward for an early conclusion of a bilateral Comprehensive Economic Cooperation Agreement.¹¹⁴⁷

Australia has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Australia has taken action to strive to realize the goal of a non-discriminatory, fair, free, and predictable trade environment by actively lowering barriers to trade. Additionally, Australia has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive investment environment by enacting PACER Plus and increasing ASIC regulatory power.

Thus, Australia receives a score of +1.

Analyst: Haobin Chen

On 21 December 2020, the Ministry of Economy launched a new tool for sharing information on trade agreements negotiated and under negotiation by Brazil.¹¹⁴⁸ Foreign Trade Secretary Lucas Ferraz explained that the development of the tool was inspired by the principles of transparency and transparent governance in the agenda of trade negotiations in line with the World Trade Organization (WTO) agreement on Trade Facilitation.¹¹⁴⁹

On 18 January 2021, the Ministry of Economy announced the launch of a new phase of the Single Foreign Trade Portal which seeks to simplify Brazil's exports and imports through a reformulation of procedures, requirements and systems applicable to external commercial transactions.¹¹⁵⁰ These measures reduce time and costs for private actors to complete their trade operations.¹¹⁵¹

On 3 February 2021, Brazil put in an initial offer of market access to join the WTO Government Contracting Agreement, which makes public contracts open to international competition.¹¹⁵² Compliance with the agreement will promote reduced public spending and improvement in the quality of government goods and services and encourage Brazilian exports and foreign investment in the country.¹¹⁵³

On 9 March 2021, Brazil and Argentina solved 49 of 54 pending issues pertaining to the trade in agriculture and livestock.¹¹⁵⁴ This marks the culmination of work initiated in 2020 and the resolution of these issues will cause a major intensification of the bilateral trade flow of agricultural products.¹¹⁵⁵

On 10 March 2021, the Ministries of Economy and Infrastructure announced the implementation of the Single Waterway Window project as an integrated module of the Unique Foreign Trade Portal, which will unify waterway models necessary for Brazilian logistics operators to meet the requirements

fast progress.¹²²¹ The minister also expressed “India was only dealing with countries that it believed would provide a fair deal and reciprocal benefits.”¹²²²

On 30 August 2021, Canada engaged in discussions between the US and Mexico over the trade of automobiles.¹²²³ Canada’s participation was limited to an “interested third party,” expressing concern about America’s “increasingly protectionist position on vehicle trade.”¹²²⁴

Canada has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Canada has taken action to strive to realize the goal of a non-discriminatory, fair, free and predictable trade environment by engaging in bilateral discussions with heads of state and international organizations. Additionally, Canada has taken strong action to strive to realize the goal of a non-discriminatory, fair, free, predictable, and inclusive investment environment through the launch of the FIPA model.

Thus, Canada receives a score of +1.

Analyst: Jing sen Zhang

China: +1

China has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 1 December 2020, China confirmed its contribution of USD500,000 to the World Trade Organization (WTO)’s Least Developed Countries and Accessions Programme at a signing ceremony between WTO Deputy Director General Yonov Frederick Agah and Ambassador to the WTO Zhang Xiangchen.¹²²⁵ This program “aims to enable least-developed countries (LDCs) to better integrate into the global economy by strengthening their participation in WTO activities.”¹²²⁶ It provides financing to support “WTO accessions internships, WTO accessions round table meetings, LDC’s participation in WTO Meetings, South-South Dialogue on LDCs and Development and LDCs Trade Policy Review Follow-up Workshops.”¹²²⁷

give particular considerations to least developed countries.¹²⁷⁰ Additionally, members agreed to engage with WTO trade monitoring exercises.¹²⁷¹

On 26 July 2021, Foreign Minister Wang Yi met with US Deputy Secretary of State Wendy Sherman.¹²⁷² The discussion involved addressing the “stiff competition” between the two countries and establishing that neither side is seeking conflict.¹²⁷³

On 1 September 2021, Minister Wang Wentao pledged to support Hong Kong in joining the Regional Comprehensive Economic Partnership, the world’s largest free-trade deal.¹²⁷⁴ Senior mainland Chinese officials have expressed confidence in Hong Kong’s future as a global financial hub and stressed the central government will continue to back the city’s membership in the world’s largest free-trade deal.¹²⁷⁵

On 11 September 2021, Minister Wang Yi met Cambodian Prime Minister Hun Sen and other officials to discuss COVID-19 and other regional issues.¹²⁷⁶ Cambodia’s foreign ministry said the “meeting would include discussions of trade and security.”¹²⁷⁷

China has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. China has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive trade environment by contributing funds to the WTO’s LDC and Accession program, actively renegotiating FTAs and attending G20 ministerial meetings. Additionally, China has taken action to strive to realize the goal of a non-discriminatory, fair, free and predictable investment environment by setting a five-year plan in accordance with WTO principles, signing new investment deals and supporting multilateral initiatives for SDR allocation.

Thus, China receives a score of +1.

France: +1

France has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 30 December 2020, after a call between President Emmanuel Macron, Chinese President Xi Jinping, European Commission President Ursula von der Leyen, European Council President Charles Michel, and German Chancellor Angela Merkel on behalf of the Presidency of the EU council, the EU and China have concluded the principle negotiations for a Comprehensive Agreement on Investment.¹²⁷⁸ This agreement allows for a better balance between EU and Chinese trade relations and “set[s] a high benchmark in terms of transparency, level playing field, marketing access commitments and sustainable development.”¹²⁷⁹ This agreement has yet to be ratified.¹²⁸⁰

On 23 February 2021, Minister for Europe and Foreign Affairs Jean-Yves Le Drian spoke on the telephone with Indonesian Minister of Foreign Affairs Retno Marsudi.¹²⁸¹ Minister Le Drian reaffirmed France’s interests in strengthening the partnership between France and Indonesia, as well as within the Association of Southeast Asian Nations.¹²⁸²

On 1 March 2021, Minister Delegate for Foreign Trade and Economic Attractiveness, attached to the Minister for Europe and Foreign Affairs Franck Riester spoke with German Minister for the Economy and Energy Peter Altmaier via video conference.¹²⁸³ Ministers discussed the new trade policy strategy that was presented by the European Commission on 18 February 2021.¹²⁸⁴ They also discussed the draft agreement between the EU and Mercosur.¹²⁸⁵ This agreement paves the way for reducing trade barriers and facilitating free trade between the EU and Mercosur.¹²⁸⁶

On 5 March 2021, Minister of the Economy, Finance and the Recovery Bruno Le Maire and Minister Riester welcomed the agreement between the EU and the United States, which enacted a mutual

On 24 November 2020, Chancellor Angela Merkel stated that Germany hopes to complete a China-EU investment agreement to strengthen cooperation in vaccine distribution, investment, climate change and environmental protection.¹³³³ Merkel's statement promotes the development of Germany-China and EU-China trade and investment relations.¹³³⁴

On 27 November 2020, Germany approved an investment of EUR10 billion between 2021 and 2030 with hopes of creating an additional EUR20 billion in private venture capital investments to promote start-ups in the country.¹³³⁵ The President of the Federal Association of German Start-Ups Christian Miele stated that the Bundestag created the necessary budgetary conditions for significantly improving the financing of start-ups through this "future fund."¹³³⁶

On 3 December 2020, Germany and Estonia pledged EUR815,000 to the Enhanced Integrated Framework, a global development program for helping least-developed-countries (LDC) enhance their trading capacities and for creating an inclusive trade environment.¹³³⁷ The new funding will support 47 LDCs across Africa, Asia, the Pacific and 4 countries that recently graduated from LDC status: Cabo Verde, Equatorial Guinea, Maldives and Samoa.¹³³⁸

On 7 December 2020, Minister for Economic Affairs and Energy Peter Altmaier stated that the government is "continuing to work on putting the right policy environment in place for forward-looking investments in a digital and green economy in Germany and Europe."¹³³⁹

On 12 January 2021, Minister Altmaier and Vietnam's Minister of Industry and Trade Tran Tuan Anh co-chaired the first session of the German-Vietnamese Economic Committee, which aims to advance German-Vietnamese trade relations.¹³⁴⁰ Minister Altmaier continued the promotion of open markets and free trade between the two countries following the success of the August 2020 German-Vietnamese free trade agreement.¹³⁴¹

On 18 January 2021, Chancellor Merkel and Canadian Prime Minister Justin Trudeau discussed several issues, including "collaboration between Canada and Germany on shared priorities," which

On 5 May 2021, India reached out to the top US pharmaceutical companies to encourage investments into the country's pharmaceutical and medical devices sector.¹⁴¹¹ Ambassador to the US Taranjit Singh Sandhu met virtually with the CEOs of Pfizer, Thermo Fisher, Antylia Scientific and Pall Life Sciences to discuss the ways in which the companies could support healthcare efforts and strengthen India's pandemic response through new investment opportunities.¹⁴¹²

On 7 May 2021, Prime Minister Modi agreed to resume negotiations for a trade agreement with the EU during a virtual summit with all 27 EU member-state leaders.¹⁴¹³ The trade agreement would respond to challenges such as combating climate change and solving market access issues.¹⁴¹⁴

On 3 June 2021, Minister of Agriculture Narendra Singh Tomar and Australian Minister of Agriculture David Littleproud announced a joint plan in which Australia provides market access for Indian pomegranates, pomegranate arils, mangoes and okra, and in return exports barley to India.¹⁴¹⁵ Additionally, India seeks greater access to Australian coal, rare earth minerals and metals such as copper, cobalt and nickel with ambitions to deepen trade ties between the two countries.¹⁴¹⁶

On 4 June 2021, negotiators from the Ministry of Commerce and Canada's international trade department resumed discussions towards a possible trade pact, revisiting the stalled Comprehensive Economic Partnership Agreement.¹⁴¹⁷ India's High Commissioner to Ottawa Ajay Bisaria stated that the trade pact would "boost trade and investment in the bilateral economic corridor."¹⁴¹⁸

On 17 June 2021, the Central Board of Indirect Taxes and Customs cut the tariff import value of crude palm oil by USD86 per tonne and crude palm olein by USD112 per tonne, in addition to the reduction of the base import price of crude soybean oil by USD37 per tonne.¹⁴¹⁹ India meets around two-thirds of its edible oil demand through imports and experts say that this move can lead to lower domestic prices.¹⁴²⁰

Department of Commerce.¹⁴³⁷ The summit provides a platform for engagement between India and ASEAN in engineering trade and investments.¹⁴³⁸

On 28 August 2021, Minister Goyal said that India is “fast progressing” on discussions concerning free trade agreements with countries such as the UK, the UAE and Gulf Cooperation Council countries, Australia and the EU.¹⁴³⁹ He added that, under the leadership of Prime Minister Modi, the government continues to promote transparency and “ease of doing business.”¹⁴⁴⁰

On 31 August 2021, India continued negotiations concerning a free trade agreement with the UAE, their third largest trading partner.¹⁴⁴¹ The agreement would lead to increased exports of leather goods, gems and jewellery and chemicals to the UAE.¹⁴⁴²

On 11 September 2021, Minister of Defence Shri Rajnath Singh and Minister Jaishankar met with Australia’s Minister for Foreign Affairs Marise Payne and Minister for Defence Peter Dutton to reaffirm their commitment to deepening bilateral cooperation by elevating the India-Australia relationship to a comprehensive strategic partnership.¹⁴⁴³ The Ministers also highlighted the importance of a balanced trade agreement that encourages expanded trade and investment flows that benefits both countries economically.¹⁴⁴⁴

India has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. India has taken action to strive to realize the goal of a non-discriminatory, fair, and free trade environment by fighting unfair trading practices and actively renegotiating FTAs. Additionally, India has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive investment environment by promoting foreign investment and easing investment restrictions.

Thus, India receives a score of +1.

Analyst: Arees Chooljian

Indonesia: +1

Indonesia has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 9 December 2020, Indonesia's 7th Trade Policy Review took place, with subsequent reports from both the World Trade Organization (WTO) Secretariat and the Indonesian government.¹⁴⁴⁵ Trade policy reviews are a WTO mandated exercise in which a countries' trade policies are examined and evaluated at regular intervals.¹⁴⁴⁶ Indonesia was praised for its active participation in the Multilateral Trading System, its role in the Joint Statement Initiatives on investment facilitation, and its trade-related structural reforms, which improved transparency in policy making.¹⁴⁴⁷

On 9 December 2020, Indonesia presented an opening statement at the 7th Trade Policy Review, which summarized several ongoing trade initiatives.¹⁴⁴⁸ Indonesia upgraded preferential trade agreements with Pakistan and Japan; began negotiations with Chile on trade and investment; entered into trade negotiations with the EU, Tunisia, Turkey, Bangladesh, Mauritius and Morocco; initiated exploratory talks with countries in Africa, South Asia, the Eurasian Economic Union, Mercosur, and members of the Gulf Cooperation Council; begun implementation of the Comprehensive Economic Partnership Agreement with Australia; and is in the final process of ratifying trade agreements with Mozambique and the European Free Trade Association.¹⁴⁴⁹ Indonesia concluded with wishes that the trade policy review will restore the "strong confidence in the multilateral trading system which should allow an open, fair and predictable trade environment for all Members of the WTO."¹⁴⁵⁰

On 18 December 2020, Indonesia and Korea signed the Korea-Indonesia Comprehensive Economic Partners Agreement after eight years of negotiations.¹⁴⁵¹ It will eliminate tariffs on 95.8 per cent of Indonesian goods, and 94.8 per cent of South Korean goods and improve investment conditions.¹⁴⁵²

On 2 September 2021, Indonesia and the United Arab Emirates commenced the first round of negotiations for a new free trade and investment agreement.¹⁴⁸² They discussed biotechnology, the digital economy, energy transition and space development, precious metals, stainless steel, automobiles, halal food and palm oil in negotiating a new comprehensive economic partnership agreement.¹⁴⁸³

Indonesia has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Indonesia has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive trade environment by cooperating with WTO trade policy reviews. Additionally, Indonesia has taken action to strive to realize the goal of a fair, free, and predictable investment environment by improving policy transparency and facilitating open, rules-based investing.

Thus, Indonesia receives a score of +1.

Analyst: Wing Ka Tsang

Italy: 0

Italy has partially complied with its commitment to strive to realize the goal of a free, fair, inclusive, transparent, predictable, and stable trade and investment environment.

On 10 December 2020, Minister of Foreign Affairs and International Cooperation Luigi Di Maio met virtually with the Turkish Minister of Trade Ruhsar Pekcan in the Italy-Turkey Joint Economic and Trade Commission meeting.¹⁴⁸⁴ Minister Di Maio recognized the importance of increasing the bilateral flow of investment, and the ministers signed a memorandum of understanding between the Italian Trade Agency and its Turkish counterpart in order to “strengthen cooperation between the two agencies.”¹⁴⁸⁵

On 12 December 2020, Minister Di Maio participated virtually with the Vice-Prime Minister and Minister for Investment and Foreign Trade of Uzbekistan Sardor Umurzakov in the Italy-Uzbekistan Business Forum, encouraging bilateral trade and investment between the two countries.¹⁴⁸⁶ Following the forum, the minister discusses bilateral relations.¹⁴⁸⁷

Japan: +1

Japan has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 4 December 2020, the parliament ratified the Japan-UK Economic Partnership Agreement that will enter into force on 1 January 2021.¹⁵¹² The free trade agreement will abolish tariffs on import and exports of industrial goods. Foreign Minister Toshimitsu Motegi said the agreement “ensures continuity for Japanese and British companies, and it is hoped that bilateral trade and investment will advance under the agreement’s high standards.”¹⁵¹³

On 14 December 2020, Japan, Australia and Singapore, issued a Joint Statement Initiative (JSI) on E-Commerce negotiations on behalf of eighty-six World Trade Organization (WTO) members.¹⁵¹⁴ The statement affirms that openness, transparency, and inclusiveness are central to the JSI.¹⁵¹⁵

On 8 January 2021, People’s Bank of China Governor Yi Gang met with the Japanese Ambassador to China Hideo Tarumi.¹⁵¹⁶ They discussed “views on recent developments in the Chinese and Japanese economy and discussed ways to strengthen bilateral financial cooperation.”¹⁵¹⁷

On 29 January 2021, Minister of Economy, Trade, and Industry Hiroshi Kajiyama attended the WTO Informal Ministerial Meeting with over twenty-nine WTO members.¹⁵¹⁸ At the meeting, Japan indicated its intentions to continue discussions on curbing export restrictions on the supply chain of medical supplies.¹⁵¹⁹

On 2 February 2021, Prime Minister Yoshihide Suga spoke with Canadian Prime Minister Justin Trudeau and “discussed the strong and growing economic ties between Canada and Japan and welcomed the United Kingdom’s formal interest in acceding to the comprehensive and Progressive Agreement for Trans-Pacific Partnership.”¹⁵²⁰

On 21 February 2021, Japan donated CHF160,000 to support the developing countries and least-developed countries (LDCs) trading capabilities.¹⁵²¹ Japan’s WTO Ambassador Kazuyuki Yamazaki

issues ranging from health to fisheries subsidies, e-commerce, and Joint Statement Initiatives to create new rules on investment facilitations were discussed.¹⁵⁴³

On 25 May 2021, Minister of Economy, Trade, and Industry Ejima Kiyoshi met with the Minister of State for Foreign Trade Thani bin Ahmed Al Zeyoudi.¹⁵⁴⁴ Both parties agreed to strive to deepen economic relations by implementing a Comprehensive Strategic Partnership Initiative between the two countries.¹⁵⁴⁵

On 15 June 2021, at a meeting on e-commerce negotiations, co-convenors Japan, Australia, and Singapore, emphasized that the outcomes of the e-commerce negotiations should encompass three objectives: fit within the WTO architecture; allow for a sufficient level of ambition in key topics like data-related disciplines; and be subjected to the WTO dispute settlement system.¹⁵⁴⁶ Ambassador Kazuyuki Yamazaki urged participants to deepen discussion and listen to the concerns of developing and least developing countries.¹⁵⁴⁷

On 25 June 2021, Japan's cabinet ratified the Regional Comprehensive Economic Partnership (RCEP), making Japan the third member to complete ratification procedures.¹⁵⁴⁸ RCEP comprises fifteen countries including China, Korea and ASEAN members.¹⁵⁴⁹

On 15 July 2021, Japan and Australia agreed to promote the Comprehensive and Progressive Agreement for Trans-Pacific Partnership and the Regional Comprehensive and Economic Partnership regional trade deals as a post-economic recovery method.¹⁵⁵⁰

Japan has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Japan has taken action to strive to realize the goal of a non-discriminatory, fair, free, and predictable trade environment by providing financial support to LDCs and entering into multilateral initiatives. Additionally, Japan has taken action to strive to realize the goal of a non-discriminatory, fair, free, and predictable investment environment by entering into economic partnerships.

Thus, Japan receives a score of +1.

On 20 April 2021, the Ministry of Economy and Finance announced Korea would gain a permanent board member status of the Central American Bank for Economic Integration (CABEI) from 1 August 2021.¹⁵⁷⁴ Korea has invested USD630 million in CABEI to achieve an eight per cent threshold for permanent board membership.¹⁵⁷⁵

On 12 May 2021, Minister Yoo and Israeli Minister of Economy Amir Peretz signed a free trade agreement.¹⁵⁷⁶ The free trade agreement will broaden economic ties between Korea and Israel, especially in the automotive industry.¹⁵⁷⁷ Korea will lift tariffs from 95.2 per cent of goods under the agreement, giving Israel most favoured nation status.¹⁵⁷⁸

On 26 May 2021, Minister of Trade, Industry and Energy Moon Sung-wook and Indonesian Coordinating Minister for Maritime and Investment Affairs Luhut Binsar Pandjaitan agreed to expand economic ties between Korea and Indonesia.¹⁵⁷⁹ They agreed to reinforce the implementation of the Comprehensive Economic Partnership Agreement (CEPA) they signed in December 2020.¹⁵⁸⁰

On 13 June 2021, President Moon held bilateral talks with Australia and Germany before the G7 summit in the UK.¹⁵⁸¹ President Moon and Australian Prime Minister Scott Morrison agreed to boost economic cooperation through the Regional Comprehensive Economic Partnership signed in November 2020.¹⁵⁸² In his talk with German Chancellor Angela Merkel, President Moon addressed the necessity of cooperation in vaccine development and production.¹⁵⁸³

On 17 June 2021, President Moon and Spanish Prime Minister Sanchez adopted joint statements during a Korean state visit to Spain.¹⁵⁸⁴ They agreed to enhance economic cooperation and to elevate the level of bilateral relations to a “strategic partnership.”¹⁵⁸⁵ Korea and Spain agreed to restore investment and bilateral tourism exchanges, which faced a temporary drop due to the pandemic.¹⁵⁸⁶

On 25 June 2021, President Moon held an online summit with the Central American Integration System (SICA)’s member states, Costa Rica, Belize, the Dominican Republic, El Salvador, Guatemala,

Honduras, Nicaragua and Panama.¹⁵⁸⁷ Korea and SICA's member countries adopted a joint statement emphasizing the importance of the Korea-Central America free trade agreement that took effect in March 2021.¹⁵⁸⁸

On 9 July 2021, Minister of Economy and Finance Hong Nam-ki and Argentine Minister of Economy Martín Maximiliano Guzmán discussed the recently resumed free trade talks between Korea and Argentina.¹⁵⁸⁹ They agreed that lowering trade barrier through the normalization of accommodating monetary policies will amplify cross-national flow of capitals.¹⁵⁹⁰

On 16 July 2021, Vice Minister of Trade, Industry and Energy Park Jin-kyu and Kenyan Cabinet Secretary for Industrialization, Trade and Enterprise Development Betty Maina discussed several economic issues.¹⁵⁹¹ Vice Minister Park said Korea seeks to enhance its economic presence in Kenya, as it sees the economic growth and integration of the region through the African Continental Free Trade Area.¹⁵⁹²

On 20 July 2021, the cabinet approved a revised enforcement ordinance that will prepare for the implementation of trade deals with Indonesia and Israel.¹⁵⁹³ It will gradually lift or lower tariffs from the two countries on more than 95 per cent of imported goods.¹⁵⁹⁴ Korea signed CEPA with Indonesia in December 2020 and signed a free trade agreement with Israel in May 2021.¹⁵⁹⁵

On 21 July 2021, Minister of Foreign Affairs Chung Eui-yong asked Chilean Minister of Foreign Affairs Andrés Allamand Zavala during in-person bilateral talks for Chile's cooperation in Korea's bid to join the Pacific Alliance as an associate member for further economic relations in Latin America.¹⁵⁹⁶ The Pacific Alliance is a regional trade bloc in Latin America, consisting of Chile, Colombia, Mexico and Peru, accounting for 58 per cent of trade volumes in the region.¹⁵⁹⁷

On 27 July 2021, the Ministry of Trade, Industry and Energy initiated discussions with the Association of Southeast Asian Nations (ASEAN) over revising the free trade agreement between

investments.¹⁶¹¹ The talk took place as a part of Korea's effort to extend cooperation with ASEAN.¹⁶¹²

On 30 August 2021, Korea began a new round of negotiations with Mercosur for a free trade agreement.¹⁶¹³ Through these negotiations Korea plans to expand its FTA portfolio in South America.¹⁶¹⁴ Korea currently holds FTAs with Chile and Peru and is negotiating with Ecuador.¹⁶¹⁵

On 1 September 2021, Minister Yeo and ASEAN Secretary-General Lim Jock Hoi agreed to deepen trade ties between Korea and ASEAN, addressing damage from the COVID-19 pandemic.¹⁶¹⁶ Korea has been promoting its New Southern Policy, which seeks to diversify its trade portfolio away from China and the United States.¹⁶¹⁷

On 6 September 2021, Minister Yeo told the Egyptian Minister of Industry and Trade Nevine Gamea that Korea is seeking to initiate negotiations with Egypt on a free trade agreement.¹⁶¹⁸ Egypt is Korea's third-largest trade partner in Africa, with estimated exports of USD1.21 billion in 2020.¹⁶¹⁹ A FTA with Egypt would be Korea's first in Africa.¹⁶²⁰

On 6 September 2021, Minister Yeo announced that he intends to meet the United Arab Emirate's Minister of State for Foreign Trade Thani Al Zeyoudi and to propose the resumption of talks on a free trade agreement between Korea and the Gulf Cooperation Council.¹⁶²¹ The council consists of the UAE, Bahrain, Saudi Arabia, Oman, Qatar and Kuwait.¹⁶²² Negotiations began in 2007, but it saw no progress since 2009.¹⁶²³

Korea has partially complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Korea has taken action to strive to realize the goal of a fair, free, and inclusive trade environment by entering into new multilateral trade agreements and expanding upon existing free trade agreements. However, Korea has failed to take specific and substantial action to strive to realize the goal of an investment environment that is non-discriminatory, free, fair, predictable and inclusive.

Mexico: 0

Mexico has partially complied with its commitment to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable, and stable trade and investment environment.

On 15 December 2020, Mexico and the UK signed a Trade Continuity agreement to maintain free trade relations between the two countries. The Trade Continuity agreement maintains the existing trade regime between Mexico and the UK and Northern Ireland under the existing Free Trade Agreement between Mexico and the European Union.¹⁶²⁴

On 25 February 2021, Mexico and Argentina in a joint statement agreed to further cooperation in matters related to the trade of bovine meat products.¹⁶²⁵ Both countries agreed to advance the opening of the Mexican market to Argentine beef products.¹⁶²⁶

On 3 March 2021, the Ministry of Economy, in collaboration with ConnectAmericas, unveiled a digital platform known as Comercia MX to help businesses, especially small and medium sized ones, expand their reach to the global market.¹⁶²⁷ The Secretary of Economy Tatiana Clouthier Carillo stated that this platform will address the problems faced by micro-, small- and medium-sized enterprises in gaining access to information to enter the global market.¹⁶²⁸

On 16 March 2021, the Ministry of Economy formally announced the installation of the National Committee for Trade Facilitation, whose goal is to facilitate coordination between agencies, Public Administration and autonomous constitutional bodies in the regulation of programs related to foreign trade.¹⁶²⁹ The committee represents a substantive advance in the fulfillment of Mexico's international commitments in promoting fair trade.¹⁶³⁰

On 22 April 2021, Mexico attended the World Trade Organization (WTO) general council meeting.¹⁶³¹ Attendees agreed to eliminate unnecessary restrictions on exports of medical goods

held in the InterContinental Berlin, Germany.¹⁷¹⁹ Undersecretary Abdulhadi noted that the “Invest Saudi” pavilion will provide a firsthand look of the most prominent investment opportunities for representatives of the participating institutions in the forum.¹⁷²⁰

Saudi Arabia has partially with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Saudi Arabia has taken action to strive to realize the goal of a free and inclusive trade and investment environment by opening sectors and improving bilateral cooperation. However, Saudi Arabia has failed to take strong action to strive to realize the goal of a non-discriminatory, fair, and predictable trade and investment environment.

Thus, Saudi Arabia receives a score of 0.

Analyst: Xin Han

South Africa: 0

South Africa has partially complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable, and stable trade and investment environment.

On 7 December 2020, President Cyril Ramaphosa assembled the African Union and agreed to commence trading under the African Continental Free Trade Area (AfCFTA) on 1 January 2021.¹⁷²¹ The AfCFTA Agreement will progressively reduce tariffs and other trade barriers between African countries and is expected to boost manufacturing and trade across the continent.¹⁷²² The World Bank calculates that AfCFTA could lead to a 7 per cent yearly increase in African GDP, lifting 30 million people out of extreme poverty by 2035.¹⁷²³

On 8 December 2020, the Department of Trade, Industry and Competition and the National Cleaner Production Centre South Africa partnered with the United Nations Industrial Development Organisation to launch the Global Eco-Industrial Parks Program.¹⁷²⁴ The program is expected to improve the environmental, economic, and social performance and competitive advantage of industrial parks.¹⁷²⁵

On 8 June 2021, Minister Çavuşoğlu met with Foreign Minister Nasser Bourita of Morocco via videoconference.¹⁷⁶² Minister Çavuşoğlu stated that they would hold a joint economic commission meeting and business forum this year to further discuss relations between the two states.¹⁷⁶³

On 20 June 2021, Minister Çavuşoğlu met with Minister of Foreign Affairs of Afghanistan Mohammad Haneef Atmar and Minister of Foreign Affairs of the Islamic Republic of Iran Mohammad Javad Zarif.¹⁷⁶⁴ The foreign ministers “underlined their commitment to further expand cooperation particularly in the areas that would contribute to economic progress and sustainable development.”¹⁷⁶⁵ The ministers “called upon countries to refrain from applying unilateral economic sanctions as tools of political or economic pressure.”¹⁷⁶⁶

On 3 September 2021, Minister Çavuşoğlu met with Black Sea Economic Corporation (BSEC) Secretary General Ambassador Lazar Comanescu in Ankara.¹⁷⁶⁷ They discussed issues pertaining to BSEC, including “budgetary issues as well as efforts on making certain changes that will render BSEC more effective and efficient were also discussed.”¹⁷⁶⁸

Turkey has partially complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. Turkey has taken action to strive to realize the goal of a non-discriminatory, free, and predictable trade environment by lowering barriers to trade and engaging in bilateral and multilateral trade agreements. However, Turkey has failed to take specific and substantial action to strive to realize the goal of an investment environment that is non-discriminatory, free, fair, predictable and inclusive.

Thus, Turkey receives a score of 0.

United Kingdom: +1

The United Kingdom has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 24 November 2020, the Exports Credit Guarantee Department signed a cooperation agreement with the United Arab Emirates.¹⁷⁶⁹ The agreement provides a framework for the UK and Etihad Credit Insurance to aid exports of products through collaborative financial support.¹⁷⁷⁰

On 3 December 2020, High Commissioner for Bangladesh Robert Chatterton Dickson proposed a UK-Bangladesh Trade and Investment Dialogue to promote free trade following the UK's departure from the European Union.¹⁷⁷¹ It led to a UK-Bangladesh trade and investment dialogue on 28 March 2021.¹⁷⁷²

On 3 December 2020, the UK signed a partnership, trade and cooperation agreement with North Macedonia.¹⁷⁷³ It will allow British businesses to continue to trade during the Brexit transition period.¹⁷⁷⁴

On 4 December 2020, the UK continued negotiations with Australia for a free trade agreement.¹⁷⁷⁵ The UK seeks to continue the existing trade relationship with Australia following its departure from the EU.¹⁷⁷⁶

On 8 December 2020, the UK and Canada agreed to a “temporary agreement that will head off an automatic increase in tariffs that was set to kick in when Britain leaves the European Union” the following week.¹⁷⁷⁷ Deputy Prime Minister Chrystia Freeland ensured that Canadian goods including maple syrup, lobster, beef, and car parts are not affected by British Tariffs starting on 1 January 2021.¹⁷⁷⁸ This ensures that the UK and Canada will continue to have “preferential access.”¹⁷⁷⁹

bilateral trade and promote trade and investment.¹⁸³⁸ It will also seek to gradually remove tariffs from the current level of 65 per cent to 99 per cent within six years.¹⁸³⁹

On 1 May 2021, the Department for International Trade announced the Jordan-UK Association Agreement coming into effect.¹⁸⁴⁰ The UK and Jordan signed it on 5 November 2019, but it took until 25 March 2021 for both the UK and Jordan to complete its procedures to enforce it.¹⁸⁴¹ It will expand the bilateral trade further from GBP561 million in 2020.¹⁸⁴²

On 3 May 2021, Secretary of State for Foreign, Commonwealth and Development Affairs Dominic Raab met with Japanese Minister of Foreign Affairs Toshimitsu Motegi to discuss the UK's application to enter the CPTPP.¹⁸⁴³ The discussion centred on Japan's support for the UK's entry to CPTPP, which is expected to further the British involvement in the Indo-Pacific region.¹⁸⁴⁴

On 4 May 2021, Prime Minister Johnson announced a trade deal of GBP1 billion with India.¹⁸⁴⁵ The deal includes GBP446 million worth of export deals, and is expected to create more than 400 jobs in the UK.¹⁸⁴⁶ In total, the UK would benefit from more than GBP533 million of Indian investments that will create more than 6,000 new jobs.¹⁸⁴⁷ Prime Minister Johnson also had a virtual meeting with Indian Prime Minister Narendra Modi discussing the Enhanced Trade Partnership aiming at a free trade agreement and lowering tariffs.¹⁸⁴⁸

On 18 May 2021, the government began its negotiations with Canada and Mexico for an enhanced trade deal.¹⁸⁴⁹ It will focus on sectors in digital, data and services industries.¹⁸⁵⁰ The UK seeks to further its ambition to join CPTPP with the support from the two countries.¹⁸⁵¹

environment. The United Kingdom has taken action to strive to realize the goal of a non-discriminatory, fair, free, and predictable trade environment by renegotiating several free trade agreements and lowering barriers to trade. Additionally, the United Kingdom has taken action to strive to realize the goal of a non-discriminatory, fair, free, and predictable investment environment by facilitating open, rules-based investing.

Thus, the United Kingdom receives a score of +1.

Analyst: June Young Lee

United States: +1

The United States has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment

On 8 December 2020, the US and Ecuador signed a protocol on trade rules and transparency, a move welcomed by business groups in both countries.¹⁸⁸⁴ “The pact updates an earlier agreement with new provisions on customs, regulation, anti-corruption and small and medium-sized companies,” reducing the barriers of trade between the US and Ecuador.¹⁸⁸⁵

On 22 January 2021, President Joseph Biden met with Canadian Prime Minister Justin Trudeau and shared their vision for “strengthening Canada-U.S. supply chain security and resilience.”¹⁸⁸⁶ The leaders agreed to “avoid measures that may constrain bilateral trade, supply chains, and economic growth” to protect the economic relationships between the two countries.¹⁸⁸⁷

On 23 February 2021, President Biden met with Prime Minister Trudeau to begin a “reset in relations with Canada’s largest trading partner and one of its closest allies after four tumultuous years with President Donald Trump.”¹⁸⁸⁸ Canadian officials are “optimistic” that President Biden will bring a more cooperative presence despite cancelling the Keystone XL pipeline project previously.¹⁸⁸⁹ Tariffs may be decreased over this period, improving the free trade environment.¹⁸⁹⁰

On 23 February 2021, President Biden and Prime Minister Trudeau “promised to work together to build supply chains for electric vehicle battery development.”¹⁸⁹¹ They aim to make Canada and the US “global leaders in all aspects of battery development and production.”¹⁸⁹²

On 1 March 2021, the Office of the US Trade Representative delivered President Biden’s 2021 Trade Agenda and 2020 Annual Report to Congress, which detailed “a comprehensive trade policy in support of the Administration’s effort to help the US recover from the COVID-19 pandemic and build back better.”¹⁸⁹³ President Biden noted his desire for a fair international trading system.¹⁸⁹⁴

On 4 March 2021, the US and the UK released a joint statement announcing a four-month suspension of tariffs related to the ongoing large civilian aircraft dispute.¹⁸⁹⁵ The US suspended retaliatory tariffs in the Airbus dispute from 4 March 2021, for four months.¹⁸⁹⁶ This will benefit a wide range of industries on both sides of the Atlantic and allow for focused settlement negotiations and focus on COVID recovery and other shared goals.¹⁸⁹⁷

On 5 March 2021, the US and the EU agreed on the mutual suspension for four months of the tariffs related to the World Trade Organization (WTO) Aircraft disputes.¹⁸⁹⁸ The suspension will cover all tariffs both on aircraft as well as on non-aircraft products and will become effective as soon as the internal procedures on both sides are completed.¹⁸⁹⁹ This will allow the EU and the US to ease the burden on their industries and workers and focus efforts towards resolving these long running disputes at the WTO.¹⁹⁰⁰

On 19 March 2021, the US notified the Dispute Settlement of its decision to appeal the panel report in the case brought by Korea in “United States — Anti-Dumping and Countervailing Duties on Certain Products and the Use of Facts Available.”¹⁹⁰¹

On 20 March 2021, US and Chinese officials had the first high-level talks between the Biden administration and China since last June.¹⁹⁰² This communication improves the trade transparency between the two countries.¹⁹⁰³

On 14 May 2021, the Office of the United States Trade Representative announced that Ambassador Katherine Tai will host the inaugural Free Trade Commission (FTC) of the United States-Mexico-Canada Agreement (USMCA) on 17-18 May 2021.¹⁹⁰⁴ The FTC seeks to build an inclusive trade environment in North America that encourages equitable growth.¹⁹⁰⁵

On 12 June 2021, President Biden announced the global infrastructure initiative Build Back Better World in conjunction with G7 partners.¹⁹⁰⁶ The initiative aims to compete with Chinese investment in low- and middle-income countries by offering high-standard, values-driven and transparent investment in infrastructure.¹⁹⁰⁷

On 29 June 2021, the US and Taiwan held the 11th Trade and Investment Framework Agreement Council meeting under the auspices of the American Institute in Taiwan and the Taipei Economic and Cultural Representative Office in the United States.¹⁹⁰⁸

On 6 August 2021, the US and Uruguay completed the 9th TIFA Council meeting in Montevideo.¹⁹⁰⁹ Both countries agreed to review the existing TIFA and develop new instruments to reinforce fair trade between both parties.¹⁹¹⁰

On 12 August 2021, the Protocol to the Trade and Investment Council Agreement with Ecuador entered into force.¹⁹¹¹ Both countries agreed to convene the next Trade and Investment Council meeting before the end of the year.¹⁹¹²

On 18 August 2021, the US provided USD600 thousand to support and enhance developing countries and least-developed countries' significance in global trade negotiations.¹⁹¹³ The contribution aims to finance trainings and related activities for governments officials to better understand WTO's work.¹⁹¹⁴

On 24 September 2021, President Biden met with Indian Prime Minister Narendra Modi to advance their partnership.¹⁹¹⁵ The leaders affirmed a commitment to developing a trade and investment partnership that benefits working families in both countries.¹⁹¹⁶ The leaders also welcomed the reconvening of the India-US Trade Policy Forum prior to the end of 2021, hoping to address trade concerns between the two countries.¹⁹¹⁷

The United States has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. The United States has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive trade environment by lowering barriers to trade in bilateral agreements and including provisions on small and medium sized enterprises. Additionally, the United States has action to strive to realize the goal of an investment environment that is non-discriminatory, free, fair, predictable and inclusive by initiating Build Back Better World.

Thus, the United States receives a score of +1.

Analyst: Andy Lin

European Union: +1

The European Union has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment.

On 30 November 2021, the EU met virtually with Argentina to discuss trade and economics.¹⁹¹⁸ During the meeting both parties discussed concerns with current trade policies, new taxation laws

and interest in varying policy areas.¹⁹¹⁹ The discussions promoted transparency and stability in foreign investment by Argentina into the EU.¹⁹²⁰

On 7 December 2021, the EU announced that it will allow member states to suspend value-added tax (VAT) rates on COVID-19 vaccines and testing kits and related services until 31 December 2022.¹⁹²¹ Member states may also choose to reduce VAT rates for these items.¹⁹²²

On 12 December 2021, the European Commission released a communication agenda with the US which created a framework for transatlantic cooperation.¹⁹²³ The European Commission asked the US to join the Trade and Health Initiative which works to “facilitate trade in essential medical goods and healthcare products.”¹⁹²⁴ The European Commission also asks the United States to review bilateral and multilateral trading to strengthen the systems.¹⁹²⁵

On 30 December 2020, the EU and China announced a new investment deal after seven years of negotiation.¹⁹²⁶ The deal seeks “to make foreign investment fairer for European companies which compete against state-funded firms in China.”¹⁹²⁷ China has committed to being transparent on subsidies for state-owned firms and forced technology transfers.¹⁹²⁸ EU Trade Chief Valdis Dombrovskis believes “the main purpose of this agreement is to address the economic imbalance in our relations...[as] the EU’s market is substantially more open to Chinese companies and investment than China’s market is for EU companies.”¹⁹²⁹

On 19 January 2021, European Parliament added rules to protect EU trading against partners acting “illegally.”¹⁹³⁰ Countermeasures are now allowed to be introduced when the EU “obtains a favourable ruling from a dispute settlement panel of the World Trade Organization or in bilateral and

regional agreements, when the other party fails to cooperate on the adjudication of the dispute.”¹⁹³¹ The resolution will not act as a protectionist measure, but would be WTO-compatible.¹⁹³² This action furthers the goal of fair, rule-based trading amongst the EU and its trading partners.¹⁹³³

On 18 February 2021, the European Commission released its revised trade policy. It focuses on the openness of the EU’s market both internally and externally, developing cooperative frameworks, increased multilateralism in trade and deepening trade relations with countries in the European Neighbourhood Policy, the Western Balkans and Eastern Partnership countries.¹⁹³⁴

On 19 February 2021, the EU and India “expressed hope to forge a host of bilateral cooperation arrangements with a view to boost bilateral trade” by continuing negotiations on the Bilateral Trade and Investment Agreement, in which the EU seeks greater market access for its commodities in India.¹⁹³⁵

On 26 February 2021, the EU stated it is committed to “improving access” to vaccines to countries in the European Neighbourhood Policy and beyond through COVID-19 Vaccines Global Access.¹⁹³⁶ The EU also committed to ensuring the unhindered flow of goods and services.¹⁹³⁷

On 5 March 2021, the EU and the US agreed to temporarily remove tariffs on various items including Boeing and Airbus aircrafts as well as non-aircraft products.¹⁹³⁸ The goal is to reduce tariffs on US-EU products, which is a step towards market liberalization.¹⁹³⁹

On 9 March 2021, the European Parliament revised InvestEU, a provisional agreement, which focuses on “investments in manufacturing of pharmaceuticals, medical devices and supplies.”¹⁹⁴⁰ The agreement will also focus investments into the EU’s small and medium sized enterprises which were “negatively affected by the pandemic.”¹⁹⁴¹ The agreement allows foreign investment from countries

“that are members of the European Free Trade Association, acceding countries, candidates and potential candidates, countries covered by the European Neighbourhood Policy.”¹⁹⁴² The goal is to increase investments into small and medium sized enterprises to help with the rebuilding of the EU’s economy post COVID-19.¹⁹⁴³

On 9 March 2021, the European Parliament created a resolution to carbon leaking which includes creating a carbon price on certain EU imports from countries who are “less climate-ambitious.”¹⁹⁴⁴ The goal would “create a global level playing field as well as an incentive for both EU and non-EU industries to decarbonize” and invest in environmentally conscious laws.¹⁹⁴⁵ This will not act to further EU protectionism but will promote countries to become environmentally aware and meet climate objectives.¹⁹⁴⁶

On 10 March 2021, the European Parliament discussed the importance of creating trade laws which implement a ban on importing from countries who are involved with human rights or environmental breaches.¹⁹⁴⁷ The Parliament adopted the legislative initiative report which called for the adoption of binding due diligence EU law to hold companies accountable for harm done to human rights or the environment at any point of the value chain.¹⁹⁴⁸

On 11 March 2021, the European Commission reinforced their commitment to export COVID-19 vaccines, of which it is currently the largest exporter.¹⁹⁴⁹ Over 34 million doses have been exported to 31 different countries.¹⁹⁵⁰ The new regulation has been set to continue until the end of June 2021.¹⁹⁵¹

On 25 March 2021, the European Parliament defined the strategy for a new EU-Africa partnership.¹⁹⁵² The expectation for the strategy is to encourage African ambitions towards a continental free trade area.¹⁹⁵³

On 28 March 2021, the European Parliament announced the conclusion of the EU-UK Trade Cooperation Agreement.¹⁹⁵⁴ The agreement encourages a zero quota and zero tariff arrangement “on all goods that comply with the appropriate rules of origin” and covers investment.¹⁹⁵⁵

On 13 April 2021, the European Parliament’s foreign affairs committee adopted a draft report with recommendations for the EU to improve relations with India.¹⁹⁵⁶ Recommendations have been made to advance trade, investment, effective multilateralism and “appropriate provisions regarding investors’ rights and duties.”¹⁹⁵⁷

On 22 April 2021, delegates from the EU attended the WTO general council meeting.¹⁹⁵⁸ Attendees agreed to eliminate unnecessary restrictions on exports of medical goods essential to combatting COVID-19, remain transparent about export restrictions deemed “necessary to relieve critical shortages,” and give particular considerations to least developed countries.¹⁹⁵⁹ Additionally, members agreed to engage with WTO trade monitoring exercises.¹⁹⁶⁰

On 17 June 2021, EU legislators agreed to invest EUR5 billion into the Brexit Adjustment Program, which targets counties, regions and sectors most affected by Brexit.¹⁹⁶¹ The EU will be investing in “job creation and reintegration in the labour market.”¹⁹⁶²

On 24 June 2021, Members of the European Parliament (MEPs) approved a deal between Parliament and Council to invest into regions that are being most affected by the transition to climate neutral EU.¹⁹⁶³

On 28 June 2021, MEPs pushed for the farming market to be more transparent as to be better prepare for future crises.¹⁹⁶⁴ The council agreed to include European Union observatories to collect data on imports and exports in addition to other data.¹⁹⁶⁵

¹⁹⁶³ MEPs Approve EU Aid to Help Regions Most Hit by Transition to Climate Neutral EU, European Parliament (Brussels) 24 June 2021. Access Date: 24 July 2021. <https://www.europarl.europa.eu/news/en/press-room/20210621IPR06641/meps-approve-eu-aid-to-help-regions-most-hit-by-transition-to-climate-neutral-eu>

On 15 July 2021, the EU set out its goals for a new strategy with China.¹⁹⁶⁶ Emphasis was placed on discussing “human rights, climate change, nuclear disarmament, fighting global health crises and the reform of multilateral organizations.”¹⁹⁶⁷

On 9 September 2021, the EU parliament adopted the InvestEU program which aims to “support strategic investments in manufacturing of pharmaceuticals, medical devices and supplies.”¹⁹⁶⁸ All programs financed by InvestEU must prove a positive environmental climate and social impact.¹⁹⁶⁹ Further investments around the European Union expected to generate approximately EUR400 billion will be allotted to: sustainable infrastructure, research, innovation and digitalization, SMEs, social investment and skills.¹⁹⁷⁰

The EU has fully complied with its commitment to strive to realize the goal of a free, fair, inclusive, non-discriminatory, transparent, predictable and stable trade and investment environment. The EU has taken action to strive to realize the goal of a fair, free and predictable trade environment by actively lowering barriers to trade and legislating rules-based trading. Additionally, the EU has taken action to strive to realize the goal of a non-discriminatory, fair, free, predictable and inclusive investment environment by creating investment incentives with consideration for SMEs impacted by COVID-19.

Thus, the European Union receives a score of +1.

Background

Maintaining free trade and open market access has been a feature of G20 summits since the Washington Summit in 2008. Before the 2017 Hamburg Summit it primarily took the form of an anti-protectionism pledge. This pledge was part of the response by the G20 to the 2008 financial crisis and was extended three times: at the 2009 London Summit, at the 2010 Toronto Summit and at the Los Cabos Summit until the end of 2014. At the 2013 St. Petersburg Summit, it was again extended until the end of 2016. At the 2015 and 2016 G20 summits in Antalya and Hangzhou, the G20 reaffirmed the commitment to a standstill and rollback on protectionist measures.

However, with increasingly differing opinions on trade policies' contribution to domestic and international economic growth and employment, G20 leaders have been less precise on the issues of international trade, despite affirmations of support for a “free, fair, non-discriminatory, transparent, predictable and stable trade and investment environment.”¹⁹⁷¹ Nevertheless, the upsurge in protectionism remains a primary threat to market access around the world. The World Trade Organization (WTO) estimated that by mid-October 2019 trade restrictions imposed by the G20 economies had reached their historic peaks, with a 37 percent increase, compared to the previous

¹⁹⁷¹ G20 Osaka Leaders' Declaration, RANEPa (Moscow) 29 June 2019. Access Date: 10 January 2021.
<https://www.ranepa.ru/ciir/sfery-issledovaniy/gruppa-dvadtsati/dokumenty-gruppy-dvadtsati/yaponskoe-predsedatelstvo-2019/>

period (mid-October 2018 to mid-May 2019) and a trade coverage of over USD460 billion.¹⁹⁷² More recently, against the backdrop of declining trade and investment in the wake of COVID-19 crisis the G20 members moderated the number and coverage of regular trade-restrictive measures to around USD36.8 billion.¹⁹⁷³

The traditionally applied indicator for trade openness, measured as the sum of a country’s total exports and total imports divided by its gross domestic product (GDP), is criticized by the WTO on the grounds that it correlates with some of economies’ innate characteristics and, thus, cannot be utilized for cross-country comparisons.¹⁹⁷⁴ Additionally such measurement cannot be applied to the monitoring of the G20 performance during the summit cycles, due to the lags in trade and GDP data availability. As such, given the history of the institution’s activity on trade and the corresponding leaders’ pledges, the compliance assessment is based on the traditional G20 commitment to avoid protectionist measures.

Commitment Features

This commitment requires that G20 members maintain a non-restrictive trade environment and ensure free access to their domestic markets. The Osaka Summit leaders’ declaration calls for G20 members not to impose new protectionist measures and roll back those restrictions, which were imposed previously. According to the WTO definition, protectionist measures include “tariffs, non-tariff measures, subsidies, and burdensome administrative procedures regarding imports.” Subsidies in particular cause competition-distorting effects. To fully comply with the commitment the G20 members need to avoid imposing new protectionist measures and eliminate the ones in force.

Scoring Guidelines

| | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| -1 | G20 member implemented one or more protectionist measures AND did not roll back any existing measures. |
| 0 | G20 member did not implement new protectionist measures BUT existing measures were not rolled back OR the G20 member did implement new protectionist measures BUT at least one existing measure was rolled back. |
| +1 | G20 member did not implement any new protectionist measures AND rolled back at least one existing measure. |

Argentina: 0

Argentina has partially complied with the commitment on open markets.

On 24 December 2020, the Executive of Argentina adopted Decree 1040/2020 approving a temporary export ban on several metal scraps and wastes. Prior to the regulation, no export restriction applied to the affected goods.¹⁹⁷⁵

On 11 January 2021, the Ministry of Agriculture, Livestock and Fishing of Argentina revoked the temporary export ban on corn replacing it with a temporary export quota. Concretely, the new measure allows the registration of exports of maize under the Advanced Sworn Export Declaration

¹⁹⁷⁵ Decreto 1040/2020, Boletín Oficial de la República Argentina (Buenos Aires) 24 December 2021. Access Date: 12 May 2021. <https://www.boletinoficial.gob.ar/detalleAviso/primera/239141/20201224?busqueda=1>

but limiting the issuance of permits to 30,000 tons per day. Previously, in December 2020, the Argentine authorities suspended the issuance of export permits approving a de facto export ban on this commodity.¹⁹⁷⁶

On 17 March 2021, the Federal Administration for Public Revenue adopted General Resolution 4946/2021 establishing export reference prices on concentrated grape juice. The affected product was classified under tariff subheading 2009.69.00. The new export criterion value was set at Free on Board (FOB) value of USD1 per kilogram and it only applies to exports to Canada, the United States, Bolivia, Brazil, Colombia, Chile, Paraguay, Peru, Uruguay, Venezuela, Nigeria, South Africa, Israel, Finland, Hungary, Norway, Poland, the United Kingdom, Romania, Sweden, Switzerland, Turkey, Russia, Ukraine, Czechia, Saudi Arabia, Lebanon, Jordan, the United Arab Emirates, Syria, Morocco, Bahrain, Australia, The Republic of Korea, the Democratic People's Republic of Korea, China, the Philippines, Chinese Taipei, Japan, Thailand and Hong Kong.¹⁹⁷⁷

On 14 April 2021, the Federal Administration for Public Revenue adopted General Resolution 4961/2021 establishing new import criterion values on headstocks classified under tariff line 9209.92.00. The new reference price was decreased from a FOB value of USD35.73 per kilogram to USD14.36 per kilogram. The previous applicable reference prices were established in General Resolution 4372/2018. Notably, the new legislation affected the following jurisdictions: the Republic of Korea, Democratic People's Republic of Korea, China, Chinese Taipei, Philippines, Hong Kong, India, Indonesia, Malaysia, Pakistan, Singapore, Thailand and Vietnam.¹⁹⁷⁸

On 14 April 2021, the Federal Administration for Public Revenue of adopted General Resolution 4963/2021 establishing new import criterion values on artificial teeth classified under tariff line 9021.21.10. For products originating in the Republic of Korea, Democratic People's Republic of Korea, China, Chinese Taipei, Philippines, Hong Kong, India, Indonesia, Malaysia, Pakistan, Singapore, Thailand, Vietnam, Japan, Belgium, Denmark, Spain, France, Italy, the Netherlands, Portugal and Germany, the new reference price was established at a FOB value of USD0.60 per unit. Previously, artificial teeth classified under this tariff line imported from these jurisdictions did not face any import criterion value. Notably, the new regulation also refers to other jurisdictions. However, the reference price announced for them does not change from the one announced in 2009. Thus that section of the regulation has not been recorded under this state act.¹⁹⁷⁹

On 25 May 2021, the Federal Public Revenue Administration adopted General Resolution 4998/2021 increasing the export reference prices on different frozen bovine meat cuts. The affected products were classified under tariff subheadings NCM 0202.20.90 and 0202.30.00.¹⁹⁸⁰

During the compliance period Argentina both rolled back several protectionist measures and introduced new ones.

Australia: 0

Australia has partially complied with the commitment on keeping its markets open.

On 9 December 2020, the Australia-Singapore Digital Economy Agreement was launched. The agreement, covering such important issues as personal data protection, e-invoicing, paperless customs procedures, and electronic certification for agricultural exports, made it easier for Australian exporters to do business in Singapore.¹⁹⁸¹

On 9 December 2020, the Australian Parliament “adopted the Foreign Investment Reform (Protecting Australia’s National Security) Bill 2020 establishing a “national security test” for foreign direct investment which expands the scope of investments subject to screening controls. With the new regulation, all foreign investments which raise national security concerns will now be subject to the screening from the Foreign Investment Review Board.”¹⁹⁸² In terms of developed land considered sensitive, which includes mines and critical infrastructure, the thresholds have been increased from AUD55 million (USD41.3 million) to AUD61 million (USD46 million).¹⁹⁸³

On 11 December 2020, the Parliament passed the legislation to better assist those Australian exporters trying to enter new markets. The eligible exporters “now receive funding closer to when they incur costs which boosts their marketing and promotional activities.”¹⁹⁸⁴

On 13 December 2020, the Pacific Agreement on Closer Economic Relations Plus, which “ensures greater market access and lower tariffs” in the region, came into force. Farmers, businesses and investors across Australia and the Pacific will have their trade opportunities boosted.¹⁹⁸⁵

On 1 January 2021, Australia cut export tariffs for some countries on chilled beef, sheep, goat and honey. The cuts were made possible thanks to a network of free trade agreements. Minister for Trade, Tourism and Investment Dan Tehan said: “Reducing trade barriers will boost export opportunities for Australian farmers and businesses in key export markets which translates to more jobs and economic growth in Australia.”¹⁹⁸⁶

Brazil: 0

Brazil has partially complied with the commitment on open markets.

On 22 March 2021, the Executive Committee of the Brazilian Foreign Trade Chamber (GECEX) issued Resolution No. 175 increasing the import tariffs on certain X-ray devices of the types used for luggage security inspection, as well as on X-ray devices of the types used for a vehicle safety inspection. The affected products were classified under the tariff subheading NCM 9022.19.99.¹⁹⁸⁸

On 29 March 2021, GECEX adopted Resolution N° 182 adding 65 new products to the list of goods identified as critical to fight the COVID-19 outbreak. These products are temporarily exempted from import tariffs. The affected goods were classified under 42 different eight-digit tariff lines.¹⁹⁸⁹

On 30 March 2021, GECEX adopted Resolution N° 183 removing certain diodes from the annex of GECEX Resolution n° 173. The affected tariff line was NCM 8541.10.32. As a consequence of the changes introduced, the import tariff was increased from 5.4 per cent to 6 per cent.¹⁹⁹⁰

On 30 March 2021, GECEX issued Resolution N° 184 establishing a 4 percent import tariff on polypropylene for a quota of 77,000 tons. The affected product is classified under the tariff subheading NCM 3902.10.20. According to the World Trade Organization tariff download facility, the average import tariff applicable for products imported outside the quota is 14 percent. The new import tariff quota applies for a period of 3 months.¹⁹⁹¹

On 28 May 2021, GECEX issued Resolution No. 210 increasing the temporary tariff-rate quota on palm oil applicable until 31 August 2021. The affected product was classified under tariff line NCM 1513.29.10. The previous import tariff quota was adopted in May 2019 and extended in 2020. The regulation established the total volume of palm oil that can be imported with a 0 per cent import tariff at 59,500 tonnes for a period of 3 months. There was no applicable import tariff quota immediately prior to this announcement.¹⁹⁹²

On 21 June 2021, GECEX issued Resolution No. 212 temporarily eliminating the import tariffs on 251 capital goods. Furthermore, 26 additional ex-tarifários were added to previous regulations also

leading to the elimination of duties. In total, the changes introduced affected 21 eight-digit tariff lines. At the same time, Resolution eliminated from the ex-tarifário regime 26 capital goods enclosed in 19 eight-digits tariff lines. The change introduced lead to an increase in the import duties applicable to the affected products.¹⁹⁹³

During the compliance period Brazil both rolled back several protectionist measures and introduced new ones.

Thus, Brazil receives a score of 0.

Analyst: Irina Popova

Canada: -1

Canada has failed to comply with the commitment to keep markets open.

On 23 December 2020, the Canada Border Services Agency announced the imposition of a provisional duty on imports of wheat gluten from Australia, Austria, Belgium, France, Germany and Lithuania. The rate of duty imposed on imports from Australia is 26.1 per cent; from Austria 26.1 per cent; from Belgium 26.1 per cent; from France 22.5 per cent; from Germany 26.1 per cent; from Lithuania 26.1 per cent.¹⁹⁹⁴

On 1 January 2021, the Government of Canada announced the amendments to the Investment Canada Act with new thresholds for foreign direct investment. The threshold for direct acquisitions of control by foreign World Trade Organization (WTO) members' investors has been reduced from CAD1.075 billion to CAD1.043 billion; for investors from countries which have preferential trade agreements with Canada – from CAD1.613 billion to CAD1.565 billion, and for WTO members' state-owned investors – from CAD428 million to CAD415 million.¹⁹⁹⁵

In January 2021, it was announced that public consultations were launched on developing a Comprehensive Economic Partnership Agreement between Indonesia and Canada.¹⁹⁹⁶

On 4 February 2021, the Canada Border Services Agency imposed a provisional duty on imports of certain concrete reinforcing bar from Algeria, Egypt, Indonesia, Italy, Malaysia, Singapore and Viet Nam. The rates of Algeria amounted to 13.7 per cent; Egypt 22 per cent; Indonesia 28.4 per cent; Italy 28.4 per cent; Malaysia 28.4 per cent; Singapore 28.4 per cent; Vietnam 15.4 per cent.¹⁹⁹⁷

On 4 March 2021, the Canada Border Service Agency imposed a provisional antidumping duty on imports of certain concrete reinforcing bar from Oman and Russia. Imports from Russia are charged with 45 per cent provisional duties, while imports from Oman are charged with 8 per cent.¹⁹⁹⁸

On 5 May 2021, the Canada Border Services Agency introduced a temporary (six-months) countervailing duty on upholstered domestic seating imported or originating from China and Vietnam.¹⁹⁹⁹

Canada implemented new protectionist measures while failing to roll back any existing trade restrictive measures.

Thus, Canada receives a score of -1.

Analyst: Andrei Sakbarov

China: 0

China has partially complied with the commitment on keeping its markets open.

On 26 November 2020, the Chinese government announced an overhaul of restrictions related to the import and export of certain encryption products. In broad terms, the regulation formally states that the relevant products will be treated similarly to dual-use goods (goods that have military applications as well as civilian).²⁰⁰⁰

On 10 December 2020, a large technology transfer center was opened in Qingdao, Shandong. The center was created as a new platform for technological, economic, cultural etc. exchanges. It is also worth noting that the “Shanghai Cooperation Organization International Youth Entrepreneurship Incubator,” a project that will help to support youth innovation and entrepreneurship in various countries, will also be implemented in the center.²⁰⁰¹

On 10 December 2020, the Chinese government published the annual list of goods that would be subject to automatic import licensing for the subsequent year. Five items were removed from the list.²⁰⁰²

On 19 December 2020, the Ministry of Commerce released Order 2020/37, updating the framework of “National Security Review” for inbound foreign investments which expands the scope of investments subject to screening controls. According to the new regulation, the applicability of the screening mechanism has been expanded to cover all investments carried out by foreigners in areas close to any military facility. Previously, this test only applied to certain military facilities.²⁰⁰³

On 25 December 2020, the Chinese government stated that the supplementary tariffs imposed on certain imports from the US would be suspended for six product lines, including paraffin and polypropene.²⁰⁰⁴

On 30 December 2020, China published the list of goods which require a license before being able to be legally exported. Compared to the previous year, a single product line was removed from the list, meaning it no longer requires a license.²⁰⁰⁵

On 31 December 2020, China released the 2020 negative list for foreign investment access in Hainan. It will come into effect on 1 February 2021 and promote investment liberalization and facilitation in the Hainan free trade port.²⁰⁰⁶

On 1 January 2021, China implemented the “Asia-Pacific Trade Agreement” tariff reduction arrangement with Mongolia. The tariff reduction was mutual and utterly significant.²⁰⁰⁷

On 1 January 2021, import tariffs on 883 products were cut in order to coordinate the utilization of domestic and international resources and continuously improve the quality and level of supply of products on the market. Some examples of the products include medical equipment such as artificial heart valves, hearing aids, milk powder for infants, parts and raw materials required for new infrastructure and high-tech industry etc.²⁰⁰⁸

On 1 January 2021, China allowed the import of recycled iron and steel materials. The change was made because the materials do not constitute solid waste. It has been also proposed that imports that do not meet the national standards for “recycled steel raw materials” will be banned.²⁰⁰⁹

On 12 March 2021, the 14th Five-Year Plan was announced. According to the plan, China will further open up to the outside world and better participate in international economic cooperation, improve the customs system, promote the establishment of various open trade platforms, accelerate the opening up of the central, western and northeastern regions, establish important global processing and manufacturing bases, further opening up free trade zones, etc.²⁰¹⁰

On 12 March 2021, Premier Li Keqiang announced that one of the main goals for China in 2021 is promoting stable development of imports and exports. The premier listed some of the main actions that should be taken to achieve the goal. The actions include credit support for small and medium foreign trade enterprises, develop cross-border e-commerce, optimization and adjustment of import

Economic Partnership; zero tariffs started to be applied immediately or will start to be applied within five years.²⁰²⁰

In January 2021, it was announced that public consultations were launched on developing a Comprehensive Economic Partnership Agreement between Indonesia and Canada.²⁰²¹

On 1 February 2021, it was reported that activities were to be increased within the negotiations process on the development of trade agreement and free trade zone between Indonesia and the Eurasian Economic Union.²⁰²²

On 12 April 2021, it was reported that Indonesia's parliament approved the draft for the Comprehensive Economic Partnership Agreement between Indonesia and the European Free Trade Association (comprising Iceland, Lichtenstein, Norway and Switzerland).²⁰²³

On 6 August 2021, it was reported that the updated Indonesia-Singapore double taxation agreement (DTA) entered into force, strengthening efforts to prevent tax evasion, increase the tax base, and increase investments between the two countries. Updating the DTA can further enhance Singapore's status as a hub for international investments into Indonesia. There were three significant changes to the tax treaty, namely, the introduction of an article that provides capital gains tax protection, the reduction of withholding tax on royalties, and the reduction in branch profit tax (BPT). The treaty issues a new anti-tax avoidance article (Article 28), which means businesses that are unable to satisfy the BPT may not be entitled to treaty benefits under this updated DTA.²⁰²⁴

On 25 August 2021, it was reported that the trade balance of Indonesia showed a widening surplus in July 2021. However, the reason why Indonesia could enjoy a widening trade surplus in July is not really positive as it was a huge drop in imports that allowed the growing surplus, with particularly imports of raw materials and capital goods sliding heavily (which could be a sign that manufacturing and investment experienced a setback after the Indonesian government imposed tighter restrictions – locally known as PPKM Level 3 or 4 – in the economic centers on Java and Bali at the start of July 2021).²⁰²⁵

On 31 August 2021, it was reported that the government is pushing hard to produce medical supplies domestically and cut the exorbitant cost of imports from its COVID-19 budget. Speaking at a webinar on Monday, Coordinating Maritime Affairs and Investment Minister Luhut Pandjaitan called for more incentives to be given to import-substitution industries in the health sector. Imports of medical supplies take up a big chunk of the COVID-19 response budget. "If it's necessary, we are going to impose tariffs on imported [medical equipment] products that we already produce

On 22 February 2021, Mexico published a decree that modifies the national import and export tariffs, with the objective of creating new national tariff codes for and eliminating the import tariffs of COVID-19 vaccines and oxygen tanks.²⁰³⁵

On 3 March 2021, Mexico published an Agreement that temporarily suspends the modifications made to the list of goods that need prior authorisation for its importation/exportation from the Secretary of Energy. The decision comes in the aftermath of a precautionary measure of the Second District Judge in Mexico City that has national jurisdiction.²⁰³⁶

On 27 April 2021, Mexico published an Agreement that decreased the import tariff quota for beans for the 2021 period. The Agreement only opens a duty-free quota for imports of kidney or black beans under HS code 0713.33.99, effectively closing the quotas for the HS codes 0713.33.02 and 0713.33.03. The previous measure, a 2008 Agreement, established an annual duty-free import quota at 100 000 metric tonnes which were applicable to three codes (0713.33.02, 0713.33.03, and 0713.33.99). In this sense, beans imports under codes 0713.33.02 and 0713.33.03 will not benefit from a free-duty quota for the 2021 period.²⁰³⁷

On 23 June 2021, Mexico adopted an Agreement that establishes a duty-free quota for poultry during 2021. The affected six-digits HS codes are 0207.11; 0207.12; 0207.13; and 0207.14. The total quota was set at 30,000 tonnes, available until 31 December 2021. Notably, there was no duty-free quota for the 2020 period since the last similar Agreement applied only until 31 December 2019.²⁰³⁸

During the compliance period Mexico both rolled back several protectionist measures and introduced new ones.

Thus, Mexico receives a score of 0.

will be in effect retroactively from 1 January 2021 until 31 December 2023. The statutory import duty is 7 per cent.²⁰⁴⁰

On 16 February 2021, the EEU re-introduced a temporary reduction of import duty on carbon graphite products used in aluminum electrolysis, effective from 21 March 2021 to 1 April 2022. The 5 per cent duty on carbon graphite electrodes (tariff line 854519 000 0) was waived, as was the 12.5 per cent duty on carbon graphite brushes (tariff line 8545 90 900 0). Although the items in question seem to be used primarily for the electrolysis of aluminum, the reductions are not sector- or firm-specific.²⁰⁴¹

On 6 July 2021, the EEU issued a regulation imposing a safeguard measure on imports of clothing for women and girls from Vietnam. The products subject to the safeguard measure are classified under HS codes 6104.41.00.00, 6104.42.00.00, 6104.43.00.00, 6104.44.00.00, 6104.49.00.00, 6204.41.00.00, 6204.42.00.00, 6204.43.00.00, 6204.40.00.00, 6204.49.10.00, 6204.49.90.00 and 6110. The rate of duty on imports from Vietnam is equal to the common customs tariff of the Eurasian Economic Union. The rate duty ranges from 1,75 per cent to 10 per cent depending on the product. This follows Article 2.10 of the Vietnam-EEU Free Trade Agreement, in force since 2016. The customs duty is imposed for a period of six months.²⁰⁴²

Russia has liberalized its trade regulations and has not introduce any new protectionist measures.

Thus, Russia receives a score of +1

On 5 July 2021, Saudi Arabia amended its rules on imports from other Gulf Cooperation Council countries to exclude goods made in free zones or using Israeli input from preferential tariff concessions, in a bid to challenge the United Arab Emirates' status as the region's trade and business hub.²⁰⁴⁵

On 20 August 2021, it was reported that Saudi Arabia is looking for more trading partners under free trade agreements as the country aims at increasing non-oil exports share in GDP. The kingdom is resuming negotiations for free trade agreements with 11 countries. Target countries are China, India, Pakistan, Australia, New Zealand, Britain, Indonesia, the Philippines, Bangladesh, Sri Lanka, and the United States of America. Saudi Arabia aims to export services including transport, distribution, professional and financial services, communication services, postal services and many others. The Saudi Exports Development Authority announced on Wednesday, it will identify over 120 international tendering opportunities in a number of target countries.²⁰⁴⁶

During the compliance period, Saudi Arabia has taken both pro-open trade and anti-open trade measures.

Thus, Saudi Arabia receives a score of 0.

United Kingdom: 0

The United Kingdom has partially complied with the commitment on trade.

On 24 November 2020, the UK temporarily eliminated the import duty on COVID-19 vaccines from non-EU countries in response to the COVID-19 outbreak. Additionally, VAT was also eliminated as so far as it relates to the subject goods imported. The goods must be imported by state entities “including state bodies, public bodies and other bodies governed by public law.” Non-state bodies may also be granted duty-free import on the subject goods following the submission of an application to the National Import Relief Unit.²⁰⁶³

On 29 December 2020, Turkey signed Free Trade Agreement with the United Kingdom, which took effect from 1 January 2021; to the extent possible, the agreement replicates the EU-Turkey trade arrangement that applied in the United Kingdom until the end of the Transition Period following Brexit, and covers all industrial and agricultural products, removes tariffs on industrial products, and scales and reflects existing concessions with the EU on agricultural products in the new trade deal.²⁰⁶⁴

On 31 December 2020, the UK government announced introducing a licensing requirement on the imports of some nuclear materials.²⁰⁶⁵

On 1 January 2021, the UK government abolished the Low-Value Consignment Relief, which provided relief from VAT on imported goods valued at GBP15 or less. For these goods, the standard 20percent VAT rate is currently applied.²⁰⁶⁶

On 15 March 2021, the United Kingdom-Turkey Joint Committee established under the Agreement adopted a Decision replacing the existing Rules of Origin Protocol with a revised Protocol.²⁰⁶⁷

During the compliance period the United Kingdom has implemented several new protectionist measures, while at least two of the existing measures were rolled back.

Thus, the United Kingdom receives a score of 0.

reclassification of two mandrels with pilot drills resulted in the reduction of import tariff from 5 per cent to 3.9 per cent. The reclassification of automobile organizers and backseat automobile organizers, however, resulted in increase of import tariff from 2.5 per cent to 17.7 percent and from 2.5 percent to 7 percent, respectively. The reclassification of “piggy” banks lead to the introduction of import tariff of 3.4 percent.

On 11 March 2021, the President of the United States signed the American Rescue Plan Act of 2021. The Act provided for the stimulus package of USD1.9 trillion for the American economy, including direct financial grants to domestic manufacturing companies, agricultural producers, food distributors, and service providers.²⁰⁶⁸ This act supports the economic recovery from the effects of the COVID-19 pandemic; however, it can be perceived as distorting international competitive environment.

On 24 June 2021, the United States Customs and Border Protection issued a ruling reclassifying certain mineral stones sanded down and buffed amber stones. The reclassification reduced the import tariff of sanded down and buffed amber stones from 2.7 per cent to 0 per cent.²⁰⁶⁹

On 14 July 2021, the United States Customs and Border Protection issued a ruling, reclassifying textile cover for unsprung mattress foundation as other made-up articles rather than as furniture parts, which resulted in the decrease of import tariff of the subject product from 7 per cent to 0 per cent.²⁰⁷⁰

The United States has implemented new protectionist measures while rolling back any existing trade restrictive measures.

Thus, the United States receives a score of 0.

Analyst: Andrei Sakharov

European Union: 0

The European Union has partially complied with the commitment on trade.

On 11 December 2020, the EU published Regulation (EU) 2020/2020 that provides temporary value added tax (VAT) relief to COVID-19 vaccines and in vitro diagnostic medical devices. The objective is to ensure, as soon as possible, the most affordable access to the supply of the medical products necessary to fight the COVID-19 pandemic. For this, the regulation includes two types of tax relief: a VAT exemption for the supply of the authorized COVID-19 vaccines; and a VAT reduction or exemption for in vitro diagnostic medical kits for COVID-19.²⁰⁷¹

On 28 December 2020, the European Union updated the import tariff quotas for certain agricultural and industrial products applicable during the year 2021. The updates were both restrictive and trade-facilitating.²⁰⁷²

On 7 January 2021, the European Commission imposed a provisional duty on imports of certain iron, non-alloy or other alloy steel hot-rolled flat products from Turkey. The rate of duty is between 4.8 per cent and 7.6 per cent depending on the company.²⁰⁷³

On 8 March 2021, the European Commission issued Implementing Regulation (EU) 2021/401 decreasing the import duty applicable to certain husked rice (excluding basmati rice).²⁰⁷⁴

During the compliance period the European Union has implemented several new protectionist measures, while at least two of the existing measures were rolled back.

Thus, the European Union receives a score of 0.

5. Digital Economy: Consumer Rights

“We support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.”

Background

For the first time ever the G20 addressed the issues related to digital growth in 2015. During Turkey’s presidency, the G20 members approved national adjusted growth strategies; several of them, including Germany’s, indicated “investing in research ...and expanding the “High Tech Strategy” as a key long-term task.”²⁰⁷⁵ Approving adjusted growth strategies focused on the wide use of digital technologies in various spheres was the first step towards more specific initiatives and commitments. At Antalya, G20 leaders committed to “bridge the digital divide” and also noted that “states have a special responsibility to promote security, stability, and economic ties with other nations” in information and communications and technology (ICT).²⁰⁷⁶

At Hangzhou in 2016, in the G20 Blueprint on Innovative Growth, for the first time G20 leaders addressed the issue of proliferation of the digital economy, which they defined the digital economy as “a broad range of economic activities that includes using digitized information and knowledge as the key factor of production, modern information networks as the important activity space, and the effective use of ICT as an important driver for efficiency-enhancing and economic structural

²⁰⁷⁵ Adjusted Growth Strategy: Germany, RANEPА (Moscow) 8 July 2017. Access Date: 13 January 2021.

optimization.”²⁰⁷⁷ The leaders pledged to “offer policy support for an open, and secure ICT environment, including recognizing the key role of adequate and effective protection and enforcement of intellectual property rights to the development of the digital economy” by means of “cultivating transparent digital economy policy-making” and “supporting the development and use of international standards.”²⁰⁷⁸ To facilitate “the G20 agenda on innovation, new industrial revolution and digital economy,” G20 leaders decided to establish a designated task force supported by the Organisation for Economic Co-operation and Development (OECD).²⁰⁷⁹

At Hamburg in 2017, the G20 addressed the issue of digital skills promotion. The #eSkills4Girls Initiative touched on the issue within broader context of development and gender policy.²⁰⁸⁰ To facilitate implementing commitments on digital growth, the Digital Economy Task Force (DETF) was established following the decision made in Hangzhou in 2016.²⁰⁸¹ The leaders concluded with commitments aimed at harnessing digitalization and digital growth such as a pledge to promote digital literacy and digital skills, ensure effective competition to foster investment and innovation, promote effective cooperation of all stakeholders and encourage the development and use of market and industry-led international standards for digitized production, products and services.²⁰⁸²

During Argentina’s G20 presidency in 2018, the DETF presented political tools for digital growth including the G20 Digital Governance Principles, recommendation for measuring the digital economy, gender equality in digital sphere and digital infrastructure development.²⁰⁸³ At Buenos Aires, the G20 leaders pledged to “promote measures to boost micro, small and medium enterprises and entrepreneurs, bridge the digital gender divide and further digital inclusion, support consumer protection, and improve digital government, digital infrastructure and measurement of the digital economy.”²⁰⁸⁴

Japan’s G20 presidency in 2019 greatly expanded the G20 digital agenda. In Osaka, the G20 leaders presented the Statement on Preventing Exploitation of the Internet for Terrorism and Violent Extremism Conducive to Terrorism, which tackled cyber security.²⁰⁸⁵ In addition, the Osaka Declaration on Digital Economy was adopted in which most G20 members (with exception of India, South Africa and Indonesia) declared the launch of the “Osaka track” to promote discussions on “trade-related aspects of electronic commerce at the [World Trade Organization].”²⁰⁸⁶

In 2020 under Saudi Arabia's G20 presidency the ministers responsible for the digital economy adopted the G20 Roadmap toward a Common Framework for Measuring the Digital Economy. Under the Framework, the ministers proposed "an overarching policy definition of the different elements of the digital economy: The digital economy incorporates all economic activity reliant on, or significantly enhanced by the use of digital inputs, including digital technologies, digital infrastructure, digital services, and data; it refers to all producers and consumers, including government, that are utilizing these digital inputs in their economic activities."²⁰⁸⁷

In 2020, the DETF presented its recommendations on adjusting the United Nations 2030 Sustainable Development Goals with more than 30 indicators related to digital jobs, skills and growth in the digital economy. The recommendations were included into the OECD report "Roadmap Toward a Common Framework for Measuring the Digital Economy" that is said to "complement previous work and proposes a clear step forward for Digital Economy measurement."²⁰⁸⁸

Along with the Common Framework for Measuring the Digital Economy, the G20 ministers responsible for the digital economy presented three sets of best practices related to ensuring Security in the Digital Economy, advancing the G20 common Principles on the AI and promoting Smart Mobility.²⁰⁸⁹

In 2020 the G20 leaders' summit concluded with the joint Declaration. The leaders' recognized the key role of "connectivity, digital technologies, and policies"²⁰⁹⁰ in "strengthening our response to the pandemic and facilitating the continuation of economic activity."²⁰⁹¹ As an addition to the commitment made on promotion of consumers protection, non-discriminatory environment, intellectual property rights protection and data protection, the G20 leaders noted the importance of working with stakeholders "to connect humanity by accelerating global internet penetration and bridging digital divides."²⁰⁹²

Commitment Features

The commitment focuses on issues related to digital growth: fostering open, fair, and non-discriminatory environment; protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights; and security. To achieve full compliance, the G20 member shall take steps that cover all three of the abovementioned areas.

Fostering open, fair, and non-discriminatory environment

Fostering open, fair, and non-discriminatory environment is understood as actions taken by a G20 member country aimed at promotion of a business-friendly environment that allows "foreign suppliers to compete in national markets without encountering discriminatory, excessively burdensome or restrictive conditions. It helps firms, domestic and foreign, reap the benefits of trade,

contributing to economic growth.”²⁰⁹³ To promote holistic and joint approaches to openness, and mitigate negative spillovers arising from regulatory heterogeneity, the G20 actions will need to be guided by the good regulatory principles of market openness: be transparent and non-discriminatory. In the decision-making the fundamental aspect of transparency refers to the openness and inclusiveness of the policy-making process, in particular the opportunity for stakeholders to participate in formal or informal public consultations. Thus for the G20 members as policy-makers, “transparency is crucial because it enhances the efficiency of regulations by revealing the costs and benefits of policy decisions, reducing the risk of capture by specialized interests, helping remove economic distortions that might undermine domestic policy objectives, and improving public confidence in governmental and regulatory performance.”²⁰⁹⁴ Non-discrimination means that all like goods and services seeking to enter the national market, irrespective of whether digitally enabled or delivered, should have equal access, regardless of origin.²⁰⁹⁵

Thus, summing up, to comply with this feature of the commitment the G20 actions should be: a) transparent: helping reduce the costs of operating across different markets and clarifying the rules that apply to different products by providing up-to-date information and enabling access for different stakeholders to the policy-making process; and b) non-discriminatory: ensuring that domestic incumbents are not favored over foreign firms, or certain foreign firms over others, when operating in the digital space and selling like products in view of levelling the playing field.²⁰⁹⁶

Protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights

As the OECD notes in its relevant policy brief, “with the increasing complexity of the online environment, consumers may be vulnerable to actual or potential risks and challenges, which may affect their ability to participate effectively in the digital transformation.”²⁰⁹⁷ Key objectives include but not limited to “targeted policies, investment in ICT access and competencies, and education and awareness campaigns.”²⁰⁹⁸

Examples of a state-run policies that are designed to protect and empower consumers in the digital age are as follows:

- Improvement of market monitoring and law enforcement to detect and tackle against unfair commercial practices;
- Developing targeted education and awareness programs referring to ICT literacy and ICT skills;
- Encourage consumer organizations and businesses to take into account unique issues faced by vulnerable consumers, etc.²⁰⁹⁹

²⁰⁹⁹ Challenges to Consumer Policy in the Digital Age, OECD (Paris) 6 September 2019. Access Date: 19 January 2021.

<https://www.oecd.org/going-digital/topics/digital-consumers/challenges-to-consumer-policy-in-the-digital-age.pdf>

This aspect also requires actions by the G20 members to tackle the challenges related to privacy and data protection and intellectual property rights.

Privacy and data protection

Following the OECD works on privacy and data protection such as the OECD Guidelines Governing the Protection of Privacy and Transborder Flows of Personal Data,²¹⁰⁰, we consider that these aspects should not be treated separately.

The notion of “privacy protection” is inseparable from the notion of “laws protecting privacy” that is “national laws or regulations, the enforcement of which has the effect of protecting personal data.”²¹⁰¹

Against the context of the commitment under consideration, ‘data protection’ refers to the notions of “consumer data” and “personal data” that are closely intertwined but do not completely overlap. The term “consumer data” is intended to capture data concerning consumers, where such data have been collected, traded or used as part of a commercial relationship.²¹⁰² “Personal data” refers to “any information relating to an identified or identifiable individual (data subject).”²¹⁰³

The OECD Privacy Framework suggests the following actions that could be taken by a state to promote privacy and data protection:

- Develop national privacy strategies that reflect a co-ordinated approach across governmental bodies;
- Adopt laws protecting privacy;
- Establish and maintain privacy enforcement authorities with the governance, resources and technical expertise necessary to exercise their powers effectively and to make decisions on an objective, impartial and consistent basis;
- Encourage and support self-regulation, whether in the form of codes of conduct or otherwise;
- Provide for reasonable means for individuals to exercise their rights;
- Provide for adequate sanctions and remedies in case of failures to comply with laws protecting privacy;
- Consider the adoption of complementary measures, including education and awareness raising, skills development, and the promotion of technical measures which help to protect privacy;
- Consider the role of actors other than data controllers, in a manner appropriate to their individual role; and

²¹⁰⁰ OECD Guidelines on the Protection of Privacy and Transborder Flows of Personal Data, OECD (Paris) 2013. Access Date: 19 January 2021.

<https://www.oecd.org/sti/ieconomy/oecdguidelinesontheprivacyandtransborderflowsdatapersonaldata.htm>

²¹⁰¹ OECD Guidelines on the Protection of Privacy and Transborder Flows of Personal Data, OECD (Paris) 2013. Access Date: 19 January 2021.

²¹⁰² Consumer Data Rights and Competition – Background note, OECD (Paris) 2013. Access Date: 19 January 2021.

[https://one.oecd.org/document/DAF/COMP\(2020\)1/en/pdf](https://one.oecd.org/document/DAF/COMP(2020)1/en/pdf)

²¹⁰³ OECD Guidelines on the Protection of Privacy and Transborder Flows of Personal Data, OECD (Paris) 2013. Access Date: 19 January 2021.

<https://www.oecd.org/sti/ieconomy/oecdguidelinesontheprivacyandtransborderflowsdatapersonaldata.htm>

- Ensure that there is no unfair discrimination against data subjects.²¹⁰⁴

The OECD also specifies the notions of “data controller” and “privacy enforcement authority” that are mentioned in the list of suggested actions.

“Data controller” means a party who, according to national law, is competent to decide about the contents and use of personal data regardless of whether or not such data are collected, stored, processed or disseminated by that party or by an agent on its behalf.²¹⁰⁵

“Privacy enforcement authorities” means any public body that is responsible for enforcing laws protecting privacy, and that has powers to conduct investigations or pursue enforcement proceedings.²¹⁰⁶

Intellectual property rights

Following the World Intellectual Property Organization’s (WIPO) Handbook, we understand the “intellectual property rights” (IPR) as “the legal rights which result from intellectual activity in the industrial, scientific, literary and artistic fields.”²¹⁰⁷ WIPO also specifies that these laws “aims at safeguarding creators and other producers of intellectual goods and services by granting them certain time-limited rights to control the use made of those productions.”²¹⁰⁸

Against this background, the G20 actions may refer but not limited to facilitating better legal protection of:

- Patents;
- Copyrights and related rights;
- Trademarks;
- Industrial designs and integrated circuits;
- Geographical indicators;
- IPR proprietors against unfair competition.²¹⁰⁹

Security

According to the OECD “digital security” refers to “economic and social aspects of cybersecurity as opposed to purely technical aspects and those related to criminal law enforcement and national and international security.”²¹¹⁰ Addressing security risks is essential for economic and social prosperity. Regarding “digital security risks” the OECD notes the following:

²¹⁰⁴ The OECD Privacy Framework, OECD (Paris) 2013. Access Date: 19 January 2021.

https://www.oecd.org/sti/ieconomy/oecd_privacy_framework.pdf

https://www.wipo.int/edocs/pubdocs/en/wipo_pub_489.pdf

²¹⁰⁹ WIPO Intellectual Property Handbook, WIPO (Geneva) 2004. Access Date: 13 January 2021.

https://www.wipo.int/edocs/pubdocs/en/wipo_pub_489.pdf

²¹¹⁰ Digital Security Risk Management for Economic and Social Prosperity, OECD (Paris) 2015. Access Date: 19 January 2021. <https://www.oecd.org/digital/ieconomy/digital-security-risk-management.pdf>

“Digital security risk as a category of risk related to the use, development and management of the digital environment in the course of any activity. This risk can result from the combination of threats and vulnerabilities in the digital environment. They can undermine the achievement of economic and social objectives by disrupting the confidentiality, integrity and availability of the activities and/or the environment. Digital security risk is dynamic in nature. It includes aspects related to the digital and physical environments, the people involved in the activity and the organizational processes supporting it.”²¹¹¹

Ensuring the digital security requires cooperation of all “stakeholders” considered as “the governments, public and private organizations, and the individuals, who rely on the digital environment for all or part of their economic and social activities.”²¹¹²

Accordingly to comply with this commitment feature the G20 should lead by example in implementation of a holistic public policy approach to digital security risk management and establishing co-ordination mechanisms at the domestic, regional and international levels, which ensure that all stakeholders understand digital security risk and how to manage it, take responsibility for the management of digital security, manage digital security risk in a transparent manner; cooperate, including across borders.

To foster trust and confidence in the digital environment at the national level the G20 members may implement strategies which include measures such as:

- Adopting a comprehensive framework to manage digital security risk to the government’s own activities;
- Establishing co-ordination mechanisms among all relevant governmental actors to ensure that their management of digital security risk is compatible and enhances economic and social prosperity;
- Ensuring the establishment of one or more Computer Security Incident Response Team (CSIRT), also known as Computer Emergency Response Team (CERT), at national level and, where appropriate, encourage the emergence of public and private CSIRTs working collaboratively, including across borders;
- Using their market position to foster digital security risk management across the economy and society, including through public procurement policies, and the recruitment of professionals with appropriate risk management qualification;
- Encouraging the use of international standards and best practices on digital security risk management, and promoting their development and review through open, transparent and multi-stakeholder processes;
- Adopting innovative security techniques to manage digital security risk in order to assure that information is appropriately protected at rest as well as in transit, and taking into account the benefits of appropriate limitations on data collection and retention;
- Coordinating and promoting public research and development on digital security risk management with a view to fostering innovation;

²¹¹¹ Digital Security Risk Management for Economic and Social Prosperity, OECD (Paris) 2015. Access Date: 19 January 2021. <https://www.oecd.org/digital/ieconomy/digital-security-risk-management.pdf>

²¹¹² Digital Security Risk Management for Economic and Social Prosperity, OECD (Paris) 2015. Access Date: 19 January 2021. <https://www.oecd.org/digital/ieconomy/digital-security-risk-management.pdf>

- Supporting the development of a skilled workforce that can manage digital security risk, in particular by addressing digital security risk management in broader skills strategies. This could include fostering the development of in-service risk management training and certification and supporting the development of digital skills across the population through national education programs, notably in higher education;
- Adopting and implementing a comprehensive framework to help mitigate cybercrime, drawing on existing international instruments;
- Allocating sufficient resources to effectively implement the strategy.²¹¹³

Cooperation at the international level may include:

- Participating in relevant regional and international fora, and establishing bilateral and multilateral relationships to share experience and best practices; and promoting an approach to national digital security risk management that does not increase the risk to other countries;
- Providing, on a voluntary basis as appropriate, assistance and support to other countries, and establishing national points of contacts for addressing cross-border requests related to digital security risk management issues in a timely manner;
- Working to improve responses to domestic and cross-border threats, including through CSIRTs²¹¹⁴ co-operation, coordinated exercises and other tools for collaboration.²¹¹⁵

The commitment requires the G20 members to support “fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.”²¹¹⁶ To achieve full compliance (+1 score), a G20 member should demonstrate strong willingness to fulfil the task that implies taking actions in all three spheres that go beyond mere verbal support or participation in a discussion on a topic without further implementation in a legislative form, resources allocation, etc. Partial compliance (0 score) could be given if a G20 member takes actions either matching only one or two key areas or even all three key areas but at least one area out of three is not supported with a strong action. Also, a 0 score could be given if a G20 member takes an action matching any of three key areas, but this action could not be regarded as a strong one. We consider lack of any actions as a prerequisite for giving a G20 member a –1 score.

Scoring Guidelines

| | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| -1 | G20 member does no action aimed at fostering open, fair, and non-discriminatory environment; empowering and protecting consumers while addressing issues related to privacy, data protection and intellectual property rights; or addressing digital security risks. |
| 0 | G20 member takes actions in ONE or TWO of the areas: fostering open, fair, and non-discriminatory environment; empowering and protecting consumers while addressing issues related to privacy, data protection and intellectual property rights; and addressing digital security risks. |
| +1 | G20 member takes strong actions that match all THREE areas: fostering open, fair, and non-discriminatory environment; empowering and protecting consumers while addressing issues related to privacy, data protection and intellectual property rights; and addressing digital security risks. |

Argentina: +1

Argentina has fully complied with the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 18 January 2021, the Public Tender 0005/2020 was opened, the bidding process for the Preventive and Corrective Maintenance of the Digital Document Management System (former GDE, Electronic Document Management), the integrated system of labeling, unique numbering, monitoring and recording of movements of all actions and files of the entire National Public Sector, which allows the complete digital processing of electronic files and is administered by the Undersecretariat of Administrative Innovation of the Ministry of Public Innovation, dependent on the Chief of Cabinet of Ministers of the Nation.²¹¹⁷

On 28 January 2021, National Director of Personal Data Protection Eduardo Cimato participated in the event for the “International Day for the Protection of Personal Data,” 40th anniversary of Convention 108, carried out by the Council of Europe and the Ibero-American Data Protection Network, where the policies adopted in the context of the COVID-19 pandemic and the importance of the role of control authorities in the protection of personal data were discussed.²¹¹⁸

On 24 February 2021, the Access to Public Information Agency released a series of criteria on how the data of those people who have been vaccinated against the COVID-19 should be treated. In this sense, some of the fundamental principles of the current regulation regarding the protection of personal data and access to public information are indicated. In a context of health crisis, both in the country and worldwide, and the general shortage of vaccines, there is great public interest in knowing how they are distributed, as well as if the distribution is being carried out in accordance with the “Strategic Plan for Vaccination against COVID-19 in the Argentine Republic,” published on the website of the Ministry of Health of the Nation.²¹¹⁹

On 23 March 2021, Secretary of Planning and Policies of Science, Technology and Innovation Diego Hurtado representing the Ministry of Science, Technology and Innovation, participated in the 2021 Korea-Latin America Digital Cooperation Forum whose central theme was the “Association for the Innovation and Digital Inclusion” organized by the Ministry of Foreign Affairs of Korea. Secretary Hurtado “celebrated the organization of this forum, the purpose of which is to consolidate efforts to share experiences in the face of digital transformation and promote Korea-Latin America cooperation in the areas of digital infrastructure, digital government, smart city and cybersecurity.”²¹²⁰

On 4 May 2021, national director of Consumer Defense Sebastián Barocelli chaired the meeting of the Technical Committee No. 7 for the Defense of the Consumer of Mercosur, on the 30th anniversary of the Treaty of Asunción. The participating authorities highlighted the central axes of the future agenda, “focused on the status of citizenship, the problem of hypervulnerable consumers, the over-indebtedness of consumers, good commercial practices among suppliers, and the need to involve civil society through academia and consumer associations. The member countries highlighted collaboration and joint work to respond to the needs of consumers.”²¹²¹

On 2 July 2021, National Directorate for Personal Data Protection participated in the “VIII International Data Protection Congress.” organized by the Superintendency of Industry and Commerce (SIC) of Colombia and the Ibero-American Data Protection Network, with the aim of sharing opinions, experiences and recommendations of national and international experts on the protection of personal data.²¹²²

On 3 August 2021, National Directorate for the Protection of Personal Data participated in a meeting of the Internal Security Council that was held by videoconference from Paraná, Entre Ríos, with the aim of analyzing the processing of geolocation data in emergency calls.²¹²³

Argentina has taken actions in all three aspects of the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

Thus, Argentina receives a score of +1.

should also be accessible in mobile applications. Access to the Digital Government platforms is free.²¹²⁹

On 5 April 2021, the Brazilian government launched system for security control in compliance with data protection law. A tool developed by the Digital Government Secretariat of the Ministry of Economy allows the investigation of security and privacy flaws in the systems, contracts and processes in which the personal data of any citizen needed to be analyzed. Fourteen different levels of risk are ascertained automatically. It is sufficient for the citizen's data protection officer within the federal government to complete a questionnaire on the specific case online.²¹³⁰

On 8 April 2021, the National Consumer Secretariat determined the registration of companies on the Consumidor.gov.br platform. Ordinance No. 12 was published in the Federal Official Gazette. The initiative was motivated by the significant increase in consumer demand during the coronavirus pandemic, in addition to the need for social distance in this period of exceptionality. The obligation only applies to companies or their respective economic groups if they have gross revenues of at least one hundred million reais in the last fiscal year; have reached a monthly average of 1,000 or more complaints in their customer service channels in the last fiscal year; or are sued in more than five hundred lawsuits that discuss consumer relationships. In case of non-compliance with the ordinance, false or misleading data in fulfilling the requirements, the supplier may be investigated for an infraction against the consumer protection and defense rules.²¹³¹

On 10 May 2021, the Ministries of Tourism and Justice launched courses on consumer rights. Tourism service providers and tourists from all over the country can enroll for free in one of the courses offered by the federal government related to consumer protection. The qualifications aim to offer legal certainty to companies and the citizen, in addition to improving the quality of consumer relations between the parties.²¹³²

On 28 May 2021, the National Data Protection Authority (ANPD) published the "Guidelines for the Definitions of Personal Data Processing Agents and Supervisors." The document seeks to establish guidelines that are not binding on treatment agents and explain who can exercise the functions of controller, operator and supervisor; the legal definitions; the respective liability regimes; concrete cases that exemplify ANPD's explanations and frequently asked questions on the subject.²¹³³

On 2 June 2021, Director-President of the National Data Protection Authority Waldemar Gonçalves Ortunho Júnior and the President of the Administrative Council for Economic Defense Alexandre Barreto de Souza signed Technical Cooperation Agreement destined the fight against activities that

Canada: +1

Canada has fully complied with the commitment to foster an open, fair, and non-discriminatory environment, protect and empowering consumers, and address the challenges related to privacy, data protection, intellectual property rights, and security.

On 2 December 2020, Minister of Justice David Lametti introduced a Charter Statement on the Bill C-11: An Act to enact the Consumer Privacy Protection Act and the Personal Information and Data Protection Tribunal Act and to make related and consequential amendments to other Acts, also known as Digital Charter Implementation Act 2020.²¹³⁶ The bill, if passed by Parliament, would introduce Consumer Privacy Protection Act, which will modernize Canada’s existing private sector privacy law, and will also create the new Personal information and Data Protection Tribunal Act, which will create the Personal Information and Data Tribunal, an entity that can impose administrative monetary penalties for privacy violations. Finally, the Act will repeal Part 2 of the existing Personal Information Protection and Electronic Documents Act and turn it into stand-alone legislation, the Electronic Documents Act.²¹³⁷ A number of provisions under the proposed digital charter relate to transparency, accountability, and oversight by public institutions, attempting to limit the regulatory impact on privacy interests of citizens and businesses.²¹³⁸

China: 0

China has partially complied with the commitment on supporting fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 24 November 2020, Xinhua announced the release of "Implementation Plan on Effectively Solving the Difficulties of the Elderly in Using Intelligent Technology." The plan insists on deploying new, more comprehensive and more straight-forward services for the elderly. The plan also proposes that in the future the elderly should not encounter any problems in using their smartphones. The technologies should meet all the basic needs of the elderly.²¹⁴¹

On 12 March 2021, the 14th Five-Year Plan was announced. According to the plan, China will enhance the merger of digital economy with the «real» economy. Also, the "new infrastructure" (5G, data centers, software etc.) will see enhanced investments. Moreover, artificial intelligence, big data, blockchain, cloud computing and cybersecurity were mentioned as digital industries to be fostered. The government will invest in the industries and create a good and safe environment for the development of digital economy.²¹⁴²

On 1 May 2021, "Measures for the Supervision and Administration of Online Transactions" came into effect. The document was created in response to the issue of supervision of e-commerce. The

measures map out a series of standardized transaction behaviors and list operators' main responsibilities. The measurers will make it easier to protect the rights, interests and security of consumers.²¹⁴³

China has addressed digital security tasks, issues related to privacy, data protection and intellectual property rights but has not taken any steps to foster open, fair, and non-discriminatory environment.

Thus, China receives a score of 0.

Analyst: Anastasiya Kirillova

France: +1

France has fully complied with the commitment on supporting fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights; and security.

In December 2020, France resumed collection of its digital tax on tech companies; starting from July 2019 the 3 per cent digital services tax applies to revenues deemed to have been generated in France by digital companies, wherever they are established, which make annual supplies of taxable services of more than EUR25 million in France and EUR750 million worldwide; in February 2020, the French tax administration confirmed that companies liable for digital tax could postpone to December 2020 the payment of the instalments due in April and October 2020; the final 2020 amount due will be paid in 2021.²¹⁴⁴

On 21 January 2021, the French National Assembly adopted a draft amendment to the draft bill "Consolidating the principles of the Republic," which would have the consequence of modifying the French Law for Trust in the Digital Economy of 21 June 2004; the new obligations will apply to all platforms, whether established in France or abroad; (i) which list, rank or share content uploaded by third parties (such as social media platforms and search engines); and (ii) whose activity in France exceeds a threshold of user connections. The law is called to be in place before European-wide Digital Service Act is put in place, and will put platform operators under more onerous obligations in relation to online harmful content (including apologies of crimes or terrorism, incitement to racial or religious hatred), including cooperation with authorities in the fight against the dissemination of harmful content, implementation of reporting tools and notice action, complaint and redress mechanism, transparency reporting and risk-auditing mechanism.²¹⁴⁵

On 15 February 2021, it was reported that France was pushing for the EU's upcoming regulations on Big Tech (Digital Services Act) to be changed so that member states could individually wield more power to punish bad behavior, police more types of content and force tech companies to remove illegal content (currently, only countries where tech companies have their headquarters can enforce the EU's laws).²¹⁴⁶

On 31 March 2021, it was reported that according to the French highest administrative court Council of State ruling organizations can deploy legal and technical safeguards to meet their obligations under

On 6 May 2021, it was reported that French Expertise Centre for Digital Regulation and the Directorate General for Enterprise signed a scientific partnership agreement for digital regulation. The move provides an opportunity to take stock of the needs of government departments in this area, and to focus on the development of methods and algorithms to support them in their monitoring of the practices of these digital platforms.²¹⁵⁵

On 7 June 2021, the French Autorité de la Concurrence delivered the first-ever decision in the world establishing that Google's ad tech practices are in breach of EU competition law. The decision resulted from an investigation launched after Geradin Partners filed a complaint before the Autorité on behalf of News Corp (owner of among others The Wall Street Journal and The Times) in summer 2019. The decision was adopted within the context of a so-called "transaction procedure" available in France, according to which Google agreed not to contest the charges of the Autorité. The decision imposed on Google a fine of EUR220 million and rendered binding a series of commitments proposed by Google.²¹⁵⁶

On 18 June 2021, Secretary of State for the Digital Economy Cédric O announced more regulation was needed to control a tech industry that is "evolving as an oligopoly." Speaking at the VivaTech 2021 conference in Paris, he said national governments were beginning to realize that big tech companies were not putting the public interest first and that more regulation is needed "both on competition and on the economic side, but also on the content regulation side."²¹⁵⁷

On 22 July 2021, CNIL published its decision, of 20 July 2021, whereby it imposed a fine of EUR1.75 million on AG2R La Mondiale, a mutual insurance group company, for violations of right to be informed and storage limitation principle, following an audit carried out in 2019. In particular, the decision outlines that AG2R La Mondiale had stored the data belonging to millions of prospective and current clients for an excessive period as it had not complied with the required time periods.²¹⁵⁸

On 29 July 2021, it was reported that the CNIL fined the SOCIÉTÉ DU FIGARO EUR50,000 for depositing advertising cookies on the lefigaro.fr website without obtaining the prior consent of Internet users. The CNIL, after receiving a complaint, carried out several checks between 2020 and 2021 on the news website lefigaro.fr. These checks revealed that when a user visited this site, cookies were automatically placed on his computer by the company's partners, without any action on his part

France has taken actions in all three issue areas related to digital growth: fostering open, fair, and non-discriminatory environment; empowering and protecting consumers while addressing issues related to privacy, data protection and intellectual property rights; and addressing digital security risks.

Thus, France is awarded a score of +1.

Analyst: Pavel Doronin

Germany: +1

Germany has fully complied with the commitment on supporting fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 16 December 2020, Germany passed a draft bill for a “Second Bill To Increase The Security of Information Technology Systems.” The purpose was to implement proceedings to avert threats to cyber and information security for the state, the economy and society including Significant extension of the powers of the Federal Office for Information Security and Expansion of obligations affecting operators of critical infrastructures and companies of special public interest.²¹⁶⁰

On 19 January 2021, the 10th Amendment of the German Competition Act entered into force. It was implemented to provide the German Federal Cartel Office with an efficient instrument against alleged digital monopolists to keep digital markets open. The Amendment also introduced changes to the German Competition Act concerning antitrust investigations procedure cartel damage claims.²¹⁶¹

On 19 January 2021, the German government announced initiative on the rolling out gigabit capable internet connections nationwide by 2025 and to ensure across-the-board mobile communications coverage.²¹⁶²

On 19 January 2021, Germany unveiled another coronavirus stimulus package, with EUR50 billion for a raft of projects addressing climate change, innovation, solar and wind power, and digitization.²¹⁶³

Germany has taken actions in all three aspects of the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

Thus, Germany receives a score of +1.

India: 0

India has partially complied with the commitment on supporting fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 24th November 2020, India released the list of 43 mobile apps, deemed a threat to public and national security, that will be blocked in India, including e-commerce apps.²¹⁶⁴

On 9th December 2020, India, together with Better Than Cash Alliance, co-organized a joined Peer Exchange in order to promote digital payments and to work jointly towards the goal of “Digital India for all.”²¹⁶⁵

On 21 June 2021, India proposed Amendments to the Consumer Protection (E-commerce) Rules adopted in 2020. Proposed amendments aim to bring transparency in e-commerce platforms and further strengthen the regulatory regime.²¹⁶⁶

India has addressed digital security tasks, issues related to fostering open, fair, and non-discriminatory environment, but has not taken any steps to fight the issue of privacy, data protection and intellectual property rights.

Thus, India receives a score of 0.

Analysts: Anastasiya Kirillova and Irina Popova

Indonesia: +1

Indonesia has fully complied with the commitment on supporting fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 29 December 2020, the Central Bank issued Regulation No. 22/23/PBI/2020 pertaining to the restructuring of the regulatory framework of payment systems, including the reclassification of the activities of payment service operators, and shifting the regulatory framework from an entity-based approach to activity and risk-based approach, enabling Central Bank to better mitigate potential risks in the country’s financial system; the regulation also issues new requirements with regards to share ownership and capital, which could impact foreign investors in the payment services industry. The regulation is part of the Indonesia 2025 Payment System Blueprint aimed at supporting banking digitalization, integration of the digital economy and interlink between fintech and the banking sector, as well as ensuring innovation, consumer protection, and healthy business competition, and safeguarding national interests in cross-border digital economy and finance transactions.²¹⁶⁷

Italy: +1

Italy has fully complied with the commitment to foster an open, fair, and non-discriminatory environment, protect and empowering consumers, and address the challenges related to privacy, data protection, intellectual property rights, and security.

On 25 April 2021, the Government of Italy presented the National Recovery and Resilience Plan to the Parliament. The plan is a part of the European Next Generation EU EUR750 billion package, aimed at environmental transition and carbon-neutral recovery from the pandemic-induced crisis. EUR40.32 billion of the EUR191.5 billion Italian package (around 27 per cent) are to be spent on the digitalization priorities. Among them are: migration to the cloud of central and local public administrations; creating a national infrastructure and supporting administrations in the transformation path; enhanced interoperability between government data; digitization of key procedures/user interfaces; state-of-the-art digital services for citizens; strengthening cybersecurity; enhancing citizens' basic digital skills; introducing new regulatory framework to speed up procurement of information and communications technologies and encourage interoperability by administrations; supporting justice reform interventions through investments in digitization and management of the backlog of cases.

On 30 April 2021, the Ministry of Technological Innovation and Digital Transition put forward the "Italia Digitale 2026" program to support the implementation of the National Recovery and Resilience Plan.²¹⁷⁶ The five goals under the program are: spread digital identity, ensuring it is used by 70 per cent of the population; close the digital skills gap, with at least 70 per cent of the population being digitally skilled; bring about 75 per cent of Italian public administration offices to use cloud services; achieve at least 80 per cent of essential public services delivered online; ensure universal

Cybersecurity Week, Japan, the US, and the European Union have for the first time launched the Japan-US-EU seminars on cybersecurity in the post-COVID environment.²¹⁹⁶

On 1 April 2021, METI formulated the Cyber/Physical Security Guidelines for the Safety and Security of Smart Homes. The guidelines organize matters regarding cyber/physical security measures in smart homes and the minimum necessary measures that each stakeholder should consider. In order to meet the needs of stakeholders with diverse knowledge and backgrounds, the guidelines group the security measures into stages, from simple countermeasure guides to specific countermeasure requirements and comparisons with international standards.²¹⁹⁷

On 30 April 2021, METI presented the results of its examination of measures to ensure the sustainability of Japanese filmmaking, including improving the business and working environment for freelancers. Detailed studies of the issues involved in enhancing fairness at film production worksites were conducted from August 2020 to March 2021 through various bodies created for the purpose. Specifically, a preparatory committee was set up for establishing an Organization for Enhancing Fair Film Production (provisional name), and this was accompanied by working groups formed to study the following specialized areas: system design; formulating certification standards; and measures for human resource development, etc.²¹⁹⁸

On 21 June 2021, it was reported that recognizing the need for standards aimed at ensuring the safety and security of an IoT society being recognized internationally, Japan had proposed a standard based on the IoT Security Guidelines, etc. and a standard based on the IoT Security Guidelines, General Framework for Secure IoT Systems, and the IPA's "IoT" series. The former was proposed to ISO/IEC JTC 1/SC 27 (Information security, cybersecurity and privacy protection), and the latter to ISO/IEC JTC1/SC41 (Internet of things and digital twin).²¹⁹⁹

On 3 August 2021, Japan's Personal Information Protection Commission published its long-awaited Guidelines to amendments enacted in 2020 (the "2020 amendments") to Japan's Act on the Protection of Personal Information (APPI). While many of the 2020 amendments do not take effect until 1 April 2022, they aim of APPI, among other things, is to strengthen penalties (these amendments took effect in 2020), introduce mandatory reporting of certain breaches, strengthen the extraterritorial application of the APPI, and expand the scope of data that is protected under the APPI.²²⁰⁰

On 6 August 2021, it was reported that Japan issued the outline for its "Next Cyber Strategy" on the 7 July 2021, to be approved by Cabinet within 2021. This strategy has a three-year planning period and has been prepared in the backdrop of increasing cyber-attacks from China stemming from deteriorating relations over Taiwan. This strategy has been formalized after soliciting public comments by the special task force on cybersecurity strategies headed by Chief Cabinet Secretary

On 19 August 2021, it was reported that a total of six meetings of the “Study Group on International Taxation in the Digital Economy” had been held since March this year. The outcomes have now been compiled into an interim report, which is to be published later in 2021. ²²⁰²

Japan has taken actions in all three aspects of the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

Thus, Japan receives a score of +1.

Analyst: Pavel Doronin

Korea: +1

Korea has fully complied with the commitment on supporting fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 7 December 2020, the Financial Services Commission unveiled its plans to introduce a routine inspection of personal data protection at financial institutions to ensure consistency in data protection and improve accountability. The plans include establishing specific inspection standards according to the data lifecycle, providing feedbacks on a regular basis through Financial Security Institute and setting up self-inspection guidelines for financial institutions.²²⁰³

On 6 January 2021, the Government of Korea presented the 2021 Action Plan for Digital New Deal. The Digital New Deal is a national innovation project that invests a total of KRW58.2 trillion (approximately USD51.6 billion) into advance data, network and AI-based economic structure, digital infrastructure and regulatory reform. The government aims to create 900,000 new jobs in information communications and technology (ICT)-related spheres by 2025.²²⁰⁴

On 25 February 2021, the Government of Korea presented the 4th Basic Plan for Nurturing and Supporting Scientific Talents for 2021 – 2025 period. The Plan outlines three main policy goals: attract talents with capabilities to respond to future changes; sustain and expand the scientific talent pool; and advance ecosystem for “transforming into a country that attracts talented workforce.” The Ministry of Science and ICT estimated a total of more than KRW25 trillion (approximately USD22.2 billion) would be invested from relevant departments and local governments to support 180

Some schools in South Africa were said to incorporate the new coding and robotics curriculum in 2021. The new curriculum was submitted for consideration by the Council for Quality Assurance in General and Further Education and Training.²²³³

On 11 March 2021, South Africa decided to relocate extra funds to fulfil the obligations under the National Student Financial Aid Scheme. Further reprioritization is considered as a part of the Medium-Term Budget process that would take place later this year.²²³⁴

On 15 June 2021, the Government Communication and Information System and the Ministry of Communication and Digital Technologies hosted a masterclass on digital skills development for the youth. Representatives of the governmental authorities and private entities including Google joined to younger generations for the fast-changing technological landscape.²²³⁵

South Africa takes steps to promote digital security and empower consumers by means of skills development. However, no actions aimed at fostering open, fair, and non-discriminatory have been founded within the monitoring period.

Thus, South Africa receives a score of 0.

Analyst: Alexander Ignatov

Turkey: +1

Turkey has fully complied with the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 4 December 2020, Regulation 31324 on the Processing of Personal Data and Protection of Privacy in the Electronic Communication Sector was published in the Official Gazette; the Regulation has been developed in accordance with the general personal data protection rules established in the Electronic Communication Law and the Personal Data Protection Law, and is aimed to ensure the protection and privacy of personal data in the communications sector and the regulation of procedures and principles regarding operators' relevant data protection obligations. The Regulation defines the minimum technical and administrative measures that must be taken by operators to ensure the safety of their services and personal data, including establishing required security policies; protection of personal data against data breaches such as unauthorized or unlawful access to, or the damage, loss, or disclosure of such data; ensuring the security of systems storing

personal data. The Regulation further clarifies the procedures and principles that apply to the obligation to obtain consent.²²³⁶

On 22 December 2020, the Data Protection Authority published a new decision, numbered 2020/966, which highlights the importance of the general principles that personal data processed must be accurate and up-to-date. The Decision emphasizes that the data controller has an active duty of care and that it is crucial to verify that personal data is accurate and up to date. The Decision states that in order to ensure the accuracy and timeliness of the data, the channels for collecting personal data must be clearly defined. In addition, reasonable measures must be taken, such as checking through verification codes, to avoid harm to the data owner due to the inaccuracy of personal data.²²³⁷

On 30 December 2020, it was reported that President Recep Tayyip Erdoğan signed the country's new national cyber security plan (2020-2023) prepared by Turkey's Transport and Infrastructure Ministry in coordination with the non-governmental organizations, universities, public and private sectors; Turkey's National Cyber Security Strategy and Action Plan include 40 actions and 75 implementation steps in relation to strategic objectives, including to protect the cybersecurity of critical infrastructure, to develop national technological tools for operational needs and to enhance the competencies of teams fighting cyber threats.²²³⁸

On 12 January 2021, it was reported that the Data Protection Authority launched an investigation into WhatsApp over its new data-sharing rules (sharing of more personal data with Facebook), while the Competition Authority opened a probe into Facebook and WhatsApp and suspended the messenger's new data collection rules in the country. The investigations will look into such issues, as general compliance with personal data protection legislation, data processing conditions and data transfer abroad.²²³⁹

On 12 March 2021, Turkey unveiled the details of a major new economic reform package as pledged by the president last November; as a part of the reform a digital tax office will be established which will operate 24 hours a day, seven days a week to enable the public to carry out transactions in the digital environment without personally visiting a tax office.²²⁴⁰

On 15 March 2021, it was reported that Turkey promoted the establishment of a "cyber security cluster," made up of local companies that produce software and hardware, aiming to make indigenous products dominant in the country; the cluster currently comprises 180 Turkish companies.²²⁴¹

On 5 April 2021, it was reported that Turkish Data Protection Authority launched a direct investigation into Facebook over a user data leak.²²⁴²

On 21 June 2021, the Personal Data Protection Authority published a summary of its decision 2021/426, dated 27 April 2021, in which it fined a software company TRY400,000 (approx. EUR38,695) for data security and breach notification failures under the Law on Protection of Personal Data No. 6698. In particular, it was highlighted that the company had failed to take the necessary technical and administrative measures pursuant to Article 12(1) of the Law and failed to notify the Authority within the prescribed time frame pursuant to Article 12(5) of the Law.²²⁴³

On 10 August 2021, it was reported that in July 2021, the Turkish Personal Data Protection Board published nine decisions and announced five data breach notifications. The insurance industry came under particular scrutiny, as four of the nine published decisions relate to insurance companies. Another important data protection development in July was the publication in the Official Gazette of the Constitutional Court's decision on an individual application regarding the right to request the protection of personal data.²²⁴⁴

On 3 September 2021, the Personal Data Protection Authority fined WhatsApp nearly EUR200,000 for violating privacy rules. The Facebook-owned messaging platform had “not clearly stated” how it would process its users’ data and for what purpose. The Authority ordered the app to bring its privacy policy in line with Turkey’s laws.²²⁴⁵

On 14 September 2021, the Ministry of Transport, Communications and High Technologies of Azerbaijan held a meeting with a delegation headed by the Chairman of the Digital Transformation Office of the Turkish Presidential Administration, Ali Taha Koc. Issues of implementing the concept of digital transformation of Azerbaijan, cybersecurity, personal data protection, the “government cloud”, as well as other issues of upcoming cooperation were discussed. The “Roadmap of the Azerbaijani-Turkish Working Group on Digital Transformation between the Ministry of Transport, Communications and High Technologies of Azerbaijan and the Digital Transformation Office of the Turkish Presidential Administration” was signed.²²⁴⁶

Turkey has taken actions in all three aspects of the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

Thus, Turkey receives a score of +1.

United Kingdom: +1

The United Kingdom has fully complied with the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

On 16 March 2021, the UK published the Integrated Review of Security, Defence, Development and Foreign Policy. It stated the bearing of new capabilities for the National Cyber Force. Learning from the pandemic, it bolstered national resilience with a new Situation Centre at the heart of government, improving use of data and the ability to anticipate and respond to future crises.²²⁴⁷

On 30 April 2021, the Foreign, Commonwealth and Development Office published the UK/EU and Eurasian Economic Community: Trade and Cooperation Agreement, there were fixed the existing levels of liberalisation in UK and EU markets, confirming both sides' leadership in this area and commitment to openness, as well as obligations on net neutrality, which fulfilled the UK's dual aims of securing commitments towards an open internet and protecting the safety of users online.²²⁴⁸

On 10 May 2021, the fourth annual report on the National Cyber Security Centre's Active Cyber Defence programme was released. It disclosed it had taken down more scams in the last year than in the previous three years combined as the organization moved to further protect the UK public and critical services such as the National Health Service during the COVID-19 pandemic.²²⁴⁹

The United Kingdom has taken actions in all three aspects of the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

Thus, the United Kingdom receives a score of +1.

targeting work-from-home and employment scams, pyramid schemes, investment scams, bogus coaching courses, and other schemes.²²⁵⁰

On 3 February 2021, the Federal Trade Commission announced that it had sent refunds totaling around USD4.7 million to 10,249 victims of the Digital Altitude business coaching scheme.²²⁵¹

On 22 February 2021, the Department of Homeland Security Science and Technology Directorate and the Cybersecurity and Infrastructure Security Agency announced seven grant awards to the Secure and Resilient Mobile Network Infrastructure project. The awards, totaling USD9.75 million, were aimed at “developing protections for legacy cellular networks — 2G, 3G and 4G, building security into the newly launched 5G network, and developing end-to-end protection of network traffic, including a standardized secure voice capability for unclassified government communications.”²²⁵²

On 8 March 2021, the Department of Homeland Security Science and Technology Directorate and the Cybersecurity and Infrastructure Security Agency announced two additional grant awards to the Secure and Resilient Mobile Network Infrastructure project. The two awards, USD915,000 and USD1.2 million, respectively, are focused on developing solutions designed to “improve the government’s visibility into mobile device network traffic to identify malware, attacks or attempts to extract data from or through mobile devices.”²²⁵³

On 12 May 2021, President Joseph Biden signed the Executive Order on Improving the Nation’s Cybersecurity. The Order aims to: remove barriers to threat information sharing between government and the private sector; modernize and implement stronger cybersecurity standards in the federal government; improve software supply chain security; establish a cybersecurity safety review board; create a standard playbook for responding to cyber incidents; improve detection of cybersecurity incidents on federal government networks; and improve investigative and remediation capabilities.²²⁵⁴

The United States has taken actions in two of the three issue areas related to digital growth: empowering and protecting consumers while addressing issues related to privacy, data protection and intellectual property rights; and addressing digital security risks.

Thus, the United States receives a score of 0.

European Union: +1

The European Union has fully complied with the commitment to support fostering an open, fair, and non-discriminatory environment, and protecting and empowering consumers, while addressing the challenges related to privacy, data protection, intellectual property rights, and security.

In December 2020, the European Commission proposed the Digital Services Act and the Digital Markets Act. One of the main goals of the two initiatives is to create a safer digital environment and ensure the fundamental rights of all users of digital services are protected. The Acts include a set of rules to improve consumer safety across online platforms in the EU, including online marketplaces, to make consumers equally safe when shopping online or offline. Platforms are obliged to step up efforts to tackle traders selling fake or unsafe products and to stop fraudulent companies using their services.²²⁵⁵

On 16 December 2020, was adopted the new EU's Cybersecurity Strategy in the Digital Decade. It stated that the EU should boost the security of essential services and strength collective capabilities and international stability in cyberspace.²²⁵⁶

On 2 March 2021, the Agency for Cybersecurity and the Computer Emergency Response Team for the EU Institutions, Bodies and Agencies announced the signature of a memorandum of understanding to enhance the cybersecurity.²²⁵⁷

On 23 April 2021, the European Union's lead data protection supervisor called for remote biometric surveillance in public places to be banned outright under incoming AI legislation.²²⁵⁸

On 12 May 2021, the Commission proposed new rules and actions aiming to turn Europe into the global hub for trustworthy Artificial Intelligence (AI). The combination of the first-ever legal framework on AI and a new Coordinated Plan with Member States would guarantee the safety and fundamental rights of people and businesses, while strengthening AI uptake, investment and innovation across the EU.²²⁵⁹

On 12 May 2021, the European Commission launched a public consultation on the formulation of a set of principles to promote and uphold EU values in the digital space. These principles aimed to guide the EU and Member States in designing digital rules and regulations that deliver the benefits of digitalisation for all citizens.²²⁶⁰

The EU has taken strong actions that match all three areas: fostering open, fair, and non-discriminatory environment; empowering and protecting consumers while addressing issues related to privacy, data protection and intellectual property rights; and addressing digital security risks.

Thus, the European Union receives a score of +1.

Background

International taxation has been a longstanding item of importance on the G20’s agenda. As early as the first G20 leaders’ summit in 2008, G20 leaders committed to medium-term actions to promote tax information exchange and transparency through the work of tax authorities and under the framework of the Organisation for Economic Co-operation and Development (OECD).²²⁶¹ In the Declaration of the Summit on Financial Markets and the World Economy adopted in 2008, G20 leaders recognized the importance of tax cooperation to promoting integrity in financial markets.

At the subsequent summit in London in 2009, G20 leaders pledged to “take action against non-cooperative jurisdictions, including tax havens,” which do not meet international standards of tax transparency.²²⁶² In an annexed summit outcome document, the Declaration on Strengthening the Financial System, G20 leaders committed to facilitating the access of developing countries to “the benefits of a new cooperative tax environment.”²²⁶³

In September 2009, G20 leaders convened at the ensuing summit in Pittsburgh and noted collective progress in fighting non-cooperative jurisdictions. In the leaders' statement, G20 leaders committed to advancing "momentum in dealing with tax havens, money laundering, proceeds of corruption, terrorist financing, and prudential standards."²²⁶⁴

At the Seoul summit in 2010, G20 leaders reiterated their commitment to "preventing non-cooperative jurisdictions from posing risks to the global financial system and welcomed the ongoing efforts by the FSB, Global Forum on Tax Transparency and Exchange of Information (Global Forum), and the Financial Action Task Force (FATF), based on comprehensive, consistent and transparent assessment."²²⁶⁵ Furthermore, the leaders pledged to "build sustainable revenue bases for inclusive growth and social equity by improving developing country tax administration systems and policies and highlighting the relationship between non-cooperative jurisdictions and development."²²⁶⁶

In November 2011, G20 leaders convened in Cannes, France, and adopted outcome documents that contained unilateral commitments on tax reform. G20 members such as the United States, France, Japan, India, Italy, and Germany individually committed to policy actions such as growth-friendly reduction of tax expenditures and other employment-friendly tax reforms.²²⁶⁷ In the summit declaration, G20 leaders collectively reaffirmed their commitment to protecting "public finances and the global financial system from the risks posed by tax havens and non-cooperative jurisdictions," with an emphasis on supporting tax systems in Least Developed Countries.²²⁶⁸

At the Los Cabos Summit in 2012, G20 leaders renewed their "commitment to strengthen transparency and comprehensive exchange of information" and welcomed the "OECD report on the practice of automatic information exchange," reaffirming the leaders' intention to implement this practice.²²⁶⁹ Moreover, G20 leaders highlighted "the need to prevent base erosion and profit shifting," also under the framework of the OECD.²²⁷⁰ At the same summit, G20 leaders adopted the Los Cabos Growth and Jobs Action Plan, which contains a commitment to engage in tax and expenditure reforms to improve debt-to-GDP ratios and strengthen medium-term foundations for growth.²²⁷¹

At the St. Petersburg Summit in 2013, G20 leaders dedicated a section of the leaders' declaration to "Addressing Base Erosion and Profit Shifting, Tackling Tax Avoidance, and Promoting Tax Transparency and Automatic Exchange of Information."²²⁷² This includes a commitment to improve "rules to tackle tax avoidance, harmful practices, and aggressive tax planning" and "ensure confidentiality and the proper use of information exchanged" under the proposed "new single

standard for automatic exchange of information.”²²⁷³ Other summit commitments from 2013 elucidated the need to share expertise, build the capacity of developing countries, and tackle tax crimes.²²⁷⁴

At the Brisbane Summit in 2014, G20 leaders welcomed “progress on the G20/OECD Base Erosion and Profit Shifting (BEPS) Action Plan to modernize international tax rules.”²²⁷⁵ They also committed to enhancing tax transparency, combating cross-border tax evasion, building tax administration capacity and other tax-related areas of work.²²⁷⁶

In 2015, at the Antalya Summit in Turkey, G20 leaders reaffirmed “previous commitments to information exchange on-Request as well as to automatic exchange of information.”²²⁷⁷ They also pledged to “strengthen developing economies’ engagement in the international tax agenda.”²²⁷⁸

At the Hangzhou Summit hosted by China in September 2016, G20 leaders committed to continue their “support for international tax cooperation to achieve a globally fair and modern international tax system and to foster growth, including advancing on-going cooperation on base erosion and profits shifting,” exchange of tax information, capacity-building for developing countries, growth-promoting tax policies, tax certainty, and taxation-based channels of terrorist financing.²²⁷⁹ In addition, the Hangzhou Action Plan attributed a section to “Tax for Growth,” which included commitments on coordinated tax policies for a “fair and efficient international tax system.”²²⁸⁰

At the 2017 summit hosted by Germany in Hamburg, G20 leaders reiterated their pledge to a “globally fair and modern international tax system” and the BEPS package.²²⁸¹ The leaders emphasized the implementation of agreed international standards on tax transparency, tax certainty, capacity-building, tax evasion, and emerging tax challenges from a digitalized economy.²²⁸² The spotlight on tax cooperation was further advanced by the Hamburg Action Plan, which inscribed a commitment to enhancing international tax cooperation, automatic exchange of information, and tax aid effectiveness, among other areas.²²⁸³

At the 2018 summit hosted in Buenos Aires, Argentina, G20 leaders emphasized the importance of secure sustainable tax systems.²²⁸⁴ They also recognized the tax implications of digitalization of the economy and the importance of tax capacity-building for developing countries. The leaders echoed previous pledges on the BEPS package and committed to “a globally fair, sustainable and modern international tax system based in particular on tax treaties and transfer pricing rules.”²²⁸⁵

In 2019, G20 leaders convened in Osaka, Japan, and reiterated their commitment to “a globally fair, sustainable, and modern international tax system.”²²⁸⁶ They further echoed previous pledges to tax capacity-building in developing countries, as well as the Inclusive Framework on BEPS and its efforts to address tax challenges arising from digitalization.²²⁸⁷ They noted the importance of enhanced cooperation through tax treaties, exchange of financial account information, implementation of OECD and tax transparency standards, tax capacity-building, and the BEPS package.²²⁸⁸

The consistent prominence of international taxation as an agenda item at the G20 leaders’ level reflects the breadth and depth of this issue area. In the G20 Riyadh Leaders’ Declaration adopted on 21 November 2020, G20 leaders continued their track record of emphasis on international taxation by committing that “we will continue our cooperation for a globally fair, sustainable, and modern international tax system.”²²⁸⁹

Commitment Features

The present commitment is situated in the following paragraph of the G20 Riyadh Leaders’ Declaration on International Taxation:

“We will continue our cooperation for a globally fair, sustainable, and modern international tax system. We welcome the Reports on the Blueprints for Pillar 1 and Pillar 2 approved for public release by the G20/OECD Inclusive Framework on BEPS. Building on this solid basis, we remain committed to further progress on both pillars and urge the G20/OECD Inclusive Framework on BEPS to address the remaining issues with a view to reaching a global and consensus-based solution by mid-2021. We welcome the report approved by the G20/OECD Inclusive Framework on BEPS on the tax policy implications of virtual currencies. We welcome the progress made on implementing the internationally agreed tax transparency standards and on the established automatic exchange of information. We will continue our support to developing countries in strengthening their tax capacity to build sustainable tax revenue bases.”²²⁹⁰

To define the key terms in this commitment, “cooperation” is understood to mean “the action or process of working together to the same end.”²²⁹¹ “Fair” is defined as treating one “in a way that is

²²⁹¹ Compliance Coding Manual for International Institutional Commitments, Global Governance Program (Toronto) 12 November 2020. Access Date: 25 February 2021. http://www.g7.utoronto.ca/compliance/Compliance_Coding_Manual_2020.pdf

right or reasonable” or as one expects or deserves.²²⁹² In the context of taxation, “fair” is understood in the context of individuals and corporations paying their due share of taxes.²²⁹³ As an objective, fair taxation can be facilitated by policies that seek to address tax avoidance through the designation of non-cooperative tax jurisdictions, or other measures to prevent base erosion and profit shifting practices that undermine the integrity of taxation systems.²²⁹⁴

“Sustainable” is understood to mean the ability to continue over a long time or be maintained with momentum.²²⁹⁵ “Modern” means designed and made using “recently developed ideas, methods or styles.”²²⁹⁶ For example, efforts to strive for a modern tax system may include adjusting the design and administration of tax systems and international rules to respond to digital transformations in the global economy.²²⁹⁷ Other elements of a modern tax system may include e-invoicing and voluntary compliance and self-assessment procedures, which seek to remove obstacles for growth, mitigate cyclical volatility, and improve the re-distributional aspects of taxation.²²⁹⁸

The concept of the “international tax system” refers to the architecture of rules, controls, and instruments that govern cross-border taxation, striving to ensure stability, certainty and consistency as the underpinning principles of this international regulatory regime.²²⁹⁹ The international tax regime predominantly focuses on individual and corporate income tax, addressing issues such as the allocation of taxing rights between source and resident countries. International taxation and effective governance thereof are essential for business activities, investment attraction, comparative advantages in international trade, curbing crime and corruption, and a range of distributional and growth-related domestic political economy issues. Hence, the importance of policy coordination between G20 economies in the issue area of international taxation cannot be understated.

To contextualize the scope of actions that constitute “cooperation for a globally fair, sustainable, and modern international tax system,” one may draw upon fifteen actions developed under the OECD/G20 BEPS Project. Actions by G20 governments in line with the areas provided below may be considered to fall within the parameters of the present commitment. The indicative list constitutes a set of rules and instruments to address tax evasion and improve domestic and international taxation architectures:

“Action 1 Tax Challenges Arising from Digitalisation: dealing with the large range of tax challenges arising from the digitalization of the economy to develop a consensus-based solution by mid-2021

Action 2 Neutralising the Effects of Hybrid Mismatch Arrangements: preventing hybrid mismatch arrangements from being used for BEPS while minimising impact on cross-border trade and investment

Action 3 Controlled Foreign Company: reducing the incentive of taxpayers to shift income from a market country into foreign subsidiaries in a low-tax jurisdiction

Action 4 Limitation on Interest Deductions: establishing rules that link an entity's net interest deductions to its level of economic activity within the jurisdiction

Action 5 Harmful Tax Practices: countering harmful tax practices with a focus on improving transparency

Action 6 Prevention of Tax Treaty Abuse: developing model tax treaty provisions and recommendations to prevent treaty abuse

Action 7 Permanent Establishment Status: preventing artificial avoidance of permanent establishment status in tax treaties through commissionaire structures and more

Actions 8-10 Transfer Pricing: guidance for applying the arm's length principle

Action 8 Intangibles

Action 9 Risks and Capital

Action 10 High-Risk Transactions

Action 11 BEPS Data Analysis: collecting and analyzing data on the economic and fiscal effects of tax avoidance behaviours and on the impact of measures proposed under the BEPS Project

Action 12 Mandatory Disclosure Rules: requiring taxpayers and advisors to disclose aggressive tax planning arrangements to tax authorities

Action 13 Country-by-Country Reporting: improving tax transparency

Action 14 Mutual Agreement Procedure: making dispute resolution between jurisdiction more timely, effective, and efficient

Action 15 Multilateral Instrument: implementing the tax treaty-related BEPS recommendations to address vulnerabilities in existing tax treaties²³⁰⁰

In the context of the commitment's paragraph (reproduced above) and previous commitments made by G20 leaders on international taxation, the scoring of this commitment is divided into two pillars of cooperation: 1) bilateral or plurilateral cooperation and 2) cooperation through multilateral frameworks. While the former refers to state-to-state cooperation, often ad hoc in nature or based on "coalitions of the willing" arrangements such as Memoranda of Understanding, the latter form of cooperation takes place through channels of established multilateral institutions. Such multilateral institutions may include, but are not limited to, the G20/OECD Inclusive Framework on BEPS, United Nations agencies, and other summits such as the G7 and BRICS.²³⁰¹

The depth dimension, or the strength of the action required to demonstrate compliance, is qualified by the phrase "continue our cooperation." This is interpreted to mean the G20 leaders are building on already existing work.

²³⁰⁰ BEPS Actions, Organisation for Economic Co-operation and Development(Paris) Access Date: 25 February 2021. <https://www.oecd.org/tax/beps/beps-actions/>

²³⁰¹ About the Inclusive Framework on BEPS, Organisation for Economic Co-operation and Development(Paris) Access Date: 25 February 2021. <https://www.oecd.org/tax/beps/beps-about.htm/>

Full compliance, or a score of +1, is assigned to G20 members that demonstrate substantial policy action in both pillars of the commitment by working with other governments. The G20 member must cooperate through both bilateral/plurilateral inter-state channels and multilateral frameworks to demonstrate they have continued to cooperate on this issue. This can include financial pledges, legislative and legal action, the establishment of partnerships, high-level meetings and summits, draft proposals, technical assistance projects, signature and ratification of international agreements etc. Members that take strong action in one of the two dimensions, but slightly less than strong action in the other will still receive a score for full compliance.

Partial compliance includes all actions that are less than strong. This includes verbal reaffirmations of the commitment through a public statement, simply attending a meeting with no evidence of the members' individual contribution etc. A member receives a score of 0 if it demonstrates less than strong compliance across the commitment. In other words, full compliance necessitates strong policy action on at least one of the dimensions of cooperation at the inter-state level. If the G20 member introduced reforms to its domestic tax policies with no cross-border implications, yet the policy actions align with the objectives of the OECD/G20 BEPS Project, such actions would still fall within the scope of partial compliance.

Non-compliance, denoted by -1, is scored by G20 members that did not engage in any cooperation for a globally fair, sustainable, and modern international tax system.

Scoring Guidelines

| | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| -1 | G20 member did NOT continue its cooperation for a globally fair, sustainable and modern international tax system. |
| 0 | G20 member PARTIALLY continued its cooperation for a globally fair, sustainable, and modern international tax system through bilateral/plurilateral arrangements OR multilateral institutions. |
| +1 | G20 member FULLY continued its cooperation for a globally fair, sustainable, and modern international tax system through bilateral/plurilateral arrangements AND multilateral institutions. |

Lead Analyst: Chan Wai Suet Gi Gi*

Argentina: +1

Argentina has fully complied with its commitment to continue cooperation for a globally fair, sustainable and modern international tax system.

On 28 January 2021, Argentina signed an agreement with the US to exchange country-by-country reporting on the tax affairs of large multinational groups, allowing assessments of multinational companies' tax avoidance activities through inappropriate transfer pricing or other means.²³⁰²

On 12 March 2021, Argentina enacted Law No. 27613, which introduced tax incentives for real estate investment and a voluntary disclosure program on the possession of national and/or foreign currency.²³⁰³

²³⁰² US, Argentina agree to exchange country-by-country reports on large multinationals, MNE Tax (Washington, DC) 28 January 2021. Access Date: 13 May 2021. <https://mnetax.com/us-argentina-agree-to-exchange-country-by-country-reports-of-large-multinational-42276>

On 20 March 2021, the government presented a proposal to change individual and corporate income tax laws. It proposed to raise income tax bracket rates for large companies to compensate for the shortfall created by the pandemic. It further proposed to maintain a 25 per cent tax rate on small companies and create a 7 per cent tax on the distribution of profits for companies.²³⁰⁴

On 20 May 2021, the Central Bank and the National Securities Commission issued a joint statement warning investors and users about “the risks and implications involved in using and investing in crypto-assets” and recommended a prudent approach.²³⁰⁵

On 16 June 2021, Argentina enacted Law 27630 to amend its corporate income tax law. This created a progressive range of tax from 25 per cent to 35 per cent, up from the previous flat rate of 25 per cent.²³⁰⁶

On 18 June 2021, Argentina issued General Resolution 5010/2021, which extended the due dates for transfer pricing filings and introduced a simplified regime for transfer pricing information reporting.²³⁰⁷ It also amended General Resolution 4717 to state that unless specific conditions are satisfied, taxpayers cannot use an entity with operating losses as a comparable for transfer pricing purposes.²³⁰⁸

On 21 June 2021, Argentina extended the deadline for multinational corporations to submit transfer pricing reports for tax purposes to accommodate for delays and difficulties caused by the pandemic.²³⁰⁹

On 28 June 2021, Finance Minister Martin Guzman expressed support for the idea of a global minimum tax, which was proposed by the G7. He agreed that such an idea could be useful for developing countries but proposed that the global minimum corporate tax rate be higher, citing 21 per cent and 25 per cent as potential minimum rates.²³¹⁰

On 1 July 2021, as part of 130 countries and jurisdictions, Argentina joined the OECD’s statement to establish a two-pillar framework for international tax reform. Pillar One will “re-allocate some taxing rights over multinational enterprises (MNEs) from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence

there.”²³¹¹ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²³¹²

On 3 September 2021, the Supreme Court issued a ruling that restricted the ability of certain subsidiaries to enjoy the benefits of double taxation treaties. The ruling rejected Molinos Argentina's appeal, where the court found that the company used its Chilean branch as a “vehicle company” to shift profits.²³¹³

Argentina has pursued bilateral arrangements with the US to facilitate exchange of information on large MNEs. It has also pursued domestic reforms in the monitoring of foreign currency possession, investing in digital currencies, reporting of transfer pricing information and more. Furthermore, Argentina demonstrated continued cooperation in multilateral institutions through supporting the OECD's two-pillar framework on international tax reform.

Thus, Argentina receives a score of +1.

Australia: +1

Australia has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 3 December 2020, the Australian Taxation Office (ATO) released an updated Practice Statement Law Administration (PSLA) 2015/4 pertaining to Advance Pricing Arrangements (APA).²³¹⁴ This Practice Statement intends to clarify the practice and procedures to ATO staff when working with APAs and promote transparency by helping taxpayers understand the approval and review process.²³¹⁵

On 10 December 2020, the ATO announced updates to Practical Compliance Guideline (PCG) 2017/4, a document concerning cross-border financing agreements and transactions.²³¹⁶ The updated version contains Schedule 3, which concerns interest-free loans between parties and outlines the risk assessment of international related-party dealings to ensure compliance with transfer pricing rules.^{2317,2318}

On 25 August 2021, the Parliament introduced legislation to require online marketplace operators to report seller identification and payment details to the ATO.²³²⁷ The proposed legislation amends the Taxable Payments Reporting System to mandate that operators share information regarding participating sellers for the ATO's data matching purposes and enable the ATO to identify entities that do not meet tax obligations.²³²⁸

Through bilateral arrangements with Belgium and Indonesia, domestic legislative actions, and cooperation under the framework of multilateral institutions, Australia has demonstrated full commitment to advancing cooperation for a globally fair, sustainable, and modern international tax system.

Thus, Australia receives a score of +1.

Analyst: Jessica Johnson

Brazil: +1

Brazil has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 18 December 2020, the Federal Region Court of the 3rd Region judged in Resp 1.759.081-SP that payments for engineering and administrative assistance services should not be considered as royalties in the context of the Brazil-Spain double taxation treaty.²³²⁹

On 1 December 2020, the Ministry of Economy clarified that cryptocurrency transactions may entail reporting requirements to tax authorities. This clarification on tax reporting was prompted by a consultation request submitted by the Board of Trade of the State of São Paulo, which inquired how cryptocurrencies could be used by corporations under domestic laws and the relevant regulations therein.²³³⁰

On 25 February 2021, the Senate approved three new treaties for the elimination of double taxation and the prevention of tax evasion and avoidance, respectively signed with Switzerland, Singapore and the United Arab Emirates in alignment with the base erosion and profit shifting (BEPS) framework.²³³¹

On 11 March 2021, the Financial Activities Control Council published Resolution No. 36/2021, which regulates the adoption of policies, procedures and internal controls to prevent money laundering, terrorist financing, and the financing of weapons of mass destruction.²³³²

On 16 March 2021, as part of a national campaign to combat domestic tax evasion, Brazil issued 35 arrest warrants for companies in the coffee industry accused of evaded taxes. The national campaign extends across 39 cities in four states.²³³³

On 16 March 2021, Brazil's double taxation treaty with Switzerland entered into force. This treaty protects cross-border workers from double taxation, includes an anti-abuse clause, and establishes exchange of information according to the Organisation for Economic Co-operation and Development's BEPS framework.²³³⁴

On 27 May 2021, President Jair Bolsonaro ratified the statute confirming the double taxation treaty between Brazil and the United Arab Emirates. The treaty, previously signed in November 2018 and ratified by the national congress, includes 32 articles on topics including double taxation, tax evasion, and information sharing.²³³⁵

On 9 June 2021, Brazil promulgated the treaty for the avoidance of double taxation between Brazil and Switzerland.²³³⁶ This treaty will come into effect after 1 January 2022 and allow Brazilian taxpayers to receive neutral foreign withholding tax on their investments in Switzerland.²³³⁷

On 25 June 2021, the government submitted phase two of its tax reform proposal to the national congress. The proposal includes a general tax rate of 20 per cent on distributed profits and dividends for individuals and non-resident investors, as well as an increased rate of 30 per cent for investors located in low-tax jurisdictions. The proposal states that capital reductions and business reorganizations should be carried out at fair market value. It also taxes the capital gain resulting from the indirect disposal of assets located in Brazil.²³³⁸

On 1 July 2021, as part of 130 countries and jurisdictions, Brazil joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²³³⁹ Pillar Two will introduce

²³³⁹ 130 countries and jurisdictions join bold new framework for international tax reform, OECD (Paris) 1 July 2021.

a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²³⁴⁰

On 13 July 2021, Deputy Celso Sabino presented a series of amendments to the 25 June 2021 tax reform proposal. Key amendments included changing the rate of taxation on corporate income from 15 per cent to 5 per cent in 2022 and 2.5 per cent in 2023 and removing dividends from tax-exempt status.²³⁴¹

On 26 August 2021, President of the Central Bank Roberto Campos Neto revealed discussions with the local securities regulator to adapt a new framework to regulate digital currencies and allow them to co-exist with digital payment platforms such as Pix, which is backed by the government.²³⁴²

On 8 December 2021, the Federal Police launched Operation Compliance to combat money laundering conducted through cryptocurrencies. 150 federal police carried out 34 search and seizure warrants, and identified a hacker involved in electronic fraud online.²³⁴³

On 10 September 2021, the Federal Revenue Service announced, “the release of an updated digital bookkeeping system to report tax information for corporate income taxes and social contribution on net income.”²³⁴⁴

Brazil has demonstrated bilateral efforts in signing double taxation treaties with Switzerland, Singapore, and the UAE. It has also demonstrated domestic actions to improve its taxation system by addressing emerging developments in financial assets such as cryptocurrencies, adopting policies against terrorist financing, reforming corporate income tax, and combatting tax evasion in alignment with the BEPS framework. Finally, Brazil has continued cooperation with multilateral institutions by agreeing to the OECD’s two-pillar framework for international tax reform.

Thus, Brazil receives a score of +1.

digital products and services, supplying qualifying goods in Canada, and platform-based short-term accommodations.²³⁵⁴

On 1 July 2021, as part of 130 countries and jurisdictions, Canada joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over [multinational enterprises] from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²³⁵⁵ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²³⁵⁶

On 2 July 2021, Deputy Prime Minister and Finance Minister Chrystia Freeland issued a statement to recognize the OECD's international tax reform statement signed by 130 countries as a tremendous achievement. The statement read, in relevant part: "the next step in the global effort to end the race to the bottom in corporate taxation and to ensure that multinational corporations pay their fair share of taxes."²³⁵⁷

On 26 July 2021, the Office of the Superintendent of Financial Institutions (OSFI) rescinded the Guideline for Detering and Detecting Money Laundering and Terrorist Financing after consulting Federally Regulated Financial Institutions (FRFIs).²³⁵⁸ This is part of OSFI and the Financial Transactions and Reports Analysis Centre of Canada's efforts to eliminate duplication and redundancy in the application of anti-money laundering and anti-terrorist financing regulatory requirements to FRFIs.²³⁵⁹

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, Canada joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²³⁶⁰

Canada has contributed to multilateral negotiations on digital tax solutions and proposed financial resources domestically to increase cross-border cooperation and combat hybrid mismatch, tax evasion and terrorist financing activities. However, Canada has not continued its tax cooperation on a bilateral basis.

Thus, Canada received a score of 0.

China: +1

China has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 5 February 2021, the State Taxation Administration (STA) reaffirmed that China will strengthen its cooperation with the Organisation for Economic Co-operation and Development (OECD) on global taxation issues, after a meeting between the Director of the STA Wang Jun and the Director of the OECD's Center for Tax Policy and Administration Pascal Saint-Amans.²³⁶¹ China stated that it will “participate in the global tax governance for the digital economy,” “help developing countries enhance tax collection and management capabilities,” and “keep pushing forward for bilateral taxation cooperation.”²³⁶²

On 26 February 2021, Minister of Finance Liu Kun stated that China will support the efforts of the G20 to forge an international deal on digital taxation.²³⁶³

On 5 March 2021, China stated that it “will actively participate in the formulation of international rules and technical standards on data security, digital currency and data tax” in a draft of the 14th Five-Year Plan and long-term objectives for 2035.²³⁶⁴

On 1 July 2021, as part of 130 countries and jurisdictions, China joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will “re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there.”²³⁶⁵ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²³⁶⁶

On 18 May 2021, the government announced that bank and payment institutions cannot conduct business related to cryptocurrencies. This reiterated the 2017 cryptocurrency ban and further prohibited financial institutions from “accepting or using cryptocurrencies in payments or settlements, developing digital currency exchange services and offering any such services to clients.”²³⁶⁷

On 22 June 2021, the STA released the Announcement about Policies for Collecting Corporate Income Tax, which clarified the corporate income tax treatment on six items, including cross-border hybrid investments.²³⁶⁸ The announcement added two restrictive conditions to prohibit hybrid investment from being regarded as debt investment.²³⁶⁹

On 1 August 2021, China brought into effect the Measures for the Supervision and Administration of Anti-Money Laundering and Counter-Terrorist Financing of Financial Institutions. The measures “expand the scope of applicable entities, provide specific details of internal control and risk management requirements and increase People’s Bank of China’s supervision and administration powers.”²³⁷⁰

On 3 August 2021, China and the United Arab Emirates agreed to exchange information on “investigations into money laundering, terrorist financing and the persons or entities involved.”²³⁷¹

On 23 August 2021, the State Council published guidelines to state that it will tighten the supervision of accounting firms, increase the frequency of inspections, strengthen punishment and co-operate on cross-border supervision of accounting and auditing.

On 1 September 2021, the STA implemented a simplified version of the process of unilateral advance pricing to avoid double taxation and profit shifting. The system is based on enterprises submitting an advanced application to the STA to reach an agreement on a set of criteria for transfer pricing.²³⁷²

On 7 September 2021, China chaired the 2nd Belt and Road Initiative Tax Administration Cooperation Forum, attended by 61 countries and 12 international organizations. In his opening speech, Head of the STA Wang Jun shared with delegates the practices and experiences of Chinese tax authorities, particularly on digitizing tax administration.²³⁷³ On 8 September 2021, he further proposed “more opportunities for cooperation and tax-related knowledge-sharing among Belt and Road Initiative jurisdictions.”²³⁷⁴

China made verbal commitments to the OECD and the G20 to facilitate a multilateral digital tax agreement and formulate international rules on digital currency. China has further engaged in bilateral actions of cross-border tax cooperation with the UAE, in addition to creating domestic policies that facilitate the BEPS framework in relation to transfer pricing. Domestically, China has also advanced

policies on digital currencies, corporate income tax, anti-money laundering, auditing and oversight and more.

Thus, China receives a score of +1.

Analyst: Erica Matsui

France: +1

France has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 25 November 2020, the Ministry of Finance sent notices to major technological companies, such as Facebook and Amazon, “to pay the 2020 instalment” of the digital service tax.²³⁷⁵ The goal of this measure is to ensure that digital services are taxed in the same places where they profit.²³⁷⁶

On 25-26 November 2020, France attended the 2020 Intra-European Organisation of Tax Administrations (IOTA) Forum to identify best practices in combating value-added tax (VAT) fraud.²³⁷⁷ The goal of this forum is to increase awareness of emerging trends in VAT fraud and build a multilateral network to address the problem.

On 2 December 2020, France authorised an extension of the cross-border taxation agreement with Germany, which entered into force on 13 May 2020 until 31 March 2021 due to COVID-19 travel restrictions.²³⁷⁸ The goal of the agreement is to avoid double taxation of cross-border workers who worked from home, rather than in the country where they would otherwise work if not for COVID-related travel restrictions.

On 2 December 2020, France authorised an extension of the cross-border taxation agreement with Switzerland, which entered into force on 13 May 2020 until 31 March 2021 due to COVID-19 travel restrictions.²³⁷⁹

On 2 December 2020, France authorised an extension of the cross-border taxation agreement with Belgium, which entered into force on 15 May 2020 until 31 March 2021 due to COVID-19 travel restrictions.²³⁸⁰

On 2 December 2020, the General Directorate of Public Finances authorised an extension of the cross-border taxation agreement with Italy, which entered into force on 16 July 2020 until 31 March 2021 due to COVID-19 travel restrictions.²³⁸¹

On 7 December 2020, France authorised an extension of the cross-border taxation agreement with Luxembourg, which entered into force on 16 July 2020 until 31 March 2021 due to COVID-19 travel restrictions.²³⁸²

On 9 December 2020, France attended the annual meeting of the Global Forum on Transparency and Exchange of Information for Tax Purposes to recognise the progress made in the implementation of the standard on tax transparency and support the provision of capacity-building technical assistance to developing countries.²³⁸³ The goal of the three-day event was to encourage greater fairness and transparency in international tax systems.²³⁸⁴

On 11 December 2021, the Administrative Supreme Court overturned a Paris Court of Appeal decision, dated 1 March 2018, which concluded an absence of permanent establishment under the France-Ireland Tax Treaty.²³⁸⁵ This decision marks the first time that the Administrative Supreme Court used the Organisation for Economic Co-operation and Development comments to “expand its definition of a dependent agent constitutive of a permanent establishment.”²³⁸⁶

On 25 February 2021, Minister Delegate to the Minister of the Economy, Finance and Recovery Agnès Pannier-Runacher supported the public country-by-country reporting initiative proposed by the Portuguese Presidency of the Competitiveness Council (COMPET).²³⁸⁷ This initiative aims to improve tax transparency and “ensure that all economic actors contribute in a fair and equitable manner to the economy of the various countries where they conduct their business.”²³⁸⁸

On 4 March 2021, the Ministry of Economics and Finance removed the Bahamas from the list of non-cooperative states and territories in tax matters, which is published in the Official Journal of the French Republic.²³⁸⁹ The Ministry seeks to promote cooperation with the Bahamas to “eradicate

harmful tax practices” and foster a “commitment to the international regulatory standards on tax cooperation and exchange of information for tax purposes.”²³⁹⁰

On 6 April 2021, Minister of the Economy and Finance Bruno Le Maire welcomed US Treasury Secretary Janet Yellen’s pledge to work on a global corporate minimum tax.²³⁹¹

On 8 April 2021, Minister Le Maire supported a US proposal to resume international talks on taxing major digital multinational corporations.²³⁹² The goal of these talks is to prevent multinationals from shifting their profits to low-tax jurisdictions.²³⁹³

On 27 April 2021, Minister Le Maire and Finance Minister of Germany Olaf Scholz declared their support for the US’ proposed 21 per cent minimum corporate tax rate.²³⁹⁴ Subsequently, on 21 May 2021, the US lowered its proposed rate to 15 per cent, which Minister Le Maire called “a good compromise.”²³⁹⁵

On 5 June 2021, France joined an agreement on global tax reform at the G7 Cornwall Summit. This agreement endorsed a global minimum corporate tax rate of 15 per cent in each jurisdiction in which multinational enterprises operate, and made it mandatory for such firms to report the climate impact of their investments.²³⁹⁶

On 9 June 2021, Minister Le Maire insisted that Amazon be included in the minimum corporate tax scheme.²³⁹⁷ Since the tax only applies to multinationals that have a profit margin of over 10 per cent, Amazon’s 6.3 per cent profit margin excludes it from the eligible tax bracket.²³⁹⁸ The goal of including Amazon in the tax scheme is to increase fiscal accountability across digital platforms.

On 10 June 2021, President Emmanuel Macron stressed the importance of multilateralism in international taxation at a press conference at the Élysée Palace ahead of the G7 and NATO

summits.²³⁹⁹ He briefly discussed the minimum corporate tax as well as the digital tax, emphasizing the significance of addressing inequalities in the taxation system.²⁴⁰⁰

On 13 June 2021, President Macron discussed the benefits of a 15 per cent minimum corporate tax during his time at the G7 summit.²⁴⁰¹ He emphasized the G7's plan to proceed according to the two pillars of international taxation.²⁴⁰² The first pillar consolidates the tax base, and the second pillar helps the taxation system adapt to the digital economy.²⁴⁰³

On 1 July 2021, as part of 130 countries and jurisdictions, France joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over [multinational enterprises] from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁴⁰⁴ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁴⁰⁵

On 6 July 2021, Minister Le Maire announced that France was ready to make a legally binding commitment in the draft budget law to remove the national tax on digital giants once the OECD global taxation deal was implemented.²⁴⁰⁶

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, Minister Le Maire joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global corporate minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²⁴⁰⁷²⁴⁰⁸

France had already imposed its digital tax on retail giants such as Amazon and Google, and it invited other countries (e.g. Ireland) to adopt the tax.²⁴⁰⁹

On 2 September 2021, France fined JP Morgan EUR25 million in a tax fraud case.²⁴¹⁰ The goal of this settlement was to enforce the rule of law in preventing harmful tax practices.

Through bilateral channels with European partners, France continued international tax cooperation through its cross-border taxation agreements. Furthermore, France pursued multilateral cooperation in seeking greater tax transparency and preventing harmful tax practices by participating in high-level meetings of the IOTA Forum, the Global Forum, and the COMPET. Domestically, France's actions to implement the digital service tax have also improved the standard of taxation for multinational companies.

Thus, France receives a score of +1.

Analyst: Saarah Khan

Germany: +1

Germany has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 2 December 2020, Germany extended its cross-border taxation agreement with France, which entered into force on 13 May 2020 until 31 March 2021 due to COVID-19 travel restrictions.²⁴¹¹ The goal of the agreement is to avoid double taxation of cross-border workers who worked from home, rather than in the country where they would otherwise work if not for COVID-related travel restrictions.

On 18 December 2020, Germany deposited its instrument of ratification for the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting (BEPS) (MLI), which entered into force on 1 April 2021.²⁴¹² By ratifying the MLI, Germany joins the MLI's strong commitment to prevent the abuse of tax treaties and BEPS by multinational enterprises.²⁴¹³

On 18 December 2020, Germany and Japan applied MLI provisions to their Bilateral Convention for the Elimination of Double Taxation with respect to Taxes on Income and the Prevention of Tax Evasion and Avoidance.²⁴¹⁴

On 12 January 2021, Germany and the UK signed a new protocol, to be added to the existing double tax treaty signed in 2010, to highlight both parties' intention to include the standard outlined in the Organisation for Economic Co-operation and Development (OECD) BEPS project on treaty abuse, tax evasion and avoidance.²⁴¹⁵ Changes include amending the wording of the treaty and adding Article 30A.²⁴¹⁶ The protocol is not yet in force.²⁴¹⁷

On 26 January 2021, at the virtual World Economic Forum, Chancellor Angela Merkel stated that there should be a minimum level of taxation for digital companies, with the COVID-19 pandemic demonstrating the need for action.²⁴¹⁸ Chancellor Merkel expressed her desire for the international community to continue and expand the OECD's work in this regard, particularly with the new United States administration, and hoped that the international community will be more successful in implementing competition law globally.²⁴¹⁹

On 27-28 January 2021, Minister of Finance Olaf Scholz, along with Ministers of Finance from Canada, Italy, Indonesia, Jamaica and the United Kingdom, emphasized the need for a multilateral digital tax solution at the public meeting of the OECD/G20 Inclusive Framework.²⁴²⁰ At this meeting, Minister Scholz emphasized the importance of an international agreement by mid-2021, and affirmed that the government is actively striving for an international solution on both pillars of the Inclusive Framework on BEPS.²⁴²¹

On 15 February 2021, the Federal Ministry of Finance initiated the departmental vote on the draft of the Tax Haven Defense Act.²⁴²² The Tax Haven Defense Act aims to prevent individuals and companies from continuing business relationships with non-cooperative countries that harbour a lack of tax transparency and unfair competition. The goal is to make future business expenses and

business expenses associated with tax havens no longer tax-deductible.²⁴²³ Stricter rules would apply to income from intermediate companies in tax havens and taxpayers who have business relationships with tax havens.²⁴²⁴ If enacted, the Act will be applicable to the EU's list of non-cooperative jurisdictions for tax purposes.²⁴²⁵

On 19 February 2021, Germany and Cyprus signed a new protocol amending the existing bilateral tax treaty. The new protocol implements the BEPS minimum standards that address treaty shopping, implements the Principal Purpose Test, and addresses business profits attributable to permanent establishments.²⁴²⁶

On 24 March 2021, the Federal Cabinet adopted the Draft Act Implementing the Anti-Tax Avoidance Directive to impose stricter rules on aggressive tax planning, through which the government aims to “effectively counteract tax avoidance strategies used by multinational corporations.”²⁴²⁷ The legislation also advances the harmonization of EU corporate tax law, and through this Act, Germany is taking steps to further fulfill the standards set out in the EU's Anti-Tax Avoidance Directive.²⁴²⁸

On 6 April 2021, Germany and France welcomed US Treasury Secretary Janet Yellen's pledge to work on a global corporate minimum tax rate which countries aim to agree to by mid-year. Finance Minister Olaf Scholz hopes that this action will help put an end to “the worldwide race to the bottom in taxation.”²⁴²⁹

On 5 June 2021, Germany joined an agreement on global tax reform at the G7 Cornwall Summit. This agreement endorsed a global minimum corporate tax rate of 15 per cent in each jurisdiction in which multinational enterprises (MNEs) operate, and made it mandatory for such firms to report the climate impact of their investments.²⁴³⁰

On 1 July 2021, as part of 130 countries and jurisdictions, Germany joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will “re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there.”²⁴³¹ Pillar Two will introduce

²⁴³¹ 130 countries and jurisdictions join bold new framework for international tax reform, OECD (Paris) 1 July 2021.

a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁴³²

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, Germany joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²⁴³³

On 14 July 2021, the tax administration introduced new administrative principles for transfer pricing. The new principles “ensure that the interpretation and application of the arm’s length principle within Germany is aligned with the post-BEPS transfer pricing guidelines.”²⁴³⁴

Germany has advocated for and participated in international institutions to cooperate for a fair and modern international taxation system through its participation in the Inclusive Framework meeting on BEPS and the World Economic Forum, as well as its ratification of the MLI. Germany has further improved international tax cooperation through bilateral arrangements with Japan, France, the UK and Cyprus. Germany has also taken actions to align its domestic tax administration with international taxation standards.

Thus, Germany receives a score of +1.

Analyst: Jeffrey Vandespyker

India: +1

India fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 1 February 2021, India published the Union Budget 2021, which amended the scope of the equalisation levy that applies to non-resident e-commerce operators.^{2435,2436} It expanded the definition of “e-commerce supply and service” to include “online sale of goods” and “online provision of services.”²⁴³⁷ According to a statement of the Ministry of Commerce released in January 2021, this amendment is in line with the suggestions put forth by Action 1 of the Organisation for Economic

On 28 April 2021, the Union Cabinet approved an agreement with the UK on Customs Cooperation and Mutual Administrative Assistance on Customs Matters.²⁴⁴⁷ This agreement provides a legal framework for the exchange of information to prevent and investigate customs offences.²⁴⁴⁸

On 3 May 2021, India announced a revenue threshold of INR20 million and a limit of 300,000 users over which non-resident technology firms will have to pay taxes under the Significant Economic Presence principle. The application of the principle is deferred until 2022-23 to allow for a multilateral digital tax solution anticipated from OECD negotiations.²⁴⁴⁹

On 1 July 2021, as part of 130 countries and jurisdictions, India joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over [multinational enterprises] from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁴⁵⁰ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁴⁵¹

On 5 August 2021, the government revoked its retrospective tax law by amending the Income Tax Act of 1961.²⁴⁵² This law was previously used to claim large tax amounts from foreign investors such as Cairn Energy and Vodafone.²⁴⁵³ In several cases where this law was applied, India has now proposed to nullify this tax on the indirect transfer of Indian assets before May 2012.²⁴⁵⁴

India has enacted domestic measures to strengthen its tax base with cross-border implications, under the guidance of multilateral frameworks such as the OECD/G20 Inclusive Framework on BEPS and the OECD Model Tax Convention. It has also pursued bilateral arrangements with the UK to strengthen the exchange of information on the taxation of cross-border trade.

Thus, India receives a score of +1.

Indonesia: +1

Indonesia has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 26 November 2020, Indonesia notified Japan that it had completed its internal procedures for the entering into effect of the provisions of the Convention to Implement Measures to Prevent Base Erosion and Profit Shifting with respect to the tax treaty between Japan and Indonesia.²⁴⁵⁵

On 27-28 January 2021, Minister of Finance Sri Mulyani Indrawati, along with Ministers of Finance from Canada, Germany, Italy, Jamaica and the United Kingdom, emphasized the need for a multilateral digital tax solution at the public meeting of the Organisation for Economic Co-operation and Development (OECD)/G20 Inclusive Framework.²⁴⁵⁶

On 21 February 2021, Indonesia announced that taxes on debt security earnings for non-residents will be lowered from 20 per cent to 10 per cent to avoid double taxation. This aligns domestic law with previously signed bilateral and multilateral treaties.²⁴⁵⁷

On 3 March 2021, President Joko Widodo encouraged domestic taxpayers to file their annual income tax return reports online and ahead of the 31 March deadline, in an effort to promote online services and modernize the domestic tax system.²⁴⁵⁸

On 9 March 2021, the bilateral agreement signed with Singapore on the promotion and protection of investments came into effect after ratification by both states. Novel measures included joint statements by tax authorities in the event of disputes, subjecting claims arising from taxation measures to a special regime, as well as measures against double taxation and corruption. These measures will help align the tax policies of both countries and create arbitration and dispute settlement mechanisms.²⁴⁵⁹

On 16 March 2021, the tax agency updated the XML schema for the automatic exchange of information to comply with the common reporting standard and the US Foreign Account Tax Compliance Act. This brings domestic reporting into compliance with US and international standards and increases tax transparency.²⁴⁶⁰

On 10 June 2021, in a joint statement with the Finance Ministers of South Africa and Mexico, the Minister of Finance expressed support for the G7 global minimum tax proposal. He stated his belief

²⁴⁶⁰ Indonesia Tax Agency Updates XML Schema for CRS, FATCA Reporting, Bloomberg Tax (New York) 18 March 2021. Access Date: 23 March 2021. <https://news.bloombergtax.com/daily-tax-report-international/indonesia-tax-agency-updates-xml-schema-for-crs-fatca-reporting>

that a 15 per cent global minimum corporate tax would help end the race-to-the-bottom among tax jurisdictions and enhance fairness in tax systems.²⁴⁶¹

On 19 June 2021, Indonesia ratified an agreement with the UAE, which clarified taxation terms for cross-border transactions. The treaty officially came into effect through the issuance of Presidential Regulation No.34/2021 on the agreement between Indonesia and the UAE on avoiding double taxation and preventing tax evasion, which President Widodo signed on 4 May 2021.²⁴⁶²

On 1 July 2021, as part of 130 countries and jurisdictions, Indonesia joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁴⁶³ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁴⁶⁴

On 23 July 2021, the updated agreement between Indonesia and Singapore on double taxation entered into force. The agreement was signed on 4 February 2020. It aimed to benefit businesses in both countries with subsidiaries in the other country, as well as multinational corporations conducting business in both countries.²⁴⁶⁵

Indonesia has continued its cooperation for a globally fair, suitable and modern international tax system through bilateral arrangements with Singapore and aligning automatic exchange of information practices with that of the United States. Indonesia has also engaged in multilateral cooperation and calling for a collective digital tax solution, while reforming its domestic taxation on debt security earnings.

Thus, Indonesia receives a score of +1.

On 27-28 January 2021, Minister of the Economy and Finance Roberto Gualtieri, along with Ministers of Finance from Canada, Germany, Indonesia, Jamaica and the UK, emphasized the need for a multilateral digital tax solution at the public meeting of the Organisation for Economic Co-operation and Development (OECD)/G20 Inclusive Framework.²⁴⁶⁷ At the meeting, Minister Gualtieri called for a global response to the challenges of digitalization and reform of the existing tax rules to guarantee more stability and certainty in the taxation of multinational enterprises.²⁴⁶⁸ He called for establishing a global minimum effective tax rate to tackle base erosion and profit shifting (BEPS) issues, and reducing incentives for multinational enterprises to move profits to low-tax jurisdictions.²⁴⁶⁹ Minister Gualtieri also affirmed that the review of international tax rules and the mid-2021 deadline is a top priority for Italy's G20 agenda. He announced Italy's commitment to 1) endorsing the OECD's reporting framework for automatic exchange of information on crypto-assets; 2) on BEPS, endorsing the review of the minimum standards on country-by-country reporting, mutual agreement procedures, and the revised methodology to review the minimum standard on tax treaty abuse; and 3) on tax and development, strengthening domestic resource mobilization in developing countries through the enhancement of their capacity in tax policy and tax administration. Finally, Minister Gualtieri announced that Italy will mandate the OECD to report to the G20 on the benefits of developing country participation in the Inclusive Framework, update last year's report "Tax Policy and COVID-19," and present a new report on "Tax Policy after COVID-19" in October.²⁴⁷⁰

On 23 March 2021, the tax authority released Circular 3/2021 to clarify the application and administration of the digital services tax. The document clarified the scope of the digital services tax and excluded services, calculation of taxation revenue and the process for submitting the tax return.²⁴⁷¹

On 30 April 2021, Italy submitted its recovery plan to the European Commission to be eligible for the European Union's COVID relief funding. Part of the recovery plan includes reforms to the tax code.²⁴⁷²

On 7 May 2021, the revenue agency issued guidelines in Circular Letter n.4 to describe its directions for tax audit activities aimed at preventing and fighting tax evasion. This included a section on the procedures of international information exchange.²⁴⁷³

On 5 June 2021, Italy joined an agreement on global tax reform at the G7 Cornwall Summit. This agreement endorsed a global minimum corporate tax rate of 15 per cent in each jurisdiction in which multinational enterprises (MNEs) operate and made it mandatory for such firms to report the climate impact of their investments.²⁴⁷⁴

On 1 July 2021, as part of 130 countries and jurisdictions, Italy joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁴⁷⁵ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁴⁷⁶

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, Italy joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²⁴⁷⁷

On 15 July 2021, the national securities regulator announced that Italians are not allowed to access the Binance cryptocurrency exchange, citing crypto-assets' price volatility and susceptibility to malfunctions and cyber attacks.²⁴⁷⁸

Italy has continued its cooperation for a globally fair, sustainable and modern international tax system through a bilateral arrangement with France and continued cooperation through multilateral institutions and commitments. It has also advanced domestic policies regarding digital currencies, the digital services tax, and tax evasion. On the latter, Italy has provided leadership to reach international solutions to taxation issues through the OECD, under its G20 presidency, and through cooperation with the UK as this year's G7 host.

Thus, Italy receives a score of +1.

Analyst: Jeffrey Vandespyker

Japan: +1

Japan has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, Japan joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²⁴⁹⁶

On 16 July 2021, Japan and Switzerland signed the Protocol Amending the Convention between Japan and Switzerland for the Avoidance of Double Taxation with respect to Taxes on Income. The Protocol revised the taxation of business profits, amended measures for the prevention of abuse of the convention, and contributed to eliminating double taxation and preventing international tax evasion and tax avoidance.²⁴⁹⁷

Japan continued its cooperation for a globally fair, sustainable, and modern international tax system through bilateral arrangements to prevent tax evasion and avoidance. Japan also continued its cooperation with multilateral institutions and processes with regards to the taxation of MNEs. Further, Japan actively negotiated bilateral taxation treaties in order to uphold the international implementation of the BEPS framework.

Thus, Japan receives a score of +1.

Mexico: 0

Mexico has partially complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 8 December 2020, tax authorities published new rules to amend the income tax law and the value-added-tax (VAT) on digital services. The amendments allow temporary blocking of non-residents' access to digital services if they fail to remit withholding tax payments. The amendments also expanded the scope of digital services applicable to the VAT to include intermediation services.²⁵¹¹

On 11 March 2021, Minister of Finance Arturo Herrera announced that the government will discuss tax reforms with local authorities.²⁵¹² Treasury Undersecretary Gabriel Yorio expressed a desire to close the tax evasion gap in 2021 before restructuring the tax system.²⁵¹³

On 10 June 2021, Minister Herrera, in a joint article with the Finance Ministers of the US, Germany, Indonesia, and South Africa, expressed support for the G7 global minimum tax proposal of at least 15 per cent. The statement expressed the belief that the minimum rate could ultimately be increased and urged other countries to reach an agreement to "ensure that global capitalism is compatible with fair tax systems."²⁵¹⁴

On 1 July 2021, as part of 130 countries and jurisdictions, Mexico joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over [multinational enterprises] from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁵¹⁵ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use

regulation of relations” and “promote the expansion of trade and economic ties” between the two countries.²⁵³⁶

On 30 May 2021, the Energy Ministry announced a partnership with the Finance Ministry to create a working group under the authority of the Duma which would focus on revising the taxation framework of the oil sector.²⁵³⁷ The goal is to introduce tax measures that would stimulate the domestic oil and gas industry.

On 31 May 2021, First Deputy Prime Minister Andrei Belousov demanded that domestic metal companies pay a windfall tax on the profits that they have earned over the past year.²⁵³⁸ He stated that the government had lost RUB100 billion in taxes.²⁵³⁹

On 1 June 2021, Russia reached an agreement with Belarus starting from 1 January 2022 to minimize the losses Belarusian oil refineries would incur due to Russia’s reduction of oil export duties and increase of mineral extraction tax.²⁵⁴⁰

On 3 June 2021, Special Envoy of the President Anatoly Chubais suggested that a cross-border carbon tax would be introduced to the Eurasian Economic Union (EAEU).²⁵⁴¹ The goal of this tax is to create competitive advantages for companies with low carbon emissions and divert tax revenues from the EU to the Russian Treasury.²⁵⁴²

On 17 June 2021, Deputy Prime Minister Alexander Novak advised that the EU’s proposal to impose a carbon tax on the importation of goods may violate international trade rules as set forth by the WTO and increase the vulnerability of global energy supplies.²⁵⁴³ This statement intended to protect Russia’s oil and natural gas industries.²⁵⁴⁴

On 22 June 2021, Prime Minister Mishustin stated that Russia would lend technical support to Uzbekistan in streamlining its tax administration system at a meeting of the Russia-Uzbekistan Joint Commission.²⁵⁴⁵ The goal is to address existing vulnerabilities in Uzbekistan’s existing international taxation framework and improve bilateral economic ties with the country.²⁵⁴⁶

On 1 July 2021, as part of 130 countries and jurisdictions, Russia joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁵⁴⁷ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁵⁴⁸

On 8 July 2021, Finance Minister Anton Siluanov announced that a huge fall in revenues for Russia's energy market was on the horizon after a global push towards renewables and a fall in demand for fossil fuels.²⁵⁴⁹ He said that the EU's cross-border carbon tax would impact more than 40 per cent of Russian exporters.²⁵⁵⁰

On 9 July 2021, Deputy Finance Minister Sazanov confirmed that Russia would move towards a green economy and carbon neutrality without implementing new taxes on carbon emissions like the rest of Europe.²⁵⁵¹ Russia's goal is to ease the burden of international carbon taxes and new environmental standards on domestic businesses.²⁵⁵²

On 13 July 2021, President Putin and Belarusian President Lukashenko agreed on credit support for Belarus following the reduction of oil export duties and an increase in the mineral extraction tax in the Russian oil industry.²⁵⁵³ The exact loan amount was not specified.²⁵⁵⁴ The two heads of state also discussed tax regulations in the context of Western sanctions against Belarus.²⁵⁵⁵

On 14 July 2021, the Press Secretary of the Belarusian President Natalia Eismont declared that Belarus and Russia had completed work on harmonising bilateral tax legislation.²⁵⁵⁶

On 20 July 2021, First Deputy Chair of the State Duma Committee on Budgets and Taxes Sergey Katasonov submitted a bill to the Duma to suspend land and property taxes for businesses that are operating under COVID-related restrictions.²⁵⁵⁷

²⁵⁵⁶ Minsk, Moscow Completed Fiscal Laws Harmonization Activities – Press Secretary, The Telegraph Agency of the Soviet Union (Moscow) 14 July 2021. Access Date: 24 July 2021. <https://tass.com/economy/1314021>

On 26 July 2021, Prime Minister Mishustin stated that Russia was considering the possibility of turning the Kuril Islands into a tax-free offshore zone to attract foreign investors and support budding entrepreneurs.²⁵⁵⁸ The proposal would exempt individuals and organizations investing in the Islands from paying income, added value, property, land, and transport taxes.²⁵⁵⁹

On 6 August 2021, President Putin stated that from 1 January 2022 onwards, Russia would impose “new higher taxes on mineral extraction” on metals producers.²⁵⁶⁰ This domestic tax increase is meant to support Russia’s fiscal budget during the economic downturns of the pandemic.²⁵⁶¹

On 9 September 2021, President Putin and Belarusian President Lukashenko met in Moscow to discuss the synchronisation of their tax and customs systems.²⁵⁶² This meeting is the latest in a series of talks between Russia and Belarus to deepen integration at the fiscal level and “increase cooperation between their ministries and departments through the latest digital technology.”²⁵⁶³

On 14 September 2021, the government published a plan to impose new taxes on foreign-owned digital services by November 2021, in order to support domestic technology sectors.²⁵⁶⁴

Russia has pursued bilateral channels to improve taxation agreements with Luxembourg and Malta while providing tax administration assistance to Uzbekistan. Russia has also attended ~~four~~ meetings with Belarus to improve tax relations and discuss credit support. Domestically, Russia has taken tax measures to stimulate its oil and gas industry while objecting to the EU’s cross-border carbon tax. Russia has also taken important steps in realizing its multilateral commitment to international tax cooperation by completing the internal procedures of the MLI, supporting the improvement of international tax systems within the Eurasian Intergovernmental Council, and proposing a carbon tax in the EAEU.

Thus, Russia receives a score of +1.

Analyst: Saarah Khan

Saudi Arabia: +1

Saudi Arabia has fully complied with its commitment to continue cooperation for a globally fair, sustainable, and modern international tax system.

On 2 December 2020, Saudi Arabia signed a double tax treaty with Taiwan in Riyadh. It took effect on 1 January 2021; this agreement will facilitate bilateral cooperation on taxes and tariffs.²⁵⁶⁵

diversionary rules to prevent circumvention by taxpayers.²⁵⁷³ The budget provided ZAR3 billion to the South African Revenue Service (SARS) to “participate meaningfully in global tax compliance initiatives” while it expanded auditing and investigative abilities to prevent the abuse of transfer pricing, tax base erosion and tax crime.²⁵⁷⁴ The budget committed to a unilateral digital service tax if a multilateral agreement proved unsuccessful.²⁵⁷⁵

On 1 April 2021, South Africa and Kuwait signed the Multilateral Convention to Implement Tax Treaty-Related Measures to Prevent Base Erosion and Profit Shifting.²⁵⁷⁶ However, the Convention has not been ratified.²⁵⁷⁷

On 7 April 2021, SARS Commissioner Edward Kieswetter announced plans to collect taxes from ZAR400 billion of offshore holdings by South Africans, acting on the automatic exchange of information received from 87 countries.^{2578,2579}

On 7 May 2021, the SARS started asking for taxpayers’ cryptocurrency transactions in audit letters to collect capital gains tax on cryptocurrency trades.²⁵⁸⁰

On 10 June 2021, Finance Minister Tito Mboweni, in a joint article with the Finance Ministers of the US, Germany, Indonesia, and Mexico expressed support for the G7 global minimum tax proposal to be at least 15 per cent. The statement expressed the belief that the minimum rate could ultimately be increased and urged other countries to reach an agreement to “ensure that global capitalism is compatible with fair tax systems.”²⁵⁸¹

On 14 June 2021, the Commissioner of SARS Edward Kieswetter and the National Director for Public Prosecution Advocate Shamila Batohi published a joint statement promising to strengthen collaboration and address critical problems such as tax evasion and non-compliance, which are undermining the tax revenue base and integrity of the tax system. To put this partnership into action, the Criminal Investigations Division of SARS will assign dedicated capacity and work closely with the National Prosecuting Authority's Specialised Tax Units to develop strong cases for prosecution. This will be done in a synchronised fashion. The collaborative prosecution enterprise will initially target non-compliant employers.²⁵⁸²

On 1 July 2021, as part of 130 countries and jurisdictions, South Africa joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over [multinational enterprises] from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁵⁸³ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁵⁸⁴

On 6 July 2021, SARS announced collaboration with the International Revenue Service Criminal Investigation Division (IRS-CI) to fight tax and economic crimes affecting both South Africa and the US. A continuous training project coordinated by the IRS-CI is a key component of this bilateral joint endeavour. The IRS-CI continually exchanges financial investigation tactics, teaches South African law enforcement and government authorities, and promotes adjudicated foreign case studies pertinent to both countries.²⁵⁸⁵

On 6 July 2021, the Commissioner of SARS Edward Kieswetter and the Chief Executive Officer of the South African Institute of Chartered Accountants Freeman Nomvalo announced a partnership to advance SARS and ensure that it meets the demands for "skills in areas such as Specialist Auditing, Transfer Pricing, Base Erosion and Profit Shifting, Illicit Economy and High Wealth Individual Unit."²⁵⁸⁶

South Africa has pursued bilateral actions by signing the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent BEPS with Kuwait and cooperating with the US to combat tax crimes. South Africa has further pursued domestic tax reforms, including measures to strengthen the ability of SARS to combat transfer pricing and tax erosion with the goal of meeting international standards. Finally, South Africa has continued cooperation in multilateral institutions by agreeing to the G7 and OECD's two-pillar framework for international tax reform.

Thus, South Africa receives a score of +1.

On 1 May 2021, Turkey added cryptocurrency platforms to a list of firms covered by anti-money laundering and terrorism financing regulations. This aims to prevent firms from funding terrorist organizations domestically and abroad.²⁵⁸⁸

On 1 July 2021, as part of 130 countries and jurisdictions, Turkey joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over [multinational enterprises] from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁵⁸⁹ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁵⁹⁰

Turkey has taken substantial domestic action to counter terrorist financing and money laundering and began to explore bilateral cooperation with the US on CbCR. At the international level, Turkey has also contributed to improvements to the international tax system through multilateral cooperation and processes.

Thus, Turkey receives a score of +1.

Analyst: Sharif Fatourehchi

United Kingdom: +1

The United Kingdom has fully complied with its commitment to continue to cooperate for a globally fair, sustainable, and modern international tax system.

On 24 December 2020, the United Kingdom and the European Union reached an agreement on the EU-UK Trade and Cooperation Agreement.²⁵⁹¹ As the UK no longer benefits from EU directives as of 1 January 2021, sections within this new agreement ensure that both parties maintain Organisation for Economic Co-operation and Development (OECD) standards of tax transparency, anti-tax avoidance, anti-money laundering, counter-terrorist financing and more.²⁵⁹² The agreement was signed on 30 December 2020 and became provisionally applicable starting 1 January 2021.²⁵⁹³

On 29 December 2020, Her Majesty's Revenue and Customs (HMRC) announced that reporting under the EU Directive on Administrative Cooperation would be modified.²⁵⁹⁴ Reporting would now only be required for cross-border arrangements applicable under Category D of the directive that

“share substantial common growth with the Mandatory Disclosure Rules developed by the OECD.”²⁵⁹⁵

On 12 January 2021, the UK signed a new protocol with Germany, to be added to the existing double tax treaty signed in 2010, to highlight both parties’ intention to include the standard outlined in the OECD base erosion and profit shifting (BEPS) project on treaty abuse, tax evasion and avoidance.²⁵⁹⁶ Changes include amending the wording of the treaty and adding Article 30A.²⁵⁹⁷ The protocol is not yet in force.²⁵⁹⁸

On 27-28 January 2021, Chancellor of the Exchequer Rishi Sunak, along with Ministers of Finance from Canada, Germany, Italy, Jamaica and Indonesia, emphasized the need for a multilateral digital tax solution at the public meeting of the OECD/G20 Inclusive Framework.²⁵⁹⁹

On 19 February 2021, HMRC published a text which incorporated the Multilateral Convention to Implement Tax Treaty-Related Measures to Prevent Base Erosion and Profit Shifting (MLI) and the 2007 UK-Saudi Arabia Double Taxation Convention and protocol.²⁶⁰⁰ This text reiterates the provisions of the MLI, which replaced sections of the Convention and the protocol as well as the dates they take effect.²⁶⁰¹

On 23 February 2021, the UK and Sweden signed an amending protocol to update the Sweden-UK income tax treaty.²⁶⁰² The amendment contained changes to the preamble language, which describe the intentions to eliminate double taxation on income taxes and capital gain taxes while discouraging opportunities for tax evasion or avoidance. The protocol is yet to be ratified by both states.²⁶⁰³

On 3 March 2021, the Chancellor of the Exchequer Rishi Sunak delivered the Budget Speech and outlined that income tax, VAT, and capital gains tax will not increase. Chancellor Sunak also announced a GBP100 million package to equip the HMRC to act against tax avoidance and evasion.²⁶⁰⁴

On 11 March 2021, the UK published the Finance Bill 2021, which includes legislation on tax changes and plans to act against tax avoidance and evasion, which will take effect at the beginning of the 2022 tax year.²⁶⁰⁵

On 23 March 2021, the government published its “Tax Policies and Consultations Update (Spring 2021),” which seeks to improve the quality of tax policy and legislation by striving for greater visibility, transparency, and accessibility for taxpayers, Members of Parliament, tax professionals and other stakeholders.²⁶⁰⁶ These measures are an integral part of the government’s ten-year plan to create a trusted and modern tax system.²⁶⁰⁷

On 15 April 2021, in the overall Committee of the whole House, the government introduced amendments pertaining to hybrid and other mismatches in its Finance Bill 2021.²⁶⁰⁸

On 19 April 2021, Her Majesty’s Treasury added new Regulations to the International Tax Compliance Regulations SI 2015/878 to allow new agreements reached with other jurisdictions up to 20 April 2021 to be adopted.²⁶⁰⁹ The new agreements came into force on 14 May 2021 and aim to improve international tax compliance.²⁶¹⁰

On 22 April 2021, the HMRC published factsheet CC/FS59, which provides details on the penalties charged in relation to CbCR.²⁶¹¹ Penalties can be given for inaccurate information and failure to meet the commitments outlined in the Taxes (BEPS) (Country-by-Country Reporting) Regulations 2016.²⁶¹²

On 26 April 2021, the Global Anti-Corruption Sanctions Regulations 2021 came into effect.²⁶¹³ This legislation allows the government to impose sanctions on individuals involved in serious corruption, including bribery and misappropriation of property, in an effort to create autonomous anti-corruption legislation post-Brexit.²⁶¹⁴

On 21 May 2021, the UK and Australia signed a memorandum of understanding for arbitration under the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and

Profit Shifting (MLI) for unresolved issues stemming from the Mutual Agreement Procedure.²⁶¹⁵ This memorandum of understanding covers how to request for the submission of a case, the minimum information and documentation standards, the appointment of arbitrators, and the arbitration process itself.²⁶¹⁶

On 5 June 2021, the UK joined an agreement on global tax reform at the G7 Cornwall Summit. This agreement endorsed a global minimum corporate tax rate of 15 per cent in each jurisdiction in which multinational enterprises (MNEs) operate and made it mandatory for such firms to report the climate impact of their investments.²⁶¹⁷ As another feature of the G7 agreement, the UK agreed to remove its unilateral digital services tax.²⁶¹⁸ This removal will come into effect alongside the implementation of BEPS 2.0 standards.²⁶¹⁹

On 1 July 2021, as part of 130 countries and jurisdictions, the UK joined the OECD's statement to establish a two-pillar framework for international tax reform. Pillar One will "re-allocate some taxing rights over MNEs from the home countries to the markets where they have business activities and earn profits, regardless of whether firms have a physical presence there."²⁶²⁰ Pillar Two will introduce a global minimum corporate tax rate of 15 per cent that countries can use to protect their tax bases.²⁶²¹

On 6 July 2021, the HMRC published an issue briefing, detailing its strategy to tackle the perceived issue of the hidden economy largely found in taxi, private hire vehicle, and scrap metal businesses.²⁶²² The primary tool the HMRC intends to use is tax conditionality for license renewals to ensure that

licenses are not issued to those who do not meet a degree of confidence with tax filings.²⁶²³ Tax conditionality will be introduced in April 2022.²⁶²⁴

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, the UK joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²⁶²⁵

On 7 September 2021, to provide guidance on customs complications resulting from Brexit, the HMRC published a guide on how to handle and account for VAT on the movement of goods between Northern Ireland and the EU.²⁶²⁶

On 22 September 2021, Chancellor of the Exchequer Rishi Sunak met with US Secretary of the Treasury Janet L. Yellen to discuss ongoing efforts to improve the international tax system, including discussions surrounding international corporate taxes and the withdrawal of digital services taxes.²⁶²⁷

The UK has continued its cooperation for a globally fair, sustainable and modern international tax system through bilateral arrangements with the EU, Germany, Sweden and other G20 members. It has also cooperated in multilateral frameworks through implementing the MLI and creating treaties that align with the OECD's standards on tax avoidance and evasion.

Thus, the United Kingdom receives a score of +1.

Analyst: Jessica Johnson

United States: +1

The United States has fully complied with its commitment to continue cooperation for a globally fair, sustainable and modern international tax system.

In January 2021, the United States Trade Representative (USTR) published its investigation concluding that Austria, Spain, the UK, India, Italy and Turkey's digital services tax regimes were discriminatory to American companies and inconsistent with principles of international taxation.²⁶²⁸ The USTR commenced the public notice and comment process on possible trade actions against such countries.²⁶²⁹

On 25 February 2021, Treasury Secretary Janet Yellen expressed her intention to participate in multilateral dialogues on the Organisation for Economic Co-operation and Development (OECD)/G20 Inclusive Framework on Base Erosion and Profit Shifting (BEPS) and overcome prior disagreements in anticipation of her first meeting with G20 counterparts.²⁶³⁰

On 26 February 2021, Treasury Secretary Yellen expressed that the US would reverse its previous stance and stop pushing for safe harbour implementation in Pillar One of the BEPS Framework and work toward an international agreement on digital commerce and a global minimum corporate tax.²⁶³¹ This action advances the goal of achieving a global deal on digital taxation in 2021.²⁶³²

On 5 April 2021, Senate Finance Committee Chair Senator Ron Wyden and Senators Sherrod Brown and Mark Warner released a framework for reforming US international tax policy.²⁶³³ The document called for changes to the global intangible low-taxed income (GILTI) system, which would split revenue reporting for multinational corporations to a country-by-country system, thus eliminating the incentive to funnel revenue reporting to tax havens.²⁶³⁴

On 7 April 2021, the Department of the Treasury released the Made in America Tax Plan.²⁶³⁵ The plan would make changes to the GILTI system by removing a tax exemption on the first 10 per cent of foreign profits earned by US companies. The plan also introduced the Stopping Harmful Inversions and Ending Low-tax Development's system, which conforms to the OECD/G20 Inclusive Framework by removing tax deductions on profits earned in low-tax foreign jurisdictions.^{2636,2637}

On 23 April 2021, Deputy Assistant Secretary of International Tax Affairs at the Treasury Jose Murillo confirmed that the US had started negotiations on a tax treaty with Colombia.²⁶³⁸ The US had also completed similar negotiations with Norway and Romania.²⁶³⁹

including discussions surrounding international corporate taxes and the withdrawal of digital services taxes.²⁶⁴⁸

The US has continued its cooperation for a globally fair, sustainable and modern international tax system through participating in multilateral dialogues on the G20/OECD Inclusive Framework on BEPS, with specific reference to taxation on digital commerce and a global minimum corporate tax. The US government has taken steps to curb harmful tax practices, prevent base erosion, and implement country-by-country reporting systems, and engaged in bilateral tax treaty negotiations with Colombia, Norway, and Romania.

Thus, the United States receives a score of +1.

Analyst: Brett Szmul

European Union: +1

The European Union has fully complied with its commitment to continue cooperation for a globally fair, sustainable and modern international tax system.

On 27 November 2020, the European Council approved a comprehensive assessment outlining its priorities on enhancing global cooperation with tax revenue agencies of non-EU countries, focusing on the spheres of digital commerce and tax governance.²⁶⁴⁹

On 24 December 2020, the UK and the EU reached an agreement on the EU-UK Trade and Cooperation Agreement.²⁶⁵⁰ As the UK no longer benefits from EU directives as of 1 January 2021, sections within this new agreement ensure that both parties maintain Organisation for Economic Co-operation and Development (OECD) standards of tax transparency, anti-tax avoidance, anti-money laundering, counter-terrorist financing and more.²⁶⁵¹ The agreement was signed on 30 December 2020 and became provisionally applicable starting 1 January 2021.²⁶⁵²

On 22 February 2021, the EU added Dominica and removed Barbados from its list of non-cooperative tax jurisdictions, after a review conducted as part of its ongoing strategy for external taxation.²⁶⁵³ Several other changes were made to official designations of countries cooperating with EU tax authorities.

On 25 February 2021, a majority of EU Ministers endorsed a directive proposed by the European Commission which would require large multinational corporations to publicly disclose income taxes paid in each EU member state.²⁶⁵⁴

On 3 March 2021, the EU ambassadors gave a mandate to the Portuguese Presidency of the European Council to begin negotiations with the Parliament and the Commission on a final agreement requiring large multinational corporations to publicly disclose income taxes paid in each EU member state. The Parliament agreed to begin negotiations with the goal of finalizing the agreement no later than 30 June 2021.²⁶⁵⁵

On 30 March 2021, the European Parliament's Committee on Economic and Monetary Affairs adopted a motion calling on the EU to immediately engage in negotiations for a global digital tax and an agreement governing the rules of tax residency for digital companies, with an aim to conform with the G20/OECD BEPS framework.²⁶⁵⁶ The Committee also endorsed the idea of a European Digital Tax if international negotiations failed to implement a digital tax on the global level.²⁶⁵⁷

On 5 June 2021, the EU joined an agreement on global tax reform at the G7 Cornwall Summit. This agreement endorsed a global minimum corporate tax rate of 15 per cent in each jurisdiction in which multinational enterprises (MNEs) operate and made it mandatory for such firms to report the climate impact of their investments.²⁶⁵⁸

On 9 July 2021, at the G20 High Level Tax Symposium on Tax Policy and Climate Change, the EU joined other G20 Finance Ministers in giving formal support to the global tax reform proposal, which includes a global minimum tax of at least 15 per cent and a requirement for large global businesses to pay taxes to countries where their goods and services are sold.²⁶⁵⁹

On 10 July 2021, the European Commission welcomed a multilateral agreement endorsed by G20 Finance Ministers and Central Bank Governors and supported by 132 jurisdictions to adopt a global minimum tax of 15 per cent and implement Pillars One and Two of the OECD/G20 BEPS framework. The European Commissioner for Economy Paolo Gentiloni expressed optimism that EU member states will implement these measures individually by October 2021.²⁶⁶⁰

On 31 August 2021, European Commissioner for Budget and Administration Johannes Hahn confirmed that the European Commission would pursue a digital levy on multinational firms even if the G20 Summit in October 2021 fails to reach an agreement on a two-pillar solution.²⁶⁶¹

The EU has continued its cooperation for a globally fair, sustainable and modern international tax system through bilateral arrangements, monitoring external jurisdictions' compliance with international tax regulations, and advancing tax transparency agreements with the UK. The EU has also continued its cooperation through multilateral frameworks to develop international tax transparency standards and information exchange mechanisms.

Thus, the European Union receives a score of +1.

Background

On 19 July 2013, the Organisation for Economic Co-operation and Development (OECD) issued the Action Plan on Base Erosion and Profit Shifting (BEPS).²⁶⁶² On 6 September 2013, at the St. Petersburg Summit, the G20 leaders fully endorsed “the ambitious and comprehensive Action Plan — originated in the OECD — aimed at addressing base erosion and profit shifting with mechanism to enrich the Plan as appropriate,” welcomed “the establishment of the G20/OECD BEPS project” and encouraged all interested countries to participate.²⁶⁶³ Implementation details of the BEPS Action Plan developed thereafter constitute the BEPS package with 15 actions that equip governments with the necessary domestic and international instruments to ensure that profits are taxed where economic activities that generate the profits are performed and where value is created.²⁶⁶⁴ The BEPS package also gives businesses greater certainty by reducing disputes over the application of international tax

rules and by standardizing compliance requirements. The OECD/G20 Inclusive Framework on BEPS was established to expand the coverage of measures to tackle BEPS and brings together 137 countries and jurisdictions to collaborate on implementing its recommendations.²⁶⁶⁵ Commitments to address BEPS have been reiterated at all subsequent G20 summits since St. Petersburg.

In 2019 in Osaka G20 leaders reaffirmed the importance of the worldwide implementation of the BEPS package and enhanced tax certainty. They welcomed the progress on addressing the tax challenges arising from digitalization and endorsed the work program that consists of a two-pillar approach, developed by the Inclusive Framework on BEPS.

In 2020 in Riyadh summit declaration G20 leaders welcomed the Reports on the Blueprints for Pillar 1 and Pillar 2 approved for public release by the G20/OECD Inclusive Framework on Base Erosion and Profit Shifting (BEPS) and committed to further progress on both pillars and urged the G20/OECD Inclusive Framework on BEPS to address the remaining issues with a view to reaching a global and consensus-based solution by mid-2021.

Commitment Features

This commitment refers to BEPS Action 1 Tax Challenges Arising from Digitalisation. It is the top priority for the Organisation for Economic Co-operation and Development (OECD)/G20 Inclusive Framework. In May 2019, the Inclusive Framework issued the Programme of Work to Develop a Consensus Solution to the Tax Challenges Arising from the Digitalisation of the Economy.²⁶⁶⁶ It explores technical design implementation issues that must be refined to develop a comprehensive and consensus-based solution. It includes concrete proposals for the two challenges facing the international income tax in the digital economy: changing the allocation of taxing rights through a coherent and concurrent review of the profit allocation and nexus rules (Pillar 1) and remaining BEPS issues and minimum taxation (Pillar 2).²⁶⁶⁷

We remain committed to further progress on both pillars and urge the G20/OECD Inclusive Framework on BEPS to address the remaining issues with a view to reaching a global and consensus-based solution by mid-2021.

Commitment requires taking actions on both pillars.

Pillar 1- Re-allocation of taxing rights

- Addresses the question of business presence and activities without physical presence;
- Will determine where tax should be paid and on what basis;
- Will determine what portion of profits could or should be taxed in the jurisdictions where customers and/or users are located.

Key elements of Pillar One can be grouped into three components: a new taxing right for market jurisdictions over a share of residual profit calculated at an multinational enterprise group (or segment) level; a fixed return for certain baseline marketing and distribution activities taking place

²⁶⁶⁵ OECD/G20 Inclusive Framework on BEPS, Organisation for Economic Cooperation and Development (Paris) 2015. Access Date: 11 January 2021. <https://www.oecd.org/tax/beps/flyer-inclusive-framework-on-beps.pdf>

²⁶⁶⁶ Programme of Work to Develop a Consensus Solution to the Tax Challenges Arising from the Digitalisation of the Economy, OECD (Paris) 29 May 2019. Access Date: 11 January 2021. <https://www.oecd.org/tax/beps/programme-of-work-to-develop-a-consensus-solution-to-the-tax-challenges-arising-from-the-digitalisation-of-the-economy.pdf>

²⁶⁶⁷ Programme of Work to Develop a Consensus Solution to the Tax Challenges Arising from the Digitalisation of the Economy, OECD (Paris) 29 May 2019. Access Date: 11 January 2021. <https://www.oecd.org/tax/beps/programme-of-work-to-develop-a-consensus-solution-to-the-tax-challenges-arising-from-the-digitalisation-of-the-economy.pdf>

physically in a market jurisdiction; and processes to improve tax certainty through effective dispute prevention and resolution mechanisms.²⁶⁶⁸

Taking actions on or actively publicly supporting these components is necessary to comply with this part of the commitment.

Pillar 2 – Global anti-base erosion mechanism

- Will help to stop the shifting of profits to low or no tax jurisdiction facilitated by new technologies;
- Will ensure a minimum level of tax is paid by multinational enterprises;
- Levels the playing field between traditional and digital companies;

Pillar Two addresses remaining BEPS challenges and is designed to ensure that large internationally operating businesses pay a minimum level of tax regardless of where they are headquartered or the jurisdictions they operate in. It does so via a number of interlocking rules that seek to (i) ensure minimum taxation while avoiding double taxation or taxation where there is no economic profit, (ii) cope with different tax system designs by jurisdictions as well as different operating models by businesses, (iii) ensure transparency and a level playing field, and (iv) minimise administrative and compliance costs.²⁶⁶⁹

Taking actions on or actively publicly supporting these components is necessary to comply with this part of the commitment.

To achieve full compliance G20 member needs to implement actions on both pillars or publicly support OECD process (in case when G20 member does not want to proceed with actions without a consensus solution). If a G20 member takes actions only on one of the pillars, it receives a score of 0. If G20 member does not take any actions and does not support OECD process it receives a score of -1.

Scoring Guidelines

| | |
|----|-------------------------------------------------------------------------------------|
| -1 | G20 member does not take any actions to further progress on both pillars |
| 0 | G20 member takes actions or publicly supports OECD process on Pillar 1 OR Pillar 2 |
| +1 | G20 member takes actions or publicly supports OECD process on Pillar 1 AND Pillar 2 |

the Prevention of Fiscal Evasion With Respect to Taxes on Income and on Capital (the Treaty) signed between Argentina and Qatar.²⁶⁷⁰

On 17 February 2021, Argentina and the US agreed to exchange country-by-country reports. The information exchanged through the Country-by-Country reporting will be used by the tax authorities to assess certain risks such as erosion of the tax base and risks related to the transfer of profit and, when appropriate, for economic and statistical analysis.²⁶⁷¹

On 1 July 2021, Argentina, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework," signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. The framework updates key elements of the century-old international tax system, which is no longer fit for purpose in a globalized and digitalized 21st century economy.²⁶⁷² Under Pillar One, taxing rights on more than USD100 billion of profit are expected to be reallocated to market jurisdictions each year. The global minimum corporate income tax under Pillar Two – with a minimum rate of at least 15 per cent – is estimated to generate around USD150 billion in additional global tax revenues annually. Additional benefits will also arise from the stabilization of the international tax system and the increased tax certainty for taxpayers and tax administrations.²⁶⁷³

Argentina has taken measures to address one of the pillars of G20/OECD Inclusive Framework on BEPS and publicly supported the OECD process.

Thus, Argentina receives a score of +1.

Analyst: Irina Popova

Australia: +1

Australia fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development Inclusive Framework on Base Erosion and Profit Shifting.

On 1 July 2021, Australia, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework," signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. The framework updates key elements of the century-old international tax system, which is no longer fit for purpose in a globalized and digitalized 21st century economy.²⁶⁷⁴ Under Pillar One, taxing rights on more than USD100 billion of profit are expected to be reallocated to market jurisdictions each year. The global

Brazil: +1

Brazil has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 25 February 2021, Brazil approved three new treaties for the elimination of double taxation and the prevention of tax evasion and avoidance between Brazil and Switzerland, Singapore and the United Arab Emirates. The Treaties are now pending enactment by the President's sanction. The Treaties' provisions are partially aligned with the standards of OECD and its BEPS action plans.²⁶⁷⁶

On 1 March 2021, Brazil introduced legal act Contribuição sobre Intervenção no Domínio Econômico-Internet (640/2021). It will impose tax at a rate of 3 per cent on gross revenue from: advertising, sponsorship or merchandising, content targeting, collection, distribution or treatment of users' data, incentive or influence for the use of services, payment platform, exploitation or dissemination of images, text, video or sound related to a natural or legal person, entities subject to this tax would be legal entities which, as a consequence of exportation of the listed activities in Brazil, accrued revenue in Brazil or abroad.²⁶⁷⁷

Brazil has taken measures to address both of the pillars of G20/OECD Inclusive Framework on BEPS and publicly supported the OECD process.

On 1 July 2021, Brazil, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework," signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. The framework updates key elements of the century-old international tax system, which is no longer fit for purpose in a globalized and digitalized 21st century economy.²⁶⁷⁸ Under Pillar One, taxing rights on more than USD100 billion of profit are expected to be reallocated to market jurisdictions each year. benefits will also arise from the stabilization of the international tax system and the increased tax certainty for taxpayers and tax administrations.²⁶⁷⁹

Thus, Brazil receives a score of +1.

Analyst: Irina Popova

Canada: +1

Canada has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development Inclusive Framework on Base Erosion and Profit Shifting.

On 19 April 2020, the Government of Canada presented the Budget 2021.²⁶⁸⁰ The budget included an annex, providing detailed information on the proposed Digital Services Tax (DST) and invited input from stakeholders. The proposed tax is intended to ensure that revenue earned by large businesses – foreign or domestic – from engagement with online users in Canada, including through the collection, processing and monetizing of data and content contributions from those users, is subject to Canadian tax. The DST is intended to be interim in nature – it would apply as of 1 January 2022 until an acceptable multilateral approach comes into effect with respect to the implicated businesses.²⁶⁸¹

On 5 June 2021, Deputy Prime Minister and Minister of Finance Chrystia Freeland took part in the G7 Finance Ministers' Meeting in London, United Kingdom. The communiqué, signed by all the participants contained strong support for the “efforts underway through the G20/OECD Inclusive Framework to address the tax challenges arising from globalisation and the digitalisation of the economy and to adopt a global minimum tax.” The G7 ministers and central bank governors also committed to reach an “equitable solution on the allocation of taxing rights, with market countries awarded taxing rights on at least 20 per cent of profit exceeding a 10 per cent margin for the largest and most profitable multinational enterprises.”²⁶⁸²

On 1 July 2021, new rules regarding the levying of goods and services tax and harmonized sales tax for digital economy businesses and, in particular, digital platform operators entered into force.²⁶⁸³

On 1 July 2021, Canada, following virtual talks between 139 nations represented in the OECD's “Inclusive Framework,” signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. The framework updates key elements of the century-old international tax system, which is no longer fit for purpose in a

China: +1

China has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 12 March 2021, the 14th Five-Year Plan was announced. According to the plan, China will improve the management services of international taxation. International taxation was chosen as an important area of work of the Chinese government.²⁶⁸⁶

On 29 March 2021, it was announced that China will adopt a broad range of digitalized measures to regulate tax collections and optimize tax payment services through 2025. The new technologies will also help with real-time verification and monitoring of the invoice issuance process, which will help to prevent tax fraud.²⁶⁸⁷

On 1 July 2021, China, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework," signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. France: +1

France has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 4 December 2020, France resumed collection of its digital services tax. “The 3 per cent digital services tax applies to revenues deemed to have been generated in France by digital companies, wherever they are established, which make annual supplies of taxable services of more than EUR25 million in France and EUR750 million worldwide. The tax applies to advertising revenues from services that rely on data collected from internet users, revenues from the provision of a linking service between internet users and the sale of user data for advertising purposes. However, online sales and the digital provision of digital content for buying or selling are expressly excluded from the tax.”²⁶⁹⁰

As of March 23, France has implemented a digital service tax.²⁶⁹¹

On 5 June 2021, Finance Minister Bruno Le Maire took part in the G7 Finance Ministers’ Meeting in London, United Kingdom. The communiqué, signed by all the participants contained strong support for the “efforts underway through the G20/OECD Inclusive Framework to address the tax challenges arising from globalisation and the digitalisation of the economy and to adopt a global minimum tax.” The G7 ministers and central bank governors also committed to reach an “equitable solution on the allocation of taxing rights, with market countries awarded taxing rights on at least 20 per cent of profit exceeding a 10 per cent margin for the largest and most profitable multinational enterprises.”²⁶⁹²

On 1 July 2021, France, following virtual talks between 139 nations represented in the OECD’s “Inclusive Framework,” signed a detailed statement on July 1 for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. Mexico: +1

Mexico has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 29 December 2020, “the Miscellaneous Tax Resolution for 2021 was published in the Official Gazette. It included measures regarding value added tax (VAT) and digital services. The changes to the VAT rules for digital services include the following. As a result of modifications to the VAT law for 2021, it is clarified that foreign residents (whether individuals or legal entities) providing digital services through an intermediary that collects and withholds 100 per cent of the VAT on the sales or transaction price for the foreign residents, are not required to register in the federal tax registry. The legislative measures repeal a requirement for those providing digital ‘intermediation’ services between third parties to file an update of economic activities. The legislation also includes a rule to the list of requirements to issue the Comprobante Fiscal Digital por Internet by residents in Mexico that provide intermediation services between third parties to suppliers of goods and services residing abroad. In various rules, the concept of individuals who sell goods, provide services, grant accommodation or provide for the ‘temporary use or enjoyment of goods’ through technological platforms is expanded. The legislation modifies the rule for determining the income limit and treating the withholding made by the technological platforms as the final payment. Also, the legislation withdraws a rule that allowed individuals with business activities that obtain income from operations through technological platforms to credit the income tax withholding. There are new rules for individuals with business activities of selling goods or providing services through the internet via technological platforms. Regarding income received directly from purchasers of the goods or services, these individuals (if considering the tax paid as a ‘definitive’ payment) must determine their taxable profit, calculate their income tax, and credit the tax withheld by the technological platforms and make the advanced income tax payment by submitting a return (known in English as the ‘Income tax payment of individuals in technological platforms return’).”²⁷¹⁷

On 1 July 2021, Mexico, following virtual talks between 139 nations represented in the OECD’s “Inclusive Framework,” signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. The framework updates key

Russia: +1

Russia has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 23 November 2020, Russia has issued the Federal Law No. 374-FZ concerning amendments to the Tax Code.²⁷²⁰ As from 1 January 2021, the possibility of securing a zero rate for dividends by means of the look-through approach is no longer an option. The new rules make it even more difficult than before to use existing mechanisms for remitting payments abroad at a low rate of tax, and in particular the look-through approach. Also, the Federal Law amends the provisions of Article 284.2 that apply to income from the sale or other disposal of shares or ownership interests in foreign entities, but only if the state of residence of those foreign entities is not on the Finance Ministry's list of states and territories that provide preferential tax treatment and/or do not require the disclosure or provision of information on financial operations.²⁷²¹

On 1 July 2021, Russia, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework," signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. Saudi Arabia: +1

Saudi Arabia has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 2 March 2021, the General Authority of Zakat and Tax released guidelines about value added tax (VAT) registration and payment for online and e-commerce transactions and activities. The guidelines (available in Arabic) provide that it is mandatory for online enterprises to register for VAT if their annual turnover exceeds SAR375,000 (approximately USD100,000). VAT registration is optional if yearly sales fall between SAR187,500 and SAR375,000. Online stores are defined as any digital platform that is used for e-commerce activities, and includes activities on Instagram, Whatsapp, Facebook, and LinkedIn, among others.²⁷²⁵

On 1 July 2021, Saudi Arabia, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework," signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. On 14 July 2021, the General Secretariat of Tax Committees has launched an electronic edition of the tax regulations guidance. The electronic edition has been issued to create a comprehensive reference for all tax and zakat regulations. The electronic edition aims to improve the processing times of tax disputes and raise public awareness about the tax regulations.²⁷²⁸

On 1 September 2021, Saudi Arabia's Zakat, Tax and Customs Authority, announced a launching of e-invoicing system. The FATOORAH system aims to promote fair competition, tackle the black market, and helping efforts to tackle anti-commercial concealment. The system will be implemented in two phases; it will launch the first phase on 4 December this year and apply to taxpayers whom the E-Invoice Regulation covers. Tax invoices will have to be created and stored along with related debit and credit notices. The second phase will be implemented gradually from January next year. Taxpayers regulated by the FATOORAH regulation will have to stop issuing handwritten invoices or invoices issued manually via text editing software. They will also have to be able to generate and store invoices electronically through a compliant e-invoicing system. It can be a cash register machine, a cloud system, or enterprise resource planning software. The simplified tax invoices must include a QR code, and tax invoices must consist of the VAT number of the buyer if the buyer is a registered VAT taxpayer.²⁷²⁹

Turkey: +1

Turkey has fully complied with the commitment to further progress on both of the G20/Organisation for Economic Co-operation and Development (OECD) Inclusive Framework on Base Erosion and Profit Shifting (BEPS).

On 14 June 2021, Law No. 7326 on Restructuring of Certain Receivables and Amendments to Certain Laws came into effect. Law introduced a new tax amnesty and tax base increase law. It covers the tax receivables, the delay interest and tax penalties derived from these tax receivables, and other penalties not derived from a tax principal related to the periods before 30 April 2021. At first deadline for envisaged application to benefit from this amnesty was stipulated as 31 August 2021. However, on 27 August 2021, new Presidential Decree extended the deadline for making this application till 30 September 2021. In addition, the first installment payment period (30 September 2021) for the relevant applications has been extended by one month. Thus, the last day of the first installment payment period is now rearranged as 1 November 2021.²⁷³³

On 1 July 2021, Turkey, following virtual talks between 139 nations represented in the OECD's "Inclusive Framework" signed onto a detailed statement for adopting new international tax rules, including a global minimum tax of at least 15 per cent and new rules for allocating taxing rights between nations. The statement also sets out an ambitious timeline, including finalizing the technical work on the agreement by October and starting implementation in 2023. On 18 January 2021, the European Commission launched the public consultation on the digital levy. The new initiative proposal is expected to be finalized by mid-2021. The levy will help address the issue of fair taxation related to the digitalization of the economy and, at the same time, is intended to not interfere with the ongoing work at the G20 and OECD level on a reform of the international corporate tax framework.²⁷⁴⁴

On 18 May 2021, the European Commission published the Communication on Business Taxation for the 21st Century. The document provides for a long-term vision of the EU tax system and a tax agenda for 2022-23 with targeted measures to ensure effective taxation. Both parts include measures related to taxation in the digital economy and taxation of multinational enterprises.²⁷⁴⁵

On 5 June 2021, the G7 finance ministers published a communiqué which sets out high-level political agreement on global tax reform, including the reallocation of a share of the global profits of certain businesses to their market countries (Pillar 1) and introduction of a minimum effective tax rate, on a country by country basis, of at least 15 per cent (Pillar Two).²⁷⁴⁶

Despite taking its own domestic measures on taxation in the digital economy without waiting for the final OECD process outcomes, the EU has highlighted that its own internal proposals should not interfere with the OECD work on Pillar 1 and Pillar 2.

Thus, the European Union receives a score of +1.

Background

Addressing money laundering and terrorism financing is a well-established goal of the G20 as it is a serious economic and societal concern. The International Monetary Fund (IMF) states that “these activities generate financial flows that involve the diversion of resources away from economically- and socially-productive uses—and these diversions can have negative impacts on the financial sector and external stability of member states.”²⁷⁴⁷ Therefore, it is essential to implement effective anti-money laundering and anti-terrorist financing regimes in order to alleviate the corruptive effects these activities have, and to promote and protect the stability and integrity of the financial markets.²⁷⁴⁸

At the 1989 G7 Paris Summit, the Financial Action Task Force (FATF) was founded to set a global standard for anti-money laundering and anti-terrorist financing.²⁷⁴⁹ It is a 33-member organization

and works closely with the IMF, the World Bank, the United Nations, and other key international organizations.²⁷⁵⁰

At the 2008 Washington Summit, G20 members reaffirmed their support for the continuation of the FATF in its efforts against money laundering and terrorist financing, along with their support of the World Bank-UN Asset Recovery (StAR) Initiative.²⁷⁵¹

At the 2009 Pittsburgh Summit, G20 leaders committed to maintain their momentum and results in combating money laundering and terrorist financing and continued their support for the efforts made by the FATF.²⁷⁵²

At the 2010 Toronto Summit, the G20 members reiterated their support for the FATF and encouraged the FATF to continue “monitoring and enhancing global compliance with the anti-money laundering and counter-terrorism financing international standards.”²⁷⁵³ Furthermore, G20 members encouraged FATF to keep states accountable through regularly updating a public list of jurisdictions that have strategic deficiencies in this area.²⁷⁵⁴

At the 2011 Cannes Summit, G20 members supported the efforts made by the FATF of identifying and engaging jurisdictions that have deficiencies with their Anti-Money Laundering/Counter-Financing of Terrorism (AML/CFT).²⁷⁵⁵ G20 urged all states that were lacking in sufficient progress or compliance to strengthen their AML/CFT systems in alignment with the FATF.²⁷⁵⁶ Furthermore, G20 members called for the implementation of the FATF standards for transparency in areas such as cross-border wires, beneficial ownership, customer due diligence, and due diligence.²⁷⁵⁷

At the 2012 Los Cabos Summit, G20 members affirmed their support for the renewal of the FATF mandate, and adopted the revised standards of the FATF.²⁷⁵⁸

At the 2013 St. Petersburg Summit, G20 members reiterated their commitment to the FATF’s efforts to fight money laundering and terrorist financing and stated that one of their priorities was to identify and monitor high risk jurisdictions that have deficiencies in their AML/CFT strategies, while recognizing states that have made positive progress towards the FATF’s standards.²⁷⁵⁹

The 2016 Hangzhou Summit called upon G20 members, the IMF, and the World Bank Group to “intensify their support for domestic capacity building to help countries improve their compliance with global anti-money laundering and countering the financing of terrorism and prudential standards.”²⁷⁶⁰

At the 2017 Hamburg Summit, G20 members committed to advance the effective implementation of the global standards of transparency and beneficial ownership of legal persons and arrangements in order to continue combating money laundering and terrorism financing.²⁷⁶¹

At the 2018 Buenos Aires Summit, G20 members committed to regulate crypto-assets for anti-money laundering and countering terrorist financing in a way that is aligned with the FATF’s standards.²⁷⁶²

At the 2019 Osaka Summit, G20 members reaffirmed their commitment of the full, effective, and swift implementation of the amended FATF standards to virtual assets, such as crypto-assets, as well as related providers for anti-money laundering and combating terrorist financing.²⁷⁶³

At the 2020 Riyadh Summit, G20 members affirmed their support of the AML/CFT policy that was outlined in the FATF’s report on COVID-19.²⁷⁶⁴ G20 members reaffirmed their support for the FATF and the global standard it has set out to prevent and combat money laundering, terrorist financing and proliferation financing.²⁷⁶⁵ G20 members also reaffirmed their commitment to strengthen “the FATF’s Global Network of regional bodies, including by supporting their expertise in mutual evaluations, and call for the full, effective and swift implementation of the FATF standards worldwide” alongside their strong commitment “to tackle all sources, techniques and channels of these threats.”²⁷⁶⁶

Commitment Features

This commitment requires G20 members to take into account all three areas involved in money-laundering and terrorist financing crimes, which are the sources, techniques, and the channels of these threats. In order for G20 members to fully comply, strong action must be taken to address all three areas for both money-laundering as well as terrorist financing.

To “reiterate” is understood as “commitments that have been established in the past. It should not be considered a new initiative; however, new efforts in the area should be made.”²⁷⁶⁷ In the context of this commitment, it entails that the G20 members will make further efforts and improvements to the previously established commitments from past summits, including their work with the FATF.

“Strong commitment” is understood as “effective or efficient especially in a specified direction.”²⁷⁶⁸ In the context of this commitment, it entails that the G20 members will take concrete actions to address crime and corruption.

“Tackle” is understood as “to seize, take hold of, or grapple with especially with the intention of stopping or subduing.”²⁷⁶⁹ For this commitment, it refers to “preventing and combating money laundering, terrorist financing and proliferation financing.”²⁷⁷⁰

“All” is understood as “the whole amount, quantity, or extent of.”²⁷⁷¹ For this commitment, it entails comprehensive action to address sources, techniques and channels of money laundering and terrorist financing.

“Sources” is understood as “the place something comes from or starts at, or the cause of something.”²⁷⁷² In the context of this commitment, it refers to identifying “a point of origin or procurement” of the money that is involved in money-laundering or terrorist financing.²⁷⁷³ Sources of money laundering include, but are not limited to “white collar crimes...and drug related crimes...internet-based frauds and other use of internet technologies in fraudulent predicate activities...smuggling of goods and contraband.”²⁷⁷⁴ Sources of terrorist financing include, but are not limited to “legitimate sources, including through abuse of charitable entities or legitimate businesses and self-financing, criminal activity, state sponsors and activities in failed states and other safe havens” as well as, “small cash-intensive businesses.”²⁷⁷⁵

“Techniques” is understood as “a method of accomplishing a desired aim.”²⁷⁷⁶ In the context of this commitment, it refers to preventing and combating methods of money-laundering and terrorist financing. Methods of money laundering include but are not limited to, “the use of the international trade regime, cash couriers, alternative remittance systems and complex corporate structures.”²⁷⁷⁷ Methods of terrorist financing are similar to those of money laundering, including, but not limited to, “the use of the financial system...the physical movement of money...[as well as] through the international trade system.”²⁷⁷⁸

²⁷⁷⁸ Financial Action Task Force: Terrorist Financing (Paris) 29 February 2008. Access Date: 1 March 2021. p. 21. <https://www.fatf-gafi.org/media/fatf/documents/reports/FATF%20Terrorist%20Financing%20Typologies%20Report.pdf>

“Channel” is understood as “a way of communicating with people or getting something done.”²⁷⁷⁹ In the context of this commitment, it refers to the avenues groups and organizations involved in money-laundering or terrorist financing crimes go through for communication or action. Channels of money-laundering or terrorist financing include, but are not limited to, the financial and trade systems, corporate structures, as well as technological and digital mechanisms.^{2780,2781,2782}

“Threat” is understood as “the possibility that something unwanted will happen, or a person or thing that is likely to cause something unwanted to happen.”²⁷⁸³ In the context of this commitment, it refers to global “money laundering, terrorist financing and proliferation financing.”²⁷⁸⁴

Money laundering refers to the act of concealing the illicit origin of large amounts of illegally acquired profits through crimes.²⁷⁸⁵ Terrorist financing “involves the solicitation, collection or provision of funds with the intention that they may be used to support terrorist acts or organizations.”²⁷⁸⁶ These funds may come from both legal and illegal sources.²⁷⁸⁷ It should be noted that “the primary goal of individuals or entities involved in the financing of terrorism is therefore not necessarily to conceal the sources of the money but to conceal both the financing and the nature of the financed activity.”²⁷⁸⁸

Since the methods used in money laundering and the financing of terrorism are in many cases identical, “[a]n effective anti-money laundering/counter financing of terrorism framework must therefore address both risk issues: it must prevent, detect and punish illegal funds entering the financial system and the funding of terrorist individuals, organizations and/or activities.”²⁷⁸⁹

For the depth component, or the strength of the action required to be deemed compliant with this commitment, G20 members reiterated their strong commitment and therefore actions should reflect that. Actions compliant to this commitment include continuous support of the FATF and other relevant programs, through the allocation of funds and personnel, legislation and enforcement. Compliant actions must go beyond verbal references and reaffirmation and conferences.

In order for a G20 member to achieve full compliance (+1), strong action must be taken to tackle all three areas of sources, techniques and channels of the threats of money laundering and terrorist financing.

In order to achieve partial compliance (0), the G20 members must take strong action to tackle two of the three areas of sources, techniques and channels of these money laundering and terrorist financing.

In order to achieve non-compliance (-1), G20 members must take strong action to tackle none or one of the three areas of sources, techniques and channels of these money laundering and terrorist financing.

Scoring Guidelines

| | |
|----|--------------------------------------------------------------------------------------------------------------------------|
| -1 | G20 member has NOT taken strong action to tackle all sources, techniques AND channels of these threats. |
| 0 | G20 member has taken strong action to tackle TWO of the three areas of sources, techniques OR channels of these threats. |
| +1 | G20 member has taken strong action to tackle all sources, techniques AND channels of these threats. |

*Compliance Director: Jennifer Miao Wang
Lead Analyst: Ilan Hughes*

Argentina: -1

Argentina failed to comply with its commitments to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

Argentina has not taken any significant action to tackle money laundering and terrorist financing by combatting money laundering, terrorist funding, and proliferation financing.

Thus, Argentina receives a score of -1.²⁷⁹⁰

Analyst: Beatrice McLeod

Australia: +1

Australia has fully complied with its commitments to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 10 December 2020, both Houses of Parliament in Australia motioned to pass the Anti-Money Laundering and Counter-Terrorism Financing and Other Legislation Amendment Act 2020 (The Amendment Act).²⁷⁹¹ The act aims to “implement incremental reform” most relevantly in the areas of customer due diligence and correspondent banking relationships.^{2792,2793}

²⁷⁹⁰ This non-compliance was determined after searching the following websites: <https://www.argentina.gob.ar/>, <https://www.clarin.com/>, <https://www.lanacion.com.ar/> and <https://www.bbc.com>, <https://www.cancilleria.gob.ar/en/search>, <https://www.economia.gob.ar/en/>, <https://www.loc.gov/law/help/cryptocurrency/argentina.php>, <https://iclg.com/practice-areas/lending-and-secured-finance-laws-and-regulations/argentina>, <https://thelawreviews.co.uk/title/the-anti-bribery-and-anti-corruption-review/argentina>, https://uk.practicallaw.thomsonreuters.com/5-521-1293?_lrTS=20210203140659598, <https://www.argentina.gob.ar/jefatura>, <http://www.cancilleria.gov.ar/>, www.bcra.gov.ar, batimes.com.ar, www.ambito.com.ar.

terrorism, including ... combating the financing of terrorism, and preventing exploitation of the internet for terrorist activities.”²⁸⁰³

Australia has taken meaningful steps to tackle all three areas of anti-money laundering and terrorist financing through its consistent efforts to hold corporations and bodies to account while taking on an active role in the international sphere.

Thus, Australia has received a score of +1.

Analyst: Burhan Anees Khan

Brazil: +1

Brazil has fully complied with their commitment to tackling all sources, techniques, and channels of money laundering, terrorist financing, or proliferation financing.

On 9 December 2020, President Jair Bolsonaro launched Brazil’s Anti-Corruption Plan to combat money laundering and terrorist financing between 2020-2025.²⁸⁰⁴ The plan specifically addresses facets of money laundering or terrorist financing by establishing international cooperation between public officials responsible for detecting acts of corruption, creating whistleblower protections, and supporting research that allows for the dissemination of knowledge on anti-corruption.²⁸⁰⁵

On 11 March, 2021, Brazil’s Financial Activities Control Council published two new regulations that aims to regulate “the form of adoption of policies, procedures and internal controls to prevent money laundering (AML), terrorist financing (CTF) and financing the proliferation of weapons of mass destruction (WMD) that allow compliance with the provisions of”²⁸⁰⁶ the federal Money Laundering Prevention Laws.²⁸⁰⁷ These newly proposed regulations also emphasize a greater attention to new technologies and products, and the role they may play in AML/CTF/WMD activities.²⁸⁰⁸ These regulations are proposed to come into force on 1 June 2021.²⁸⁰⁹

On 18 March 2020, the government of Brazil moderated a global webinar, held by the Financial Action Group, on the theme of money laundering through the use of trade.²⁸¹⁰ More than two

thousand representatives from both private and the public sector attended this event to discuss current challenges that authorities face when combating money laundering within trade.²⁸¹¹

On 1 June 2021, the Council for Financial Activities Control (COAF) entered into force Resolution No.36/2021.²⁸¹² This resolution intends to aid in the implementation and maintenance of AML and CFT for companies that are supervised by COAF by documenting AML/CTF policies, disclosing policies to the companies' various parties, and monitoring and training employees on the subject of AML/CTF.²⁸¹³

On 3 August 2021, the Central Bank entered into force BCB Resolution No. 119/2021.²⁸¹⁴ This resolution promotes amendments to BCB Circular N. 3,978/2020, which intends to facilitate compliance with obligations for the institutions regulated by the Central Bank regarding money laundering, concealment of assets, and terrorism financing.²⁸¹⁵

Brazil has moved to tackle money laundering and terrorist financing by establishing an anti-corruption plan, as well as enacting new AML/CTF regulations that tackles all three key areas of sources, techniques, and channels.

Thus, Brazil receives a score of +1.

Analyst: Keab Sharma

Canada: +1

Canada has fully complied with its commitment to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 30 November 2020, the Department of Finance Canada released its "Fall Economic Statement."²⁸¹⁶ In this document, the department proposed an increase of CAD606 million in the next five years to fund the hiring of more auditors to address offshore tax havens.²⁸¹⁷ Furthermore, the document proposed some of this funding will be used to "strengthen its ability to fight tax crimes such as money laundering and terrorist financing (ML/TF) by upgrading tools and increasing

organizations as channels of terrorist financing.²⁸²⁹ These legislative changes would: “allow for the immediate revocation of charitable status for organizations listed as a terrorist entity,”²⁸³⁰ “prevent individuals with a known history of supporting terrorism from becoming a director, trustee, or similar official of a registered charity,”²⁸³¹ and “allow for the revocation of charitable status when a charity provides false statements for the purpose of maintaining their registration.”²⁸³²

On 4 May 2021, FINTRA published its 2021 version of the Compliance program Requirements, which is set to come into force on 1 June 2021.²⁸³³ This updated guide’s objective is to ensure all REs comply with the PCMLTFA, as well as any other associated regulations.²⁸³⁴ These requirements entails all reporting entities to establish and implement a compliance program, with elements such as appointing compliance officers or conducting risk assessment when necessary, in order to identify possible sources of money laundering or terrorist financing.²⁸³⁵

On 1 June 2021, new regulations of the Proceeds of Crime (Money Laundering) and Terrorist Financing Act, proposed and released to the public years prior, became effective.²⁸³⁶ These laws include new rules for reporting virtual currency transactions, the need for businesses to scrutinize and authenticate client information, amongst other regulations.²⁸³⁷ According to the Financial Transactions and Reports Analysis Centre of Canada, these new rules will “help strengthen Canada’s anti-money laundering and anti-terrorist financing regime by closing certain gaps, such as those stemming from technological advances.”²⁸³⁸

On 30 July 2021, the Financial Transactions and Reports Analysis Centre of Canada provided additional indicators in order to better detect money laundering that is specifically connected to the crime of human trafficking.²⁸³⁹

Canada has taken action to fight money laundering and terrorist financing in all three key areas monetary commitments, as well as through legislation, and the compliance program requirements.

Thus, Canada has received a score of +1.

China: +1

China has fully complied with the commitment to tackle all sources, techniques and channels of money laundering and terrorist financing.

On 4 January 2021, the People's Bank of China (PBOC) issued an amended draft of the “Financial Institution Anti-money Laundering Anti-terrorist Financing Supervisory Administrative Measures.”²⁸⁴⁰ This measure aims to “preventing and dissolving financial risk, raising the effectiveness of anti-money laundering regulation and raising the level of financial institution anti-money laundering work.”²⁸⁴¹ This draft also seeks to restructure anti-money laundering (AML) efforts in China in accordance with the assessment the Financial Action Task Force made in 2019, and to resolve the range of inadequacies that the assessment had highlighted.²⁸⁴²

On 5 February 2021, China's economic decision makers signed the “Memorandum of Understanding on the Launch of Cross-boundary Wealth.”²⁸⁴³ In Provision 9 of the document, the PBOC, “agrees to provide guidance to Mainland banks to comply with obligations relating to...anti-money laundering and counter-financing of terrorism in accordance with relevant legal requirements.”²⁸⁴⁴

On 11 February 2021, Premier Li Keqiang signed a decree that unveiled new regulation on prevention and handling of illegal fundraising, which will come in place on 1 May 2021.²⁸⁴⁵ This new regulation aims to remove a source of corruption in China, by decreasing the number of illegal fundraising cases.²⁸⁴⁶

On 25 February 2021, China held a virtual meeting on money laundering.²⁸⁴⁷ The meeting highlighted past successes and future steps, including China's goals in advancing amendments to the AML law, enhancing coordination amongst AML departments, strengthening the risk-based AML supervision, and participating in global AML governance.²⁸⁴⁸

On 26 March 2021, the China Banking and Insurance Regulatory Commission issued a notice on “preventing the illegal flow of loans for business purposes into the real estate sector.”²⁸⁴⁹ This notice aims to urge banking institutions to revamp their operations by strengthening client reviews and clearly defining a “blacklist” of violations.

On 16 April 2021, the PBOC released “Measures for the Supervision of Anti-Money Laundering and Counter-Terrorist Financing of Financial Institutions,” which will be in effect 1 August 2021.²⁸⁵⁰ This document specifies the AML requirements for financial institutions, will require institutions to conduct self-assessments and establish internal control systems.²⁸⁵¹ This document will also include micro-credit companies and wealth management subsidiaries as obliged AML actors.²⁸⁵²

On 1 June 2021, the PBOC published a draft version of an amended Anti-Money Laundering Law for public feedback.²⁸⁵³ The amendments propose an expanded definition of money laundering activities, increased oversight of non-financial entities, AML obligations for more individuals, and large increases in penalties.²⁸⁵⁴

On 1 August 2021, the Measures for the Supervision and Administration of Anti-Money Laundering and Counter-Terrorist Financing of Financial Institutions came into effect.²⁸⁵⁵ This dramatically expanded the scope of the AML/CTF requirements to now include “loan companies, asset management subsidiaries of commercial banks, non-banking payment institutions, insurance agents and insurance brokers.”²⁸⁵⁶ Companies are required to maintain internal controls and risk management by adding new duties, staff requirements, and information submission.²⁸⁵⁷

On 3 August 2021, China partnered with the United Arab Emirates to exchange key information about money laundering.²⁸⁵⁸ This agreement permits quicker access to necessary information to clamp down on global money laundering and terrorist financing.²⁸⁵⁹

²⁸⁴⁹ The General Office of the China Banking and Insurance Regulatory Commission, the General Office of the Ministry of Housing and Urban-Rural Development, and the General Office of the People’s Bank of China issued the “Notice on Preventing the Illegal Flow of Loans for Business Purposes into the Real Estate Sector, China Banking and Insurance Regulatory Commission (Beijing) 26 March 2021. France: +1

France has fully complied with its commitment to tackle all sources, techniques, and channels of money laundering and terrorist financing.

On 9 December 2020, Minister for Economy, Finance, and Recovery Bruno Le Maire announced that France will make Know Your Client procedures compulsory for all cryptocurrency transactions in the country.²⁸⁶⁰ Such changes are part of France's larger effort to fight money laundering and terrorist financing after arresting 29 individuals in September linked to a financing scheme of Islamist extremists in Syria using cryptocurrencies.²⁸⁶¹ Le Maire's proposal is meant "to strengthen the control of financial funds" because "cryptocurrencies pose a real problem of terrorist financing."²⁸⁶²

On 6 March 2021, the French government passed an order to increase internal control on financial systems in the form of asset freezing measures to fight against money laundering and terrorist financing.²⁸⁶³ The order granted the French Prudential Supervision and Resolution Authority increased jurisdiction over the banking, payment, and investment service sectors in ensuring they comply with anti-money laundering (AML) and counter terrorist financing (CTF) practices.²⁸⁶⁴

On 23 March 2021, the French Government passed the action plan against Money Laundering and Terrorist Financing.²⁸⁶⁵ The action plan included five priority axes: preventing risk in both the financial and non-financial sector by intensifying inspections; increasing transparency by further developing the national registry listing the financial assets of public associations; increasing the powers of France's intelligence service to detect, prosecute, and sanction suspicious activity; freezing

assets with suspected links to money laundering or terrorism financing; strengthening national policies and playing a leading role in promoting international cooperation on the EU level.²⁸⁶⁶

On 4 April 2021, the French government published Decree No. 2021-387 to counteract the anonymity of virtual assets.²⁸⁶⁷ The Decree amended the existing ALM and CFT regime by clarifying the prohibition on the use of anonymous electronic money for the purchase of digital assets and imposing an obligation on digital asset service providers to identify their customers prior to any transaction.²⁸⁶⁸ The Decree became active on 1 May 2021.²⁸⁶⁹

On 5 April 2021, the European Union's Global Facility on Anti-Money Laundering and Countering the Financing of Terrorism, of which Expertise France is a main implementing partner, met with United Arab Emirates' Ministry of Foreign Affairs and International Cooperation to explore various venues of implementing multi-agency AML and CFT programs to disrupt and dismantle illicit networks.²⁸⁷⁰ Glenn McDowell from the EU AML/CFT Global Facility commented on the importance of creating a multi-agency, stating "financial crime is growing in sophistication and complexity, so we are delighted to be able to share our respective knowledge, skills, and experience with the UAE."²⁸⁷¹

On 29 July 2021, the Financial Markets Authority (AMF) called for extreme vigilance of retail investors when accepting investment offers in crypto-assets. The regulatory authority noted that false offers of investment in crypto-currency have become a prominent form of fraud amongst retail investors. They stressed the importance of ensuring that investment offers come from Digital Asset Service Providers registered with the AMF who are required to go through a number of verifications as part of their anti-money laundering system.²⁸⁷²

France has fully complied with its commitment to tackle all sources, techniques, and channels of these threats. It has identified internal sources of money laundering and terrorist financing through orders and decrees; it has prevented and combated methods of money laundering and terrorist financing by strengthening domestic institutions; and it has involved other international avenues and agencies through action and communication to create a comprehensive order against money laundering and terrorist financing.

Thus, France receives a score of +1.

Germany: +1

Germany has fully complied with the commitment to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 16 December 2020, the German Federal Ministry of Justice and Consumer Protection, Christine Lambrecht, presented a draft bill of the Financial Marketing Integrity Strengthening Act to reform the Federal Financial Supervisory Authority.²⁸⁷³ The Act includes measures aiming to protect investors and consumers, and to combat terrorist financing (TF) and money laundering, and is planned to come into force on 1 July 2021.²⁸⁷⁴

On 28 December 2020, the Federal Ministry of the Interior of Germany published a report, titled “Sectoral Risk Analysis,” on the issue of TF through (the abuse of) non-profit organizations (NPOs) in Germany.²⁸⁷⁵ This report intends to outline and investigate the risks of TF through the abuse of NPOs in detail, and also provides recommendations for action, such as urging for closer cooperation between financial and law enforcement authorities, as well as examining potential measures in the banking sector to counteract the risks of TF.²⁸⁷⁶

On 10 February 2021, the German Federal Government adopted a draft of the Act to Amend the Anti-Money Laundering Transparency Register and Financial Information Act.²⁸⁷⁷ This draft aims to “further improve the fight against money laundering under criminal law and even go beyond the minimum international requirements.”²⁸⁷⁸ The draft proposes the “all-crimes approach,” which expands the “basis of criminal activity that underpins money laundering.”²⁸⁷⁹ Under this draft, any activity related to trafficking illegally obtained assets, including objects, into the legal economy can be prosecuted, “meaning that money laundering can be penalized more frequently than in the past.”²⁸⁸⁰

On 19 May 2021, Federal Minister of the Interior, Building and Community Horst Lorenz Seehofer banned three fundraising associations on terrorist financing charges. The ban of these associations

Analyst: Anna Ivanova

Indonesia: +1

Indonesia has fully complied with the commitment to tackle all sources, techniques and channels of money laundering, terrorist financing and proliferation financing.

On 14 January 2021, President Joko Widodo announced his commitment to strengthening the anti-money laundering and counter-terrorism financing strategies in Indonesia.²⁸⁹⁶ The 2020-2024 National Strategy for the Countermeasure and Eradication of Money Laundering and Terrorism Funding Crimes has five main focuses: “improved ability of private sectors to detect indications or potential of money laundering, terrorism financing and funding for the proliferation of weapons of mass destruction by taking into account risk assessments; increased efforts to prevent money laundering and terrorism financing by taking into account risk assessment; greater effectiveness of eradication of money laundering and terrorism financing by taking into account risk assessments; optimizing asset recovery by taking into account risk assessments; and greater effectiveness of targeted financial sanctions in disrupting terrorist activities, terrorists, terrorist organizations, and proliferation of weapons of mass destruction.”²⁸⁹⁷

On 14 January 2021, Coordinating Minister of Economic Affairs Airlangga Hartarto presented the draft of the Bill on Restrictions on Currency Transactions and the Bill on Confiscation of Criminal Assets at Indonesia’s Annual Coordination Meeting for the Prevention and Eradication of Money Laundering and Terrorist Financing.²⁸⁹⁸ These bills are intended to become law in 2021.²⁸⁹⁹ Both bills are focused on preventing money laundering and terrorist financing as extensions of the 2020-2024 National Strategy.²⁹⁰⁰

On 30 June 2021, Governor of Bank Indonesia Perry Warjiyo and Managing Director of Brunei Darussalam Central Bank Rokiah Badar agreed to cooperate in the prevention of money laundering and terrorist financing.²⁹⁰¹ The memorandum of understanding is effective as of June 2021 to strengthen policy cooperation for anti-money laundering and anti-terrorist financing.²⁹⁰²

Indonesia has taken actions to combat money laundering and terrorist financing in all three key areas through its implementation of the 2020-2024 National Strategy.

Italy: 0

Italy has partially complied with its commitments to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 25 March 2021, the Bank of Italy began the two-day webinar titled “Anti-Money Laundering: the Italian Experience.”²⁹⁰³ This webinar aims to outline the existing Italian legislation on anti-money laundering (AML) and terrorist financing, as well as the AML regime, and the role the Financial Intelligence Unit will play in tackling AML.²⁹⁰⁴

On 13 September 2021, several branches of the Italian government met with the United Arab Emirates’ Executive Office of Anti-Money Laundering and Counter Terrorism Financing in order to “set a strong foundation for further collaboration in our collective response to organized crime, money laundering and terrorism financing.”²⁹⁰⁵

Italy has taken some action to tackle techniques and channels of money laundering and terrorist financing, but has not taken significant enough action.

Thus, Italy receives a score of 0.

Analyst: Beatrice McLeod

Japan: 0

Japan has partially complied with its commitment to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 7 February 2021, Japan’s Financial Services Agency (FSA) announced plans to implement artificial intelligence systems to detect suspicious money-laundering or terrorist financing activities, within fiscal 2021.²⁹⁰⁶ These plans aim to prevent them suspicious financial activities at the source, and to strengthen measures against money laundering.²⁹⁰⁷

On 19 February 2021, the FSA published and put into motion the finalized amendments to the Guidelines for Anti-Money Laundering and Combating the Financing of Terrorism (AML/CTF).²⁹⁰⁸ The amendments clarify key issues that the FSA identified during on and off site monitoring, and

On 22 April 2021, regulators from the Government of Korea announced that they will be creating guidelines to strengthen the monitoring of cross-border transactions connected with cryptocurrency.²⁹¹⁸ Authorities will monitor signs of illegal trading and team up with global institutions to “systematically deal with unlawful acts”²⁹¹⁹ made through overseas exchanges due to concern about a potential increase in money laundering and fraud risk.²⁹²⁰ The goal is to curb illicit overseas cryptocurrency transactions that take advantage of arbitrage trading opportunities.²⁹²¹

On 23 April 2021, the FSC announced that it now requires digital currency exchanges and other financial companies to strengthen their monitoring and oversight of transactions.²⁹²² According to the FSC, the new regulation is instituted to better identify the criminal use of agencies such as Bitcoin, and will also require exchanges to partner with local banking institutions.²⁹²³ Per the FSC, the goal will be to ensure that there will be “no illegal cryptocurrency transaction in the country.”²⁹²⁴

On 13 July 2021, FSC Chairman Eun Sung-soo announced that cryptocurrency exchanges that are based outside Korea must register with the nation’s anti-money laundering body if they use the Korean currency.²⁹²⁵ The revised law, effective since March, seeks to prevent money laundering by requiring banks to monitor real-name accounts under stricter guidelines.²⁹²⁶

On 26 August 2021, the FSC announced that it is forming an “independent, crypto-focused bureau to supervise digital assets in Korea.”²⁹²⁷ The new bureau falls under the authority of the Korean Financial Intelligence Unit and will launch in September 2021.²⁹²⁸ The goal is to create a bureau responsible for “looking out for suspicious activity,”²⁹²⁹ including fraud and money laundering.²⁹³⁰

Korea has taken measures to tackle money laundering and terrorist financing in all three key areas of techniques, channels, and sources.

Thus, Korea receives a score of +1.

Mexico: 0

Mexico has partially complied with its commitment to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 30 November 2020, the Mexican Ministry of Finance (SHCP) released a list of requirements for the registrations of individuals and entities “that offer, on a professional basis, the exchange and custody of virtual assets with the Mexican Revenue Service [(SAT)].”²⁹³¹ This list of requirements is a modification of the Anti-Money Laundering Act that was enacted in 2012, and now requires virtual currency exchanges and custody to be ultimately analyzed by the Financial Intelligence Unit of Mexico.²⁹³² Through these requirements, the SHCP and the SAT hope to increase the focus on provisions of services involving virtual assets in order to prevent and combat against money laundering.²⁹³³

On 9 December 2020, Mexico’s Senate approved a reform bill for the Bank of Mexico to acquire foreign currency from local banks that were excess from cash remittances and tourism.²⁹³⁴ The bill aimed to manage money laundering risks inherent in foreign currency transactions.²⁹³⁵

Through the reform bill, Mexico has taken action in tackling the channel of money laundering. However, they have only taken preliminary actions in the form of the list of requirements in monitoring the source and channel of online money laundering crime, but has not taken further action to implement legislation. Furthermore, the majority of their initiatives are centered around money laundering, but not many actions have been taken to counter terrorist financing.

Thus, Mexico receives a score of 0.

USD8,000). Also, all postal money transfers exceeding RUB100,000 (approximately USD1,300) would be put under control.²⁹³⁶

On 20 January 2021, the State Duma's Committee on Financial Market approved the draft law imposing penalties on undeclared financial actives in cryptocurrencies. The fines vary from 300RUB (approximately USD5) for individuals to RUB50,000 (approximately USD680) for companies; in some cases the draft implies confiscation up to 40 percent of transferred money if it is done with a crypto wallet registered abroad.²⁹³⁷

On 19 February 2021, Russia's Federal Financial Monitoring (Rosfinmonitoring) announced establishment of a digital service to supervise transactions in cryptocurrencies that might be associated with criminal activities. Rosfinmonitoring's Director Yuri Chihanchin, called the new system "Prozrachnyi Monitoring" ("Transparent Monitoring") that is said to be capable of analyzing all kinds of transactions in cryptocurrencies. The system is planned to start functioning later in 2021.²⁹³⁸

On 12 March 2021, the Advisory Council of the Interdepartmental Commission on Combating Laundering of Criminally Obtained Incomes, Financing of Terrorism and Financing the Proliferation of Weapons of Mass Destruction conducted a meeting with representatives from the National Council of the Financial Market, the Association of Russian Banks, the Association of Russian Banks, and the Federal Notary Chamber.²⁹³⁹ During the meeting, Ilya Yasinky, the director of the Department for Financial Monitoring and Currency Control of the Bank of Russia, discussed the draft of the federal law no. 1116372-7 meant to amend certain legislative acts to better assess the risk of legal entities and individual entrepreneurs of suspicious transactions.²⁹⁴⁰

On 23 March 2021, Rosfinmonitoring announced that it is policing crypto to fiat transactions.²⁹⁴¹ Rosfinmonitoring announced that they are working with the central bank to develop a framework to track suspicious crypto to fiat transactions.²⁹⁴² Deputy Chief of Rosfinmonitoring Herman Neglyad stated, "banks have already begun to pay attention to exchange operations, that is, when they see that an operation has come after the exchange of virtual assets for hard currency, they have already begun to evaluate them and actually inform us about these operations."²⁹⁴³

Russia has taken tentative action to combat money laundering and terrorist financing in two of the three key areas. Russia has addressed the source and techniques of such threats but has not taken action to fully tackle their channels.

Saudi Arabia: +1

Saudi Arabia has fully complied with the commitment to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 26 November 2020, Executive Director of the United Nations Office on Drugs and Crime Ghada Waly and Saudi Arabia's President of Oversight and Anti-Corruption Authority Mazin Bin Ibrahim Al-Kahmous signed a USD10 million funding agreement in support of a global operational network of anti-corruption law enforcement authorities to limit money laundering activities.²⁹⁴⁴ This agreement will support “anti-corruption law enforcement authorities to enhance informal cooperation through regular meetings; an online hub and secure communication platform; and knowledge- and capacity-building programmes and tools.”²⁹⁴⁵

On 2 December 2020, the Central Bank Governor Ahmed Alkholifey announced Saudi Arabia's strengthened regulatory and legislative framework which aims to combat money laundering and terrorist financing.²⁹⁴⁶ This action was taken to enhance the kingdom's compliance with the international standards of the Financial Action Task Force, and will be “taking appropriate measures to prevent cybercrimes and is encouraging financial institutions to enhance electronic and digital payments amid the Covid-19 pandemic,”²⁹⁴⁷ as well as taking all necessary procedures and measures to manage the increased risks by developing appropriate policies.²⁹⁴⁸

On 25 May 2021, Governor of the Central Bank of Saudi Arabia and Chairman of the Anti-Money Laundering Permanent Committee Fahad bin Abdullah Al-Mubarak and the Anti-Money Laundering Permanent Committee, held a meeting to discuss anti-money laundering strategies.²⁹⁴⁹ The meeting followed up on the progress of implementing the National Action Plan and its Strategic Objectives approved by Royal Decree No. 28548, and ensured the local regulations are consistent with the Forty Recommendations of Financial Action Task Force.²⁹⁵⁰

United Kingdom: +1

The United Kingdom has fully complied with the commitment to tackle all sources, techniques and channels of money laundering, terrorist financing and proliferation financing.

On 17 December 2020, Her Majesty's Treasury and the Home Office published a major report assessing the national risk of money laundering and terrorist financing.²⁹⁶⁸ The report states that the UK will continue to build on several of its past anti-money laundering (AML)/combating terrorism financing (CTF) strategies.²⁹⁶⁹ Furthermore, the report acknowledges the increased risk in money laundering and terrorist financing crimes during the COVID-19 pandemic, and more emphasis was placed on emerging sectors such as Cryptoassets.²⁹⁷⁰

On 16 March 2021, the Financial Conduct Authority launched criminal proceedings against the National Westminster Bank Plc, whose systems allegedly failed to monitor and scrutinize the movement of 365 GBP million.²⁹⁷¹ The goal of this policy decision is to reduce the sources of money laundering.

On 16 March 2021, UK's Cabinet Office published a policy paper that reaffirmed Britain's commitment to AML and CFT. Specifically, the UK will continue to "increase the number of trained financial investigators within [their] police forces; overhaul [their] Suspicious Activity Reports regime to ensure critical intelligence informs their investigations; and bolster the National Economic Crime Centre."²⁹⁷² Moreover, the UK will presently introduce new legislation to tackle economic crime, "including the use of UK corporate structures in facilitating high-end money laundering."²⁹⁷³

On 25 March 2021, the UK Government amended their Money Laundering, Terrorist Financing and Transfer of Funds Regulation 2017 to change the definition of High-Risk Third Countries.²⁹⁷⁴ This amendment will allow the UK to independently define high risk third world countries.²⁹⁷⁵ The released

list of high-risk countries aligns more closely with the Financial Action Task Force, which will “give effect to FATF [Financial Action Task Force] global standards on high-risk third countries.”²⁹⁷⁶

In March and April 2021, the UK’s Revenue and Customs hosted a collection of training workshops, alongside the United Arab Emirates (UAE) Ministry of Foreign Affairs and International Cooperation, to raise exposure to AML/CFT in the UAE.²⁹⁷⁷ These workshops “form a key part of the UAE’s wide range of activities to prevent money laundering and terrorist financing, including initiatives to facilitate international and domestic cooperation.”²⁹⁷⁸

On 17 September 2021, Home Secretary Priti Patel signed a new agreement alongside UAE Minister of State Ahmed Ali AL Sayegh assenting to intensify measures targeting those of terrorist financing.²⁹⁷⁹ This agreement is a part of the new Partnership for the Future between the UK and the UAE and will work to increase cooperation on obstructing illicit financial flows, and to show their commitment to “stamping out terrorist financing and serious and organised crime in all of its forms to protect the UAE and uphold the integrity of the international financial system.”²⁹⁸⁰

On 21 September 2021, Her Majesty’s Treasury introduced a draft legislation for a new levy on the AML regulated sector.²⁹⁸¹ The Financial Conduct Authority will be responsible for the collection of this levy from entities that is supervised under “Money Laundering, Terrorist Financing and Transfer of Funds...Regulations 2017,”²⁹⁸² and will be used to “help fund ambitious reforms outlined in the government’s 2019 Economic Crime Plan.”²⁹⁸³

The United Kingdom has taken actions to combat money laundering and terrorist financing in all three key areas through amending legislation, as well as expressing continued and improved support for previous initiatives.

Thus, the United Kingdom receives a score of +1.

United States: +1

The United States has fully complied with its commitment to tackle all three areas of sources, techniques, and channels of money laundering, terrorist funding, or proliferation financing.

On 1 January 2020, the Congress passed the National Defense Authorization Act (NDAA) that requires financial institutions to enhance their “due diligence” regarding correspondent accounts established by foreign institutions and private banks that are maintained for non-US personal.²⁹⁸⁴ This act will increase scrutiny organizations such as Al-Qaeda’s use of money laundering to fund its terrorist activities.²⁹⁸⁵ This act also includes the Anti-Money Laundering Act of 2020 (AML Act), which seeks to codify the risk-based approach to anti-money laundering/countering terrorism financing (AML/CTF) compliance, modernize AML/CTF systems, “coordination, cooperation, and information-sharing among financial institutions, U.S. financial regulators and foreign financial regulators,”²⁹⁸⁶ as well as expand enforcement and investigation-related power of the United States Department of the Treasury’s Financial Crimes Enforcement Network (FinCEN).²⁹⁸⁷

On 1 January 2021, the Congress passed the NDAA, which aims to broaden anti-money laundering reforms, mainly through the Corporate Transparency Act (CTA), which is embedded in this larger legislation.²⁹⁸⁸ The CTA creates a beneficial ownership registry with the FinCEN, and requires all reporting companies to disclose information on their beneficial owners to FinCEN.²⁹⁸⁹ The goal of this registry is to “crack down on anonymous shell companies, which have long been the vehicle of choice for money launderers, terrorists, and criminals.”²⁹⁹⁰

On 2 March 2021, the Department of State released the 2021 edition of the “International Narcotics Control Strategy Report, Volume II: Money Laundering.”²⁹⁹¹ This report focuses on outlining the threats specific to narcotics-related money laundering in various countries around the globe, and reviews the actions these countries have taken, as well as their vulnerabilities.²⁹⁹²

On 1 July, 2021, the FinCEN announced that the Financial Action Task Force (FATF) updated and enhanced the expectations in its guidelines regarding strategic AML/CFT deficiencies.²⁹⁹³ All US financial institutions are expected to consult the FATF's statements when preparing their risk-based policies related to combating money laundering and terrorist financing.²⁹⁹⁴

The United States has fully complied with its commitment through the NDAA and the CTA. These actions have contributed to tackling the sources, techniques and channels involved in money laundering and terrorist financing (ML/TF) activities. Furthermore, through the 2021 international Narcotics Control Strategy Report, the United States has identified specific techniques used in ML/TF crimes.

Thus, the United States receives a score of +1.

Analysts: Aimaan Shergill and Ian Hughes

European Union: +1

The European Union has fully complied with its commitment to tackle two of the three sources, techniques or channels of money laundering, terrorist funding, or proliferation financing.

On 8 December 2020, the European Investment Bank (EIB) released a comprehensive Anti-Money Laundering and Combating Financing of Terrorism Framework.²⁹⁹⁵ This framework contains key anti-money Laundering and combating terrorist financing (AML/CTF) principles that are applicable to EIB activities.²⁹⁹⁶ This framework aims to prevent EIB Group, as well as its governing bodies, from being associated or used for crimes involving money laundering and terrorist financing (ML/TF).²⁹⁹⁷

On 9 December 2020, the European Commission adopted a new Counter-Terrorism Agenda for the European Union.²⁹⁹⁸ This agenda sets out a way forward for actions to counter terrorism at the EU level, looking to better anticipate, prevent, protect and respond to terrorist threats.²⁹⁹⁹ The Counter-Terrorism Agenda aims at anticipating, preventing, protecting and responding to attacks by

countering the uprising.³⁰¹¹ The primary intent of the resolution is to support and train military forces and instruct them in the fight against terrorism.³⁰¹²

On 20 July 2021, the European Commission presented a package of legislative proposals to strengthen EU rules on countering money laundering and terrorist financing.³⁰¹³ This included a proposal for the creation of a new EU authority to fight money laundering.³⁰¹⁴ If approved, it would create an EU-wide anti-money laundering/anti-terrorism financing rules, as well as new regulations governing crypto assets.³⁰¹⁵

On 2 August 2021, the European Banking Authority (EBA) announced a three-month public consultation on a new set of guidelines for the role, tasks, and responsibilities of compliance officers responsible for AML/CFT.³⁰¹⁶ The EBA's proposed guidelines include a requirement for companies to appoint a compliance officer at a managerial level with responsibility for anti-money laundering policies, instructing AML/CFT officers to develop and maintain a ML/TF risk assessment framework and many others.³⁰¹⁷ This consultation will allow the EBA's to move toward a more centralized oversight system and make AML/CFT supervision more effective.³⁰¹⁸

On 13 September, the European Parliament released a Motion for a Resolution, in which they urged "the EU and Member States to increase efforts to cooperate with the US and NATO allies to combat... money laundering, terrorist financing ... in the region."³⁰¹⁹

The European Union has fully complied with its commitment through its published reports and frameworks that outlined the plans to tackle all three key areas of sources, techniques, and channels of ML/TF.

Thus, the European Union receives a score of +1.

Background

Since G20 first made distinctive commitments to protect the labour market and employment workforce at the 2009 London Summit.³⁰²⁰ Since then, the G20 has adopted different targets throughout the years regarding this issue area. The continually shifting focus of the G20’s goals for the labour and employment issue area has been largely influenced by the various crises and global issues that have arisen throughout the previous decade. Such events include the 2008 financial crisis and the rapid rise of technological advancements and automation of the workforce. The evolution of this commitment area’s goals not only reflect the fragility of the labour and employment commitment area, but also demonstrates the flexibility of the members regarding their responses to the crises and changes often faced by the labour market and employment workforce.

At the 2009 London Summit, the issue of labour and employment emerged for the first time as a distinctive commitment area.³⁰²¹ The G20 members declared their commitment towards supporting workers affected by the 2008 economic crisis by providing financial support and funding additional

³⁰²⁰ Global Plan for Recovery and Reform, G20 Information Centre (Toronto), 2 April 2009. Access Date: 25 February 2021. <http://www.g20.utoronto.ca/2009/2009communique0402.html>

³⁰²¹ Global Plan for Recovery and Reform, G20 Information Centre (Toronto), 2 April 2009. Access Date: 25 February 2021. <http://www.g20.utoronto.ca/2009/2009communique0402.html>

job opportunities.³⁰²² As well, the members iterated their goal to create labour markets that treated both men and women equally.³⁰²³

At the 2010 Seoul Summit, job creation was stated as an important feature of economic recovery and therefore, a priority of the G20.³⁰²⁴ The members were particularly supportive of this measure as a means of providing “social protection, decent work and also to ensure accelerated growth in low income countries (LICs).”³⁰²⁵

At the 2011 Cannes Summit, the G20 members noted the weakness of the global economic recovery and reiterated their support for job creation as a means of effective economic recovery.³⁰²⁶ The members introduced an Action Plan for Growth and Jobs, which outlined a plan to “address short term vulnerabilities, restore financial stability and strengthen the medium-term foundations for growth.”³⁰²⁷ Additionally, the members iterated their commitment to supporting work opportunities for youth through the creation of a G20 Task Force on Employment.³⁰²⁸

At the 2012 Los Cabos Summit, the members of the G20 released the Los Cabos Growth and Jobs Action Plan as the members agreed that creating sustainable and quality jobs was the utmost priority of this summit’s agenda.³⁰²⁹ The leaders highlighted the fragile global economic recovery following the 2008 global recession and iterated their commitment towards reducing poverty and increasing the welfare of individuals around the world.³⁰³⁰ This would be achieved through job creation, skills training, and reducing barriers to education.³⁰³¹ Moreover, the members focused on creating decent work and quality jobs for youth, women, and other at-risk groups, to ensure that they were not left behind in the recovery process.³⁰³²

At the 2013 St. Petersburg Summit, promoting inclusive economic growth and job creation remained as primary goals for the G20 members.³⁰³³ The members outlined a plethora of commitments towards spurring jobs, ensuring labour protections, enacting targeted funding with the aim of incorporating under-represented groups into the labour market, increasing social cohesion through coordinated labour and market policies, funding apprenticeships and training programs, and more

effective employment services. Moreover, the G20 members recognized the importance of creating country-specific job creation action plans to operate within each member's respective constitutional laws. Finally, the G20 members committed to establishing cohesive and coordinated macroeconomic, financial, fiscal, education, skills development, innovation, employment, and social protection policies as a means of establishing inclusive and sustainable growth.

At the 2014 Brisbane Summit, the leaders iterated their commitment towards reducing the gap in participation rates between men and women in the labour market by 25 per cent by 2025.³⁰³⁴ As well, they stated their commitment to bringing more than 100 million women into their collective workforces while while creating quality jobs.³⁰³⁵ The G20 members further built upon their inclusive policies by committing to reduce youth unemployment rates through the implementation of a collective Employment Plan.³⁰³⁶ This Employment Plan outlines a framework for investments in apprenticeships, education and training programs, and funding incentive programs for youth to pursue entrepreneurship.³⁰³⁷

At the 2015 Antalya Summit, the G20 Antalya Youth Goal was established to reduce the number of at-risk youth from being permanently left behind in the labour market by 15 per cent by 2025.³⁰³⁸ This goal was significant because it set up a framework for the G20 members to measure their success at protecting youth employment opportunities for the proceeding 10 years. In addition, the G20 presented the G20 Skills Strategy for Developing and Using Skills for the 21st Century in partnership with the Organisation for Economic Co-operation and Development (OECD) and the ILO.³⁰³⁹ The skills strategy outlined the need to promote inclusive economic growth through encouraging enterprises to invest in the skills of its workers, promoting the participation of under-represented workers in the labour market, investing in foundational skills such as literacy and numeracy, and reducing barriers to accessing quality education.³⁰⁴⁰

At the 2016 Hangzhou Summit³⁰⁴¹ and 2017 Hamburg Summit³⁰⁴², the focus of the labour and employment commitment area primarily shifted towards responding to the effects of automation and rapid technological advances upon the labour market. The members were particularly concerned about the economic inequalities that might arise for workers who lack digital skills.³⁰⁴³ In response to

³⁰⁴³ G20 Leaders' Communiqué: Hangzhou Summit, G20 Information Centre (Toronto) 5 September 2016. Access Date: 25 February 2021. <http://www.g20.utoronto.ca/2016/160905-communication.html>

these recent advancements, the G20 stated their commitment to providing digital skills for workers through partnerships within the academic and business sectors.³⁰⁴⁴

At the 2018 Buenos Aires Summit, the G20 members emphasized their commitment to establishing an inclusive and fair framework for job creation.³⁰⁴⁵ In particular, this summit introduced the Menu of Policy Options for the Future of Work, which included measures to improve the digital and entrepreneurship skills, increasing workforce participations amongst vulnerable sectors of society, strengthening social protections, mobilizing resources from public, private, and multilateral partnerships, and promoting general vocational and skills training.³⁰⁴⁶ As well, the G20 members stated their support for promoting decent jobs for you and reiterated their commitment to the Antalya Youth Goal.³⁰⁴⁷

At the 2019 Osaka Summit, the issue of labour and employment took on a youthful lens, with a particular focus on reducing barriers to meaningful youth employment by improving employment opportunities and skills training for youth.³⁰⁴⁸ The G20 members also iterated their support of increasing labour market participation amongst old age workers, women, and persons with disabilities. Additionally, the members stated their commitment towards increasing job creation and raising the quality of employment.³⁰⁴⁹

Although the labour and employment commitment has been a primary focus of the G20 since 2009, its relevance became further underscored upon the onset of the COVID-19 pandemic in early 2020. The varying approaches adopted by governments towards containing the pandemic have resulted in detrimental ramifications upon the global economy that will likely be felt for several years to come. G20 members, as well as other countries, have been battling staggering rates of job loss and other economic challenges throughout the pandemic. Such economic circumstances thus underscore the growing significance of mitigating job loss and rebuilding strong economies in the wake of the pandemic.

With this goal in mind, the G20 leaders reiterated their continued commitment towards supporting workers through training and reskilling policies at the 2020 Riyadh Summit. Moreover, the members highlighted the devastating effects of the pandemic upon labour markets and acknowledged the millions of jobs that have been lost worldwide. Finally, the G20 leaders recognized the detrimental effects of the current labour market conditions upon the participation of women and youth within the sector. The members thus restated their commitment towards achieving the G20 Antalya Youth Goal of reducing the percentage of at-risk youth from being left behind in the labour market by 15 per cent by 2025. And although the members reiterated their commitment towards addressing and mitigating the employment barriers faced by youth as in summits past, there was a greater emphasis placed upon overall recovery from the economically damaging effects of the pandemic. Thus, the commitment made by the G20 members towards implementing training and reskilling policies highlights importance of providing workers with the skills they need to remain and re-enter the workforce as the members continue to build back their economies in light of the pandemic.

Commitment Features

At the 2020 Riyadh Summit, the members of the G20 committed to continuing to support workers through implementing training and reskilling policies.

The term “support” means to assist or help.³⁰⁵⁰ In this context, the actions implemented by members can be defined as “supportive” to workers insofar as they are designed with the intention of helping workers by protecting jobs and providing workers with the skills necessary to either enter or re-enter the labour market. Moreover, “train” is defined as “to teach so as to make fit, qualified, or proficient.”³⁰⁵¹ Thus, “training policies” refers to programs or initiatives that provide workers who are entering the labour market with the education and skills they need to enter the workforce. Examples of such initiatives include funding workshops to provide recent university graduates with practical skills, apprenticeships and vocational training programs that provide hands-on job training, developing school and university materials that promote entrepreneurship, and national job grant programs that provide funding for workplaces to further train their employees. Finally, “reskilling” is defined as “the process of learning new skills so you can do a different job, or of training people to do a different job.”³⁰⁵² So, “reskilling policies” refer to programs or initiatives that provide skilled workers with the platform to gain additional skills that are applicable to one or more sectors outside of their own. Examples of such initiatives includes funding programs for recently unemployed workers to gain a certification in a program outside of their occupation.

To achieve full compliance, members must take national action towards supporting workers by implementing both training and reskilling policies. Members can achieve partial compliance if they take action towards supporting workers through the implementation of either training or reskilling policies. Negative compliance results from a lack of supportive measures being established for workers such that neither training nor reskilling policies are implemented.

Scoring Guidelines

| | |
|----|--------------------------------------------------------------------------------------------------------------------|
| -1 | G20 member does not take action towards supporting workers and fails to implement training OR reskilling policies. |
| 0 | G20 member takes action towards supporting workers by implementing either training OR reskilling policies. |
| +1 | G20 member takes action towards supporting workers by implementing training AND reskilling policies. |

hiring at the end.³⁰⁵⁴ The Te Sumo Program aims to ease the difficulty youth face in entering the labour market.³⁰⁵⁵

On 11 August 2021, the Ministry of Labor, Employment and Social Security of the Nation signed an agreement with national universities to expand the Youth with More and Better Work Program to include employment and training courses for unemployed youth.³⁰⁵⁶ The Youth with More and Better Work Program was initially launched in 2015 and to assist youth aged 18-24 with accessing the employment market by providing training and development opportunities.³⁰⁵⁷ This agreement with national universities will create more training opportunities for youth, including access to “123 Introduction to Work Courses and 48 Courses to Support Employability and Social Integration.”³⁰⁵⁸

On 17 August 2021, the Ministry of Productive Development announced that it would allocate ARS2 billion to micro, small and medium sized enterprises (MSME) to support institutions or organizations with strategic training projects.³⁰⁵⁹ The purpose of the benefits package is to financially assist institutions, such as business chambers or public universities, in funding training programs for MSMEs, including development resources in addition to the training of entrepreneurs and technical teams.³⁰⁶⁰ The investment is aimed to enhance “innovation, productivity and competitiveness of productive sectors and value chambers that have a territorial or regional impact.”³⁰⁶¹

On 15 September 2021, Secretary of Employment Leonardo Di Pietro met with representatives from the Argentine Industrial Union to discuss the development of professional training resources.³⁰⁶² The

³⁰⁶² Labor held a meeting with representatives of the UIA, Government of Argentina (Bueno Aires) 15 September 2021. Access Date: 24 September 2021. <https://www.argentina.gob.ar/noticias/trabajo-mantuvo-una-reunion-con-representantes-de-la-uia>

discussions also included an agreement to promote vocational training that meets “current production challenges.”³⁰⁶³

Argentina has taken actions towards supporting workers by implementing training policies, such as providing training opportunities for unemployed youth and MSMEs. However, Argentina has failed to implement policies towards reskilling of workers.

Thus, Argentina receives a score of 0.

Analyst: Hayley Spenst

Australia: +1

Australia has fully complied with its commitment to continue to supporting workers through training and reskilling policies.

On 20 January 2021, the Department of Employment, Skills, and Employment launched a trial program to provide the opportunity for workers in the mining industry to reskill and upskill.³⁰⁶⁴ Most notably, this trial program aims to simplify trainings, increase training accessibility by reducing barriers to obtaining qualifications, improve worker mobility and resiliency within the job market, and increase support for students to help students rapidly reskill or upskill.³⁰⁶⁵ The trial program is part of the government’s continuing commitment to improve the vocational education and training system in Australia.³⁰⁶⁶

On 9 March 2021, Australia announced the expansion of its targeted wage subsidy program as part of the government’s National Economic Recovery Plan.³⁰⁶⁷ The Boosting Apprenticeship Commencements wage subsidy program supports businesses and training organizations to take on new apprentices and trainees.³⁰⁶⁸ The program provides a 50 per cent subsidy for wages paid to apprentices between October 2020 and September 2021.³⁰⁶⁹ The government estimates that this expansion will generate around 70,000 new apprentice and trainee roles, with the government investing around AUD1.2 billion.³⁰⁷⁰

On 7 June 2021, the Department of Education, Skills and Employment launched a National Student Outcomes Survey for students who completed their vocational education and training in Australia.³⁰⁷¹ The purpose of the survey is to gauge student satisfaction with their training, employment, learning outcomes, and apprenticeship experiences.³⁰⁷²

On 22 July 2021, the Department of Education, Skills and Employment launched a trial program to train, upskill, and reskill entry-level data analysts in the digital economy sector.³⁰⁷³ This initiative is part of the broader Digital Skills Organization and aims to test out different approaches to designing digital training and qualification courses. The overall purpose of the trial is “to create improved qualifications and training that meets the evolving workforce needs of the digital economy.”³⁰⁷⁴ Regarding the trial program, Minister for Employment, Workforce, Skills, Small and Family Business Stuart Robert stated that the 2021 Federal Budget allocated AUD2 billion towards creating 10,000 additional digital skills training placements.³⁰⁷⁵ As well, Minister Robert stated that “this trial will provide a picture of what specialist digital skills are needed, improve the relationship between employers and the training system, and get more people into jobs.”³⁰⁷⁶

Australia has fully complied with its commitment to continue to support workers through implementing training and reskilling policies. In particular, Australia has implemented measures to support training roles through the expansion of the Boosting Apprenticeship Commencements wage subsidy, which is estimated to generate additional apprenticeships and trainee positions. As well, it invested in trial programs aimed at training, reskilling, and upskilling workers in key sectors.

Thus, Australia receives a score of +1.

Accelerator Initiative” meeting.³⁰⁷⁷ The Accelerator Initiative aims to upskill the Brazilian labour market through enrolling 8 million Brazilians in national job training programs.³⁰⁷⁸

On 6 July 2021, Education Ministers from Brazil, Russia, India, China, and South Africa (BRICS) met virtually and signed a joint declaration to improve their collaboration on education and research efforts with respect to Technical Vocational and Educational Training institutions.³⁰⁷⁹

On 18 August 2021, the Minister of Economy attended a virtual meeting with their BRICS counterparts where they collectively reaffirmed their support for training, skilling, and reskilling policies.³⁰⁸⁰ Furthermore, the BRICS members emphasized “the importance of strengthening intra-BRICS cooperation on advanced technical skills for reskilling and upskilling by exchanging experience and good practices through match-making workshops, seminars, and exchange programs to develop a practical framework for ensuring appropriate required skills and knowledge for Industrial development.”³⁰⁸¹ Overall, the BRICS member committed to continuing their collective support for workers as one of several joint measures to achieve multilateral economic reform.³⁰⁸²

On 18 August 2021, BRICS Industry Ministers met virtually to discuss the impacts of the COVID-19 pandemic upon the industry and trade sectors.³⁰⁸³ During this meeting, the Ministers reiterated their commitment towards utilizing new technologies to “promote training and skills development of the related workforce and businesses through workshops, seminars, and exchange programs.”³⁰⁸⁴

On 31 August 2021, BRICS Youth Ministers met virtually to discuss youth interests and the need to implement measures to mitigate the challenges facing youth as a result of the COVID-19 pandemic.³⁰⁸⁵ Further to this, the delegates reaffirmed their commitment towards continuing to skill youth through the utilization of technological tools, in addition to creating additional employment opportunities for youth.³⁰⁸⁶

While Brazil has partially complied with its commitment to supporting workers through implementing a national job training program, they have yet to implement concrete actions to this end. Moreover, Brazil, has yet to take national action with respect to its commitment towards supporting workers through the implementation of reskilling policies.

Canada: +1

Canada has fully complied with its commitments to support workers through training and reskilling policies.

On 17 February 2021, the Minister of Employment, Workforce Development and Disability Inclusion declared that the Government of Canada will be investing CAD62 million over five years into the Union Training and Innovation Program (UTIP).³⁰⁸⁷ The UTIP sponsors 68 projects that are a part of the Union Training and Innovation Program.³⁰⁸⁸ The UTIP employs a two-pronged strategy, investing in training equipment and materials, and aiding innovation in apprenticeships across Canada.³⁰⁸⁹ The UTIP program ensures that the quality of training within unions across Canada is upheld and reduces barriers for worker participation.³⁰⁹⁰

On 23 February 2021, the Minister of Employment, Workforce Development and Disability Inclusion announced that CAD4.78 million would be invested into the Youth Employment and Skills Strategy program.³⁰⁹¹ This program is targeted towards helping Black youth in Canada gain meaningful employment.³⁰⁹² The program will partner with various local organizations to provide “mentorships, pre-employment preparation, essential skills training, and employment retention skills training.”³⁰⁹³

As of 2 March 2021, Canada has provided an additional CAD1.5 billion to provinces and territories through the Workforce Development Agreements (WDAs).³⁰⁹⁴ As a result, provinces and territories

will be able to provide skills training, financial assistance, and benefits to workers and employers within the labour market who have been disproportionately affected by the COVID-19 pandemic.³⁰⁹⁵

On 19 April 2021, the Canadian government announced a new budget which directs CAD470 million over a period of three years towards a new apprenticeship program.³⁰⁹⁶ The proposed funding will provide small to medium sized employers incentives to hire first-year apprentices.³⁰⁹⁷ The budget also proposes a plan to invest CAD960 million in a Sectoral Workforce Solutions Program.³⁰⁹⁸ This funding would provide approximately 90,000 Canadian workers with skilled work training.³⁰⁹⁹

On 15 July 2021, the Ministry of Employment, Workforce Development and Disability Inclusion announced a series of investments towards the skills training of young Canadian and students through a CAD5.7 billion funding allocation made within the Government's 2021 Budget. Firstly, the Ministry of Employment, Workforce Development and Disability Inclusion committed to invest over CAD371.3 million into the Canadian Summer Jobs program for the 2022-23 year.³¹⁰⁰ The purpose of this funding is to make summer skills training and learning opportunities more accessible to youth and students.³¹⁰¹ In addition to this funding, the Ministry committed to invest approximately CAD298 million over the course of three years towards a new Skills for Success initiative. The initiative will be launched in 2021-2022 and aims to help 90,000 Canadians "improve their foundational and transferrable skills."³¹⁰² Finally, the Ministry earmarked over CAD470 million towards a new Apprenticeship Service. Starting in 2021 and over the course of three years, the program aims to assist 55,000 first-year apprentices with beginning their careers in Red Seal trades.³¹⁰³

On 29 July 2021, the Minister of Labour announced the government's support for the skilled trades by providing targeted investments in training and certifications for marginalized groups, including "women, newcomers, Indigenous people, person with disabilities, and Black and racialized

providing opportunities, such as talent training, to farmers.³¹³⁷ The plan also highlights the necessity to provide industrial workers with new skills through opportunities such as training programs.³¹³⁸

On 21 July 2021, the Ministry of Education and five other ministries announced their intention to improve the quality of vocational education and raise student enrollment by 1 million students in 2021 by encouraging apprenticeships and offering specialized training, among other targeted measures.³¹³⁹

On 4 August 2021, the State Council affirmed its support for improving the quality of teachers in rural areas of China's central and western regions.³¹⁴⁰ To this end, the government aims to provide targeted training for 10,000 college students in 2021 so as to ensure they enter the sector with the skills necessary to impart a higher caliber of education within China's rural regions.³¹⁴¹

On 18 August 2021, the Minister of Industry and Information Technology attended a virtual meeting with their BRICS counterparts where they collectively reaffirmed their support for training, skilling, and reskilling policies.³¹⁴² Furthermore, the BRICS members emphasized “the importance of strengthening intra-BRICS cooperation on advanced technical skills for reskilling and upskilling by exchanging experience and good practices through match-making workshops, seminars, and exchange programs to develop a practical framework for ensuring appropriate required skills and knowledge for Industrial development.”³¹⁴³ Overall, the BRICS member committed to continuing their collective support for workers as one of several joint measures to achieve multilateral economic reform.³¹⁴⁴

On 18 August 2021, BRICS Industry Ministers met virtually to discuss the impacts of the COVID-19 pandemic upon the industry and trade sectors.³¹⁴⁵ During this meeting, the Ministers reiterated their commitment towards utilizing new technologies to “promote training and skills development of the related workforce and businesses through workshops, seminars, and exchange programs.”³¹⁴⁶

On 27 August 2021, the State Council launched its Five-Year Plan from 2021-2025, which contained measures to support employment and bolster the job market.³¹⁴⁷ As part of this plan, the government

aims to create 5.5 million jobs in urban areas and support local training programs and workshops to improve the skills of young workers.³¹⁴⁸

On 31 August 2021, BRICS Youth Ministers met virtually to discuss youth interests and the need to implement measures to mitigate the challenges facing youth as a result of the COVID-19 pandemic.³¹⁴⁹ Further to this, the delegates reaffirmed their commitment towards continuing to skill youth through the utilization of technological tools, in addition to creating additional employment opportunities for youth.³¹⁵⁰

On 8 September 2021, Ministry of Education reaffirmed the government's commitment to improving the number and quality of educators in rural regions by supporting teacher training programs.³¹⁵¹ Through a program initially launched in 2006, the Ministry has a total of 1.03 million university graduates to teach in rural schools throughout the central and western regions and anticipates hiring 84,300 rural teachers in 2021.³¹⁵² Additionally, the Ministry launched a new teacher training program for rural regions in July 2021 and received an enrollment rate of 9,530 students.³¹⁵³

China has fully complied with its commitment to continue to supporting workers through implementing training and reskilling policies by investing in measures to both train future employees to enter the labour market and upskill current workers within the labour market. China has further demonstrated their commitment to supporting workers by investing in rural development and emphasizing reskilling for the transition into the digital age.

Thus, China receives a score of +1.

On 22 February 2021, Chancellor Angela Merkel and Education Minister Anja Karliczek launched the Digital Education Initiative in an online event as part of Germany's ongoing efforts to offer continuing education for all.³¹⁸⁰ This initiative is specifically aimed towards re-skilling students and workers to be oriented for working within the increasingly digitized workforce.³¹⁸¹ Under this initiative, the government is funding multiple programs including the "Vocational Training 4.0" initiative, which aims to ensure that vocational training and education is catered towards the future by incorporating IT and media literacy into curriculums.³¹⁸² This includes identifying and addressing the training needs of selected occupations at an early stage.³¹⁸³ For the first time, the Chancellor announced her patronage of an app, called "Stadt | Land | DatenFluss," created by the German Adult Education Centre Association and aimed at providing accessible digital skills training to workers.³¹⁸⁴

On 17 March 2021, Germany further expanded the Secure Apprenticeships Program to allow more firms to be eligible for funding by increasing the threshold of the maximum number of company workers from 249 workers to 499 workers so as to expand program eligibility.³¹⁸⁵ Small and medium-sized enterprises, which are particularly at-risk of shouldering economic burdens during the COVID-19 pandemic, were already receiving funding through the program if they either hired new or additional trainees or acquired workers from companies that became insolvent due to the COVID-19 pandemic for further training.³¹⁸⁶

On 27 April 2021, Minister of Finance Olaf Scholz and the French Minister of the Economy and Finance Bruno Le Maire held a joint press conference regarding their national recovery and resilience plans. France and Germany announced plans for the EU to invest EUR750 billion towards supporting vocational training programs as part of Germany's National Recovery and Resilience Plan.³¹⁸⁷

Access Date: 27 April 2021. <https://www.economie.gouv.fr/conference-presse-conjointe-bruno-le-maire-olaf-scholz-pnrr>

On 4 May 2021, Federal Ministry of Labor and Social Affairs (BMAS) and the Federal Ministry for Economic Affairs and Energy (BMWi),³¹⁸⁸ jointly gathered actors from German specialist networks under the motto, “Back for the future.”³¹⁸⁹ The purpose of the conference was to discuss solutions to both pre-existing and newly emerging problems, such as economic recovery from the pandemic and the continuous drop in the working-age and skilled worker population.³¹⁹⁰ The meeting provided a platform for the German government to gather with several industry actors and develop solutions through networking opportunities and specialized forums.³¹⁹¹

On 28 May 2021, Chancellor Merkel participated in an online discussion and reaffirmed the government’s commitment to digitalizing technical and vocational education training.³¹⁹² During the discussion, Minister Karliczek also echoed the importance of digitalizing said structures – especially for youth – and stated that skill centres have been established by the government to provide training for teaching staff.³¹⁹³

On 4 June 2021, the BMAS, BMWi, and an array of other partners from the Alliance for Initial and Further Training came together to mark the launch of the Summer of Vocational Training.³¹⁹⁴ This initiative seeks to balance the supply and demand of the training market for “initial and further training.”³¹⁹⁵ The initiative is aimed at securing a better future for youth affected by the COVID-19 pandemic and promoting training opportunities for young people.³¹⁹⁶

Germany has fully complied with its commitment to support workers through implementing training and reskilling policies. In particular, Germany has established a set of comprehensive vocational training and apprenticeship programs that will increase the country’s inventory jobs, assist job seekers

standards of training provided by the institutions in line with the demands of various industries and micro, small, and medium enterprises (MSMEs).³²³⁴

On 23 September 2021, the Ministry of Villages, Development of Disadvantaged Regions and Transmigration signed a joint agreement with the Ministry of Education, Culture, Research and Technology to commit to providing vocational education and training to Indonesia villages.³²³⁵ Minister of Education, Culture, Research and Technology Wikan Sakarinto stated that the goal of the agreement is to foster graduates who possess the skills and knowledge to obtain employment within a variety of sectors and industries.³²³⁶ The agreement will focus on helping students develop soft skills through training, conducting institutional research, providing internships for students, and providing scholarships for students.³²³⁷

Indonesia has fully complied with its commitment to supporting workers through implementing training and reskilling policies by expanding their Pre-Employment Card Program, which provides both training and reskilling opportunities for workers who are unemployed, seeking employment, or looking to upgrade their skills.

Thus, Indonesia receives a score of +1.

Analyst: Bianca Piccone

Italy: +1

Italy has fully complied with its commitment to supporting workers through implementing training and reskilling policies.

On 12 December 2020, the Italian government implemented a national plan to create additional pathways for workers to both obtain new skills training and upgrade their existing skills.³²³⁸ The plan consists of a three-pronged approach to directly connect with low-skilled and under-qualified adults to prevent alienation from the job market, upgrading basic skills and offering reskilling programs, and synchronizing in-demand labour market skills with educational offerings and training programs.³²³⁹ This three-pronged approach aims to create an effective process to both train and reskill workers, while reducing barriers to entering the labour market.³²⁴⁰

On 22 January 2021, the Ministry of Labor and Social Policies signed a decree to focus on the training and retraining of assets within the labour market.³²⁴¹ In particular, the decree requires that all collective agreements must provide training programs and that time be allotted for skills development courses.³²⁴² This decree aims to provide more training and upskilling resources that will benefit both workers and employers.³²⁴³

On 17 September 2021, the European Commission approved the EUR4.7 billion in funding to Italy as part of the Recovery assistance for cohesion and the territories of Europe (REACT-EU) plan.³²⁴⁴ Through this funding instrument, Italy will allocate EUR 4.7 billion to support employment in industries hard-hit by the COVID-19 pandemic.³²⁴⁵ Most notably, Italy will invest in youth employment and allocate EUR1 billion towards the creation of the New Skills Fund. The New Skills Fund will provide emergency training courses for workers and provide supplemental funding for working hours that are missed due to extenuating external factors beyond the workers' control.³²⁴⁶

Italy has fully complied with its commitment to supporting workers through implementing training and reskilling policies. The member has implemented a decree to ensure that employers ensure training programs for their employees and has developed a national approach to combat underemployment and unemployment through providing support for the training and reskilling of low-skilled and under-qualified adults.

Thus, Italy receives a score of +1.

³²⁴⁷ Defense Programs and Budget of Japan (Tokyo) 30 January 2021. Access Date: 1 May 2021. https://www.mod.go.jp/e/d_act/d_budget/2021/20210201.pdf

Japanese labour.³²⁴⁸ The government increased the scope of their “Support System for Job Seekers” program where non-permanent workers, women, single parents, and the unemployed will be granted subsidies if they partake in public training qualification courses, such as vocational or IT training.³²⁴⁹

On 16 March 2021, Prime Minister Suga expanded the budget for the “Support System for Job Seekers” program and discussed preparing training modules for single parents to enable them to receive job training while on government subsidies.³²⁵⁰

On 8 June 2021, the Prime Minister Suga held his third meeting to address the government’s emergency response for non-permanent workers affected by COVID-19.³²⁵¹ The meeting reviewed training programs and concluded that training programs in the country were being underused.³²⁵² In response, the Prime Minister released a new plan to reduce the wait time between applications and job training as well as increase exposure of these programs to Emergency Small Amount Funds recipients.³²⁵³ Additionally, more resources allocated to universities to create education and training courses for students to work in rapidly-growing industries, including the green and digital sectors, for instance.³²⁵⁴

Japan has fully complied with its commitment to supporting workers through implementing training and reskilling policies by promoting public participation in training and reskilling programs through granting subsidies to vulnerable citizens.

Thus, Japan receives a score of +1.

Analyst: Simren Ravina Sharma

Korea: +1

Korea has fully complied with its commitment to supporting workers through implementing training and reskilling policies.

On 25 November 2020, President Moon Jae-in announced the Korean government’s plan to train individuals to promote artificial intelligence (AI) in connection with the Korean New Deal. The government has established 12 graduate schools which specialise in AI.³²⁵⁵ The government also set a

target of fostering 100,000 AI experts through expanding upskilling programs for industrial site workers to learn AI and gain employment in the AI sector.³²⁵⁶

On 7 December 2020, the Korean Economic Policy Bureau released its 2021 Economic Policies, which included the expansion of the young adult jobs program to provide employment for 100,000 qualifying young Koreans.³²⁵⁷ The program focuses on providing work experience and training in a variety of areas, including digital jobs and remote work.³²⁵⁸ The policy measure also underlined a commitment to supporting companies that provide training programs with public project opportunities.³²⁵⁹

On 16 February 2021, President Moon announced that the government will expand the employment safety net, advance vocational training by providing practical job-searching assistance, foster the national employment support program, encourage youth entrepreneurship initiatives, develop a plan for women who are primary caregivers to re-enter the workforce.³²⁶⁰ This request was made to all Korean ministries and agencies to help overcome the state of employment in January 2020.³²⁶¹

On 2 March 2021, the Ministry of Employment and Labour (MOEL) announced that it will improve its vocational training system to collaborate with businesses, universities, and private institutions to allow non-technology majors to be employed in digital technology sectors.³²⁶² It projects a future workforce of approximately 17,000 people working within the technological industry.³²⁶³ MOEL will expand talent development projects by leveraging the inter-ministerial collaboration budget system. This will allow youth to enter rapidly growing industries, such as the technology and environmental sectors.³²⁶⁴ MOEL will also create vocational training programs targeted at specific industries to allow for unemployed persons to become re-employed.³²⁶⁵ This announcement supports the employment of vulnerable groups who were negatively affected by the employment crisis resulting from the COVID-19 pandemic. MOEL will also fund the establishment of the Lifelong Skills Development for All program, which will allow adults to gain vocational employment skills.³²⁶⁶ The program will cover a range of skills-based learnings, including digital proficiency and humanities knowledge.³²⁶⁷

On 1 April 2021, Deputy Prime Minister Hong Nam-Ki announced the development of training programs for medical personnel to support the export of Korea's disease control system.³²⁶⁸

On 13 April 2021, President Moon publicly requested his cabinet to strengthen vocational training, with emphasis on training in future industries such as digital, data, artificial intelligence, and software.³²⁶⁹

On 26 May 2021, Deputy Prime Minister Hong announced that the government would support workers' transition to new industries and reemployment as part of the phasing-out process of the National Strategy for 2050 Carbon Neutrality.³²⁷⁰

On 7 June 2021, President Moon announced at the International Labour Organization's World of Work Summit that the Korean New Deal would facilitate a fair transition for workers amidst changing economic and social structures by cultivating talent in software, AI and green technology and revamping job training programs.³²⁷¹ To this end, the government will invest KRW140 billion in technological and green industries with the aim of creating 1.5 million jobs by 2025 while also supporting workers to transition into new jobs within said industries.³²⁷² The aim of this deal is to help stimulate the country's economic recovery post-COVID-19.³²⁷³

On 18 June 2021, MOEL launched the Measures to Strengthen Public Employment Services at the 20th Presidential Committee on Jobs.³²⁷⁴ The set of measures aim to stimulate post-COVID-19 pandemic economic recovery through targeted investments in employment and recruitment support services, the creation of remote digital employment support services, the creation of a national employment insurance, and the expansion of infrastructure to help find jobs for individuals struggling to find employment, and financial supports for businesses and unemployed individuals negatively impacted by the COVID-19 pandemic.³²⁷⁵ Most notably the set of measures introduces the creation of the Corporate Recruitment Support Package, which will provide additional training and support to workers as of July 2021.³²⁷⁶ In addition, the measures outline mandatory training for service providers of paid job placements every two years.³²⁷⁷

On 14 July 2021, President Moon announced the Human New Deal, as a part of the previously announced Digital and Green New Deals. The Human New Deal aims to provide vocational training in growing industries such as system semiconductors, biohealth, future cars, and software development.³²⁷⁸ The purpose of the deal is to further drive innovation within Korea's technological sectors while creating jobs for young people.³²⁷⁹

On 9 September 2021, President Moon announced support for skilled workers in their return to shipyards during a local ceremony for ship builders and their suppliers.³²⁸⁰ The government affirmed their support for the current 8,000 workers within the shipbuilding and shipping industries, while committing to expanding job opportunities and hiring additional workers by 2022.³²⁸¹ To this end, the government will invest in workforce education centres and vocational training opportunities to support current and future workers in said industries.³²⁸² By providing enhanced support to the shipbuilding and shipping workforces, the government aims to bolster the previously struggling industries and prevent economic downturn.³²⁸³

On 16 September 2021, the Ministry of Employment and Labor announced that the Presidential Committee on Jobs passed the Measures to Support National Lifelong Vocational Competency Development.³²⁸⁴ The measures serve the purpose of restructuring the vocational training system by increasing accessibility to all citizens who intend to gain new employment through vocational training.³²⁸⁵ As well, the package introduced a number of new measures including new digital training modules, pilot programs in 2021 for specialized training for platform workers, customized training for self-employed workers, increased special training allowances, specialized training for middle-aged individuals experiencing job instability, the expansion of on-the-job training to combine digital skills training, digital and technological training for youth, customized training for small and medium enterprises who find it challenging to utilize external training institutions, and vocational training for specialized industries through joint training centres.³²⁸⁶

Korea has fully complied with its commitment to supporting workers through implementing training and reskilling policies by investing in measures to both train future employees to enter the labour

market and upskill current workers within the labour market. Korea has further demonstrated their commitment to supporting workers by investing in youth entrepreneurship and stimulating job growth within rapidly growing sectors of the economy through training and reskilling initiatives. Finally, Korea has demonstrated its overall support for workers by making targeted investments in training and reskilling as a means of stimulating post-Covid-19 economic recovery.

Thus, Korea receives a score of +1.

On 6 July 2021, Education Ministers from Brazil, Russia, India, China, and South Africa (BRICS) met virtually and signed a joint declaration to improve their collaboration on education and research efforts with respect to Technical Vocational and Educational Training institutions.³³⁰³

On 18 August 2021, representatives from the Ministry of Industry and Trade attended a virtual meeting with their BRICS counterparts where they collectively reaffirmed their support for training, skilling, and reskilling policies.³³⁰⁴ Furthermore, the BRICS members emphasized “the importance of strengthening intra-BRICS cooperation on advanced technical skills for reskilling and upskilling by exchanging experience and good practices through match-making workshops, seminars, and exchange programs to develop a practical framework for ensuring appropriate required skills and knowledge for Industrial development.”³³⁰⁵ Overall, the BRICS member committed to continuing their collective support for workers as one of several joint measures to achieve multilateral economic reform.³³⁰⁶

On 18 August 2021, BRICS Industry Ministers met virtually to discuss the impacts of the COVID-19 pandemic upon the industry and trade sectors.³³⁰⁷ During this meeting, the Ministers reiterated their commitment towards utilizing new technologies to “promote training and skills development of the related workforce and businesses through workshops, seminars, and exchange programs.”³³⁰⁸

On 31 August 2021, BRICS Youth Ministers met virtually to discuss youth interests and the need to implement measures to mitigate the challenges facing youth as a result of the COVID-19 pandemic.³³⁰⁹ Further to this, the delegates reaffirmed their commitment towards continuing to skill youth through the utilization of technological tools, in addition to creating additional employment opportunities for youth.³³¹⁰

Russia has partially complied with its commitment to continue to supporting workers through implementing training policies aimed at retraining workers to enter the field of intellectual property. The member, however, has failed to implement concrete actions towards reskilling its workforce.

Saudi Arabia: +1

Saudi Arabia has fully complied with its commitment to supporting workers through implementing training and reskilling programs.

On 20 March 2021, the Ministry of Tourism's Human Capital Development Agency launched their "Your Future is in Tourism" campaign.³³¹¹ The campaign contributes to Saudi Arabia's goal to expand the country's tourism sector and create 100,000 industry jobs by the end of 2021.³³¹² The campaign offers various qualification and training programs to equip citizens both within in or newly entering the tourism sector with the necessary skills to meet international standards.³³¹³ These programs will help recent graduates gain "basic skills" and strengthen experienced workers' pre-existing skills within the sector.³³¹⁴

On 8 April 2021, the Ministry of Communications and Information Technology announced the implementation of the Distance Cooperative Training Program.³³¹⁵ The program is intended to better prepare recent university graduates entering the workforce by providing said graduates with "educational and practical activities" such as counselling sessions and specialized courses.³³¹⁶ This program is focused on skill development in "communications and information technology."³³¹⁷ This program aims to help recent graduates obtain skills needed for the digital demands of the labour market.³³¹⁸

On 25 August 2021, Saudi Arabia announced a funding package of SAR4 billion in cooperation with several private sector actors to invest in a variety of digital initiatives.³³¹⁹ Most notably, the Ministry of Communications and Information Technology announced the launch of a future skills camp,

South Africa: +1

South Africa has fully complied with its commitment to supporting workers through implementing training and reskilling policies.

On 3 March 2021, the Minister for the Department of Women, Youth, and Persons with Disabilities introduced the National Youth Policy.³³²¹ The National Youth Policy is intended to support South African youth over the span of ten years.³³²² The first measures announced under the program include a basic income grant to ease youth unemployment rates, a national work-readiness training program, and an additional grant program to encourage youth entrepreneurship and foster over 100,000 young entrepreneurs within the next three years.³³²³

On 14 May 2021, Minister for Higher Education and Training Blade Nzimande announced that the Department for Higher Education and Training has entered into a partnership with the German government to improve upon South Africa's skills training system.³³²⁴ Through this partnership, the South African government will adopt apprenticeship-based technical vocational education and training (TVET) colleges, similar to that of the system implemented in Germany.³³²⁵ In the German system, "more than half of German students enter dual vocational and educational training programs as a route into employment."³³²⁶ Moreover, students have access to select a program among 326 professional trades.³³²⁷ The purpose of this partnership is to utilize a structure of TVET to prepare

On 6 July 2021, Education Ministers from Brazil, Russia, India, China, and South Africa (BRICS) met virtually and signed a joint declaration to improve their collaboration on education and research efforts with respect to TVET institutions.³³³⁸

On 14 July 2021, Minister Nzimande announced that the government entered into a joint agreement with United Nations Development Programme (UNDP). As part of this agreement, the member will collaborate with the UNDP to upskill youth and women in skills pertaining to the automotive sector.³³³⁹ The agreement intends to enhance vocational training and economic empowerment through skills development and intensified training at TVET colleges.³³⁴⁰

On 18 August 2021, representatives from the Ministry of Trade, Industry and Competition attended a virtual meeting with their BRICS counterparts where they collectively reaffirmed their support for training, skilling, and reskilling policies.³³⁴¹ Furthermore, the BRICS members emphasized “the importance of strengthening intra-BRICS cooperation on advanced technical skills for reskilling and upskilling by exchanging experience and good practices through match-making workshops, seminars, and exchange programs to develop a practical framework for ensuring appropriate required skills and knowledge for Industrial development.”³³⁴² Overall, the BRICS member committed to continuing their collective support for workers as one of several joint measures to achieve multilateral economic reform.³³⁴³

On 18 August 2021, BRICS Industry Ministers met virtually to discuss the impacts of the COVID-19 pandemic upon the industry and trade sectors.³³⁴⁴ During this meeting, the Ministers reiterated their commitment towards utilizing new technologies to “promote training and skills development of the related workforce and businesses through workshops, seminars, and exchange programs.”³³⁴⁵

On 31 August 2021, BRICS Youth Ministers met virtually to discuss youth interests and the need to implement measures to mitigate the challenges facing youth as a result of the COVID-19 pandemic.³³⁴⁶ Further to this, the delegates reaffirmed their commitment towards continuing to skill youth through the utilization of technological tools, in addition to creating additional employment opportunities for youth.³³⁴⁷

On 31 August 2021, Minister Nzimande announced that South Africa’s “universities and colleges are in the process of adapting their curricula to be relevant to skills required by South Africa and the rest of the world.”³³⁴⁸ The curricula alignment will support skills development and job creation with the aim of preparing graduates to enter the workforce with the skills necessary to obtain permanent employment.³³⁴⁹ The change in curricula offerings is intended to bring the curricula offered in TVET universities in alignment with domestic and international labour market demands, while the curricula offered in TVET colleges will become aligned with local employer and community needs.³³⁵⁰

South Africa has fully complied with its commitment to continue supporting workers by reworking their TVET colleges, promoting youth skills training and entrepreneurship, launching the Lulwazi Lwethu Youth Skills Centre, committing to support upskilling and training for women, and updating university and college curricula to support skills development and job creation.

Thus, South Africa receives a score of +1.

member's broader initiative to promote training programs and vocational education centres throughout Turkey.³³⁶⁷

Turkey has partially complied with its commitment to continue to supporting workers through implementing training policies. The member has invested in measures aimed at providing vocational training and support for entrepreneurship for refugees, along with an internship program aimed at training and preparing youth for the workforce. Turkey, however, has yet to take action towards implementing reskilling policies.

Thus, Turkey receives a score of 0.

United Kingdom: +1

The United Kingdom has fully complied with its commitment to supporting workers through implementing training and reskilling policies.

On 9 December 2020, the Department of Education provided an update that approximately 400 free courses “will be available to adults without a full qualification at Level 3 (A-level equivalent) from April 2021 to help them gain in-demand skills and open up further job opportunities.”³³⁶⁸ This initiative is a part of the Lifetime Skills Guarantee program that was first announced by Prime Minister Boris Johnson in September 2020.³³⁶⁹ The Lifetime Skills Guarantee program is intended to provide an accessible avenue for adults to gain employable skills and improve their opportunities for securing or upgrading their employment.³³⁷⁰

On 9 December 2020, the Department of Education provided an update about the expansion of the free skills boot camps facilitated by an increase of GBP43 million in funding for the program.³³⁷¹ The initiative is part of the broader Lifetime Skills Guarantee program.³³⁷² The boot camps are 12 to 16 weeks in length and offer courses on digital and technical skills.³³⁷³ Moreover, the bootcamps are designed to help participants gain skills specific to their desired sector of employment and improve their likelihood of securing an employment interview.³³⁷⁴ The additional funding “will enable greater

availability across the country and a wider range of course subjects on offer to meet the skills needs of local areas.”³³⁷⁵

On 3 March 2021, Chancellor of the Exchequer Rishi Sunak announced that the government is providing an additional GBP126 million in funding for their Plan for Jobs program.³³⁷⁶ This funding will be used to establish an additional 40,000 traineeships and enable businesses to hire apprentices by paying businesses a GBP3,000 incentive for each apprentice hired, double the original amount offered to businesses.³³⁷⁷

On 11 May 2021, Prime Minister Boris Johnson presented a set of legislative measures to further support pandemic recovery, guarantee that workers have access to equal opportunities, and build upon the progress initially established by the Lifetime Skills Guarantee program.³³⁷⁸ Such new measures include the establishment of a “statutory role” for employers to participate in the Skills Accelerator program and assist in planning publicly-funded training program, the creation of a new and more flexible student loans program, and the granting of greater authority to the Secretary of State for Education to intervene in post-secondary institutions that do not address local needs.³³⁷⁹

On 18 May 2021, the Prime Minister’s Skills and Post-16 Education Bill was presented in Parliament.³³⁸⁰ The purpose of the Bill is to create additional pathways for workers to enter skilled professions.³³⁸¹

On 1 June 2021, the Department for Education announced that employers of all sizes can apply for up to EUR3000 in additional funding for each new apprentice hired.³³⁸² The measure was initially introduced in the 2021 Budget presented on 3 March 2021 and open to applications as of 1 June 2021.³³⁸³ The purpose of this incentive is to encourage employers to create more jobs and provide greater opportunities for workers to gain skills and develop their talent.³³⁸⁴

On 11 June 2021, the Department for Education announced a series of initiatives to train and upskill workers and to also improve accessibility for adults to access alternatives to university degrees.³³⁸⁵ Firstly, the government will allocate up to EUR10 million for Institutes of Technology to create technical modular courses aimed at educating participants about a wide variety of STEM professions, including engineering, manufacturing, and construction.³³⁸⁶ These courses aim to engage adults and provide the opportunity for workers to reskill or upskill.³³⁸⁷ In addition, the government also announced an allocation of EUR2 million towards the creation of training modular courses dedicated to training and reskilling employees in the high value manufacturing sector.³³⁸⁸ Finally, the government also announced the launch of Growth Fund, to which they allocated EUR18 million.³³⁸⁹ The Growth Fund intends to encourage higher education providers to expand their trainings and course offerings for technical education by providing the necessary equipment and private-sector partnerships.³³⁹⁰ Through key investments in equipment and private-sector partnerships, the intended outcome is to improve upon the training provided, learning outcomes, and enhance the skills gained by students.³³⁹¹

On 15 July 2021, the Department for Education announced the expansion of their Skills Bootcamp program to offer 16,000 additional fully funded placements for adults to train or upskill through the program.³³⁹² The government intends to address a wide range of sectors by providing trainings in green skills, coding, and software development.³³⁹³

On 3 August 2021, the Department for Education, Department for Digital Culture, Media, and Sport, and Her Majesty's Treasury jointly announced the launch of a EUR7 million fund to support the implementation of apprenticeships in sectors including the cultural, agricultural, and construction sectors.³³⁹⁴ As part of the announcement, the fund will setup several agencies that will help establish apprenticeship opportunities at the local level and collaborate with employees to help workers gain

the skills they need.³³⁹⁵ The funds will be available for the fiscal years of 2021-2022 and 2022-2023, during which organizations can apply for funding ranging from EUR100,000 to EUR1 million to establish said regional agencies.³³⁹⁶

On 6 September 2021, the Department of Education announced the EUR10 million extension of its early years professional development program (PDP) to approximately 50 local authorities throughout England in the 2021-2022 academic year.³³⁹⁷ The PDP will provide high-quality online learning for early years staff to help further their professional development and improve learning outcomes for children in the subjects of math and language.³³⁹⁸ Overall, the PDP aims to strengthen the early years curriculum and “close the gap for disadvantaged children.”³³⁹⁹

The United Kingdom has fully complied with its commitment to supporting workers through implementing training and reskilling policies. The United Kingdom has invested in and implemented a number of measures aimed at supporting the retraining and upskilling of workers in a variety of sectors. Moreover, these targeted investments aim to prevent job loss, create additional jobs in key sectors, increase job accessibility, and ensure an equitable economic recovery.

Thus, the United Kingdom receives a score of +1.

enter the job market.³⁴²² Moreover, the purpose of these grants is for the government to “ensure an equitable recovery” by providing supports for workers who have been disproportionately affected by the economic challenges brought upon by the COVID-19 pandemic.³⁴²³

On 25 August 2021, the Department of Labor announced that they awarded USD22 million of a total of USD90 million allocated towards the Equitable Employment Recovery National Dislocated Worker Grants program.³⁴²⁴

On 10 September 2021, the Department of Labor announced funding availability towards the expansion of the registered apprenticeship programs in industries heavily impacted by the COVID-19 pandemic.³⁴²⁵ As part of this funding availability, the Employment and Training Administration department requested proposals from intermediaries “looking to expand apprenticeship opportunities in industries affected disproportionately by the pandemic, increase opportunities for under-represented populations and leverage existing resources to support and sustain Registered Apprenticeship programs at the local and national level.”³⁴²⁶ The funding will be allocated for industries such as the care economy sector, transportation sector, supply chains, and electric power generation, transmission, and distribution.³⁴²⁷

The U.S. has fully complied with its commitment to supporting workers through implementing training and reskilling policies. It has done so by funding both public and private sector initiatives to provide training and reskilling opportunities to current and future workers, in addition to workers disproportionately affected by COVID-19.

Thus, the United States receives a score of +1.

Analyst: Alexander Trachsell

European Union: +1

The European Union has fully complied with its commitment to supporting workers through training and reskilling policies.

On 24 November 2020, the Council of the EU ratified a recommendation on vocational education and training for “Sustainable Competitiveness, Social Fairness and Resilience.”³⁴²⁸ This measure highlights the reforms necessary for building the lifelong systems required to support a resilient

labour market in Europe.³⁴²⁹ The recommendation includes the support for granting additional funding to the Centres of Vocational Excellence, an institution that coordinates with local partners such as employers, research centres, and development agencies, to develop “skills ecosystems,” that aid in regional worker development.³⁴³⁰ The Centres of Vocation Excellence aim to provide jobseekers and existing employees with the skills and training needed by local employers.³⁴³¹

Starting in 2021, the European Commission sector on Employment, Social Affairs and Inclusion released funding instruments for upskilling and reskilling workers, accessible through financial intermediaries, national authorities, and the European Commission.³⁴³² As part of the package of funding instruments, a program called “InvestEU” was created to provide social investment and offer its participants a skills-based curriculum that will encompass the demand and supply aspect of acquiring in-demand skills. This program is targeted towards students and learners, small and medium sized enterprises, and instructors.³⁴³³ The expected budget from 2021-2027 for the program is EUR26.2 billion.³⁴³⁴ The European Commission is also offering grants through the ESF + EaSI Strand, with a dedicated budget of EUR676 million to be released throughout 2021-2027.³⁴³⁵ This grant program offers “support for innovative approaches in the field of upskilling and reskilling.”³⁴³⁶ The European Commission is incentivizing member states to fund public and private initiatives toward training and reskilling the workforce.³⁴³⁷

On 4 March 2021, the European Commission released the European Pillar of Social Rights Action Plan. This Action Plan outlines 20 key principles for “fair and well-functioning labour markets” and “proposes headline targets for the EU to reach by 2030.”³⁴³⁸ The three EU targets to reach by 2030 are to have 78 per cent of the population aged 20 to 64 employed by 2030, 60 per cent of adults participating in training every year by 2030 and the reduction of at least 15 million people at risk of poverty or social exclusion.³⁴³⁹ The Action Plan lays out quarterly deadlines regarding upskilling to be met during the current mandate which extends until the end of 2024.³⁴⁴⁰

On 4 March 2021, Executive Vice-President of the European Commission Valdis Dombrovskis reflected on the Action Plan as he called for an investment in “high-quality and inclusive education, training, skills and innovation.”³⁴⁴¹ He called for EU members to look at how to invest in training and skills development, specifically, digital skills, as the EU copes with the new realities brought on by COVID-19.³⁴⁴² Executive Vice-President Dombrovskis also called on Member States to develop policy packages that combine temporary and permanent measures to address the labour market challenges caused by the pandemic.³⁴⁴³ These initiatives should reflect hiring and transition incentives, initiatives to boost up-skilling and re-skilling, and improving employment services.³⁴⁴⁴

On 22 April 2021, the European Commission launched a public consultation regarding the subject of life-long learning.³⁴⁴⁵ In an effort to build a diverse and sustainable workforce, the European Commission is considering the implementation of short, targeted learning courses to help workers gain accredited “micro-credentials.”³⁴⁴⁶ The goal of this initiative is to improve job opportunities by creating formal learning courses for workers to gain the skills demanded of them by the rapidly-evolving job market.³⁴⁴⁷ The COVID-19 pandemic, along with the green and digital transitions, have highlighted the necessity for up-skilling and re-skilling as a means of ensuring that citizens can fully participate in society and reach their fullest professional potential.³⁴⁴⁸ These goals are in unison with the European Pillar of Social Rights Action Plan.³⁴⁴⁹

On 27 April 2021, Minister Bruno Le Maire and German Minister of Finance Olaf Scholz held a joint press conference regarding their national recovery and resilience plans. France and Germany announced plans for the EU to invest EUR750 billion towards support vocational training programs as part of the National Recovery and Resilience Plan.³⁴⁵⁰ The National Recovery and Resilience Plan

details plans on the allocation of funds provided by the European Union's Recovery and Resilience Facility.³⁴⁵¹

On 28 April 2021, the European Commission launched an additional public consultation forum in regards to individual learning accounts, which is a training incentive program that grants individuals training whether be spent on “quality-assured training, guidance, or validation services.”³⁴⁵² The public consultation was conducted via online survey to promote organizations and private citizens to share their opinions on whether or not individual learning accounts are effective in helping adults learn necessary job skills.³⁴⁵³

On 25 June 2021, the European Commission announced the adoption of the 2021-2027 Cohesion Policy Legislative Package by the European Parliament.³⁴⁵⁴ The legislation comprises of EUR373 billion in funding for social, climate change, and economic policies identified through the European Social Fund Plus, Common Provisions Regulation, Just Transition Fund, European Regional Development Fund, Cohesion Fund Regulation, and Interreg.³⁴⁵⁵ Notably, Commissioner for Jobs and Social Rights Nicolas Schmit stated that “The European Social Fund Plus invests in people. It helps workers to re-skill and up-skill, to be ready for the transition to a green and digital economy.”³⁴⁵⁶ This package places an emphasis upon the need for digital and green skills training for workers to meet evolving economic demands.³⁴⁵⁷

On 1 July 2021, the 2021-2027 Cohesion Policy Legislative Package came into effect.³⁴⁵⁸

On 1 July 2021, the European Commission endorsed Slovenia's EUR2.5 billion recovery and resilience plan, established to embrace green and digital transformations to strength economic resilience. Of the funds administered, the Commission found that EUR114 million would be devoted to strengthening digital skills of students, employees, and public servants.³⁴⁵⁹ The plan also includes investments to reduce the digital divide through strengthening digital skills at all levels of the education system, life-long learners, and the workforce, particularly healthcare workers.³⁴⁶⁰ The

Commission considers Slovenian plan to address both social and economic challenges brought on by COVID-19.³⁴⁶¹

On 2 July 2021, the European Commission endorsed Lithuania's EUR2.2 billion recovery and resilience plan. This plan has a stated intention to improve the modernize healthcare facilities through general education, vocational training, adult learning, and increased funding of higher education. Lithuania's plan allocates 32 per cent of its funding to digital transition, aimed to support private and public sector, skills and connectivity to increase the competitiveness of the Lithuanian economy.³⁴⁶²

On 8 July 2021, the European Commission endorsed Croatia's recovery and resilience plan. Croatia's plan includes support for new labour market policies, through helping people develop green and digital skills. Croatia also proposed EUR789 million toward public and private building renovations and the upskilling and education of workers in the energy and post-earthquake renovation sector.³⁴⁶³

On 8 July 2021, the European Commission endorsed Cyprus's EUR1.2 billion recovery and resilience plan. The plan contributes 23 per cent of the EUR1.2 billion toward digital transition through training teachers and implementing skills training programs for the broader community.³⁴⁶⁴ Furthermore, the plan seeks to improve education and training through reforming secondary school curricula, establishing vocational education and training schools and introducing a higher education graduate tracking system to address skill mismatches. These plans are made with the intention of improving the quality and resiliency of the labour market, through improving digital literacy, soft skills, and entrepreneurship skills of the workforce.³⁴⁶⁵

On 13 July 2021, the European Council adopted the proposals set forth by the European Commission to disburse the first round of resilience and recovery grants to Austria, Belgium, Denmark, France, Germany, Greece, Italy, Latvia, Luxembourg, Portugal, Slovakia, and Spain.³⁴⁶⁶ This first round of grants will serve as pre-financing for each member's recovery and resilience plan.³⁴⁶⁷ Upon satisfactory completion of targets as determined by the Council, each member will be eligible for further funding.³⁴⁶⁸ Overall, the EU has allocated EUR672.5 billion in funding for its

On 9 September 2021, the European Commission released EUR157 million in pre-financing to Cyprus, which meets approximately 13 per cent of the total financial allocation for Cyprus under the EU's Recovery and Resilience Fund.³⁴⁸⁹

On 10 September 2021, the European Commission released EUR237 million in pre-financing to Latvia, which meets approximately 13 per cent of the total financial allocation for Latvia under the EU's Recovery and Resilience Fund.³⁴⁹⁰

On 15 September 2021, the European Commission delivered a State of the Union address where they reaffirmed their commitment to embarking on a Path to the Digital Decade.³⁴⁹¹ The proposed path aims to embark on the digital transformations of the economy and broader society by 2030.³⁴⁹² The address highlighted the importance of investing in digital skills training.³⁴⁹³

On 17 September 2021, the European Commission approved EUR4.7 billion in funding to Italy as part of the (REACT-EU) plan.³⁴⁹⁴ Through this funding instrument, the EU will grant EUR 4.7 billion to Italy to support employment in industries hard-hit by the COVID-19 pandemic.³⁴⁹⁵ Most notably, Italy will invest in youth employment and allocate EUR1 billion towards the creation of the New Skills Fund. The New Skills Fund will provide emergency training courses for workers and provide supplemental funding for working hours that are missed due to extenuating external factors beyond the workers' control.³⁴⁹⁶

The European Union has fully complied with its commitment to supporting workers through implementing training and reskilling policies by investing in skills training centres, providing additional funding in the education and training sectors to bolster skills development, launching a social program to support the training, reskilling, and upskilling of workers, and creating a targeted program for students and small businesses to acquire in-demand skills.

Thus, the European Union receives a score of +1.

10. Gender: Inequalities

“As many women have been disproportionately affected by the crisis, we will work to ensure that the pandemic does not widen gender inequalities and undermine the progress made in recent decades.”

Background

The COVID-19 pandemic has disproportionately affected women and girls across numerous spheres, such as health, economics, security and social protection.³⁴⁹⁷ According to UN Women and the United Nations Development Programme (UNDP), the crisis’s economic impact will considerably raise women’s poverty rate, with approximately 47 million females being pushed into extreme destitution by 2021.³⁴⁹⁸ Impoverished girls who already face health and safety challenges managing their menstrual hygiene, sexual and reproductive health without access to clean water and other basic needs are even more vulnerable to the COVID-19 virus and its consequences.³⁴⁹⁹ In April 2020, the UN Secretary-General acknowledged that “limited gains in gender equality and women’s rights made over the decades are in danger of being rolled back due to the COVID-19 pandemic,” making it

imperative to address the outbreak's regressive effects on gender equality.³⁵⁰⁰ Such impacts can be exacerbated for the most vulnerable groups of women, such as migrant workers, refugees, marginalized racial and ethnic groups, single-parent households and youth.³⁵⁰¹

School closures, overburdened health systems, and existing gender norms have created an increased demand on females to undertake unpaid care and domestic work, such as catering to their family's basic survival needs and caring for the sick.³⁵⁰² For women, this creates obstacles in balancing paid work or entering the labour force. UN Women estimates that the COVID-19 crisis will lead to a "prolonged dip in women's income and labour force participation."³⁵⁰³ Besides, young women and girls living in poverty, with disabilities or in rural, isolated locations are more likely to abandon their education to compensate for increased care and domestic work at home.³⁵⁰⁴ Evidence from past epidemics reveals that such females are at an exceptionally high risk of not returning to school even after a pandemic is over.³⁵⁰⁵ Estimates show that an additional 11 million girls may abandon their education by the end of the COVID-19 crisis.³⁵⁰⁶ They are also more prone to child marriage and other kinds of violence as a means to alleviate their families' economic burdens.³⁵⁰⁷ Hence, the pandemic's economic impacts are likely to increase sexual exploitation and disrupt efforts to end child marriage.³⁵⁰⁸ The United Nations Population Fund (UNFPA) estimates that an additional 3 million child marriages will occur between 2020 and 2030.³⁵⁰⁹

Concerning the health response to COVID-19, currently, women represent 70 per cent of the global health workforce.³⁵¹⁰ Nevertheless, they are paid considerably less than their male counterparts.³⁵¹¹ The gender pay gap in the health sector, at 25 per cent, is higher than the 16 per cent overall gender

pay gap in other sectors.³⁵¹² According to UN Women, “women typically earn less and hold less secure jobs than men. With plummeting economic activity, women are particularly vulnerable to layoffs and loss of livelihoods.”³⁵¹³

The outbreak of COVID-19 has also left women vulnerable to a “shadow pandemic” of gender-based violence.³⁵¹⁴ Emerging data and reports have shown a notable surge in domestic abuse.³⁵¹⁵ In numerous countries, violence reports and emergency calls have risen by 25 per cent since distancing measures, quarantine and movement restrictions were enacted.³⁵¹⁶ In November 2020, UN Women Executive Director, Phumzile Mlambo-Ngcuka, said that “violence against women is also a pandemic – one that pre-dates the virus and will outlive it...there has never been a more important moment to resolve to put our combined resources and commitment behind the biggest issues, and to end violence against women and girls, for good.”³⁵¹⁷

At the 2009 London Summit, G20 members briefly mentioned building “a fair and family-friendly labour market for both women and men.”³⁵¹⁸ They also committed to “support employment by stimulating growth, investing in education and training, and through active labour market policies.”³⁵¹⁹

At the 2012 Los Cabos Summit, G20 members committed to “advance gender equality in all areas, including skills training, wages and salaries, treatment in the workplace, and responsibilities in care-giving.”³⁵²⁰ In regards to fostering inclusion, G20 leaders recognized the need to encourage and expand economic opportunities for women.³⁵²¹ They pledged to “take concrete actions to overcome the barriers hindering women’s full economic and social participation and to expand economic opportunities for women in G20 economies.”³⁵²²

At the 2013 St. Petersburg Summit, the focus on gender-equality peaked when compared to previous years.³⁵²³ G20 leaders focused on endorsing financial education for women and girls, committing to

craft and take targeted actions to increase “incentives, financial literacy, education and consumer protection for...vulnerable groups such as women.”³⁵²⁴

At the 2014 Brisbane Summit, G20 members agreed to reduce “the gap in participation rates between men and women in [G20 members] by 25 per cent by 2025,...[and] to bring more than 100 million women into the labour force.”³⁵²⁵ The Brisbane Action Plan committed to tackling long-term and structural unemployment, “[supporting citizens] particularly youth and women, to gain and maintain quality employment [as well as] enhancing social cohesion and reducing inequality.”³⁵²⁶

At the 2017 Hamburg Summit, G20 leaders committed to reducing gender compensation gaps and take “further action to improve the quality of female employment and eliminate employment discrimination.”³⁵²⁷ They planned to address such issues by promoting “effective wage policies, removing barriers women face when striving for higher-paying, higher-quality jobs, tackling occupational and sectoral segregation and fostering women’s career prospects including through entrepreneurship.”³⁵²⁸ Additionally, they also acknowledged the need to provide quality education, training, social protection policies and legal reforms to females, promoting policies that “help women and men reconcile work and family lives in a more equitable manner.”³⁵²⁹ They also committed to “provide women with protection against all forms of violence.”³⁵³⁰

At the 2018 Buenos Aires Summit, G20 members pledged to “continue to promote initiatives aimed at ending all forms of discrimination against women and girls and gender-based violence.”³⁵³¹ Leaders also recognized the need to promote women’s economic empowerment through “access to quality and affordable care infrastructure and parental leave.”³⁵³² G20 members also committed to encourage and “promote women’s access to leadership and decision-making positions.”³⁵³³

At the 2019 Osaka Summit, G20 leaders focused on addressing the gender gap in unpaid care work, recognizing that it “remains a major obstacle to women’s participation in the labour market.”³⁵³⁴ They were also resolute to end all forms of discrimination against women, combat stereotypes and

support “girls’ and women’s education and training, including providing quality primary and secondary education.”³⁵³⁵

Commitment Features

At the 2020 Riyadh Summit, G20 leaders committed to “work to ensure that the pandemic does not widen gender inequalities,” with the recognition that women have been “disproportionately affected” by the pandemic and the intention to not “undermine the progress made in recent decades” to empower women.³⁵³⁶ “Women” is understood to mean female individuals aged 18 years or more.³⁵³⁷ “Girls” refers to female individuals below the age of 18 years.³⁵³⁸

To “work to ensure” is understood to mean applying international diplomacy to make something certain to happen.³⁵³⁹ This can include drafting proposals, encouraging new initiatives or putting forward new ideas.³⁵⁴⁰

“Pandemic” is understood to mean the COVID-19 crisis.³⁵⁴¹

To “widen” is understood to mean increasing the scope or extent of something.³⁵⁴²

“Gender inequalities” is understood to mean unequal access to or enjoyment of rights in various social, legal and cultural situations due to one’s sex and/or gender identity.³⁵⁴³ As the COVID-19 pandemic has strained resources and limited institutional capabilities of numerous countries, this commitment outlines the pandemic’s disproportionate effects on women in three key spheres: Health, Economic Security and Gender-Based Violence.³⁵⁴⁴ As part of this commitment, G20 members must take actions directed at the three spheres mentioned in response to efforts to mitigate the pandemic’s impacts on women.

“Health” is understood to mean a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.³⁵⁴⁵ Examples of actions that support women’s health affected by the COVID-19 pandemic include enacting provisions for pre- and post-natal healthcare, increasing access to sexual and reproductive health services, promoting education on menstrual hygiene, providing quality care and support for survivors of gender-based violence, funding greater

access to essential medicines or health insurance coverage, and reallocating resources to ensure access to clean water and sanitation facilities.³⁵⁴⁶

“Economic security” is understood to mean the ability of individuals, households or communities to cover their essential needs sustainably and with dignity.³⁵⁴⁷ Examples of actions that support women’s economic security disrupted by the COVID-19 pandemic include enacting provisions to reduce economic shocks such as providing unemployment insurance relief, drafting proposals to ensure women’s access to social protections like paid sick leave, funding efforts to reduce pandemic-related lay-offs and job cuts, increasing access to affordable childcare support, and recognizing the importance of unpaid care and domestic work.³⁵⁴⁸

“Gender-based violence” is understood to mean harmful acts directed at an individual based on their gender and includes sexual, physical, mental and economic harm inflicted in public or in private as well as threats of violence, coercion and manipulation.³⁵⁴⁹ Examples of actions that support women who experience gender-based violence due to situations brought by the COVID-19 pandemic include reallocating and increasing health, social, judicial and/or police services to respond to such cases, enacting national response plans with measures to eliminate all forms of violence, increasing security measures to prevent violence against women in deserted urban or rural public spaces and transportation services, and drafting proposals to aid or support women trapped at home with their abusers.³⁵⁵⁰

To “undermine” is understood to mean weakening or ruining something by degrees.³⁵⁵¹ Examples include resisting or impairing efforts put forth by other actors.³⁵⁵²

“Progress made in recent decades” is understood to mean the relevant UN declarations, processes, and calls to action to empower women and girls.³⁵⁵³ Goal 3 of the UN Millennium Development Goals aimed to promote gender equality and empower women with a specific target of eliminating gender disparity in primary and secondary education in all levels of education by no later than 2015.³⁵⁵⁴ Although much progress was made towards women’s equality in education and employment, the UN recognized the need to address other areas of gender inequality such as violence against women and women’s unequal access to opportunities in the labour market.³⁵⁵⁵ As part of the UN Sustainable Development Goals, Goal 5 also aims to achieve gender equality and empower all

women and girls with targets including eliminating all forms of violence against women and recognizing unpaid care and domestic work.³⁵⁵⁶

As well, this commitment has a depth component of how strong the action taken by the G20 member is.³⁵⁵⁷ A G20 member must take significant action on either the domestic or international level for full compliance. Partial actions could include verbal reaffirmation of the commitment or attending meetings that discuss gender inequalities.³⁵⁵⁸ For strong actions, a G20 member would have to initiate a program or new law, and/or contribute financial or technical assistance to ensure the pandemic does not widen gender inequalities in relation to the health, economic security and/or gender-based violence spheres previously stated.³⁵⁵⁹

Actions on the domestic level would include verbal reaffirmations, allocating money and budgetary resources, creating new offices, departments, and/or programs, and/or enacting domestic legislations to reduce gender inequalities.³⁵⁶⁰ Actions on the international level would include sponsoring, signing or ratifying international treaties, financing or sending personnel to international organizations such as UN Women, and/or providing international financial support directly and/or through international institutions in support of women affected by the COVID-19 pandemic.³⁵⁶¹

To achieve full compliance, the G20 member can take strong actions in two spheres and some action in one sphere to reduce gender inequalities, exacerbated by the COVID-19 pandemic that has affected women disproportionately: Health, Economic Security and Gender-Based Violence. Alternatively, the G20 member can take strong actions in all three spheres to reduce gender inequalities, exacerbated by the COVID-19 pandemic that has affected women disproportionately that have been mentioned previously.

For a score of partial compliance, the G20 member has taken strong actions in one sphere and some actions in the other two spheres to reduce gender inequalities exacerbated by the COVID-19 pandemic in at least one of the three spheres affecting women disproportionately: Health, Economic Security and/or Gender-Based Violence. Alternatively, the G20 member can take strong actions in at least one of the three spheres to reduce gender inequalities, exacerbated by the COVID-19 pandemic that has affected women disproportionately that have been mentioned previously.

For a score of non-compliance, the G20 member has completed less than the aforementioned criteria.

Scoring Guidelines

| | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| -1 | G20 member has NOT taken strong steps to reduce gender inequalities exacerbated by the COVID-19 pandemic in ANY of the three spheres affecting women disproportionately, OR the G20 member has taken weak steps in only ONE of the three spheres (health, economic security OR gender-based violence). |
| 0 | G20 member has taken strong steps to reduce gender inequalities exacerbated by the COVID-19 pandemic in at least ONE of the three spheres affecting women disproportionately, OR the G20 member has taken strong steps in ONE sphere and weak steps in the other TWO spheres (health, economic security OR gender-based violence). |
| +1 | G20 member has taken strong steps to reduce gender inequalities exacerbated by the COVID-19 pandemic in ALL three spheres affecting women disproportionately, OR the G20 member has taken strong steps in at least TWO spheres and weak steps in ONE other sphere (health, economic security AND/OR gender-based violence). |

Compliance Director: Brandon Yih

Lead Analyst: Samantha Moura Novais de Quadros

Argentina: +1

Argentina has fully complied with its commitment to work to ensure that the pandemic does not widen gender inequalities and undermine the progress made in recent decades.

On 25 November 2020, Minister of Productive Development Matías Kulfas launched the “Zero Tolerance for Violence Against Women” campaign.³⁵⁶² This campaign aims to eradicate and raise awareness surrounding gender-based violence in the field of production and the workplace.³⁵⁶³

On 10 December 2020, Argentina hosted the Women Economic Forum, an annual global business conference and gathering of women entrepreneurs and leaders.³⁵⁶⁴ The purpose of this forum is to promote and pursue initiatives for women’s empowerment and economic entrepreneurship.³⁵⁶⁵ The conference was attended by over 150 allied countries and global chapters.³⁵⁶⁶

On 11 December 2020, the National Congress passed the Voluntary Interruption of Pregnancy Bill (IVE) along with the Bill for Comprehensive Healthcare during Pregnancy and Early Childhood.³⁵⁶⁷ The IVE Bill legalized abortion in Argentina and the Minister of Women, Gender and Diversity Elizabeth Gómez Alcorta stated that women will no longer be forced “to carry out a clandestine abortion and put her life or health at risk.”³⁵⁶⁸

On 16 December 2020, Minister of Women, Gender and Diversity Elizabeth Gómez Alcorta and the Executive Director of the YPF Foundation Ofelia Cedola signed a strengthening and technical

cooperation agreement to implement joint projects on gender, equality and diversity policies in the energy, science and technology sectors.³⁵⁶⁹ This agreement will also promote greater participation of women in the energy sector through scholarships and other programs.³⁵⁷⁰

On 12 January 2021, the Ministry of Women, Gender and Diversity (MGyD) inaugurated the first headquarters of the Comprehensive Assistance Network for Gender-Based Violence in Moreno.³⁵⁷¹ The main objective of this Network is to implement prevention and protection policies for people affected by gender-based violence throughout the entire country.³⁵⁷²

On 14 January 2021, President Alberto Fernandez alongside the Minister of Health Ginés González García, signed the enactment of the IVE Bill and the Law on Comprehensive Healthcare During Pregnancy and Early Childhood.³⁵⁷³ Both laws aim to support women's reproductive decisions.³⁵⁷⁴ President Fernandez emphasized that this law would end the criminalization of women who undertake abortion and prevent them from all the dangers that clandestine termination entails.³⁵⁷⁵

On 28 January 2021, the MGyD, in coordination with the Ministry of Women, Gender Policies and Sexual Diversity of the Province of Buenos Aires and the municipalities of Ensenada and Berisso, launched the first day of the national prevention campaign, “United Argentina Against Gender Violence.”³⁵⁷⁶ This campaign aims to generate and make tools available for the prevention of gender-based violence in all parts of Argentina through audiovisual contents, digital training workshops and other campaign tools.³⁵⁷⁷

On 13 February 2021, the MGyD created the Integrated System of Cases of Gender-Based Violence.³⁵⁷⁸ This initiative aims to nationally systemize available information on cases and complaints of incidents of gender-based violence, in order to support the creation of public policies aimed at preventing gender-based violence throughout Argentina.³⁵⁷⁹

On 24 February 2021, Argentina ratified the International Labor Organization Convention 190 on violence and harassment in the workplace.³⁵⁸⁰ The agreement outlines the challenges and harassment that women endure in the workplace and provides legislative suggestions to prevent and punish violence against women in the public sector.³⁵⁸¹

On 3 March 2021, Argentina announced the construction of Comprehensive Territorial Centers for Gender and Diversity policies within the framework of the National Plan of Action against Gender-Based Violence.³⁵⁸² The territorial centers will consist of interdisciplinary teams that will develop actions aimed at the prevention of violence, access to justice, and promotion of gender equality.³⁵⁸³ Argentina announced an investment of ARS2.1 billion into this project.³⁵⁸⁴

On 8 March 2021, President Fernandez alongside the Minister of Women, Gender, and Diversity Elizabeth Gómez Alcorta, the Minister of the Interior Eduardo de Pedro and provincial governors signed the Federal Agreement for a United Argentina against Gender Violence.³⁵⁸⁵ The agreement seeks to prevent and address femicides and gender-based violence, and to strengthen the provincial and municipal gender areas.³⁵⁸⁶ Furthermore, the agreement also promotes a hierarchization and strengthening of provincial gender areas, who are responsible for comprehensive assistance and protection of those in situations of gender-based violence.³⁵⁸⁷

³⁵⁸⁷ Federal Agreement for a United Argentina against Gender Violence is signed, San Luis News Agency (San Luis) 8 March 2021. Access Date: 22 March 2021. <http://agenciasanluis.com/notas/2021/03/08/firman-el-acuerdo-federal-para-una-argentina-unida-contra-la-violencia-de-genero/>

On 15 March 2021, Minister Alcorta issued a joint statement alongside European Commissioner for International Partnerships Jutta Urpilainen and Namibia's Minister of Gender Equality Doreen Sioka at the General Discussion of the Commission on the Status of Women.³⁵⁸⁸ The statement reaffirmed the need to ensure compliance with international obligations on gender equality and the need to eradicate the feminization of poverty and violence against women and girls.³⁵⁸⁹

On 16 March 2021, the MGYD in partnership with the Comprehensive Medical Attention Program launched a series of regional meetings on "older people against gender-based violence" with the focus on retirement centers across Argentina.³⁵⁹⁰ These regional meetings aim to generate tools for prevention and early detection of gender-based violence and promote actions to combat gender-based violence as part of the national prevention campaign, "United Argentina Against Gender-Based Violence."³⁵⁹¹ These regional meetings started in Buenos Aires on 16 March 2021 and will continue until 1 September 2021, ending with the Cuyo Region of Mendoza, San Juan and San Luis.³⁵⁹²

On 31 March 2021, Argentina and 20 countries (Canada, Chile, Costa Rica, Finland, France, Germany, Japan, Korea, Ireland, Lebanon, Mexico, Norway, the Netherlands, Panama, South Africa, Spain, Sweden, Switzerland, the United Kingdom and Uruguay) united and established the "Group of Friends for Gender Equality," following Mexico's leadership.³⁵⁹³ This group aims at centralizing public policies and promoting coordinated efforts in multilateral forums as a means to accelerate gender equality and protect the human rights of women and girls.³⁵⁹⁴

On 8 April 2021, Minister Alcorta signed agreements with the Argentine Central Workers' Central Union to promote the gender perspective and equal participation of women in the union sphere.³⁵⁹⁵

This agreement seeks to recognize the structural inequalities present in the work force and reduce situations of violence.³⁵⁹⁶

On 14 April 2021, the Ministry of Labour, Employment and Social Security's Undersecretary for Inclusion Policies in the Workplace of the Ministry Pamela Ares participated in United Nations Women Argentina's first meeting of the Steering Committee of the Socioeconomic Recovery Program to the Crisis caused by COVID-19 from a Gendered Perspective.³⁵⁹⁷ This initiative focuses on strengthening the economic autonomy of women in Argentina by increasing their participation in the labour market with more equal distribution of unpaid care and domestic work as well as promoting better working conditions.³⁵⁹⁸ Undersecretary Ares highlighted the need for a maternity and paternity leave regime to promote equality in the labour market.³⁵⁹⁹

On 21 April 2021, Minister Alcorta and the Executive Director of the National Agency for Controlled Materials Ramiro Urristi signed a cooperation agreement aimed at jointly developing projects on gender, equality, diversity, preventive measures with attention on gender-based violence.³⁶⁰⁰ One project is the Federal Disarmament Campaign with a Gender Perspective, which focuses on controlling the possession and carrying of weapons by people with a history of gender-based violence.³⁶⁰¹

On 28 April 2021, Minister of Social Development Daniel Arroyo and the Minister of Women, Gender Policies and Sexual Diversity of the Province of Buenos Aires Estela Díaz signed a cooperation agreement to promote the active inclusion of victims of gender-based violence in the Empower Work program.³⁶⁰² This program aims to implement socio-productive, socio-labour and/or socio-community projects in Buenos Aires with the participation of victims of gender-based violence to help such persons strengthen their economic autonomy.³⁶⁰³

On 3 May 2021, Minister Arroyo and the Secretary of Socio-Urban Integration Fernanda Miño launched the Integrar es Salud ("Integrate is Health") program to manage the health emergency and

promote, diffuse and transmit the public policies, campaigns and programs by the MGyD for the prevention of gender-based violence and the promotion of women's and LGBTI+ rights.³⁶²²

On 18 August 2021, the MGyD and the Ministry of Justice and Human Rights introduced the Federal Penitentiary Complex IV (CPFIV) survey on experiences of gender-based violence of women and LGBTI+ in confinement settings.³⁶²³ This survey was designed within the framework of the National Plan of Action against Gender-Based Violence and the survey is aimed at identifying variables that reinforce gender-based violence in federal penitentiaries.³⁶²⁴

On 24 August 2021, the National Directorate of Policies for the Prevention of Gender-Based Violence's technical team hosted the first training for preventing gender-based violence and harassment in the workplace.³⁶²⁵ This training is aimed at companies owned by or affiliated with the Government of Argentina such as Aerolíneas Argentinas, Banco Nación and Casa de Moneda.³⁶²⁶ Over 100 participants were trained on early detection and monitoring of situations of gender-based violence and a second training workshop will be held on 31 August 2021.³⁶²⁷

On 3 September 2021, Minister Alcorta signed an agreement with President of Dioxitek SA Santiago Sartori to implement the Igualar Program at the state-owned nuclear energy company.³⁶²⁸ This agreement aims to reduce the inequality for women and LGBTI+ peoples in the labor and manufacturing sectors.³⁶²⁹

Argentina has fully complied with the commitment to help reduce gender inequalities exacerbated by the COVID-19 pandemic by demonstrating strong actions in all three spheres of Economic Security,
